

Thad Godish

# Air Quality

4th Edition

LEWIS PUBLISHERS

<b>Chapter 1</b>	<b>The Atmosphere</b>	
1.1	Chemical Composition	1
1.1.1	General Composition	1
1.1.2	Water	4
1.2	Physical Phenomena	6
1.2.1	Solar Radiation	6
1.2.2	Terrestrial Thermal Radiation	7
1.2.3	Energy Balance	7
1.2.4	Surface Temperatures	9
1.2.5	Vertical Temperature Gradients	9
1.2.6	Gravity	11
1.2.7	Atmospheric Density	11
1.2.8	Atmospheric Pressure	12
1.3	Atmospheric Motion	12
1.3.1	Winds	13
1.3.2	Pressure Gradient Force	13
1.3.3	Coriolis Effect	14
1.3.4	Friction	14
1.3.5	Cyclones and Anticyclones	15
1.3.6	General Circulation of the Atmosphere	17
1.4	Evolution of the Atmosphere	19
	Readings	21
	Questions	21
<b>Chapter 2</b>	<b>Atmospheric Pollution and Pollutants</b>	
2.1	Natural Air Pollution	23
2.2	Anthropogenic Air Pollution	24
2.2.1	Smog	24
2.2.2	Haze	26
2.2.3	Nontraditional Air Pollutants	26
2.2.4	Gases and Particles	26
2.2.4.1	Sources	27
2.2.4.2	National Emission Estimates	27
2.2.4.3	The National Emissions Picture	29
2.3	Gas-Phase Pollutants	31
2.3.1	Carbon Oxides	31
2.3.1.1	Carbon Dioxide	31
2.3.1.2	Carbon Monoxide	33
2.3.2	Sulfur Compounds	36
2.3.2.1	Sulfur Oxides	36
2.3.2.2	Reduced Sulfur Compounds	38
2.3.3	Nitrogen Compounds	38
2.3.3.1	Nitrous Oxide	39

2.3.3.2	Nitric Oxide .....	39
2.3.3.3	Nitrogen Dioxide .....	40
2.3.3.4	Nitrogen Oxides .....	41
2.3.3.5	Ammonia .....	42
2.3.3.6	Hydrogen Cyanide .....	42
2.3.3.7	Organic Nitrate Compounds .....	42
2.3.4	Hydrocarbon Compounds .....	43
2.3.4.1	Hydrocarbon Chemistry .....	43
2.3.4.2	Oxyhydrocarbons .....	45
2.3.4.3	Nonmethane Hydrocarbons .....	46
2.3.4.4	Methane .....	49
2.3.4.5	Halogenated Hydrocarbons .....	50
2.3.5	Photochemical Oxidants .....	51
2.3.5.1	Tropospheric Ozone Concentrations .....	54
2.3.5.2	Ozone Sinks .....	55
2.4	Atmospheric Particles .....	55
2.4.1	Classes and Sources .....	56
2.4.2	Size .....	56
2.4.3	Particle Shape .....	60
2.4.4	Chemical Composition .....	60
2.4.5	Source Apportionment .....	63
2.4.6	Behavior .....	63
2.4.7	Concentrations .....	65
2.4.8	Long-Range Transport from Sources Outside the U.S. ....	66
Readings	.....	67
Questions	.....	68

### **Chapter 3 Atmospheric Dispersion, Transport, and Deposition**

3.1	Dispersion and Transport .....	71
3.1.1	Wind .....	73
3.1.2	Turbulence .....	74
3.1.3	Atmospheric Stability .....	75
3.1.4	Inversions .....	76
3.1.4.1	Radiational Inversions .....	77
3.1.4.2	Subsidence Inversions .....	78
3.1.5	Mixing Height .....	80
3.1.6	Topography .....	81
3.1.7	Pollutant Dispersion from Point Sources .....	82
3.1.7.1	Pollutants and Diffusion .....	82
3.1.7.2	Plume Rise and Transport .....	82
3.1.7.3	Plume Characteristics .....	83
3.1.8	Large-Scale Transport and Dispersion .....	85
3.1.8.1	Long-Range Transport .....	85
3.1.8.2	Urban Plume .....	85
3.1.8.3	Planetary Transport .....	85
3.1.9	Stratosphere–Troposphere Exchange .....	86

3.1.10	Stratospheric Circulation .....	86
3.2	Atmospheric Removal and Deposition Processes .....	87
3.2.1	Atmospheric Lifetimes .....	87
3.2.2	Deposition Processes .....	88
3.3	Meteorological Applications: Air Pollution Control .....	89
3.3.1	Episode Planning .....	90
3.3.2	Air Quality Modeling .....	90
	Readings .....	90
	Questions.....	91

