CHAPTER 9	The Customer Connection	169
	Understanding Customer Requirements	169
	Working with Customers on Projects	181
	Using Customer Scorecards	182
	Conclusion	185
	<i>An Interview with Ruth Fattori, Conseco</i>	186
CHAPTER 10	Process Improvement-DMAIC	196
	Project Selection	197
	Define	197
	Measure	202
	Analyze	204
	Improve	206
	Control	208
	Conclusion	209
	<i>An Interview with Stephen J. Senkowski, Armstrong Building Products</i>	211
CHAPTER 11	Design for Six Sigma	219
	Antecedents to Design for Six Sigma	219
	A Glimpse into the Early Design Excellence Toolbox	220
	The Rationale for Design for Six Sigma	226
	DMADV: The DFSS Road Map	232
	DFSS in the Context of Existing Design Processes	240
