Chapter 1 Face-to-face training 1

Planning and preparation

What's your training ethos? 3; Designing a new training programme 4; Setting training event objectives 6; Where can learning outcomes be useful to trainees? 8; Fine-tuning and communicating learning outcomes 9; Getting the content right 12; Timetabling your training event 13; Tips when using visiting trainers 14; Designing pre-event tasks 15; Behind the scenes 17; Refreshments 18; Getting your bits and bobs ready 19; Planning for distant venues 20; Tips for international trainers 22

Preparing and giving presentations

Do you really want to give presentations? 24; Preparing your first presentations 25; Giving presentations 27; Designing and using handouts 31; Using overhead projectors 33; Why use computer-aided presentations? 36; Some don'ts for presentation managers 37; Helping trainees to learn from computer-aided presentations 40

Creating your training environment

Seating, tables and workspace 42; Using flipcharts yourself 43; Planning Post-its and flipcharts into group work 44; Using whiteboards or chalkboards 46; Using video machines 47; Maximizing learning pay-off from video 49; Using audiotapes in your training 51

Getting training events off to a good start

First impressions count 52; Introducing yourself 53; Mind your body language 55; Introducing participants 56; Working with mature trainees 57; Working with international trainees 59; Working with trainees with special needs 61; Gathering and using trainees' expectations 63; Maximizing learning pay-off 64; Establishing ground rules 65; Following up pre-event tasks 67; Brainstorming 68

Keeping the show going

Maximize 'learning-by-doing' 69; Avoiding alienation 70; Addressing conflict in group work 72; Handling difficult questions 73; Working with difficult participants 74; Gender issues 76; Coping with the unexpected 77; Developing participants' creativity 79; Working one to one 80; Helping participants to make sense of things 81; Using role-plays 82; Ringing the changes 83; Filling five minutes to coffee! 84; End with a bang, not a whimper 86

Looking after yourself

Time management 87; Workload management 88; Stress management 90; Working well with colleagues 93; Keeping up to date 95

Chapter 2 Group-based training 97

Setting up groups, and getting them going

Preparing participants for group work 98; Ways of forming groups 100; Group size considerations 102; Getting groups started 104; Ice-breakers: some ideas 105

Training in groups

Helping participants to think about their learning 107; Group learning means learning-by-doing 109; Group learning means learning through feedback 111; Make the most of learning from mistakes 113; Helping participants to develop their motivation 115; Needing to learn can be enough 116; Harnessing participants' motivation 117; Post-it exercise on how participants learn 118; Behaviours of a good leader 119; Group learning includes following 121; Benefits of group learning 122; Benefits for trainees themselves 123; Benefits for trainers and learning facilitators 124; Benefits for employers (or future employers) of trainees 125; Benefits for training organizations and institutions 125

Groups (and trainers) behavin' badly!

Group member behaviours that damage group work 126; Group facilitator behaviours that can damage group work 132

Chapter 3 Resource-based training 142

Rationale, benefits and choices

What are the characteristics of resource-based learning? 143; What sorts of flexibility are there? 144; What lends itself to flexible learning? 146; Which trainees are particularly helped? 147; Benefits for trainees 149; Benefits for trainers 150; Benefits for employers and managers 152; Benefits for training providers 154; Selecting flexible learning materials 156; How will they work? 156; Is the content right? 157; A quality checklist for flexible learning materials 159; Choosing and using computer-based learning resources 165; Adopt, adapt or start from scratch? 168; Planning how to adopt 170; Planning how to adapt 172

Creating flexible learning materials

Writing new flexible learning materials 174; Tone and style for open learning 176; Writing self-assessment questions 178; Writing multiple-choice questions 180; Writing feedback responses to multiple-choice questions 182; Writing open-ended

questions and responses 183; Writing an introduction that works 185; Finishing well: reviews and summaries 187; Writing study guides 188

Chapter 4 Computer-based training 191

Getting into computers yourself

Organizing your workspace 193; Health and safety 194; Panic page (technophobia) 195; Learning to use a new program 197; Where to find help 198; Printing 199; Maintenance 201; Computing on the move 202; Writing on the move 204; Security 205

Helping trainees to learn with computers

Expressing intended learning outcomes 207; Bringing trainees round to learning from a machine 209; Helping trainees to learn-by-doing using computers 210; Getting trainees used to working with mice and keys 212; Language, visuals and numbers: international dimensions 213; Using computers to give feedback to trainees 215; Interrogating multimedia for training 216; Helping trainees to work together with computers 218; Setting out computers in your training room 222; Now you see it, now it's gone! 223

Online training

Making effective use of e-mail 225; Helping trainees to get started with e-mail 228; Giving trainees feedback using e-mail and computer conferencing 229; Thinking about using computer conferencing for training 232; Getting a computer conference going 234; Using the Internet for training 237; Information retrieval from the Internet 239; Helping trainees to learn from the Internet 241

Computers and your stress levels!

Getting there early and setting up 242; What to do if there's a power cut 244; Replanning your session 245; Coping with technophobes 247; Coping with technophiles 248; Looking after yourself when travelling 250; Gadgets, leads and grommets 251; Finding out what they've got at their end 253; Finding out what you can take elsewhere 254

Jargon busting or... 'It's all Geek to me!'

Computing glossary 255

Chapter 5 Evaluating your training 267

Obtaining feedback – and developing your forgettery! 268; First thoughts on questionnaires 269; Some problems with questionnaires 271; Some kinds of structured questions 272; Some ideas for open questions 273; Some ways of using questionnaires 274; Feedback from interviews with trainees 276; Feedback from groups of trainees 277; Following up after a training event 278; More ways of getting feedback! 279; Replanning your training event 280
