

THE
WEB WIZARD'S
GUIDE TO

PHP

DAVID A. LASH

TABLE OF CONTENTS

Preface

ix

Chapter One

INTRODUCTION TO PHP	1
PHP and the Web	2
Web Technology Background	2
What Is PHP?	3
Accessing PHP-Enhanced HTML Documents	4
Getting Started with PHP	4
A Web Server with Built-in PHP	5
A Client Machine with a Basic Text Editor	6
FTP or Telnet Software	6
Exploring the Basic PHP Development Process	6
Creating a PHP Script File and Saving It to a Local Disk	7
Copying a File to a Web Server with FTP	7
Accessing Your File Using a Browser	8
Dealing with Problems:	
The Importance of Proper Syntax	9
Embedding PHP Statements within HTML Documents	11
Using Comments with PHP Scripts	12
<i>Summary 15 ★ Online References 15 ★</i>	
<i>Review Questions 15 ★ Hands-On Exercises 16</i>	

Chapter Two

USING VARIABLES	18
Using PHP Variables	19
Combining Variables and the print Statement	20
Using Arithmetic Operators	21
Writing Complex Expressions	23
Working with PHP String Variables	24
Using the Concatenate Operator	25
Using PHP String Functions	25
Creating HTML Input Forms	28
Starting and Ending HTML Forms	28
Creating Form Buttons	29
Creating Text Input Boxes	30
Creating Password Boxes	31

Creating Text Areas	31
Creating Radio Buttons	32
Creating Check Boxes	32
Creating Selection Lists	33
Receiving Form Input into PHP Scripts	34
<i>Summary 36 ★ Online References 36 ★</i>	
<i>Review Questions 36 ★ Hands-On Exercises 38</i>	

Chapter Three	CONTROLLING SCRIPT FLOW	39
	Using Conditional Test Statements	40
	Using the if Statement	40
	Testing Numerical Values	40
	Comparing Strings	43
	Using the elseif Clause	45
	Using the else Clause	46
	Using the switch Statement	49
	Using Loops to Repeat Statements	50
	Using the for Loop	50
	Using the while Loop	52
	Using Logical Test Operators	54
	<i>Summary 58 ★ Online References 58 ★</i>	
	<i>Review Questions 58 ★ Hands-On Exercises 59</i>	

Chapter Four	POWERING YOUR SCRIPTS WITH FUNCTIONS	61
	More on Using Basic PHP Functions	62
	Some Basic PHP Functions	62
	The date() Function	67
	Creating Your Own Functions	69
	Working with Your Own Functions	70
	Passing Arguments to Functions	72
	Returning Values	74
	Changing Argument Values within a Function	76
	Using External Script Files	79
	<i>Summary 82 ★ Online References 82 ★</i>	
	<i>Review Questions 82 ★ Hands-On Exercises 83</i>	

Chapter Five	USING ARRAYS FOR LIST DATA	85
	Why Use Arrays?	86
	Using Sequential Arrays	86
	Creating Sequential Arrays	86
	Referencing Sequential Array Items	87

Using Loops with Sequential Arrays	89
Using Arrays to Receive Multiple Form Element Selections	90
Adding and Deleting Items	92
Additional Useful Array Functions	94
Using Associative Arrays	95
Creating Associative Arrays	95
Accessing Associative Array Items	96
Using Loops with Associative Arrays	99
Changing, Adding, Deleting, and Verifying Associative Array Items	99
Sorting Associative Arrays	102
Using Multidimensional Arrays	103
<i>Summary</i> 106 ★ <i>Online References</i> 106 ★	
<i>Review Questions</i> 106 ★ <i>Hands-On Exercises</i> 107	

Chapter Six

MATCHING PATTERNS AND WORKING WITH FILES	110
Working with Patterns in String Variables	111
Using the <code>ereg()</code> Function	111
Using Regular Expressions with the <code>ereg()</code> Function ..	112
Using Grouping Characters	115
Using Special Character Classes	117
Building Regular Expressions That Work	118
Matching Patterns with the <code>split()</code> Function	121
Working with Files from PHP Scripts	124
Reading a File into an Array	125
Opening Files	125
Writing to Files	129
Reading and Writing Files	132
<i>Summary</i> 137 ★ <i>Online References</i> 137 ★	
<i>Review Questions</i> 137 ★ <i>Hands-On Exercises</i> 138	

Chapter Seven

MANAGING MULTIPLE-FORM APPLICATIONS	141
What Are Multiple-Form Web Sessions?	142
Using Hidden Fields	143
Creating Hidden Fields	143
Receiving Hidden Fields in Web Sessions	145
Sending E-mail from a PHP Script	146
Using Browser Cookies	149
Understanding Cookie Limitations	149
Setting and Reading Cookies	150

Using PHP Sessions	155
Using the <code>session_start()</code> and <code>session_register()</code> Functions	155
Some Session Features	158
<i>Summary 159 ★ Online References 159 ★</i>	
<i>Review Questions 159 ★ Hands-On Exercises 160</i>	

Chapter Eight	USING DATABASES WITH PHP SCRIPTS	162
	Database Basics	163
	Choosing a Database System	164
	Using a Query Language	164
	Preparing a MySQL Database	165
	Installing MySQL	165
	Creating a Database Instance	165
	Creating Tables with SQL	165
	Issuing the <code>CREATE TABLE</code> Command from PHP	167
	Inserting Data into a Database	171
	Retrieving Data from a Database	173
	Retrieving All Elements from a Table	173
	Searching for Specific Records in a Table	176
	Updating a Database Record	179
	<i>Summary 183 ★ Online References 183 ★</i>	
	<i>Review Questions 183 ★ Hands-On Exercises 184</i>	

Appendix A:	CONNECTING WITH TELNET	187
--------------------	-------------------------------------	------------

Appendix B:	USING DATA FILES ON UNIX SYSTEMS	189
--------------------	---	------------

Appendix C:	EXECUTING SQL COMMANDS ON THE MYSQL SERVER ...	192
--------------------	---	------------

Appendix D:	ANSWERS TO ODD-NUMBERED REVIEW QUESTIONS	194
--------------------	---	------------

Index	199
--------------------	------------

Quick Reference	209
------------------------------	------------

Selected PHP Functions Used in Book	209
String Functions	209
Numeric, Time, and Mail Functions	209
File, Session, and Cookie Functions	210
Array Functions	211
MySQL Database Functions	211
