

MARGI SIROIS

PRINCIPLES AND PRACTICE OF
Veterinary Technology

SECOND EDITION

 Mosby

PART ONE

PRINCIPLES OF VETERINARY TECHNOLOGY, 1

1 Overview of Veterinary Technology, 3

- Education of Veterinary Technicians, 3
- Nomenclature Describing Veterinary Personnel, 3
 - AVMA Policy on Veterinary Technology Preamble, 4*
- Scope of Veterinary Technician's Duties, 4
- Career Opportunities for Veterinary Technicians, 5
- Salary Ranges for Veterinary Technicians, 6
- Certification, Registration, and Licensing of Veterinary Technicians, 6
- The Future of Veterinary Technology, 6
- Veterinary Technician Organizations, 6

2 Ethical, Legal, and Safety Issues in Veterinary Medicine, 8

Ethics, 8

- Ethics of Working With Animals, 8
- Ethics of the Veterinary Profession, 9
- Professional Ethics, 9
- Ethics of Service to the Public, 9
- Obligations to the Animal Kingdom, 10

Law, 10

- Laws That Ensure the Quality of Veterinary Service, 10
 - Practice Acts, 10*
 - Common Law Malpractice, 11*
- Laws That Provide a Safe Business Environment, 11
 - Occupational Safety and Health Act, 11*
 - Common Law Ordinary Negligence, 11*
 - Medical Waste Management Laws, 11*
- Laws That Maintain a Nonhostile Working Environment, 11
- Laws That Control the Biomedical Industry, 12

Safety, 12

- Occupational Health and Safety in the Biomedical Industry, 12
- Occupational Health and Safety Programs, 12
- Standard Operational Procedures, 13
- Biosafety Hazard Considerations in Biomedical Laboratories, 13
 - Biosafety Classifications, 13*
- Occupational Health and Safety in Veterinary Practice, 14
 - Machinery and Moving Parts, 14*
 - Slips and Falls, 14*
 - Lifting, 14*
 - Storing Supplies, 14*

- Toxic Substances, 14*
- Heating Devices, 14*
- Eye Safety, 14*
- Hazards of Animal Handling, 15*
- Hazards of Bathing and Dipping, 15*
- Zoonotic Hazards, 15*
- Radiation Hazards, 16*
- Anesthetic Hazards, 17*
- Hazards of Compressed Gases, 17*
- Hazards of Sharp Objects, 18*
- Chemical Hazards, 18*
- Electrical Hazards, 19*
- Personal Safety, 20*

3 Practice Management, 21

- Front Office, 21
- Office Visit, 21
- Admitting a Patient, 22
- Discharging a Patient, 22
 - Billing, Collection, and Credit Management, 27*
 - Client Communication, 27*
 - Client Surveys, 29*
 - Focus Groups and Advisory Boards, 29*
 - Value-Added Services, 31*
- Clinic Operations, 32
 - Scheduling of Work, 32*
 - Teamwork and Hiring the Best, 32*
 - Employee Record Keeping, 33*
- Controlled Substances, 39
- Vendor Transactions, 40
- Using Computers, 40
 - Use of a Computer, 40*
- Facility Maintenance, 41

4 Human Interaction in the Veterinary Workplace, 43

- Communication Process, 43
 - Barriers to Communication, 44*
 - Building Effective Listening Skills, 45*
 - Assertive Communication Strategies, 46*
 - Conflict Management, 48*
 - Summary, 51*
- Sexual Harassment, 51
- Clinic Communication, 52
 - Telephone Etiquette, 52*
- Preparing for the Visit, 54
 - Clinic Exterior, 54*
 - Reception Area, 54*
- The Visit, 55
 - Maintaining a Professional Demeanor, 55*
 - Informing the Client, 55*
 - Ensuring Punctuality, 55*

Preparing the Examination Room, 56
Hospitalizing a Patient, 56
Written Estimates, 56
Postoperative Instructions, 57
Status Report, 57
Discharge of Hospitalized Animals, 57
The Bill, 57
Complaints About Charges, 57
Hospital Policy, 58
Completing the Transaction, 58
Client Departure, 58

Follow-up, 58

File Purging, 59
Importance of Persistence, 59

The Human Animal Bond, 59

Grief Counseling, 61

Stages of Grief, 61

Denial, 61
Bargaining, 61
Anger, 61
Guilt, 61
Sorrow, 61
Resolution, 62
Loneliness, 62