## **Chapter 4** Atmospheric Effects

4.1	Visibility .....	93
4.1.1	Natural Visibility Reduction .....	94
4.1.2	Visibility Concerns Associated with Human Activities .....	94
4.1.2.1	Smog .....	95
4.1.2.2	Regional Haze .....	95
4.1.2.3	Pristine Air .....	95
4.1.2.4	Arctic Haze .....	95
4.1.2.5	South Asian Haze .....	96
4.1.3	Factors Affecting Visibility Reduction .....	97
4.1.4	Meteorological Effects .....	99
4.1.5	Visibility Measurements .....	100
4.1.6	Visibility Patterns and Trends .....	101
4.2	Turbidity .....	103
4.3	Thermal Air Pollution .....	104
4.4	Effects on Precipitation and Precipitation Processes .....	105
4.5	Atmospheric Deposition .....	106
4.5.1	Acidic Deposition .....	106
4.5.1.1	Characteristics of the Phenomenon .....	106
4.5.1.2	Environmental Impacts .....	108
4.5.1.3	Trends in Sulfate and Acidic Deposition .....	110
4.5.2	Nitrogen Deposition .....	110
4.5.3	Mercury Deposition .....	111
4.5.4	Deposition of Pesticides, PCBs, Dioxins, and Furans .....	113
4.6	Stratospheric Ozone Depletion .....	113
4.6.1	Ozone Depletion Concerns .....	113
4.6.2	Ozone Layer Dynamics .....	114
4.6.3	Role of Nitrogen Oxides .....	115
4.6.4	Role of Chlorofluorocarbons and Other Halogenated Hydrocarbons .....	116
4.6.5	The Antarctic Ozone Hole .....	118
4.6.6	Ozone Depletion in the Arctic .....	121
4.6.7	Trends .....	121
4.6.8	Changes in Surface UV Light Radiation .....	122
4.6.9	Ozone Depletion Effects on Human Health .....	123
4.6.10	Recovery of the Ozone Layer .....	124

4.7	Global Warming .....	124
4.7.1	Climate and Global Climate .....	124
4.7.1.1	Orbital Changes and Climatic Variation .....	125
4.7.1.2	Variations in Solar Radiation .....	126
4.7.2	The Greenhouse Effect and Global Warming .....	128
4.7.3	Radiative Forcing .....	128
4.7.4	Greenhouse Gases .....	129
4.7.5	Evidence of Climate Change .....	131
4.7.6	Linking Climate Change to Anthropogenic Influences .....	133
4.7.7	Projections of the Earth's Future Climate .....	134
4.7.8	Global Warming Uncertainties .....	135
4.7.9	Environmental Impacts .....	136
4.7.10	Stratospheric Gases and Atmospheric Temperature Changes .....	137
	Readings .....	137
	Questions .....	139

## Chapter 5 Health Effects

5.1	Air Pollution Episodes .....	141
5.2	Pollutant Exposures and Cause–Effect Relationships .....	142
5.2.1	Epidemiological Studies .....	142
5.2.1.1	Confounding Factors .....	143
5.2.1.2	Interaction Effects .....	143
5.2.1.3	Exposure Assessment .....	145
5.2.1.4	Population Susceptibility .....	145
5.2.2	Toxicological Studies .....	147
5.2.2.1	Human Studies .....	147
5.2.2.2	Animal Studies .....	148
5.2.3	Occupational Exposure Studies .....	148
5.3	Impact of Pollutants on the Human Body .....	149
5.3.1	Eye Irritation .....	149
5.3.2	Effects on the Cardiovascular System .....	149
5.3.3	Effects on the Respiratory System .....	150
5.3.3.1	Units of the Respiratory System .....	150
5.3.3.2	Defense Mechanisms of the Respiratory System .....	152
5.3.3.3	Air Pollution and Respiratory Disease .....	153
5.4	Health Effects of Regulated Air Pollutants .....	156
5.4.1	Carbon Monoxide .....	156
5.4.2	Sulfur Oxides .....	159
5.4.2.1	Sulfur Dioxide .....	159
5.4.2.2	Acid Sulfate .....	161
5.4.3	Particulate Matter .....	162
5.4.4	Hydrocarbons .....	166
5.4.5	Nitrogen Oxides .....	167
5.4.6	Ozone .....	169
5.4.7	Lead .....	170

5.4.8	Hazardous Air Pollutants .....	174
5.5	Personal Air Pollution .....	175
5.6	Risk Assessment and Management .....	177
	Readings .....	179
	Questions .....	181

