

Elementary Statistics

A Step by Step Approach

4th Edition

Bluman

A 3D line graph is the central visual element of the cover. It features two data series: one represented by blue lines and red circular markers, and another by yellow lines and blue circular markers. The lines are thick and have a slight shadow, giving them a three-dimensional appearance. The graph is plotted on a white grid that recedes into the distance, creating a sense of depth. The background is split into a dark blue area on the left and a white area on the right, with the grid lines crossing the boundary.

Contents

Preface

chapter one

The Nature of Probability and Statistics 1

- Statistics Today: Are We Improving Our Diet?* 2
- 1-1 Introduction 2
- Speaking of Statistics: The Perfect Burger* 4
- 1-2 Descriptive and Inferential Statistics 4
- Speaking of Statistics: Super Snack Stats* 5
- Speaking of Statistics: Risks in the Home* 6
- 1-3 Variables and Types of Data 7
- Speaking of Statistics: Height Fright Not Right* 8
- 1-4 Data Collection and Sampling Techniques 10
 - Random Sampling 11
 - Systematic Sampling 11
- Speaking of Statistics: Surviving Bad Days at Work* 12
 - Stratified Sampling 12
 - Cluster Sampling 12
- Speaking of Statistics: How Often Does Your Family Eat Dinner at Home Together?* 13
- Speaking of Statistics: Shake and Wake* 14
 - Other Sampling Methods 14
- 1-5 Observational and Experimental Studies 15
- 1-6 Computers and Calculators 17
 - Technology Step by Step 17
- 1-7 Summary 22

chapter two

Frequency Distributions and Graphs 30

- Statistics Today: Are We Flying More?* 31
- 2-1 Introduction 32
- 2-2 Organizing Data 32
 - Categorical Frequency Distributions 33

- Grouped Frequency Distributions 34
- Technology Step by Step 43
- 2-3 Histograms, Frequency Polygons, and Ogives 44
 - The Histogram 45
 - The Frequency Polygon 47
 - The Ogive 48
 - Relative Frequency Graphs 50
 - Technology Step by Step 55
- 2-4 Other Types of Graphs 58
 - Pareto Charts 58
 - The Time Series Graph 60
- Speaking of Statistics: Pennsylvania Coal Production* 61
 - The Pie Graph 62
 - Misleading Graphs 65
- Speaking of Statistics: Costliest Big Cities for Driving* 69
 - Technology Step by Step 71
- Speaking of Statistics: Budget Deficit Drops* 72
- 2-5 Summary 73

chapter three

Data Description 80

- Statistics Today: Who Is a Typical First-Time Home Buyer?* 81
- 3-1 Introduction 81
- 3-2 Measures of Central Tendency 82
 - The Mean 83
- Speaking of Statistics: Big Spenders* 85
 - The Median 86
 - The Mode 89
- Speaking of Statistics: Leave the Driving to . . .* 91
 - The Midrange 91
 - The Weighted Mean 92
 - Distribution Shapes 94
- 3-3 Measures of Variation 99
 - Range 100

- Variance and Standard Deviation 101
- The Unbiased Estimator 104
- Variance and Standard Deviation for Grouped Data 105
- Coefficient of Variation 108
- Chebyshev's Theorem 109
- The Empirical (Normal) Rule 111
- 3-4 Measures of Position 115**
 - Standard Scores 115
 - Percentiles 116
 - Quartiles and Deciles 123
 - Outliers 124
 - Technology Step by Step 127
- 3-5 Exploratory Data Analysis 130**
 - Stem and Leaf Plots 130
 - Boxplots 133
 - Technology Step by Step 137
- 3-6 Summary 140**

chapter four

Counting Techniques 149

- Statistics Today: Why Are We Running Out of 800 Numbers?* 150
- 4-1 Introduction 151**
 - 4-2 Tree Diagrams and the Multiplication Rule for Counting 151**
 - The Multiplication Rule for Counting 153
 - 4-3 Permutations and Combinations 156**
 - Factorial Level Notation 156
 - Permutations 156
 - Combinations 158
 - 4-4 Summary 162**

chapter five

Probability 166

- Statistics Today: Would You Bet Your Life?* 167
- 5-1 Introduction 168**
 - 5-2 Sample Spaces and Probability 168**
 - Basic Concepts 168
 - Classical Probability 171
 - Complementary Events 174
 - Empirical Probability 175
 - Law of Large Numbers 177
 - Subjective Probability 178