Replacement, 62

Assisting Bereaved Pet Owners, 62

Acknowledging the Loss, 62

Reflection, 63
Validating the Loss, 63
Attending, 63
Effective Listening, 63
Achieving Closure, 63

Effects of Patient Loss on Staff, 64

Compounded Loss, 64

Recognizing and Responding to Signals, 65
Referring to Mental Health Professionals, 65

Veterinary Medical Terminology, 67

Introduction to Word Parts, 67

Prefix, 67
Root Word, 67
Combining Forms, 67
Combining Vowel, 68
Combining Vowel Added to a Suffix, 68
Compound Word, 68

Using Word Parts to Form Words, 68

Use of the Prefix, 68
Suffix, 68
Compound Word, 68
Prefix and Suffix, 68
Prefix, Root Word, and Suffix, 69

Defining Medical Terms Using Word Analysis, 69

Combining Forms for Body Parts, 69

Suffixes for Surgical Procedures, 70

Suffixes for Diseases or Conditions, 70

Prefixes for Diseases or Conditions, 70

Plural Endings, 71

Suffixes for Instruments, Procedures, and
Machines, 71

Terms for Direction, Position, and Movement, 72

Dental Terminology, 73

PART TWO

BASIC SCIENCES, 75

6 Anatomy and Physiology, 77

General Terminology, 77

Cells, 78

Epithelial Tissue, 78

Connective Tissue, 79

Skeleton, 80

Types of Bones, 80
Common Bone Features, 80
Axial Skeleton, 81
Appendicular Skeleton, 81
Visceral Skeleton, 82
Joints, 82

Integument, 83

Skin, 83
Hair, 83
Claws and Hooves, 83
Horns, 83

Circulatory System, 83

Blood Vascular System, 83
Blood Circulation Pathways, 84
Lymphatic Vascular System, 86

Respiratory System, 86

Upper Respiratory Tract, 86
Lower Respiratory Tract, 86
Respiratory Mechanisms, 87

Digestive System, 87

Mouth, 87
Esophagus, 88
Stomach, 88
Intestine, 90
Accessory Digestive Organs, 90

Nervous System, 90

Central Nervous System, 91
Peripheral Nervous System, 92
Autonomic Nervous System, 92

Muscular System, 93

Skeletal Muscle, 93
Cardiac Muscle, 93
Smooth Muscle, 93

Senses, 94

General Senses, 94
Special Senses, 94

Endocrine System, 97
Hypothalamus, 97
Pituitary Gland, 97
Thyroid Gland, 98
Parathyroid Glands, 98
Adrenal Glands, 98
Pancreas, 98
Gonads, 98

Urinary System, 99
Kidneys, 100
Ureters, 100
Urinary Bladder, 100
Urethra, 100

Reproductive System, 100
Male Reproductive System, 100
Breeding Soundness Examination of Males, 102
Artificial Insemination, 102
Female Reproductive System, 105

Female Reproduction Physiology: Nonpregnant Animals, 106
Anestrus, 107
Proestrus, 107
Estrus, 107
Metestrus, 107
Diestrus, 107
Reproductive Physiologic Patterns, 107
Fertilization and Pregnancy, 113
Pregnancy Diagnosis, 113

Parturition, 113
Milk Production, 114

Necropsy Procedure, 115
Beginning the Necropsy, 115

Anatomic Variations, 119
Pigs, 119
Cattle, 119
Horses, 119

7

Nutrition, 121

Energy-Producing Nutrients, 121

Proteins, 121
Fats, 121
Carbohydrates, 121

Non-Energy-Producing Nutrients, 122

Water, 122
Vitamins, 122
Minerals, 122

Feeding Considerations for Dogs, 123

Feeding Methods, 123
Feeding the Gestating or Lactating Dog, 123
Feeding Puppies, 123
Feeding Adult Dogs, 123
Feeding Active Dogs, 125
Feeding Geriatric Dogs, 125
Feeding Overweight Dogs, 125

Feeding Considerations for Cats, 125

Feeding Kittens, 125
Feeding Adult Cats, 127
Feeding Cats With Lower Urinary Tract Disease, 127
Feeding Geriatric Cats, 127
Feeding the Gestating and Lactating Cat, 127

Pet Food Considerations, 127

Does This Pet Food Produce the Desired Results? 130
How Do You Choose What Pet Food to Feed? 130
Can I Free Feed My Pet? 130
Which is Better to Feed—Canned or Dry? 130

