

Animal Health and Welfare in Organic Agriculture

Edited by
M. Vaarst,
S. Roderick,
V. Lund and
W. Lockeretz

CABI Publishing

Contents

Contributors	xi
Preface	xv
Foreword	xix
<i>E. Boehncke</i>	
1. Organic Principles and Values: the Framework for Organic Animal Husbandry	1
<i>Mette Vaarst, Stephen Roderick, Vonne Lund, Willie Lockeretz and Malla Hovi</i>	
Animals in Organic Farming	1
Development of Organic Farming and its Core Values	3
Sources of the Principles and Values of Organic Farming	4
The Outlook for European Organic Farming and the Role of Animals in it	8
Organic Farming: a Potential Influence on Mainstream Agriculture?	9
To Conclude	10
2. The Role of Animals in Farming Systems: a Historical Perspective	13
<i>Ton Baars, Jan Paul Wagenaar, Susanne Padel and Willie Lockeretz</i>	
Introduction	13
Phases in European Agricultural Development	14
Domestication in Relation to Ecology and Adaptation	15

Consequences of the Transformation of Agriculture in the 20th Century	16
Pigs	18
Chickens	20
Cattle	23
Concluding Comment	24
3. The Diversity of Organic Livestock Systems in Europe	29
<i>Stephen Roderick, Britt Henriksen, Roberto Garcia Trujillo, Monique Bestman and Michael Walkenhorst</i>	
Setting the Scene – the Livestock Production Zones of Europe	30
Institutional and Political Diversity	31
Climate, Resources and Marginal Areas	33
Climate and Housing	38
Within-country Diversity	38
Indigenous Breeds	39
Securing a Feed Supply	43
Restrictions on Animal Health Control Practices	46
Integrating Livestock Systems	48
In Conclusion	52
4. Organic Livestock Standards	57
<i>Susanne Padel, Otto Schmid and Vonne Lund</i>	
Historical Development of Organic Livestock Standards	57
Functions of Organic Farming Standards	61
Conflicts and Trade-offs	62
Summary of the Main Areas Currently Regulated in the EU	63
Comparison of Different International Livestock Standards	68
Future Development	70
5. Animal Welfare, Ethics and Organic Farming	73
<i>Henk Verhoog, Vonne Lund and Hugo Fjelsted Alrøe</i>	
Introduction	73
Different Understanding of Animal Welfare	75
Do Animals have Minds or Feelings?	76
Values and Science	78
Animal Welfare and Different Ethical Frameworks	79
Values in Organic Farming	83
Animal Welfare in an Organic Context	87
Dilemmas	89
Future Challenges	91

6. Understanding Animal Behaviour and its Use in Organic Animal Husbandry	95
<i>Vonne Lund and Dan Weary</i>	
Introduction	95
Improved Husbandry through Improved Knowledge of Animal Behaviour	96
Behaviour of Wild Animals	100
Social Behaviour	102
Natural Behaviours as an Asset in Production	103
Using the Study of Animal Behaviour to Assess and Improve Animal Well-being	105
Behavioural Indicators of Subjective States	107
Summary and Conclusions	110
7. Applied Ethology: the Basis for Improved Animal Welfare in Organic Farming	117
<i>Susanne Waiblinger, Johannes Baumgartner, Marthe Kiley-Worthington and Knut Niebuhr</i>	
Introduction	117
Natural Behaviour – the Key for a Life of Quality in Animals	118
Cattle	124
Pigs	131
Poultry (Laying Hens)	139
Conclusions for Organic Animal Husbandry – Current Knowledge, Current Systems and Future Requirements	145
8. Mutilations in Organic Animal Husbandry: Dilemmas Involving Animal Welfare, Humans, and Environmental Protection	163
<i>Christoph Menke, Susanne Waiblinger, Merete Studnitz and Monique Bestman</i>	
Introduction	164
Dehorning of Dairy Cows – Creating a Dilemma in Organic Agriculture?	165
Feather Pecking in Laying Hens	172
Nose Ringing of Sows	176
Final Discussion	180
9. Assessing Animal Welfare in Organic Herds	189
<i>Ute Knierim, Albert Sundrum, Torben Bennedsgaard, Ulla Roiha and Pernille Fraas Johnsen</i>	
Relevance of Animal Welfare to Organic Farming	190
General Difficulties in the Assessment of Animal Welfare	190
Minimum Standards	192