## **Chapter 6** Welfare Effects

6.1	Effects on Agricultural Crops, Ornamental Plants, and Trees .....	183
6.1.1	Plant Injury .....	185
6.1.1.1	Sulfur Dioxide .....	185
6.1.1.2	Ozone .....	186
6.1.1.3	Peroxyacyl Nitrate .....	187
6.1.1.4	Fluorides .....	188
6.1.1.5	Ethylene .....	189
6.1.1.6	Acidic Deposition .....	189
6.1.1.7	Interaction Effects .....	190
6.1.2	Economic Losses .....	190
6.1.3	Forest Declines .....	191
6.1.3.1	California Pines .....	191
6.1.3.2	Eastern White Pine .....	192
6.1.3.3	Red Spruce and Fraser Fir .....	192
6.1.3.4	Pines in the Southeast .....	192
6.1.3.5	Hardwoods in the Northeast .....	193
6.1.3.6	Declines in Central Europe .....	193
6.2	Effects on Domesticated Animals .....	194
6.2.1	Fluoride .....	194
6.2.2	Lead .....	195
6.2.3	Other Toxic Exposures .....	195
6.3	Ecological Effects .....	195
6.3.1	Phytotoxic Pollutants .....	196
6.3.2	Atmospheric Deposition .....	197
6.3.2.1	Acidic Deposition .....	197
6.3.2.2	Nitrogen .....	199
6.3.2.3	Mercury and Other Trace Metals .....	201
6.3.2.4	Organochlorine Compounds .....	201
6.3.3	Stratospheric Ozone Depletion .....	203
6.3.4	Global Warming .....	203
6.3.4.1	Polar Regions .....	204
6.3.4.2	Coastal Zones .....	204
6.3.4.3	Plant and Animal Communities .....	204
6.4	Effects on Materials .....	205
6.4.1	Metal Corrosion .....	206
6.4.2	Building Materials .....	207
6.4.3	Paints .....	208
6.4.4	Textiles and Textile Dyes .....	209
6.4.5	Paper and Leather .....	210

6.4.6	Rubber .....	210
6.4.7	Glass .....	211
6.4.8	Economic Losses .....	211
6.5	Odor Pollution .....	211
6.5.1	Odor Measurement .....	212
6.5.2	Odor Problems .....	213
	Readings .....	213
	Questions .....	215

## **Chapter 7** Air Quality and Emissions Assessment

7.1	Air Quality Monitoring .....	217
7.1.1	Monitoring Considerations .....	218
7.1.1.1	Sampling .....	218
7.1.1.2	Averaging Times .....	219
7.1.1.3	Sampling Techniques .....	219
7.1.2	Reporting Pollutant Concentrations .....	224
7.1.2.1	Accuracy, Precision, Bias .....	226
7.1.2.2	Calibration .....	228
7.1.3	Federal Monitoring Requirements .....	229
7.1.3.1	Air Quality Monitoring Networks .....	230
7.1.3.2	Federal Reference Methods .....	231
7.1.3.3	Quality Assurance Programs .....	235
7.1.3.4	Data Summarization and Characterization .....	235
7.1.3.5	Air Quality Index .....	239
7.2	Emissions Assessment .....	240
7.2.1	Source Sampling and Monitoring .....	240
7.2.2	Opacity .....	242
7.2.3	Emission Factors .....	242
7.3	Air Quality Modeling .....	245
7.3.1	Gaussian Models .....	246
7.3.2	Model Options .....	252
	Readings.....	253
	Online Sources .....	254
	Questions.....	254

## **Chapter 8** Regulation and Public Policy

8.1	Nonregulatory Legal Remedies .....	257
8.1.1	Nuisance .....	258
8.1.2	Trespass .....	258
8.2	Regulatory Strategies and Tactics .....	259
8.2.1	Strategies .....	259
8.2.1.1	Air Quality Management .....	259
8.2.1.2	Emission Standards .....	260
8.2.1.3	Economics-Based Approaches.....	261
8.2.2	Tactics .....	264