Nutritional Support for Ill or Debilitated Patients, 131

Enteral Nutritional Support, 131
Enteral Nutritional Daily Caloric Requirements, 133
Parenteral Nutritional Support, 136

Feeding Considerations for Small Mammals, 137

Feeding Considerations for Reptiles and

Amphibians, 142

Iguanas, 142
Snakes, 142
Box Turtles, 142
Amphibians, 142

Feeding Considerations for Laboratory Animals, 142

Nutritional Peculiarities of Livestock, 142

Feedstuffs, 143
Feed Analysis, 145

Feeding Management, 145

Dairy Cattle, 145
Beef Cattle, 146
Nutrition in the Debilitated Calf, 146
Horses, 148
Pigs, 148
Sheep, 149
Goats, 149

Clinical Nutrition, 150

8 Pathology and Response to Disease, 151

Terminology, 151

Inflammation and Response to Injury, 151
Signs of Inflammation, 152
Cells of the Inflammatory Process, 152
Inflammatory Exudates, 152
Vascular Changes Associated With Inflammation, 153
Healing and Repair of Damaged Tissues, 153

Pathogens, 154

Parasites, 154
Bacteria, 154
Viruses, 154

Nonpathogens, 155

Immune Response, 155

Humoral Immunity, 156
Cell-Mediated Immunity, 156
Response to Vaccination, 156
Hypersensitivity Reactions, 156

Epidemiology, 157
Food Hygiene, 157
Zoonotic Diseases, 158
Disease Transmission, 158
Maintenance of Disease, 161
Control of Zoonotic Diseases, 162

Pharmacology and Pharmacy, 163

Drug Names, 163
Dosage Forms, 163
Prescriptions and Dispensing Medication, 164
 Writing Prescriptions, 164
 Components of a Prescription, 164
 Containers for Dispensing Medication, 164
Calculating Drug Doses, 164
Storing and Handling Drugs in the Pharmacy, 166
Storing and Prescribing Controlled
 Substances, 167
 Handling Toxic Drugs, 167
Therapeutic Range, 167
Dosage Regimen, 167
Routes of Administration, 168
 Movement of Drug Molecules in the Body, 168
How Drugs Exert Their Effect, 169
Drugs Affecting the Gastrointestinal Tract, 169
 Emetics, 169
 Antiemetics, 169
 Antidiarrheals, 170
 Adsorbents and Protectants, 170
 Laxatives, Lubricants, and Stool Softeners, 170
 Antacids and Antiulcer Drugs, 171
 Ruminatorics and Antibloat Medications, 171
Drugs Affecting the Cardiovascular
 System, 171
 Antiarrhythmic Drugs, 171
 Positive Inotropic Agents, 171
 Vasodilators, 172
 Diuretics, 172
Drugs Affecting the Respiratory System, 172
 Antitussives, 172
 Bronchodilators, 173
Drugs Affecting the Endocrine System, 173
 Drugs Used to Treat Hypothyroidism, 173
 Drugs Used to Treat Hyperthyroidism, 174
 Endocrine Pancreatic Drugs, 174
 Drugs Used to Treat Hypoadrenocorticism, 174
 Drugs Used to Treat Hyperadrenocorticism, 174
Drugs Affecting Reproduction, 174
Drugs Affecting the Nervous System, 175
 Anesthetics, 175
 Tranquilizers and Sedatives, 176
 Analgesics, 176
 Anticonvulsants, 176
 Central Nervous System Stimulants, 177

Antimicrobials, 177
 Penicillins, 177
 Cephalosporins, 177
 Bacitracins, 178
 Aminoglycosides, 178
 Fluoroquinolones, 178
 Tetracyclines, 178
 Sulfonamides and Potential Sulfonamides, 178
 Lincosamides, 178
 Macrolides, 178
 Metronidazole, 179
 Nitrofurans, 179
 Chloramphenicol and Fluorfenicol, 179
 Rifampin, 179
Antifungals, 179
 Amphotericin B and Nystatin, 179
 Flucytosine, 179
 Fluconazole, Ketoconazole, and Itraconazole, 179
 Griseofulvin, 179
Disinfectants and Antiseptics, 179
 Phenols, 179
 Alcohols, 179
 Quaternary Ammonium Compounds, 180
 Chlorine Compounds, 180
 Iodophors, 180
 Biguanides, 180
Antiparasitics, 180
 Internal Antiparasitics, 180
 External Antiparasitics, 181
Antiinflammatories, 182
 Glucocorticoids, 182
 Nonsteroidal Antiinflammatory Drugs, 182
 Other Antiinflammatories, 183

