

# Basic Geological Mapping

**THE GEOLOGICAL FIELD GUIDE SERIES**

John W. Barnes with Richard J. Lisle

**WILEY**

**FOURTH EDITION**

# CONTENTS

---

<b>Preface</b>	<b>ix</b>
<b>Acknowledgments</b>	<b>xi</b>
<b>1 Introduction</b>	<b>1</b>
1.1 Outline and Approach	1
1.2 Field Behaviour	2
1.3 Safety	2
1.4 Ancillary Skills	3
1.5 A Few Words of Comfort	3
<b>2 Field Equipment</b>	<b>5</b>
2.1 Hammers and Chisels	5
2.2 Compasses and Clinometers	7
2.3 Handlenses	13
2.4 Tapes	13
2.5 Map Cases	13
2.6 Field Notebooks	13
2.7 Scales	14
2.8 Protractors	15
2.9 Pencils and Erasers	16
2.10 Acid Bottles	16
2.11 Global Positioning System (GPS)	16
2.12 Other Instruments	18
2.13 Field Clothing	19
<b>3 Geological Maps and Base Maps</b>	<b>21</b>
3.1 Types of Geological Map	21
3.2 Topographic Base Maps	23
3.3 Geographic Coordinates and Metric Grids	25
3.4 Position Finding on Maps	27
3.5 Magnetic Declination	33
3.6 Planetable Mapping	33
3.7 Aerial Photographs	34
3.8 Satellite Imagery	42
<b>4 Methods of Geological Mapping</b>	<b>43</b>
4.1 Traversing	43

4.2	Following Contacts	47
4.3	Exposure or Green Line Mapping	47
4.4	Mapping in Poorly Exposed Regions	50
4.5	Superficial Deposits	53
4.6	Drilling	58
4.7	Geophysical Aids to Mapping	59
4.8	Large-scale Maps of Limited Areas	59
4.9	Underground Mapping	63
4.10	Photogeology	64
<b>5</b>	<b>Field Measurements and Techniques</b>	<b>69</b>
5.1	Measuring Strike and Dip	69
5.2	Plotting Strike and Dip	73
5.3	Recording Strike and Dip	74
5.4	Measuring Linear Features	75
5.5	Folds	79
5.6	Faults	82
5.7	Thrusts and Unconformities	84
5.8	Joints	85
5.9	Map Symbols	86
5.10	Specimen Collecting	86
5.11	Field Photography	89
5.12	Panning	90
<b>6</b>	<b>Rocks, Fossils and Ores</b>	<b>93</b>
6.1	Rock Descriptions	93
6.2	Identifying and Naming Rocks in the Field	94
6.3	Litho-stratigraphy and Sedimentary Rocks	94
6.4	Fossils	99
6.5	Phaneritic Igneous Rocks	100
6.6	Aphanitic Igneous Rocks	101
6.7	Veins and Pegmatites	101
6.8	Igneous Rocks in General	103
6.9	Pyroclastic Rocks	103
6.10	Metamorphic Rocks	104
6.11	Economic Geology	105
<b>7</b>	<b>Field Maps and Field Notebooks</b>	<b>113</b>
7.1	Field Maps	113
7.2	Field Notebooks	120
<b>8</b>	<b>Fair Copy Maps and Other Illustrations</b>	<b>125</b>
8.1	Fair Copy Maps	125

8.2	Transferring Topography	126
8.3	Transferring Geology	126
8.4	Lettering and Symbols	127
8.5	Formation Letters	128
8.6	Layout	128
8.7	Colouring	128
8.8	Cross-sections	130
8.9	Overlays	131
8.10	Computer Drafting of the Fair Copy Map	131
8.11	Text Illustrations	132

## **9 Cross-sections and Three-dimensional Illustrations 133**

9.1	Cross-sections	133
9.2	Plotting and Drawing Cross-sections	134
9.3	Three-dimensional Illustrations	139
9.4	Models	140

## **10 Geological Reports 143**

10.1	Preparation	143
10.2	Revision and Editing	144
10.3	Layout	145
10.4	Introduction	146
10.5	Main Body of the Report	147
10.6	Conclusions	148
10.7	References	148
10.8	Appendices	150

## **Appendix I: Safety in the Field 151**

I.1	Emergency Kit	152
I.2	Distress Signals	152
I.3	Exposure	152
I.4	Lightning	153
I.5	Health in Warm Climates	153
I.6	Students in the Field	154

## **Appendix II: Adjustment of a Closed Compass Traverse 157**

## **Appendix III: Geological Planetabling 159**

## **Appendix IV: Field Equipment Checklist 163**

Mapping equipment	163
Sampling equipment	164
Rucksack kit	164

## CONTENTS

---

Rucksack emergency kit	164
Field clothing (temperate and cold climates)	165
Field clothing (warm climates)	165
Drawing, plotting, 'office' equipment	165
Items for camp use	166
Paperwork	167
Also!	167
<b>Appendix V: Useful Charts and Tables</b>	<b>169</b>
Table AV.1 Spacing for bedding and jointing	169
Table AV.2 Abridged grain-size scales	169
Chart AV.1 Percentage area chart	170
<b>References and further reading</b>	<b>171</b>
<b>Index</b>	<b>175</b>