8.3	Federal Legislative History .....	265
8.3.1	1955 Clean Air Legislation .....	265
8.3.2	1963 Clean Air Act .....	265
8.3.3	Motor Vehicle Air Pollution Control Act .....	265
8.3.4	The Air Quality Act of 1967 .....	266
8.3.5	1970 Clean Air Act Amendments .....	266
8.3.6	1977 Clean Air Act Amendments .....	267
8.3.7	1990 Clean Air Act Amendments .....	267
8.3.8	Federalization .....	267
8.4	Air Pollution Control under the 1970, 1977, and 1990 CAA Amendments .....	268
8.4.1	Air Quality Standards .....	268
8.4.2	Air Quality Criteria .....	268
8.4.3	Air Quality Control Regions .....	269
8.4.4	State Implementation Plans .....	269
	8.4.4.1 Episode Plans .....	270
	8.4.4.2 Legal Authority .....	270
	8.4.4.3 State Implementation Plan Approval.....	270
8.4.5	Nonattainment of Air Quality Standards .....	270
8.4.6	New Source Performance Standards .....	272
8.4.7	Prevention of Significant Deterioration .....	273
8.4.8	Hazardous and Toxic Air Pollutants .....	275
8.4.9	Stratospheric Ozone Depletion .....	276
8.4.10	Acidic Deposition .....	277
8.4.11	Motor Vehicle Emission Control .....	278
	8.4.11.1 Vehicle Emissions .....	278
	8.4.11.2 Regulatory History .....	278
	8.4.11.3 Exhaust Gas Standards .....	279
	8.4.11.4 Light-Duty Motor Vehicle Emission Control Requirements .....	281
	8.4.11.5 Fuel Additives and Cleaner Fuels .....	282
	8.4.11.6 Emission Test Cycles .....	282
	8.4.11.7 Inspection and Maintenance .....	283
	8.4.11.8 Tampering Prohibitions .....	283
	8.4.11.9 Onboard Vapor Recovery Systems .....	283
	8.4.11.10 Onboard Diagnostic Systems .....	284
	8.4.11.11 Emission Requirements for Trucks and Other Vehicles .....	284
	8.4.11.12 Clean-Fuel Vehicles .....	284
	8.4.11.13 Clean Fleets .....	284
8.4.12	Enforcement .....	284
8.4.13	Permit Requirements .....	285
8.4.14	Citizen Suits .....	286
8.4.15	Pollution Prevention.....	286
8.5	State and Local Air Pollution Control Functions .....	287
8.5.1	Boards and Agencies .....	288

8.5.2	Effectiveness of State and Local Programs .....	288
8.6	Public Policy Issues .....	289
8.6.1	Global Warming and the Kyoto Protocol .....	289
8.6.2	Revised Ozone and Particulate Matter NAAQSs .....	290
8.6.3	New Source Review .....	291
8.6.4	Motor Vehicle Emissions .....	292
	Readings .....	294
	Questions .....	295

## **Chapter 9** Control of Motor Vehicle Emissions

9.1	Motor Vehicle Engines .....	299
9.1.1	Otto Cycle Spark Ignition Engines .....	300
9.1.1.1	Engine Characteristics .....	300
9.1.1.2	Emissions .....	301
9.1.1.3	Formation of Combustion Pollutants .....	301
9.1.1.4	Emission Control Techniques and Systems .....	303
9.1.2	Compression Ignition Engines .....	310
9.2	Automotive Fuels .....	312
9.2.1	Gasolines .....	312
9.2.1.1	Octane Rating .....	312
9.2.1.2	Gasoline Composition and Emissions .....	313
9.2.1.3	Reformulated Gasolines and Oxygenated Additives .....	313
9.2.2	Alternative Fuels .....	314
9.2.2.1	Alcohol Fuels .....	314
9.2.2.2	Compressed and Liquefied Gases .....	315
9.3	Low Emission and Zero Emission Vehicles .....	316
9.3.1	Low Emission Vehicles .....	316
9.3.2	Hybrid Electric Vehicles .....	316
9.3.3	Electric Vehicles .....	318
	Readings .....	318
	Questions .....	319

## **Chapter 10** Control of Emissions from Stationary Sources

10.1	Control Practices .....	321
10.1.1	Tall Stacks .....	321
10.1.2	Fuel Use Policies .....	322
10.1.3	Fugitive Emissions .....	322
10.1.4	Pollution Prevention .....	323
10.1.4.1	Substitution .....	323
10.1.4.2	Process Equipment Changes .....	324
10.1.4.3	Plant Operating Practices .....	324
10.1.4.4	Maintenance .....	324
10.1.4.5	Process Changes .....	324
10.1.4.6	Energy Conservation .....	324
10.2	Gas Cleaning Technology .....	325
10.2.1	System Performance .....	325

