<i>List of Contributors</i>	<i>iii</i>
<i>Foreword</i>	<i>xi</i>
<b>1 Introduction</b>	<b>1</b>
CRAIG SAMS	
1.1 Introduction	1
1.2 Organic farming	1
1.3 Conversion	3
1.4 Biodynamic farming	4
1.5 The cost of organic farming	4
1.6 How subsidies make organic farming uncompetitive	5
1.7 How does it work?	5
1.8 First World agriculture and Third World poverty	7
1.9 Fair trade organic farming	8
1.10 History of the organic movement in the UK	9
1.11 UK market development	11
1.12 Producers, processors and marketeers	13
<b>2 International Legislation and Importation</b>	<b>16</b>
DAVID CRUCEFIX and FRANCIS BLAKE	
2.1 Introduction	16
2.2 The road to legislation	16
2.3 Standards for production systems, not products	19
2.4 Legislation	21
2.4.1 European Regulation on organic agriculture	21
2.4.2 Other countries	29
2.4.3 Japan	32
2.5 International trade and equivalence	32
2.5.1 Private certifiers	32
2.5.2 Impact of the EU Regulation on international trade	33
2.5.3 Imports into other countries	37
2.6 Harmonisation	37
2.6.1 International Federation of Organic Agriculture Movements (IFOAM)	38
2.6.2 Codex Alimentarius (Codex)	38
2.7 Future developments	39

<b>3</b>	<b>Organic Certification and the Importation of Organically Produced Foods</b>	<b>41</b>
	JOHN DALBY with MICHAEL MICHAUD and MARK REDMAN	
3.1	Introduction	41
3.2	Organic certification and its importance	41
3.3	Organic standards and certification protocol	42
3.4	Development of organic certification as a legal requirement	43
3.5	The structure of organic certification schemes in the EU	44
3.6	Certification protocol	46
3.6.1	Determination of eligibility of a business for organic certification	47
3.6.2	Making an application	52
3.6.3	Inspection	53
3.6.4	Post-inspection activities and certification	56
3.7	Imports of organically produced foods	57
3.7.1	Imports from approved third countries	57
3.7.2	Imports from non-approved third countries	58
3.8	The future development of organic certification	60
<b>4</b>	<b>International Market Growth and Prospects</b>	<b>62</b>
	CAROLYN FOSTER	
4.1	Introduction	62
4.2	Organic production	62
4.2.1	Market size	63
4.2.2	Key products	65
4.3	Distribution channels (market structure)	66
4.3.1	Processing and wholesaling	68
4.3.2	Retailing	69
4.4	International trade in organic products	72
4.5	Policy support for organic marketing and processing	73
4.6	Future prospects	74
<b>5</b>	<b>Fruit and Vegetables</b>	<b>78</b>
	ROBERT DUXBURY	
5.1	Introduction	78
5.2	The market	79
5.3	Availability	81
5.4	Growing systems	86
5.4.1	Fertility	87
5.4.2	Pest and disease control	87
5.4.3	Weed control	88
5.4.4	Conversion	88
5.4.5	Site selection	89
5.4.6	Seed availability and plant propagation	89
5.4.7	Harvesting and storage	90
5.4.8	Packing and presentation	90

5.5	Conclusion	91
<b>6</b>	<b>Organic Meat and Fish: Production, Processing and Marketing</b>	<b>92</b>
	RICHARD MAUNDER with BOB KENNARD	
6.1	Organic meat	92
6.1.1	Introduction	92
6.1.2	Production standards	93
6.1.3	Livestock production	96
6.1.4	Livestock marketing and transportation	98
6.1.5	Processing: standards and application	100
6.1.6	Further processing of meat	102
6.1.7	Marketing of organic meat and meat products	102
6.1.8	European perspective	103
6.2	Organic fish	104
6.2.1	Introduction	104
6.2.2	Farmed organic fish	104
6.2.3	Wild organic fish	104
<b>7</b>	<b>Organic Poultry Meat Production</b>	<b>106</b>
	PETER CHALLANDS and DAVID LANNING	
7.1	Introduction	106
7.2	Choice of market	107
7.2.1	Farm-gate or local sales	107
7.2.2	Supermarket production	108
7.3	Production standards	109
7.4	Conversion periods	111
7.5	Breed selection	115
7.6	Feed selection	116
7.7	Location and land selection	116
7.8	House selection	117
7.9	Power supply	118
7.10	Planning permission	118
7.11	Chick quality and brooding	118
7.12	Veterinary advice and poultry health	119
7.13	Welfare	120
7.14	Predators	120
7.15	Collection and transport	121
<b>8</b>	<b>Organic Dairy in the United States</b>	<b>122</b>
	LOUISE HEMSTED	
8.1	Conventional dairy issues	122
8.2	Organic dairy pioneers	123
8.3	Farms, family and corporate	123
8.3.1	Family farm model	123

