

VIRAL DISEASES  
OF CATTLE

SECOND EDITION

ROBERT F. KAHRS

# CONTENTS

---

	Preface	vii
1.	Viruses and Virology	1
2.	Concepts for Studying Viral Infections	9
3.	The Epidemiology of Bovine Viral Infections	17
4.	Diagnostic and Investigative Techniques	25
5.	Vaccines and Vaccination	39
6.	Clinical Manifestations and Differential Diagnosis	51
7.	Disinfectants and Disinfection	59
8.	The Impact of Bovine Viral Diseases on International Trade	71
9.	Adenoviruses	81
10.	Bluetongue	89
11.	Bovine Immunodeficiency-Like Virus (Bovine Lentivirus)	97
12.	Bovine Leukemia Virus and Enzootic Bovine Leukosis	103
13.	Bovine Viral Diarrhea	113
14.	Coronaviruses	127
15.	Enteroviruses	135
16.	Fibropapillomatosis (Warts) and Papillomaviruses	141
17.	Herpes Mammillitis and Pseudo Lumpy Skin Disease	151
18.	Infectious Bovine Rhinotracheitis and Infectious Pustular Vulvovaginitis	159

19.	Malignant Catarrhal Fever	171
20.	Papular Stomatitis	179
21.	Parainfluenza Type-3	185
22.	Parvoviruses	195
23.	Poxvirus Infections of the Teats	201
24.	Pseudorabies	209
25.	Rabies	215
26.	Respiratory Syncytial Virus	227
27.	Rhinoviruses	235
28.	Rotavirus Associated with Neonatal Diarrhea	239
29.	Vesicular Stomatitis	247
30.	Akabane and Bunyaviruses Causing Bovine Fetal Wastage	257
31.	Ephemeral Fever	265
32.	Foot-and-Mouth Disease	271
33.	Lumpy Skin Disease	281
34.	Rift Valley Fever	287
35.	Rinderpest	293
36.	Bovine Spongiform Encephalopathy	301
	Index	311
