INTERNATIONAL EDITION

INFORMATION SYSTEMS MANAGEMENT IN PRACTICE

SIXTH EDITION

BARBARA C. McNURLIN
RALPH H. SPRAGUE, JR.

Contents

Preface xix

CHAPTER 1 THE IMPORTANCE OF INFORMATION SYSTEMS MANAGEMENT 1

Introduction 1
Themes of This Book 2
Management of IS 3
A Little History 3
The Organizational Environment 5
The External Business Environment 5
The Internal Organizational Environment 7
Goals of the New Work Environment 10
The Technology Environment 12
Hardware Trends 12
Software Trends 12
Data Trends 14
Communications Trends 15
The Mission of IS Organizations 16
A Simple Model 16
A Better Model 17
The Technologies 18
The Users 18
System Development and Delivery 19
IS Management 20
Organization of This Book 21
Case Example: MeadWestvaco Corporation 21
Questions and Exercises 40
References 41

PART I: LEADERSHIP ISSUES 43

CHAPTER 2 THE TOP IS JOB 45

Introduction 45
Where Is the IS Organization Headed? 46
The Escalating Benefits of IT 46
Case Example: The SABRE System 48

Traditional Functions Are Being Nibbled Away 49
New Roles Are Emerging 50
Toward IS Lite 54
Case Example: LifeScan 56
The CIO's Responsibilities 58
CIO Roles in Three Eras 58
Leading: Creating a Vision of the Future and Selling It 61
Case Example: BP 62
Case Example: Aetna Life and Casualty 66
Governing: Establishing an IS Governance Structure 68
Investing: Shaping the IT Portfolio 70
Case Example: AXA Financial 70
Managing: Fostering Change 77
Case Example: Rexam 79
Conclusion 82
Questions and Exercises 83
References 84

CHAPTER 3 STRATEGIC USES OF INFORMATION TECHNOLOGY 85

Introduction 86
Whither the Internet Revolution? 86
History of Strategic Uses of IT 86
Episode Two: Profitability Strikes Back 89
Case Example: Grainger 89
Working Inward: Business-to-Employee 91
Building an Intranet 91
Case Example: Microsoft 92
Managing an Intranet 94
Case Example: BearingPoint 94
Fostering a Sense of Belonging 95
Case Example: Wire Nova Scotia 96
Working Outward: Business-to-Customer 98
The Emergence of "Electronic Tenders" 98
Getting Closer to Customers 98
Case Example: Semco, S. A. 100
Being an Online Customer 102
Case Example: A Day in the Life of an E-lancer 102
Working Across: Business-to-Business 104
Coordinating with Cosuppliers 104
Case Example: General Mills and Land O' Lakes 104
Establishing Close and Tight Relationships 105
Case Example: Sara Lee Bakery Group 106
Becoming a Customer-Centric Value Chain 108
Case Example: Dell Computer 109
Getting the Back-End Systems in Shape 111
Conclusion 111

Questions and Exercises 112
References 113

CHAPTER 4 INFORMATION SYSTEMS PLANNING 114

Introduction 114
Types of Planning 115
Why Planning Is So Difficult 116
The Changing World of Planning 117
Traditional Strategy-Making 117
Today's Sense-and-Respond Approach 120
Case Example: Microsoft 121
Case Example: Skandia Future Centers 122
Case Example: Shell Oil 124
Seven Planning Techniques 126
Stages of Growth 127
Critical Success Factors 127
Competitive Forces Model 129
Framework Example: Five Forces Analysis of the Internet 131
Value Chain Analysis 133
Case Example: An Automobile Manufacturer 134
E-Business Value Matrix 136
Case Example: Cisco Systems 138
Linkage Analysis Planning 139
Case Example: Electric Power Research Institute 141
Scenario Planning 143
Case Example: Scenarios on the Future of IS Management 144
Conclusion 147
Questions and Exercises 148
References 149

Part I Discussion Case: What IT Strategy Would You Recommend Based on Royal Dutch/Shell Group's Scenarios? 150

PART II: MANAGING THE ESSENTIAL TECHNOLOGIES 159

CHAPTER 5 DISTRIBUTED SYSTEMS: THE OVERALL ARCHITECTURE 161

Introduction 162
Four Attributes of Distributed Systems 163

When to Distribute Computing Responsibilities 165
Two Guiding Frameworks 166

Seven Types of Distributed Systems 170
Host-Based Hierarchy 170
Decentralized Stand-Alone Systems 171
Peer-to-Peer LAN-Based Systems 172
Hybrid Enterprisewide Systems 172
Case Example: Northwest Airlines 174
Client-Server Systems 177
Case Example: An Aerospace Company 179
Internet-Based Computing 182
Case Example: Chubb & Son Insurance Company 183
Case Example: The SABRE Group 184
Case Example: 3i 185
Web Services 186
Case Example: General Motors 189