10 Behavior, 184

What is Behavior, and Where Does It Come
 From? 184
Preventing Behavior Problems in Companion
 Animals, 185
 Housetraining, 185
Preventing Destructive Behavior by
 Cats, 187
 Height, 188
 Orientation, 189
 Texture, 189
Preventing Destructive Behavior by Dogs, 190
 Appealing Toys, 190
Preventing Aggressive Behavior Problems, 190
 Puppy Tests, 191
 Dominance Exercises, 192
 Castration, 192
 Socialization, 192
Providing Problem Prevention Services, 192
Providing Problem Resolution Services, 194

Referring Cases to Behavior Specialists, 194
Evaluating Referral Resources, 194
Making the Referral, 195

PART THREE

CLINICAL SCIENCES, 197

11 Hematology and Hemostasis, 199

Laboratory Instrumentation and Equipment, 199
Laboratory Safety, 199
Quality Control, 200
Test Selection and Test Conditions, 201
Sample Quality, 202
Technician Skill, 202
Electrical Power Surges, 202
Equipment Maintenance, 202
Record Keeping, 202
Sample Collection, 202
Collection Equipment, 203
Sample Type, 204
Anticoagulants, 204
Formation and Functions of Blood and Blood Cells, 204
Erythropoiesis, 205
Hemoglobin Synthesis, 205
Leukopoiesis, 205
Complete Blood Count, 206
Cell Counts, 206
Hemoglobin Testing, PCV, and RBC Indices, 209
Total Plasma Protein Determination, 210
Erythrocyte Indices, 211
Differential Blood Film, 212
Evaluating the Blood Film, 212
Examining the Blood Smear, 213
Erythrocyte Morphology, 215
Morphologic Variation in Size, 215
Morphologic Variation in Shape, 215
Morphologic Variation in Color, 216
Variation in Cell Behavior, 216
Other Abnormalities, 216
Parasites, 217
Leukocyte Morphology, 217
Morphologic Variation in Leukocytes, 217
Variations in Leukocyte Morphology, 218
Platelets, 219
Platelet Counting Methods, 219
Miscellaneous Hematologic Tests, 220
Bone Marrow Examination, 221
Hemostasis, 222
Hemostatic Defects, 223
Disseminated Intravascular Coagulation, 224
Assessment of Coagulation and Hemostasis, 224
Activated Clotting Time, 224
Buccal Mucosal Bleeding Time, 224

Fibrinogen Determination, 224
Prothrombin Time Test, 225
Activated Partial Thromboplastin Time Test, 225
PIVKA Test, 225
Fibrin Degradation Products and D-Dimer Test, 226

12

Clinical Chemistry and Serology, 227

Sample Collection, 227
Blood Collection, 227
Sample Type, 228
Whole Blood, 228
Plasma, 228
Serum, 228
Laboratory Selection, 229
Laboratory Equipment, 230
Features and Benefits of Common Analyzer Types, 230
Types of Photometric Testing, 231
Hepatobiliary Function Testing, 231
Protein, 232
Enzyme Analyses, 234
Kidney Function Testing, 236
Pancreatic Function Testing, 236
Basic Principles of Immunology, 240
Role of White Blood Cells in Immunity, 241
Types of Immunologic Tests, 242
Enzyme-Linked Immunosorbent Assay, 242
Immunochromatography, 243
Agglutination Test, 243
Precipitation Tests, 243
Coombs' Test, 244
Antinuclear Antibody Test, 244
Serum Protein Electrophoresis, 245
Antibody Titers, 245
Common Errors and Artifacts, 245
Sample Quality, 246
Washing, 246
Incubation, 246
Storage, 246
Choosing a Test Kit, 246
Test Significance, 247

13

Microbiology, Cytology, and Urinalysis, 248

Microbiology, 248
Characteristics of Bacteria, 248
Mycology, 248
Materials Needed for the In-House Microbiology Lab, 249
Sample Processing Materials, 252
Culture Media, 252
Stains, 253
Additional Materials, 254
Inoculating Culture Media, 254
Incubating Bacterial Cultures, 254
Biochemical Test Materials, 254

