|---------------------------------------------------------------------------|-------|---------------------------------------------------------------------|-----|
| Preface | xi | Summary | 58 |
| Guided tour | xx | Exercises | 59 |
| Plan of the book | xxii | References / Further reading / Web links | 61 |
| About the authors | xxiii | | |
| Acknowledgements | xxv | 3 Hardware | 63 |
| Publisher's acknowledgements | xxvi | Learning objectives / Management issues | 63 |
| | | Links to other chapters | 64 |
| | | Introduction | 64 |
| | | Components of a computer system | 64 |
| | | Major categories of computers | 66 |
| | | Types of microcomputers | 69 |
| | | Mini case study: Panalpina use network computers to reduce costs | 71 |
| | | Case study 3.1: Network computers | 72 |
| | | Input devices | 73 |
| | | Mini case study: Optical mark recognition | 75 |
| | | Selecting input devices | 77 |
| | | Case study 3.2: Document image processing at Royal Sun Alliance | 79 |
| | | Output devices | 79 |
| | | Selecting output devices | 82 |
| | | Focus on printers | 83 |
| | | Storage devices | 86 |
| | | Selecting storage devices | 92 |
| | | Processors | 94 |
| | | Other components of a personal computer | 96 |
| | | Focus on managing technological change | 99 |
| | | Hardware for networks and communications | 101 |
| | | Focus on selecting hardware suppliers | 101 |
| | | Summary | 104 |
| | | Exercises | 104 |
| | | References / Further reading / Web links | 106 |
| | | 4 Software | 108 |
| | | Learning objectives / Management issues | 108 |
| | | Links to other chapters | 109 |
| | | Introduction | 109 |
| | | Categories of software | 109 |
| | | Document production software | 113 |
| | | Case study 4.1: The paperless office | 115 |
| | | Graphics packages | 119 |
| | | Spreadsheets – office software for processing numerical information | 121 |
| | | Case study 4.2: Spreadsheets for planning and accounting | 126 |
| | | Databases – software for storage and retrieval of information | 127 |
| | | Management applications of productivity software | 136 |
| | | Multimedia software | 138 |
| Part 1 | | | |
| Introduction to business information systems | | | |
| 1 Basic concepts – understanding information | 3 | | |
| Learning objectives / Management issues | 3 | | |
| Links to other chapters | 4 | | |
| Introduction | 4 | | |
| Data and information | 4 | | |
| Creating information | 6 | | |
| Case study 1.1: Boots Insight team analyse computer data | 9 | | |
| Qualities of information | 12 | | |
| The business environment | 14 | | |
| Managerial decision making | 16 | | |
| Case study 1.2: The impact of agents on corporate intelligence | 21 | | |
| Focus on knowledge management | 28 | | |
| Mini case study: Novartis select Autonomy for Knowledge Management | 31 | | |
| Summary | 32 | | |
| Exercises | 32 | | |
| References / Further reading / Web links | 34 | | |
| 2 Basic concepts – an introduction to business information systems | 36 | | |
| Learning objectives / Management issues | 36 | | |
| Links to other chapters | 37 | | |
| Introduction | 37 | | |
| Introduction to systems | 37 | | |
| Different types of systems | 42 | | |
| Business information systems | 43 | | |
| Resources that support BIS | 44 | | |
| Categories of business information system | 46 | | |
| BIS and strategic advantage | 47 | | |
| Case study 2.1: Battle of the e-grocers | 48 | | |
| Case study 2.2: SMEs use e-commerce for competitive advantage | 56 | | |
| Mini case study: Capital One develop information leadership | 56 | | |

| | |
|-----------------------------------------------------------------------------------|--|
| Case study 4.3: Open-source software | |
| Software for using the Internet | |
| Focus on finding information on the Internet | |
| Mini case study: Google increases relevance of search by using PageRank technique | |
| Summary | |
| Exercises | |
| References / Further reading / Web links | |

5 Network, telecommunications and the Internet

| | |
|----------------------------------------------------------------------------------------|--|
| Learning objectives / Management issues | |
| Links to other chapters | |
| Introduction | |
| Introduction to computer networks | |
| Mini case study: Federal Express turns IS 'inside out' using communications technology | |
| Network components | |
| Case study 5.1: Choosing the right Internet connection | |
| The evolution of networking technology | |
| The Internet | |
| Mini case study: The Mecalux extranet | |
| Focus on how the Internet works – Internet standards | |
| Focus on new access devices | |
| Mini case study: Guinness uses SMS to reach a young audience | |
| Mini case study: Sharwood's tests interactive TV as marketing channel | |
| Case study 5.2: What went wrong with WAP? | |
| Other wide-area networks | |
| Mini case study: The virtual organisation | |
| Focus on EDI | |
| Mini case study: Flymo and EDI | |
| Smaller-scale networks | |
| Specifying and building networks | |
| Summary | |
| Exercises | |
| References / Further reading / Web links | |