Defining the Overall IT Architecture 190
Case Example: FMC Corporation 191
Case Example: The SABRE System 193

The Importance of IT Infrastructure 194
The Structure of the IT Infrastructure 194
Three Views of Infrastructure 197
Case Example: City of Sunnyvale, California 198

Conclusion 199

Questions and Exercises 200

References 201

CHAPTER 6 MANAGING TELECOMMUNICATIONS 202

Introduction 202

The Evolving Telecommunications Scene 203
A New Telecommunications Infrastructure Is Being Built 203
The Telecommunications Industry Is Being Transformed 204
Case Example: ICG Communications 206
The Internet Is the Network of Choice 208
Case Example: XYZ Company 209
Case Example: National Semiconductor 212
The OSI Reference Model Underlies Today's Networks 213
WAN Technology Has Changed 217
The Rate of Change Is Accelerating 218
The Optical Era Will Provide Bandwidth Abundance 219
The New Froutier Is Wireless 220
Case Example: Louisville Metro Sewer District 223
Case Example: BMW 227

Case Example: Country Company Insurance Group 229
Case Example: American Greetings 230
The Role of the IS Department 234
Conclusion 235
Questions and Exercises 236
References 237

CHAPTER 7 MANAGING INFORMATION RESOURCES 238

Introduction 238
Managing Data 240
The Three-Level Database Model 240
Four Data Models 240
Getting Corporate Data into Shape 243
Enterprise Resource Planning 244
Case Example: Monsanto 245
Managing Information 247
Four Types of Information 248
Data Warehouses 249
Case Example: Owens & Minor 252
Document Management 255
Case Example: HICSS Personal Proceedings 257
Case Example: Tapiola Insurance Group 258
Case Example: Tennessee Valley Authority 261
Content Management 263
Case Example: Eastman Chemical Company 266
Conclusion 268
Questions and Exercises 269
References 270

CHAPTER 8 MANAGING OPERATIONS 271

Introduction 272
What Are Operations? 273
Why Talk About Operations? 273
Solving Operational Problems 273
Operational Measures 273
The Importance of Good Management 274
What's New in Operations? 274
Case Example: Microsoft 276
Outsourcing IS Functions 277
The Driving Forces Behind Outsourcing 277
Changing Customer-Vendor Relationships 278
Outsourcing's History 278
Case Example: ANZ Banking Group Ltd. 283
Managing Outsourcing 286

Case Example: Eastman Kodak Company 286
Case Example: Honda Motor Company 290

Information Security 291
The Threats 292
Case Example: Credit Card Fraud 295
Case Example: An Internet Services Company 298
Security's Five Pillars 300
Countermeasures 301
Case Example: Plymouth Rock Assurance Corporation 305

Planning for Business Continuity 306
Using Internal Resources 306
Using External Resources 308
Case Example: Household International 309

Conclusion 312

Questions and Exercises 313

References 314

Part II Discussion Case: Managing Information Security on a Shoestring Budget 315

PART III: MANAGING SYSTEM DEVELOPMENT 333

CHAPTER 9 TECHNOLOGIES FOR DEVELOPING SYSTEMS 335

Introduction 336

Foundations of System Development 336
Structured Development 337
Fourth-Generation Languages 338
Software Prototyping 339
Case Example: Santa Fe Railway 340
Computer-Aided Software Engineering 342
Case Example: DuPont Cable Management Services 343
Object-Oriented Development 345
Client-Server Computing 346
Case Example: MGM 346

System Integration 348
ERP Systems 348
Case Example: Colgate-Palmolive 350
Middleware 351
Case Example: A Telecommunications Firm 352

Interorganizational System Development 353
Discussion Case: How Should ExxonMobile Leverage Its IT Asset? 354

Case Example: Hong Kong Exchanges and Clearing 355

Internet-Based Systems 359

Application Servers 359
Java 360
Web Services 361
Case Example: Building a Web Service 362

Project Management 363

Keys to Project Management Success 364
Internet Project Management 366
Tips for Good Project Management 366

Summary 369

Questions and Exercises 370

References 371

CHAPTER 10 MANAGEMENT ISSUES IN SYSTEM DEVELOPMENT 372

Introduction 372

Managing IS Staff 373

Recruiting IS Staff 374
Case Example: Fidelity Investments 376
Designing Motivating Work 378
Case Example: UPS 378
Rethinking Maintenance Work 382

