

**COLOR ATLAS and
MANUAL of**

MICROSCOPY for
CRIMINALISTS,
CHEMISTS, and
CONSERVATORS

**NICHOLAS PETRACO
THOMAS KUBIC**

CRC PRESS

Table of Contents

Chapter 1	Basic Light Microscopy	1
	Introduction	1
	Basic Parts of Compound Microscope with Emphasis on PLM	3
	Fundamental Compound Microscope Theory with Emphasis on PLM	3
	Fundamental Polarized Light Microscope Theory	3
	References	6
Chapter 2	Preliminary Examination, Stereomicroscopy, and Basic Sample Preparation	21
	Preliminary Examination and Stereomicroscopy	21
	Microscope Slides and Preparation	21
	Specimen Preparation.....	22
	Human Hair, Animal Hair, and Natural and Synthetic Fibers	22
	Particles, Glass, and Paint Chips.....	22
	References	23
Chapter 3	Basic Observations and Measurements with Polarized Light Microscopy	37
	Refractive Index and Relief	37
	Physical and Morphological Properties	38
	Micrometry	38
	Determining Optical Properties	39
	References	39
Chapter 4	Chemical Microscopy and Microtechnique	49
	Basic Methods and Techniques of Chemical Microscopy	49
	Solubility Testing.....	49
	Evaporation	49
	Decantation	49
	Sublimation	49
	Fusion.....	50
	Chamot and Mason Reagent Application Methods	50
	References	50
Chapter 5	Identification and Comparison of Human Hair	57
	Examination.....	57
	Somatic Origin	57
	Regional Origin	57
	Glossary of Hair Terms.....	58
	References	59
Chapter 6	Animal Hair Identification	69
	Macroscopic and Microscopic Examinations	69
	Macroscopic Examination	69
	Microscopic Examination.....	69
	Cuticle.....	69

Medulla	69
Cortex.....	70
Color and Color Banding	70
Shaft and Cross-Sectional Shapes.....	70
Root Morphology	70
Species Determination and Comparisons.....	70
References	70
Chapter 7 Synthetic Fiber Identification	77
Preliminary Examination Procedure	77
Man-Made Natural and Synthetic Fibers.....	77
References	79
Chapter 8 Natural Fiber Identification	89
Preliminary Examination Procedure	89
Identification of Natural Fibers	89
References	90
Natural Fiber Appendix.....	100
Chapter 9 Textile Examination.....	109
Structures of Fibers	109
Yarn Structures	109
Fabric Structures	110
Fabric Analysis.....	110
Textile Glossary.....	111
References	112
Chapter 10 Paint Examination.....	123
Paint Use and Composition.....	123
Paint Examination	123
References	125
Chapter 11 Soil and Mineral Examination	135
Method.....	135
Initial Observation	135
Color Matching.....	136
Mounting in Melt Mount 1.539	136
Mineral Identification	136
Counting Procedure	136
Discussion.....	137
References	137
Mineral Atlas.....	144
Chapter 12 Gemstone Identification.....	151
Procedures for Characterizing and Identifying Gemstones.....	151
Preliminary Examination.....	151
Microscopic Examination.....	151
Optical Examination	151
Gemstone Identification	152
References	152

Chapter 13 Dust Examination	165
Composition of Dust Specimens	165
Preliminary Examination.....	165
Characterization of Human Hair	166
Characterization of Animal Hair	166
Characterization of Synthetic Fibers.....	167
Characterization of Minerals, Glass, and Related Materials	168
Dust Evaluation	168
References	168
Chapter 14 Case Studies	185
Introduction	185
Case 1	185
Case 2.....	186
Case 3.....	186
Case 4.....	187
Case 5.....	187
Case 6.....	187
Case 7.....	188
Case 8.....	188
Case 9.....	188
Case 10.....	189
Case 11.....	189
Case 12.....	189
Case 13.....	190
Case 14.....	190
Case 15.....	191
Case 16.....	191
Case 17.....	191
Case 18.....	191
Case 19.....	191
Case 20.....	191
Case 21.....	192
Case 22.....	192
Case 23.....	192
Conclusion.....	192
Appendix A: Human Hair Atlas	217
Cortex	218
Medulla.....	222
Cuticle.....	223
Roots and Tips.....	225
Somatic Origin	227
Region of Origin	231
Treated Hair.....	232
Damage and Artifacts.....	233
Diseases and Conditions	235
Contributors to Human Hair Atlas.....	237
Appendix B: Animal Hair Atlas	239
References	239

Appendix C: Synthetic Fibers	257
Category 1: Cross-Sectional and Longitudinal Views.....	258
Category 2: PLM Appearance.....	260
Category 3: Becké Line Movement.....	264
Category 4: Fiber Treatment.....	267
Category 5: Fluorescence.....	269
Category 6: Pleochroism.....	269
Category 7: Miscellaneous Fibers.....	270
Appendix D: Paints and Pigments	273
Additional Sample Preparation Procedure.....	273
Tests for Binders	273
Waxes	273
Drying Oils	273
Animal Fats.....	273
Oils and Fats.....	273
Resins.....	273
Proteins	274
Gum Arabic.....	274
Collagen and Gelatin.....	274
Starches.....	274
Cellulose	274
Clays	274
References	274
Index	303