6 E-business applications

| | |
|----------------------------------------------------------------------|--|
| Learning objectives / Management issues | |
| Links to other chapters | |
| Introduction | |
| Introducing e-Business | |
| How significant is e-Business | |
| Case study 6.1: European SME adoption of e-business | |
| Drivers and barriers of e-business adoption | |
| Case study 6.2: Tesco develops buy-side e-commerce | |
| Introduction to e-business applications | |
| Mini case study: Retail applications of TPS by Sainsbury's | |
| Focus on office automation systems (OAS) | |
| Mini case study: Boeing uses EDMS for managing technical information | |

| | | |
|-----|-------------------------------------------------------------------------------------------------------------|-----|
| 139 | Process control systems for operations management | 247 |
| 139 | Management information systems | 252 |
| 149 | Mini case study: Analysis techniques available for a salesforce management problem | 254 |
| 152 | Mini case study: Pareto Partners use expert systems to manage over £130 million in global financial markets | 256 |
| 156 | Functional and departmental applications | 263 |
| 157 | Case study 6.3: Cambridge Consultants reduce costs through e-procurement | 265 |
| 159 | Mini case study: Yorkshire Water revises Business Processes | 276 |
| 160 | Summary | 277 |
| 160 | Exercises | 278 |
| 161 | References / Further reading / Web links | 279 |

Part 2

Business information systems development

| | |
|-------------------------------------------------------------------------------------|------------|
| 7 An introduction to acquiring and developing BIS | 285 |
| Learning objectives / Management issues | 285 |
| Links to other chapters | 286 |
| Introduction | 286 |
| Methods of software acquisition | 286 |
| Case study 7.1: Direct Line reviews systems acquisition approaches | 291 |
| The traditional waterfall model | 292 |
| The traditional waterfall model and BIS acquisition | 298 |
| Focus on the waterfall model and SSADM | 301 |
| Case study 7.2: Lascelles Fine Foods | 305 |
| Rapid applications development (RAD) | 307 |
| Case study 7.3: Lloyds Bank Insurance Services applies RAD | 309 |
| Summary | 314 |
| Exercises | 315 |
| References / Further reading / Web links | 316 |
| 8 Initiating systems development | 318 |
| Learning objectives / Management issues | 318 |
| Links to other chapters | 319 |
| Introduction | 319 |
| Reasons for project initiation | 321 |
| Alignment of information system with the business strategy | 323 |
| Economic feasibility – the cost-benefit analysis | 324 |
| Acquisition choices and methods | 333 |
| Focus on techniques for comparing systems | 334 |
| Mini case study: Feature checklist for comparing three different groupware products | 334 |
| Case study 8.1: Blue Circle assess alternative Enterprise Resource Planning Systems | 340 |
| Summary | 342 |
| Exercises | 343 |
| References / Further reading / Web links | 344 |

9 BIS project management

Learning objectives / Management issues

Links to other chapters

Introduction

The project management process

Case study 9.1: Project management issues for an

e-business portal

Case study 9.2: Falling at the final hurdle

Steps in project management

Focus on a project management methodology: PRINCE

A project management tool: network analysis

Summary

Exercises

References / Further reading / Web links

10 Systems analysis

Learning objectives / Management issues

Links to other chapters

Introduction

Identifying the requirements

Documenting the findings

Case study 10.1: IFD drawing – a student records system

Focus on soft systems methodology

Systems analysis – an evaluation

Software tools for systems analysis

Case study 10.2: ABC case study

Summary

Exercises

References / Further reading / Web links

11 Systems design

Learning objectives / Management issues

Links to other chapters

Introduction

Aims of system design

Constraints on system design

The relationship between analysis and design

Elements of design

System or outline design

Mini case study: Use of flow process charts for

design of workflow systems

Detailed design (module design)

Focus on relation database design and normalisation

Design of input and output

Use interface design

Focus on user-centred design for e-business applications

Input design

Output design

Defining the structure of program modules

Security design

Design tools: CASE (computer-aided software

engineering) tools

Error handling and exceptions

Help and documentation

Object-oriented design (OOD)

| | | |
|-----|-----------------------------------------------------|-----|
| 346 | Mini case study: SAP uses object-oriented structure | 473 |
| 346 | for its R/3 ERP product | 475 |
| 347 | Summary | 476 |
| 347 | Exercises | 478 |
| 348 | References / Further reading / Web links | |

12 System build, implementation and maintenance

| | | |
|-----|----------------------------------------------------|-----|
| 349 | Learning objectives / Management issues | 480 |
| 351 | Links to other chapters | 481 |
| 353 | Introduction | 481 |
| 362 | Case study 12.1: Implementing a new system at | |
| 370 | Woolwich Financial Services | 482 |
| 376 | Key system build activities | 483 |
| 377 | Mini case study: Insurance – testing, testing | 487 |
| 378 | Mini case study: Code error floors bank network | 491 |
| 380 | Change management | 492 |
| 380 | Case study 12.2: Barclays Bank implements customer | |
| 381 | system using the 'big bang' approach | 495 |
| 381 | Maintenance | 503 |
| 381 | Mini case study: Project closure summary for a | |
| 389 | software house | 505 |
| 392 | Summary | 506 |
| 410 | Exercises | 507 |
| 414 | References / Further reading / Web links | 508 |