Immunologic Testing, 255
Antimicrobial Sensitivity Testing, 256
Quality Control Concerns, 256
Cytology, 256
Collection and Preparation of Samples From Tissues
and Masses, 256
 Impression Smears, 256
 Scrapings, 257
 Swabbings, 257
 Fine-Needle Aspiration, 257
 Preparation Techniques for Solid Samples, 258
Collection and Preparation of Fluid Samples, 258
 Transtracheal and Bronchial Washes, 258
 Staining of Cytology Specimens, 260
 Examination of Cytology Specimens, 261
 Vaginal Cytology, 266
 Semen Evaluation, 266
 Histology, 268
Urinalysis, 268
 Sample Collection, 268
The Complete Urinalysis, 269
 Specific Gravity, 269
 Biochemical Testing, 270
 Microscopic Examination of Urine
 Sediment, 270
 Elements in Urinary Sediment, 271

14 Veterinary Parasitology, 276

Parasitology, 276
Classification of Parasites, 276
 Kingdom Protista, Subkingdom Protozoa, 277
 Kingdom Animalia, 278
Diagnostic Techniques in Parasitology, 288
 Sample Collection and Handling, 290
 Evaluation of Fecal Specimens, 290
 Evaluation of Blood Samples, 296

15 Preventive Medicine, 307

Husbandry, 307
 Temperature, Light, and Ventilation, 307
 Housing, 310
 Nutrition, 311
 Animal Identification, 311
Vaccination or Use of Preventive
Medicine, 311
 Vaccination, 312
 Use of Preventive Medication, 313
Sanitation, 313
Factors Predisposing to Disease, 314
 Genetic Factors, 314
 Dietary Factors, 314
 Environmental Factors, 314
 Metabolic Factors, 315
 Wellness Programs, 315

PART FOUR

CLINICAL APPLICATIONS, 321

16 Physical Restraint, 323

Restraint and Handling of Dogs, 323

Canine Behavior, 323
 Danger Potential, 323
 Mechanical Devices, 323
 Restraint Techniques, 325

Restraint and Handling of Cats, 327

Feline Behavior, 327
 Danger Potential, 327
 Mechanical Devices, 327
 Distraction Techniques, 328
 Restraint Techniques, 329

Restraint and Handling of Small Mammals, 331

Danger Potential, 331
 Mechanical Devices, 331
 Restraint Techniques, 331

Hamsters, Mice, Gerbils, Guinea Pigs, and
Rats, 331

Rabbits, 332

Danger Potential, 332
 Restraint Techniques, 332

Ferrets, 333

Danger Potential, 333
 Restraint Techniques, 333

Restraint and Handling of Birds, 333

Danger Potential, 333
 Restraint Techniques for Large Birds, 333
 Mechanical Devices, 334
 Restraint Techniques for Small to Medium Birds, 334

Restraint and Handling of Horses, 334

Equine Behavior, 334
 Body Language, 335
 Danger Potential, 335
 Mechanical Devices, 335
 Distraction Techniques, 336
 Restraint Techniques, 337

Restraint and Handling of Cattle, 340

Bovine Behavior, 340
 Danger Potential, 340
 Mechanical Devices, 340
 Restraint Techniques, 341

Restraint and Handling of Goats, 341

Caprine Behavior, 341
 Restraint Techniques, 342

Restraint and Handling of Sheep, 342

Ovine Behavior, 342
 Restraint Techniques, 342

Restraint and Handling of Pigs, 343

Porcine Behavior, 343
 Danger Potential, 343
 Restraint Techniques, 343

17 Patient History and Physical Examination, 345

- Technician-Client Interaction, 345
 - Communicating With Clients, 345*
 - Obtaining a History, 346*
- Physical Examination, 348
 - Primary Techniques for Physical Examination, 348*
 - General Survey, 350*
 - Vital Signs, 350*
- Systematic Approach to Physical Examination, 353
 - Examination of the Head and Neck, 354*
 - Examination of the Trunk and Forelimbs, 354*
 - Examination of the Thorax, 354*
 - Examination of the Abdomen, 355*
 - Examination of the Hind Limbs, 355*
 - Examination of the External Genitalia and Perineum, 355*
- Physical Examination in Emergencies, 355
 - Triage, Primary Survey, and Secondary Survey, 355*

