INTERPRETING Protein Mass Spectra

A COMPREHENSIVE RESOURCE

A. Peter Snyder

CONTENTS

1	Electrospray	Ionization	ac a	Vehicle	for Protei	n Mass S	nectra	3
1	PIPE HONGINAV	11 31 11 / /21 18 31 1	a> a	VELIKIE	IUI FIULEI	11 (A1G22 7	Decua	_

- 2 Analyte Separation Methods: High-Pressure Liquid Chromatography and Capillary Electrophoresis 14
- 3 The Isotope Effect at High Mass 35
- 4 Calculation of the Analyte Mass 55
- 5 Analytical Figures of Merit for a High-Mass Isotope Envelope 87
- 6 Isotope Distribution of a Multiply Charged Mass Spectral Peak 111
- 7 Experimental Parameters Affecting Electrospray Ionization Mass Spectra 122
- 8 The Cation Effect on Electrospray Ionization Mass Spectra 144
- 9 Interpretation of Peptide and Protein Mass Spectra 155
- 10 Interpretation of Phosphoprotein Mass Spectra 265
- 11 Immunological Applications: Proteins and Phosphoproteins 300
- 12 Interpretation of Glycoprotein Mass Spectra 334