Integrated Welfare Measures	193
Individual Integrated System Evaluations	197
Do we need Different Welfare Assessment Approaches on Organic and Conventional Farms?	199
Conclusions	199
10. The Role of Humans in the Management of Organic Herds	205
<i>Mette Vaarst, Francoise Wemelsfelder, Martin Seabrook, Xavier Boivin and Anita Idel</i>	
Introduction	206
Human-Animal Relationships	207
Sources of Farmers' Knowledge	209
The Role of the Farmer in Daily Practice	212
Caring for the Animals' 'Natural Lives' on the Organic Farm	216
Looking Ahead: Developing an Ethical Framework for Animal Welfare in Organic Farming	221
11. Animal Health and Diseases in Organic Farming: an Overview	227
<i>Stig Milan Thamsborg, Stephen Roderick and Albert Sundrum</i>	
Introduction	228
Organic Dairy Production	230
Organic Sheep Production	234
Organic Poultry Production	236
Organic Pig Production	241
Food Safety	243
Future Challenges	246
12. Promoting Health and Welfare through Planning	253
<i>Malla Hovi, Douglas Gray, Mette Vaarst, Andreas Striezel, Michael Walkenhorst and Stephen Roderick</i>	
Introduction	254
The Concept of Animal Health in Organic Farming	254
Health Planning – What is it?	256
Health Planning – Goals and Objectives	259
Health Planning – What Should be Included?	262
Health Plans – Continuity and Motivation	270
Health Planning and the Conversion Process	272
Future Challenges to Health Planning on Organic Farms	273
13. Approaches to the Treatment of Diseased Animals	279
<i>Mette Vaarst, Andrea Martini, Torbet Werner Bennedsgaard and Lisbeth Hektoen</i>	
Introduction	279

Organic Standards and Use of Medicines	284
Current Knowledge about the Use of Medicines in Organic Herds	285
The Mastitis Treatment Situation in Danish Organic Dairy Herds over the Past Decade	286
Perception of Disease	288
Categories of Disease Treatments	289
Categories of Treatment Methods used in Organic Farming	290
An Organic Approach to Biomedicine: Responsible Use of Antibiotics	291
Homoeopathy: a Professional Medical School that Offers an Alternative to Biomedicine	292
Alternatives to Biomedical and Homoeopathic Treatments: From Drying off Glands to Herbal Medicine	295
How can our Knowledge of Farmers' Attitudes be used in the Development of 'Organic' Treatment Strategies?	298
Supporting the Diseased Animal	299
Self-medication and Self-cure	301
Conversion to Organic Farming: a Situation of Chaos and Changes that Affect Disease Treatment Patterns and Needs	301
Conclusions	302
14. Grassland Management and Parasite Control	309
<i>David Younie, Stig Milan Thamsborg, Francesca Ambrosini and Stephen Roderick</i>	
Introduction	309
Gastrointestinal Nematode Infections of Ruminants: Epidemiological Considerations	310
Potential for Control of Gastrointestinal Nematodes by Grazing Management	312
Lungworm Infections	319
Liver Fluke	321
Coccidiosis	322
Ectoparasites	322
Conclusion	324
15. Feeding for Health and Welfare: the Challenge of Formulating Well-balanced Rations in Organic Livestock Production	329
<i>Werner Zollitsch, Troels Kristensen, Christian Krutzinna, Finnain MacNaeihde and David Younie</i>	
Introduction	330
Feeding Strategies for Organic Livestock	331
The Concept of Balancing Nutrient Supply and Nutrient Requirement	331

Mineral Nutrition	332
Dairy Cows	337
Beef Cattle	341
Sheep	342
Pigs and Poultry	343
Nutrition of Organic Pigs	345
Nutrition of Organic Poultry	347
Conclusions and Prospects	349
16. Breeding Strategies for Organic Livestock	357
<i>Jennie E. Pryce, Jo Conington, Paul Sørensen, Hillary R.C. Kelly and Lotta Rydhmer</i>	
Introduction	358
Breeding Objectives	359
Breeding for Disease Resistance	360
Selection Objectives Specific to Different Livestock	361
Achieving the Chosen Breeding Objectives	371
Genetic Evaluations and Environments	375
The Use of Molecular Genetics	377
Reproductive Technologies	378
Indigenous Livestock and Genetic Diversity	380
Conclusions	381
17. Organic Animal Husbandry: the Future Challenges	389
<i>Mette Vaarst, Stephen Roderick, Vonne Lund, Willie Lockeretz and Malla Hovi</i>	
Introduction	389
Understanding the Advantages, Risks and Epidemiological Implications of Organic Practices	390
Approaches to Health Management	391
Standards and Development of Good Practice	393
The Farm, the Herd and the Animal	395
The Practical Realities of Naturalness	398
Reconciling and Promoting Diversity	400
Technological Developments and Technology Transfer	401
Organic Animal Production in a Global Perspective	402
In Conclusion	403
Appendix	
A European Network for Animal Health and Welfare in Organic Agriculture (NAHWOA)	405
<i>Malla Hovi</i>	
Index	419