18 Diagnostic Imaging, 358

Radiography, 358

- X-Ray Generation, 358
- X-Ray Tube Anatomy, 358
 - Anode Heel Effect, 358*
 - Radiographic Quality, 359*
 - Radiographic Density, 359*
 - Radiographic Contrast, 359*
 - Radiographic Detail, 360*
 - Distortion, 360*
 - Scatter Radiation, 361*
- Exposure Variables, 363
 - mAs, 363*
 - Kilovoltage Peak, 364*
 - Focal-Film Distance, 364*
 - Object-Film Distance, 364*
- Radiographic Film and Screens, 364
 - X-Ray Film, 364*
 - Intensifying Screens, 365*
- X-Ray Equipment, 366
- Fluoroscopy, 367
- Radiation Safety, 367
 - Terminology, 368*
- Darkroom Techniques, 368
 - Darkroom Setup, 368*
 - Film Identification, 370*
 - Safelights, 370*
 - Processing Chemistry, 371*
 - Manual Processing, 372*
 - Automatic Processing, 373*
 - Silver Recovery, 373*
- Radiographic Artifacts, 374
- Radiographic Positioning and Terminology, 374
 - Oblique Projections, 374*

- Contrast Studies, 374
 - Positive-Contrast Media, 374*
 - Negative-Contrast Media, 377*
 - Double-Contrast Procedures, 378*
- Diagnostic Ultrasound, 378
 - Transducers, 378*
 - Display Modes, 378*
 - Terminology Describing Echotexture, 378*
 - Patient Preparation, 379*
 - Instrument Controls, 379*
 - Artifacts, 380*

Endoscopy, 381

- Types of Endoscopes, 381
 - Rigid Endoscopes, 381*
 - Flexible Endoscopes, 382*
- Purchasing an Endoscope, 382
- The Endoscopy Room, 383
- Accessory Instruments, 383
- Cleaning a Flexible Endoscope, 383
- Storing an Endoscope, 384
- Gastrointestinal Endoscopy, 384
 - Patient Preparation, 384*
 - Obtaining Samples, 385*
- Colonoscopy, 385
- Airway Endoscopy, 385

19 Anesthesia and Perioperative Analgesia, 387

- Role of Veterinary Technicians, 387
- Indications for Anesthesia, Sedation, and Analgesia, 387
 - Coming to Terms with Pain, 387*
 - Effects of Pain, 388*
 - Predicting and Recognizing Pain in Animals, 388*
 - Pain-Relief Modalities, 388*
 - Goals of an Anesthetic-Analgesic Plan, 393*
- Fundamentals of Anesthesia, 393
- Steps of Anesthesia, 393
 - Step 1: Patient Evaluation, 393*
 - Step 2: Patient Preparation, 396*
 - Step 3: Equipment and Supplies, 396*
 - Step 4: Preanesthetic Medication, 405*
 - Step 5: Induction, 406*
 - Step 6: Maintenance, 408*
 - Step 7: Recovery, 411*
- Anesthetic Monitoring, 411
 - Monitoring of Anesthetic Equipment, 411*
 - Monitoring Anesthetic Depth, 411*
 - Monitoring Physiologic Conditions, 412*
 - Responding to Adverse Events, 416*
- Inhalation Anesthetic Techniques, 417
 - Goals of Proper Technique, 417*
 - Induction Technique, 417*
 - Endotracheal Intubation, 417*

