

Genetics and DNA Technology: Legal Aspects

Wilson Wall

CONTENTS

<i>Glossary</i>	ix
<i>Introduction</i>	xiii
1 THE HISTORICAL CONTEXT OF PERSONAL IDENTIFICATION	1
INTRODUCTION	1
1.1 Bertillonage	2
1.2 Fingerprints	4
1.2.1 The nature of fingerprints	6
1.3 Blood groups and other proteins	11
1.4 DNA analysis	13
1.5 New methods of DNA analysis for the future	19
SUMMARY	20
2 AN IDEAL SAMPLE	23
INTRODUCTION	23
2.1 Structure of DNA	24
2.2 Minimum requirements for a forensic sample	25
2.3 Errors arising from the sample	27
2.3.1 Deliberate introduction of errors	28
2.3.2 Accidental introduction of errors	30
2.3.3 Naturally occurring errors	31
2.4 Sample degradation	33
2.5 Sample confusion: a forensic perspective	34
SUMMARY	36
3 BLOOD GROUPS AND OTHER CELLULAR MARKERS	37
INTRODUCTION	37
3.1 ABO blood groups	39
3.2 Rhesus blood groups	40
3.3 MN blood groups	40
3.4 The range of inherited blood groups	41
3.5 How blood groups are inherited	41
3.5.1 MN blood grouping	43
3.5.2 Rhesus (Rh)	44
3.5.3 ABO blood groups	44
3.6 Forensic applications of blood groups	45
SUMMARY	51

4	DNA ANALYSIS	53
	INTRODUCTION	83
	4.1 Why the structure and function of DNA is so useful in forensic applications	55
	4.2 Methods available for DNA analysis	57
	4.2.1 Variation in DNA sequence length	59
	4.2.2 Variation in a specific gene: presence or absence assays	64
	4.2.3 Variation in repeats of a DNA base sequence: short tandem repeats (STRs)	67
	4.2.4 Variation in base sequence and direct analysis of DNA sequence	71
	SUMMARY	76
5	PATERNITY TESTS AND CRIMINAL CASES	79
	INTRODUCTION	79
	5.1 How relevant is scientific evidence?	80
	5.2 Old statistics and new statistics	83
	5.3 Different questions for different cases	87
	5.3.1 Disputes of parentage	88
	5.3.2 Criminal cases	92
	SUMMARY	76
6	DNA DATABASES	97
	INTRODUCTION	97
	6.1 Types of databases and their ethical implications	97
	6.1.1 Anonymous databases	100
	6.1.2 Databases of named individuals	107
	6.2 Expert evidence in court	109
	SUMMARY	111
7	ETHICAL CONSIDERATIONS OF DNA AND DNA PROFILING	113
	INTRODUCTION	113
	7.1 What are the ethical questions and considerations concerning DNA?	113
	7.2 Cloning as a legal issue	116
	7.3 Insurance and genetics	119
	SUMMARY	124

Contents

APPENDIX	125
A NOTE ON STATISTICAL INFERENCES	125
CORRELATIONS	125
PROBABILITY	127
<i>Further Reading</i>	129
<i>Index</i>	131