8.3.2	Modern (corporate) farm model	124
8.4	Sustainability of organic agriculture	125
8.4.1	Crop management	125
8.4.2	Ration balancing	127
8.4.3	Herd health	127
8.5	Organic dairy products	128
8.5.1	Fluid milk processing	129
8.5.2	Butter processing	129
8.5.3	Cheese production	129
8.5.4	Yogurt	130
8.5.5	Ice cream	130
8.5.6	Powdered milk	130
8.6	Conclusion	131
<b>9</b>	<b>Baked Goods and Cereal Products</b>	<b>132</b>
	ANDREW WHITLEY	
9.1	Cereal products	132
9.1.1	Cereal usage	132
9.1.2	The market	133
9.1.3	Production and processing issues	135
9.1.4	Breakfast cereals	135
9.2	Baked goods	136
9.2.1	Market overview	136
9.2.2	Operational issues	140
9.2.3	Technical limitations	141
9.2.4	Market issues	143
9.2.5	Distribution and packaging	144
9.2.6	Future trends	144
<b>10</b>	<b>Other Organic Processed Food</b>	<b>146</b>
	ANDREW JEDWELL	
10.1	Introduction	146
10.2	Overview	146
10.3	First steps	149
10.4	Product issues	154
<b>11</b>	<b>Organic Alcoholic Drinks</b>	<b>158</b>
	RENEE ELLIOTT	
11.1	Introduction	158
11.2	Conventional wine	159
11.3	Organic regulations	160
11.3.1	Soil	161
11.3.2	Pests and diseases	161
11.3.3	Weeds	163

11.3.4	In the winery	163
11.4	Organic Grapes into Wine Alliance (OGWA)	165
11.5	Fetzer spotlight	165
11.6	Biodynamic	171
11.7	EU labelling regulation	173
11.8	Vegetarian and vegan	175
11.9	Beer and the rest	175
11.10	Sellers	176
11.11	Associations	177
<b>12</b>	<b>Research</b>	<b>179</b>
	COLIN SPEDDING	
12.1	Organic vs conventional agricultural research	179
12.2	Problems requiring research	180
12.2.1	Problems of crop production	181
12.2.2	Problems of animal production	181
12.2.3	Processing	182
12.3	Nature of the research required	183
12.4	Organisational structures and funding	184
12.4.1	Government funding	187
12.5	Environmental impact	189
<b>13</b>	<b>Australia and New Zealand</b>	<b>191</b>
	SCOTT KINEAR	
13.1	Australia	191
13.1.1	Brief history of organic and biodynamic movement	191
13.1.2	The agricultural landscape in Australia	191
13.1.3	Market overview of production	192
13.1.4	Organic industry organisations	193
13.1.5	Regulations for production and processing in Australia	196
13.1.6	Market overview of exports	197
13.1.7	Market review of domestic consumption	197
13.1.8	Organic industry profiles	199
13.1.9	Domestic controls for organic products	205
13.1.10	Government policy and involvement	206
13.1.11	Genetic engineering	207
13.1.12	Future directions	208
13.2	New Zealand	209
13.2.1	Brief history of organic and biodynamic movement	209
13.2.2	The agricultural landscape in New Zealand	210
13.2.3	Market overview of production	210
13.2.4	Organic industry organisations	211
13.2.5	Regulations for production and processing	212
13.2.6	Market overview of exports	213
13.2.7	Market overview domestic consumption	215

**x**     *Contents*

13.2.8	New Zealand organic industry profiles	215
13.2.9	Domestic controls for organic	217
13.2.10	Government policy and involvement	218
13.2.11	Genetic engineering	218
13.2.12	Future directions	219