Maintenance of Anesthesia, 418
Recovery from Anesthesia, 420

20

Principles of Surgical Nursing, 421

General Surgical Principles, 421

Basic Surgical Terminology, 421

Abdominal Incisions, 421

Common Surgical Procedures, 422

Preoperative and Postoperative
Considerations, 423

Preoperative Evaluation, 423

Postoperative Evaluation, 423

Postoperative Complications, 423

Aseptic Technique, 424

Contamination and Infection, 424

Rules of Aseptic Technique, 424

Sterilization and Disinfection, 425

Quality Control for Sterilization and

Disinfection, 426

Chemical Indicators, 426

Biological Testing, 426

Steam Sterilization, 426

Care and Maintenance of Surgical Instruments and
Supplies, 428

Instrument Cleaning, 428

Instrument Lubricating and Autoclaving, 428

Wrapping Instrument Packs, 429

Gas Sterilization, 430

Cold Chemical Sterilization, 430

Folding and Wrapping Gowns, 430

Folding and Wrapping Drapes, 431

Storing Sterilized Items, 431

Preparation of the Operative Site, 431

Positioning, 433

Sterile Skin Preparation, 433

Preparation of the Surgical Team, 434

Surgical Attire, 434

The Surgical Scrub, 435

Gowning, 437

Gloving, 437

Surgical Assisting, 440

Draping and Organizing the Instrument

Table, 440

Draping, 440

Unwrapping or Opening Sterile Items, 441

Unwrapping Sterile Items in Paper or Plastic or Plastic

Peel-Back Pouches, 442

Surgical Instruments, 442

Scalpels and Blades, 442

Scissors, 443

Needle Holders, 444

Tissue Forceps, 444

Hemostatic Forceps, 444

Retractors, 445

Miscellaneous Instruments, 446

Management of Wounds, Fractures, and Other Injuries, 471

Wound Healing, 471

Phases of Wound Healing, 471

- Types of Wound Healing, 471*
- Wound Contamination and Infection, 472*
- Wound Categories, 472*
- Use of Antibacterials, 472*
- Wound Management, 473
 - First Aid, 473*
 - Wound Assessment, 473*
 - Clipping, 474*
 - Scrubbing, 474*
 - Wound Lavage, 474*
 - Anesthesia and Analgesia, 474*
 - Debridement, 475*
 - Drainage, 475*
- Wound Closure, 476
 - Closure With Sutures, 476*
 - Nonclosure, 477*
- Covering Wounds, 478
 - Principles of Bandage Application, 478*
 - Bandage Components, 479*
- Orthopedic Bandages and Splints, 480
 - Robert Jones Compression Bandage, 480*
 - Soft Padded and Coaptation Bandages, 481*
 - Spica Splint, 481*
 - Schroeder-Thomas Splint, 481*
 - Ebmer Sling, 482*
 - Modified Ebmer Sling, 483*
 - Velpeau Sling, 483*
- Casts, 483
 - Indications, 483*
 - Materials, 483*
 - Technique, 483*
 - Maintaining Bandages, Splints, and Casts, 485*
 - Home Care of Bandages, 485*
 - Bandage, Cast, and Splint Removal, 485*
- Management of Specific Wound Types, 485
 - Penetrating Wounds, 485*
 - Snakebites, 486*
 - Burns, 486*
 - Bite Wounds, 487*
 - Decubital Ulcers, 487*

23 Fluid Therapy and Blood Transfusions, 488

- Fluid Therapy, 488
 - Fluid Distribution, 488*
 - Electrolytes, 489*
 - Acid-Base Balance, 489*
- Clinical Aspects of Fluid Therapy, 490
 - Determining the Need for Fluid Therapy, 490*
 - Fluid Choices, 492*
 - Indications for Fluid Therapy, 493*
 - Routes of Fluid Administration, 495*
 - Volume and Rate of Fluid Administration, 497*
- Total Parenteral Nutrition, 498

- Transfusion Medicine, 498
 - Clinical Evaluation of Bleeding, 499*
- Whole Blood and Blood Components, 501
 - Fresh Whole Blood, 502*
 - Stored Whole Blood, 502*
 - Packed Red Blood Cells, 502*
 - Platelet-Rich Plasma, 504*
 - Fresh-Frozen Plasma / Frozen Plasma, 505*
 - Cryoprecipitate, 505*
 - Oxyglobin Solution, 505*
- Blood Types, 505
 - Canine Blood Types, 505*
 - Feline Blood Types, 506*
- Sources of Donor Blood, 506
 - Canine Blood Donors, 507*
 - Feline Blood Donors, 507*
- Blood Collection, 507
 - Anticoagulant-Preservative Solutions, 507*
 - Blood Collection Systems, 508*
- Blood Administration, 510
 - Blood Typing and Crossmatching, 510*
 - Preparing Blood for Transfusion, 510*
 - Transfusion Volume, 510*
 - Administration Routes, 511*
 - Administration Rates, 511*
 - Transfusion Reactions, 511*

24 Dentistry, 513

Safety in the Workplace, 532
Marketing in Veterinary Dentistry, 533

PART FIVE

NURSING CARE, 535

25 Nursing Care of Dogs and Cats, 537

General Care of Dogs and Cats, 537
 Attending to Physical Needs, 537
 Attending to Psychological Needs, 537
 Monitoring Vital Signs and Elimination, 537
 Gastrointestinal Monitoring, 539
 Nutritional Support, 539
 Grooming and Skin Care, 539
Administering Medications, 543
 Topical Administration, 543
 Oral Administration, 543
 Rectal Administration, 544
 Nasal Administration, 545
 Ophthalmic Application, 545
 Otic Application, 545
 Parenteral Administration, 545
 Epidural Administration, 548
 Intravenous Catheterization, 548
 Urinary Tract Catheterization, 552
 Orogastric Intubation, 555
 Nasoesophageal Intubation, 556
 Endotracheal Administration, 556
Nursing Care of Recumbent Patients, 556
 Preventative Care, 557
Nursing Care of Critical Patients, 560
 Head Trauma and Seizure Patients, 560
 Spinal Trauma, 560
 Blood Pressure Monitoring, 560
 Central Venous Pressure, 560
 Pain Control, 560
 Respiratory Support, 561
Rehabilitation and Physical Therapy, 562
 Local Hypothermia/Cold Therapy, 563
 Local Hyperthermia/Heat Therapy, 563
 Combination Therapy, 563
 Passive Exercise, 563
 Active Exercise, 564
 Hydrotherapy, 564
Nursing Care of Neonatal Patients, 565
 Examination, 565
 Resuscitation, 565
Nursing Care of Geriatric Patients, 567
 The Effects of Aging, 567
 Geriatric Criteria, 567