Part 3

Business information systems management

| | | |
|-----|-------------------------------------------------------|-----|
| 423 | 13 BIS strategy | 513 |
| 423 | Learning objectives / Management issues | 513 |
| 423 | Links to other chapters | 514 |
| 424 | Introduction | 514 |
| 424 | The productivity paradox | 514 |
| 424 | The strategic context | 515 |
| 425 | Introduction | 517 |
| 425 | Strategy process models | 522 |
| 425 | Tools for strategic analysis and definition | 523 |
| 427 | Mini case study: Applying the value chain to a | |
| 431 | manufacturing organisation | 532 |
| 436 | IS and business strategy integration | 534 |
| 437 | Determining investment levels for information | |
| 452 | systems in an organisation | 537 |
| 454 | Focus on business process re-engineering | 541 |
| 455 | Case study 13.1: Corporate re-engineering – managing | |
| 468 | the change process | 545 |
| 469 | Locating the information systems management function | 551 |
| 470 | Outsourcing | 555 |
| 470 | Case study 13.2: Outsourcing is no licence to save | |
| 470 | money, DVLA learns | 557 |
| 471 | Mini case study: Lloyds/TSB staff say 'yes' to strike | |
| 471 | action | 561 |
| 472 | Summary | 563 |
| 472 | Exercises | 564 |
| 472 | References / Further reading / Web links | 565 |

14 Managing e-business

| | |
|----------------------------------------------------------------------------|--|
| <i>Learning objectives / Management issues</i> | |
| <i>Links to other chapters</i> | |
| <i>Introduction</i> | |
| E-business strategy | |
| Strategic analysis | |
| Strategic objectives | |
| Case study 14.1: Sandvik Steel – the challenge of becoming an e-business | |
| Strategy definition | |
| Case study 14.2: Evolving business models in the Internet car sales market | |
| Strategy implementation | |
| Managing e-business infrastructure | |
| <i>Summary</i> | |
| <i>Exercises</i> | |
| <i>References / Further reading / Web links</i> | |

15 Managing information security

| | |
|-----------------------------------------------------|--|
| <i>Learning objectives / Management issues</i> | |
| <i>Links to other chapters</i> | |
| <i>Introduction</i> | |
| The need for controls | |
| Control strategies | |
| Types of controls | |
| Some techniques for controlling information systems | |
| Case study 15.1: Passwords | |
| <i>Focus on the computer virus</i> | |
| Mini case study: ICL and e-security | |
| Case study 15.2: Hackers | |
| Threats related to Internet services | |
| <i>Summary</i> | |
| <i>Exercises</i> | |
| <i>References / Further reading / Web links</i> | |

16 End-user computing – providing end-user services

| | |
|------------------------------------------------|--|
| <i>Learning objectives / Management issues</i> | |
| <i>Links to other chapters</i> | |

| | | |
|-----|---------------------------------------------------------------------------------------------------|-----|
| 568 | <i>Introduction</i> | 642 |
| 568 | End-user IS services | 642 |
| 569 | Managing network services | 643 |
| 569 | Mini case study: Using network computers to reduce the total cost of ownership | 645 |
| 569 | End-user computing | 647 |
| 572 | The information centre | 649 |
| 581 | Case study 16.1: Levels of end-user support at Pfizer | 650 |
| 585 | End-user development | 652 |
| 586 | Case study 16.2: End-user development training at the Open University | 654 |
| 592 | Mini case study: Delcam uses end-user developers to help internal communication using an intranet | 656 |
| 599 | Managing EUC as part of IS strategy | 658 |
| 600 | <i>Summary</i> | 659 |
| 607 | <i>Exercises</i> | 660 |
| 608 | <i>References / Further reading / Web links</i> | 661 |

17 Ethical, legal and moral constraints on information systems

| | | |
|-----|-------------------------------------------------|-----|
| 612 | <i>Learning objectives / Management issues</i> | 662 |
| 612 | <i>Links to other chapters</i> | 663 |
| 613 | <i>Introduction</i> | 663 |
| 613 | Professionalism, ethics and morality | 663 |
| 619 | Codes of conduct | 664 |
| 621 | Social issues | 668 |
| 622 | Case study 17.1: Recruitment | 669 |
| 624 | Legal issues | 675 |
| 626 | Case study 17.2: Employee monitoring | 682 |
| 630 | <i>Focus on software piracy</i> | 684 |
| 631 | <i>Summary</i> | 690 |
| 632 | <i>Exercises</i> | 691 |
| 636 | <i>References / Further reading / Web links</i> | 692 |