- Probability and Risk Taking 178
- 5-3 The Addition Rules for Probability 181**
 - Speaking of Statistics: CEO Profile* 182
- 5-4 The Multiplication Rules and Conditional Probability 188**
 - The Multiplication Rules 188
 - Conditional Probability 193
 - Probabilities for "At Least" 195
- 5-5 Probability and Counting Techniques (Optional) 199**
- 5-6 Summary 202**

chapter six

Discrete Probability Distributions 209

- Statistics Today: Are the Rockets Hitting the Targets?* 210
- 6-1 Introduction 210**
 - 6-2 Probability Distributions 211**
 - 6-3 Mean, Variance, and Expectation 215**
 - Mean 215
 - Variance 218
 - Expectation 220
 - 6-4 The Binomial Distribution 224**
 - Technology Step by Step 232
 - 6-5 Other Types of Distributions (Optional) 234**
 - The Multinomial Distribution 234
 - The Poisson Distribution 235
 - The Hypergeometric Distribution 237
 - 6-6 Summary 241**

chapter seven

The Normal Distribution 247

- Statistics Today: What Is Normal?* 248
- 7-1 Introduction 248**
 - 7-2 Properties of the Normal Distribution 250**
 - 7-3 The Standard Normal Distribution 251**
 - Finding Areas under the Standard Normal Distribution Curve 253
 - The Normal Distribution Curve as a Probability Distribution Curve 260
 - 7-4 Applications of the Normal Distribution 264**
 - Finding Data Values Given Specific Probabilities 268
 - Technology Step by Step 273
 - 7-5 The Central Limit Theorem 274**

- Distribution of Sample Means 275
- Finite Population Correction Factor (Optional) 281
- 7-6** The Normal Approximation to the Binomial Distribution 284
- 7-7** Summary 290

chapter eight

Confidence Intervals and Sample Size 296

- Statistics Today: Would You Change the Channel?* 297
- 8-1** Introduction 298
- 8-2** Confidence Intervals for the Mean (σ Known or $n \geq 30$) and Sample Size 299
 - Confidence Intervals 299
 - Sample Size 305
 - Technology Step by Step 309
- 8-3** Confidence Intervals for the Mean (σ Unknown and $n < 30$) 311
 - Technology Step by Step 316
- 8-4** Confidence Intervals and Sample Size for Proportions 318
 - Confidence Intervals 319
 - Sample Size for Proportions 320
 - Technology Step by Step 323
- 8-5** Confidence Intervals for Variances and Standard Deviations 325
- 8-6** Summary 329

chapter nine

Hypothesis Testing 335

- Statistics Today: How Much Better Is Better?* 336
- 9-1** Introduction 337
- 9-2** Steps in Hypothesis Testing—Traditional Method 337
- 9-3** z Test for a Mean 349
 - Speaking of Statistics: Stick Margarine May Boost Risk of Heart Attacks* 350
 - P -Value Method for Hypothesis Testing 354
 - Technology Step by Step 361
- 9-4** t Test for a Mean 363
 - Technology Step by Step 371
- 9-5** z Test for a Proportion 372
 - Technology Step by Step 377
- 9-6** χ^2 Test for a Variance or Standard Deviation 378
 - Technology Step by Step 386

- 9-7** Additional Topics Regarding Hypothesis Testing 387
 - Confidence Intervals and Hypothesis Testing 387
 - Type II Error and the Power of a Test 388
- 9-8** Summary 391

chapter ten

Testing the Difference between Two Means, Two Variances, and Two Proportions 398

- Statistics Today: To Vaccinate or Not to Vaccinate? Small or Large?* 399
- 10-1** Introduction 399
- 10-2** Testing the Difference between Two Means: Large Samples 400
 - Technology Step by Step 408
- 10-3** Testing the Difference between Two Variances 412
 - Technology Step by Step 420
- 10-4** Testing the Difference between Two Means: Small Independent Samples 424
 - Technology Step by Step 429
- 10-5** Testing the Difference between Two Means: Small Dependent Samples 433
 - Speaking of Statistics: Public School Teachers Show Bias for Boys* 434
 - Speaking of Statistics: Pedaling a Solution for Couch-Potato Kids* 442
 - Technology Step by Step 443
- 10-6** Testing the Difference between Proportions 446
 - Technology Step by Step 451
- 10-7** Summary 453
 - Hypothesis-Testing Summary 1 460

chapter eleven

Correlation and Regression 462

- Statistics Today: Do Dust Storms Affect Respiratory Health?* 463
- 11-1** Introduction 463
- 11-2** Scatter Plots 464
- 11-3** Correlation 468
 - Correlation Coefficient 468
 - The Significance of the Correlation Coefficient 471
 - Correlation and Causation 474