Handling, 567
Drug Therapy, 567
Anesthesia, 568
Client Education, 568
Euthanasia Methods, 568

26 Nursing Care of Horses, 569

General Care of Horses, 569
 Feeding and Watering, 569
 Bedding, 569
 Fly Control, 570
 Exercise, 570
 Grooming, 570
 Hoof Picking, 570
Monitoring Patients, 570
Care of Recumbent Horses, 571
 Bandaging, 572
 Foot Wraps, 572
 Tail Bandages, 574
 Abdominal Bandages, 575
Collecting Blood Samples, 575
Administration of Medication, 576
 Oral Administration, 576
 Nasogastric Intubation, 576
 Parenteral Injections, 577
 Adverse Reactions, 579
 Intravenous Catheterization, 579
 Sites, 579
 Catheter Care, 579
 Catheter Complications, 579
 Intravenous Infusions, 582
Medication of the Eye, 584

27 Nursing Care of Food Animals, Camelids, and Ratites, 585

General Care of Cattle, 585
Common Diagnostic and Therapeutic Techniques, 585
 Oral Administration of Medication, 585
 Intravenous Injection, 587
 Intravenous Catheterization, 587
 Intramuscular Injection, 588
 Subcutaneous Injection, 588
 Intradermal Injection, 589
 Intramammary Infusion, 589
 Intranasal Insufflation, 589
 Intrauterine Medication, 590
 Jugular Venipuncture, 590
 Coccygeal Venipuncture, 591
 Subcutaneous Abdominal Venipuncture, 592
General Care of Sheep, 592
 Hoof Trimming, 593
 Crutching, 593
Common Diagnostic and Therapeutic Techniques, 593

Oral Administration of Medication, 593
Intravenous Injection, 594
Intravenous Catheterization, 595
Intramuscular Injection, 595
Subcutaneous Injection, 595
Intradermal Injection, 595
Intraperitoneal Injection, 596
Intramammary Infusion, 596
Urine Collection, 596

General Care of Goats, 596

Common Diagnostic and Therapeutic Techniques, 597

Oral Administration of Medication, 597
Parenteral Injection, 598
Intravenous Injection, 598
Jugular Venipuncture and Catheterization, 598
Intramuscular Injection, 598
Subcutaneous Injection, 599
Intradermal Injection, 599
Intrauterine Infusion, 599
Intramammary Infusion, 599
Urine and Milk Collection, 599

General Care of Swine, 600

Overview of Swine Production, 600
Breeding Stock, 600

Common Diagnostic and Therapeutic Techniques, 601

Oral Administration of Medication, 601
Intravenous Injection, 601
Intramuscular Injection, 602
Subcutaneous Injection, 602
Intranasal Injection, 602
Blood Collection, 603

General Care of Camelids, 604

Anatomic and Physiologic Characteristics, 604
Neonatal Care, 605
Behavior, Handling, and Restraint, 606
Herd Health, 607

Common Diagnostic and Therapeutic Techniques, 607

Oral Administration of Medication, 607
Intravenous Injection, 607
Intramuscular Injection, 607
Subcutaneous Injection, 608
Blood Collection, 608
Urine Collection, 608

General Care of Ratites, 608

Visual Evaluation, 608
Physical Examination, 609
Restraint, 609

Common Diagnostic and Therapeutic Techniques, 610

Oral Administration of Medication, 610
Administration of Injections, 610

Blood Collection and Catheterization, 610
Fluid Therapy, 611

28 Nursing Care of Cage Birds, Reptiles, and Amphibians, 612

Cage Birds, 612

Role of the Veterinary Practice in Bird Care, 613

Basic Pet Bird Behavior, 614

Avian Anatomy, 615

Feathers and Skin, 615
Musculoskeletal System, 615
Respiratory System, 615