10.2.2	Particle Collection Efficiency .....	326
10.2.3	Gas-Phase Contaminant Collection Efficiency .....	327
10.3	Control of Particulate-Phase Pollutants .....	328
10.3.1	Cyclonic Collectors .....	328
10.3.2	Electrostatic Precipitation .....	329
10.3.3	Filtration .....	331
10.3.3.1	Fabric Filters .....	331
10.3.3.2	Wet Scrubbers .....	332
10.4	Control of Gas-Phase Pollutants .....	334
10.4.1	Thermal Oxidation .....	335
10.4.1.1	Flare .....	335
10.4.1.2	Conventional Oxidizers .....	336
10.4.1.3	Catalytic Oxidation.....	336
10.4.1.4	Operating Considerations .....	337
10.4.2	Adsorption .....	337
10.4.3	Absorption .....	339
10.4.4	Control of Sulfur Oxides .....	341
10.4.4.1	Coal Beneficiation .....	342
10.4.4.2	Solvent Refining .....	342
10.4.4.3	Coal Gasification and Liquefaction .....	342
10.4.4.4	Flue Gas Desulfurization .....	342
10.4.5	Fluidized Bed Combustion .....	345
10.4.6	Biological Treatment .....	346
10.4.7	Control of Nitrogen Oxides .....	347
Readings	.....	347
Questions	.....	349

## **Chapter 11 Indoor Air Quality**

11.1	Personal, Indoor, and Outdoor Pollutant Relationships .....	352
11.1.1	Personal Pollutant Exposures .....	352
11.1.2	Indoor and Outdoor Pollutant Concentrations .....	352
11.2	Indoor Air Quality Concerns .....	353
11.3	Major Indoor Pollutants .....	354
11.3.1	Asbestos .....	354
11.3.2	Radon .....	357
11.3.2.1	Concentrations and Sources .....	357
11.3.2.2	Health Effects and Risks .....	358
11.3.3	Combustion By-Products .....	359
11.3.3.1	Unvented Combustion Systems .....	359
11.3.3.2	Vented Combustion Systems .....	362
11.3.3.3	Miscellaneous Sources .....	363
11.3.4	Aldehydes .....	368
11.3.4.1	Formaldehyde .....	368
11.3.4.2	Acrolein .....	370
11.3.4.3	Glutaraldehyde .....	371
11.3.5	Volatile and Semivolatile Organic Compounds .....	371

11.3.5.1	Volatile Organic Compounds .....	371
11.3.5.2	Semivolatile Organic Compounds .....	372
11.3.6	Biological Contaminants .....	375
11.3.6.1	Illness Syndromes .....	376
11.3.6.2	Other Health Concerns .....	378
11.4	Problem Buildings .....	379
11.4.1	Building-Related Illness .....	380
11.4.2	Sick Building Syndrome .....	380
11.4.3	Field Investigations and Systematic Building Studies .....	380
11.4.4	Risk Factors .....	382
11.5	Investigating Indoor Air Quality Problems .....	383
11.6	Measurement of Indoor Contaminants .....	385
11.7	Prevention and Control Measures .....	385
11.7.1	Source Management .....	385
11.7.1.1	Exclusion .....	385
11.7.1.2	Source Removal .....	386
11.7.1.3	Source Treatment .....	386
11.7.2	Contaminant Control .....	386
11.7.2.1	Ventilation .....	386
11.7.2.2	Air Cleaning .....	389
11.8	Indoor Air Quality and Public Policy .....	390
Readings	.....	391
Questions	.....	392

## **Chapter 12 Environmental Noise**

12.1	Sound and Its Measurement .....	395
12.1.1	Sound Energy .....	396
12.1.2	Sound Measurement.....	398
12.1.2.1	Weighting Scales .....	399
12.1.2.2	Meter Response and Instrument Accuracy .....	401
12.1.2.3	Measurement of Impulse Sound .....	401
12.1.2.4	Spectrum Analysis .....	401
12.2	Sound Exposure Descriptors.....	402
12.2.1	A-Weighted Sound Level .....	402
12.2.2	A-Weighted Sound Exposure Level .....	402
12.2.3	Equivalent Sound Level .....	403
12.2.4	Day-Night Sound Level .....	404
12.3	Loudness.....	405
12.4	Effects of Environmental Noise Exposure .....	406
12.4.1	Hearing Impairment .....	406
12.4.2	Speech Communication .....	409
12.4.3	Sleep Disturbance .....	411
12.4.4	Psychophysiological Effects .....	411
12.4.5	Performance .....	412
12.4.6	Annoyance and Social Behavior.....	412
12.5	Nonregulatory and Regulatory Control Approaches .....	412

12.5.1 Community Exposure Guidelines .....	412
12.5.2 Community Regulatory Efforts.....	413
12.5.3 Federal Noise Control Programs .....	414
12.6 Control Measures .....	415
Readings .....	415
Questions .....	416
<b>Glossary</b> .....	<b>419</b>
<b>Index</b> .....	<b>441</b>