Speaking of Statistics: Coffee Not Disease Culprit, Study Says 476

11-4 Regression 478

Line of Best Fit 478

Determination of the Regression Line Equation 479

Technology Step by Step 485

11-5 Coefficient of Determination and Standard Error of Estimate 490

Types of Variation for the Regression Model 490

Coefficient of Determination 492

Standard Error of Estimate 492

Prediction Interval 495

11-6 Multiple Regression (Optional) 497

Speaking of Statistics: Computer Use Declines as Girls Age 498

The Multiple Regression Equation 499

Testing the Significance of R 500

Adjusted R^2 501

Technology Step by Step 503

11-7 Summary 504

chapter twelve

Other Chi-Square Tests 510

Statistics Today: Statistics and Heredity 511

12-1 Introduction 511

12-2 Test for Goodness of Fit 512

Test of Normality (Optional) 517

Technology Step by Step 521

12-3 Tests Using Contingency Tables 523

Test for Independence 523

Test for Homogeneity of Proportions 528

Speaking of Statistics: Ignoring Commercials 531

Speaking of Statistics: At Least They're Checking for Radon 532

Technology Step by Step 535

12-4 Summary 537

chapter thirteen

Analysis of Variance 543

Statistics Today: Is Seeing Really Believing? 544

13-1 Introduction 544

13-2 One-Way Analysis of Variance 545

Technology Step by Step 551

13-3 The Scheffé Test and the Tukey Test 554

Scheffé Test 554

Speaking of Statistics: Coffee Doesn't Increase Risk of Heart Disease 555

Tukey Test 556

13-4 Two-Way Analysis of Variance 560

Technology Step by Step 571

13-5 Summary 574

Hypothesis-Testing Summary 2 580

chapter fourteen

Nonparametric Statistics 582

Statistics Today: Too Much or Too Little? 583

14-1 Introduction 583

14-2 Advantages and Disadvantages of Nonparametric Methods 584

Advantages 584

Disadvantages 584

Ranking 585

Speaking of Statistics: New Hampshire, Exemplary State of Health 586

14-3 The Sign Test 586

Single-Sample Sign Test 586

Paired-Sample Sign Test 589

Technology Step by Step 593

14-4 The Wilcoxon Rank Sum Test 594

Technology Step by Step 598

14-5 The Wilcoxon Signed-Rank Test 599

Speaking of Statistics: Changes in Police Force Size 603

Speaking of Statistics: Lacrosse by the Numbers 604

Technology Step by Step 604

14-6 The Kruskal-Wallis Test 605

Technology Step by Step 610

14-7 The Spearman Rank Correlation Coefficient and the Runs Test 610

Rank Correlation Coefficient 611

Speaking of Statistics: Stock Permits 613

The Runs Test 614

Technology Step by Step 620

14-8 Summary 620

Speaking of Statistics: Pessimism Linked to Early Death 621

Hypothesis-Testing Summary 3 627

chapter fifteen**Sampling and Simulation 629***Statistics Today: No Room in the Van?* 630**15-1** Introduction 630**15-2** Common Sampling Techniques 631

Random Sampling 631

Speaking of Statistics: Odds Stacked against Lefties 633

Systematic Sampling 636

Stratified Sampling 637

Cluster Sampling 639

Other Types of Sampling Techniques 640

Speaking of Statistics: Help, I've Failed and I Can't Get Up 641

Technology Step by Step 643

15-3 Surveys and Questionnaire Design 645**15-4** Simulation Techniques 647**15-5** The Monte Carlo Method 648**15-6** Summary 653**appendix A**

Algebra Review 658

appendix B-1

Writing the Research Report 663

appendix B-2

Bayes's Theorem 664

appendix C

Tables 668

appendix D

Data Bank 697

appendix E

Glossary 705

appendix F

Bibliography 711

appendix G