Implementing Systems Successfully 383

Case Example: The BOC Group 384

Improving Legacy Systems 387

To Replace or Not to Replace? 387
Options for Improving a Legacy System 388
Case Example: GTE Directories 390
Case Example: Toyota Motor Sales 393

Measuring the Benefits of Systems 396

Distinguish Between the Different Roles of Systems 397
Measure What Is Important to Management 398
Assess Investments Across Organizational Levels 398
Case Example: A Trucking Company 398
Do Investors Value IT Investments? 401

Summary 402

Questions and Exercises 403

References 404

Part III Discussion Case: A Dream Project Turns Nightmare: How Flawless Software Never Got Implemented 406

PART IV: SYSTEMS FOR SUPPORTING KNOWLEDGE-BASED WORK 423

CHAPTER 11 SUPPORTING DECISION MAKING 425

Introduction 425
Case Example: A Problem-Solving Scenario 426
Technologies That Support Decision Making 427
Decision Support Systems 428
Case Example: Ore-Ida Foods 430
Case Example: A Major Services Company 430
Data Mining 432
Case Example: Harrah's Entertainment 433
Executive Information Systems 433
Case Example: Xerox Corporation 434
Expert Systems 437
Case Example: American Express 441
Toward the Real-Time Enterprise 443
Enterprise Nervous Systems 444
Case Example: Delta Airlines 444
Straight-Through Processing 445
Real-Time CRM 446
Case Example: A Real-Time Interaction on a Website 446
Communicating Objects 448
Moderating the Dark Side 449
Case Example: General Electric 450
Conclusion 450
Questions and Exercises 451
References 451

CHAPTER 12 SUPPORTING COLLABORATION 453

Introduction 453
Teams: The Basis of Organizations 454
Understanding Groups 455
Characteristics of Groups 455
Types of Groups 456
Communities of Practice 458
Case Example: DaimlerChrysler 458
Network Armies 460
Case Example: The Open Source Movement 461
Systems to Support Collaboration 463
Supporting Same Time/Same Place Collaboration 466
Case Example: Burr-Brown Corporation 467

Supporting Same Time/Same Place Presentations and Discussions 470
Case Example: HICSS 471
Supporting Different-Place Collaboration 473
Case Example: Boeing-Rocketdyne 474
Managing Collaboration in Virtual Organizations 478
Motivating a Virtual Workforce 479
Governing Virtual Organizations 480
Conclusion 481
Questions and Exercises 482
References 483

CHAPTER 13 SUPPORTING KNOWLEDGE WORK 484

Introduction 484
Companies Want to "Manage" Knowledge 485
A Model for Managing Knowledge 486
Building Human Capital 487
Case Example: Buckman Laboratories 488
Case Example: BP 491
Building Structural Capital 492
Case Example: A Pharmaceutical Company 493
Case Example: Skandia Future Centers 494
Case Example: A U.S. Energy Company 496
Building Customer Capital 497
Case Example: A North American Bank 497
The Cultural Side of Knowledge Management 500
Case Example: Partners HealthCare System 502
Intellectual Capital Issues 503
Value Issues 504
Usage Issues 505
Sharing Issues 505
The Vast Arena of Computer Ethics 506
A Little History 506
What Is Computer Ethics? 507
Information Privacy 509
Intellectual Property Rights 510
Legal Jurisdiction 512
Online Contracting 513
Case Example: Clickwrap Agreements 514
Conclusion 515
Questions and Exercises 516
References 517

Part IV Discussion Case: How Should Lego Protect Its Trademark, Operating System, and Applications? 518

PART V: THINKING AHEAD 521

CHAPTER 14 THE CHALLENGES AHEAD 523

Introduction 523

Organizing Principles 524

Processes Rather Than Functions 524
Case Example: NYNEX 526
Case Example: A Football Team 527
Self-Organizing Rather Than Designed 527
Case Example: Cemex 529
Case Example: Semco S. A. 530
Communities Rather Than Groups 531
Case Example: National Semiconductor 532
Virtual Rather Than Physical 533
Case Example: Sun Microsystems 534
The Learning Organization 534

Understanding a Networked World 536

The Internet Mindset 536
Where's the Value in a Network? 538
The Rules of Networks 541

Moving Forward 545

Understanding Users 545
Increasing Executives' Understanding of IT 548
Case Example: MIT's IT for Non-IT Executives *Program 552*

Conclusion 554

Questions and Exercises 555

References 556

Glossary 557

Index 571
