KERI E. PEARLSON CAROL S. SAUNDERS

MANAGING AND USING INFORMATION SYSTEMS
A STRATEGIC APPROACH

2ND EDITION

Contents

Preface xv
Acknowledgements xviii
About the Authors xx
Introduction 1
The Case for Participating in Decisions about Information Systems A Business View 3 People and Technology Work Together 3 Integrating Business with Technology 4 Rapid Change in Technology 4 Competitive Challenges 4 What If a Manager Doesn't Participate? 4 Information Systems Must Support Business Goals 5
Information Systems Must Support Organizational Systems What Skills Are Needed to Participate Effectively in Information Technology Decisions? 6 How to Participate in Information Systems Decisions 6 Organization of the Book 8
Basic Assumptions 8 Assumptions about Management 9 Assumptions about Business 9 Assumptions about Information Systems 11 Summary 15 Key Terms 16
Discussion Questions 16 Case Study I-1: Pat Cannon, MBA 16

► CHAPTER 1 The Information Systems Strategy Triangle 19

Brief Overview of Business Strategy Frameworks
The Generic Strategies Framework 21

Variants on the Differentiation Strategy 23 Why Are Strategic Advantage Models Essential to Planning for Information Systems? 27 Brief Overview of Organizational Strategies 28 Brief Overview of Information Systems Strategy 30 Food for Thought: Economics of Information vs. Economics of Things 32 Summary 33 Key Terms 34 Discussion Questions 34 Case Study 1-1: Roche's New Scientific Method 34
► CHAPTER 2 Strategic Use of Information Resources 38
Evolution of Information Resources 39 Information Resources as Strategic Tools 40 How Can Information Resources Be Used Strategically? 42 Using Information Resources to Influence Competitive Forces 43 Using Information Resources to Alter the Value Chain 46 Strategic Alliances 51 Supply Chain Management 51 Virtual Corporations 52 Co-opetition 52 Risks 53 Food for Thought: Time-Based Competitive Advantage 54 Summary 55 Key Terms 55 Discussion Questions 55 Case Study 2-1: Lear Won't Take a Backseat 56
► CHAPTER 3 Organizational Impacts of Information Systems Use 59
Information Age Organizations 60 Information Technology and Organizational Design 62 Hierarchical Organization Structure 62 Flat Organization Structure 64 Matrix Organization Structure 65 Networked Organization Structure 66 Information Technology and Management Control Systems 67 Information Technology Changes the Way Managers Monitor 68 Information Technology Changes the Way Managers Evaluate 69

Information Technology Changes the Way Managers Provide Feedback Information Technology Changes the Way Managers Compensate and Reward 70	70
Information Technology Changes the Way Managers Control Processes Virtual Organizations 71	70
Virtual Teams 73	
Food for Thought: Immediately Responsive Organizations 76	
Summary 77	
Key Terms 78	
Discussion Questions 78	
Case Study 3-1: Virtually There? 79	
► CHAPTER 4 Information Technology and the Design of Work 81	
Job Design Framework 82	
How Information Technology Changes the Nature of Work 83	
Creating New Types of Work 84	
New Ways to Do Traditional Work 85	
New Challenges in Managing People 88	
How Information Technology Changes Where Work Is Done 90	
Factors Driving Telecommuting and Mobile Work 91	
Managerial Issues in Telecommuting and Mobile Work 96	
Information Systems Enable More Group Work 97	
Gaining Acceptance for IT-Induced Change 98	
Food for Thought: The Productivity Paradox 99	
Summary 101	
Key Terms 101	
Discussion Questions 101	
Case Study 4-1: Baseball in the United States 102	
•	
► CHAPTER 5 Information Technology and Changing Business Processes	104
Silo Perspective vs. Business Process Perspective 105	
Functional (or Silo) Perspective 106	
Process Perspective 107	
The Tools for Change 110	
Total Quality Management (TQM) 110	
Business Process Reengineering (BPR) 110	
Radically Redesigning Processes 112	
CICNA's Reanginearing Efforts 113	

Enterprise Systems 114 Characteristics of Enterprise Systems 116 Benefits and Disadvantages of Enterprise Systems 117 The Adoption Decision 119 Food for Thought: The Risks of Radical Redesign Alone 120 Summary 122 Key Terms 123 Discussion Questions 123 Case Study 5-1: Coca-Cola Vending Machines 124 Case Study 5-2: Nestle 124 CHAPTER 6 Architecture and Infrastructure 127 From Vision to Implementation 129 The Manager's Role 130 The Leap from Strategy to Architecture to Infrastructure 130 From Strategy to Architecture 131 From Architecture to Infrastructure 131 A Framework for the Translation 132 Other Managerial Considerations 138 Understanding Existing Architecture 138 Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure Framework 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	The Risk of Radical Redesign 114
Characteristics of Enterprise Systems 116 Benefits and Disadvantages of Enterprise Systems 117 The Adoption Decision 119 Food for Thought: The Risks of Radical Redesign Alone 120 Summary 122 Key Terms 123 Discussion Questions 123 Case Study 5-1: Coca-Cola Vending Machines 124 Case Study 5-2: Nestlé 124 CHAPTER 6 Architecture and Infrastructure 127 From Vision to Implementation 129 The Manager's Role 130 The Leap from Strategy to Architecture to Infrastructure 130 From Strategy to Architecture 131 From Architecture to Infrastructure 131 A Framework for the Translation 132 Other Managerial Considerations 138 Understanding Existing Architecture 138 Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure 145 Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
The Adoption Decision 119 Food for Thought: The Risks of Radical Redesign Alone 120 Summary 122 Key Terms 123 Discussion Questions 123 Case Study 5-1: Coca-Cola Vending Machines 124 Case Study 5-2: Nestlé 124 Case Study 5-2: Nestlé 124 CHAPTER 6 Architecture and Infrastructure 127 From Vision to Implementation 129 The Manager's Role 130 The Leap from Strategy to Architecture to Infrastructure 130 From Strategy to Architecture 131 A Framework for the Translation 132 Other Managerial Considerations 138 Understanding Existing Architecture 138 Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure Framework 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	Characteristics of Enterprise Systems 116
Food for Thought: The Risks of Radical Redesign Alone 120 Summary 122 Key Terms 123 Discussion Questions 123 Case Study 5-1: Coca-Cola Vending Machines 124 Case Study 5-2: Nestlé 124 CHAPTER 6 Architecture and Infrastructure 127 From Vision to Implementation 129 The Manager's Role 130 The Leap from Strategy to Architecture to Infrastructure 130 From Strategy to Architecture 131 From Architecture to Infrastructure 131 A Framework for the Translation 132 Other Managerial Considerations 138 Understanding Existing Architecture 138 Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure Framework 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
Summary 122 Key Terms 123 Discussion Questions 123 Case Study 5-1: Coca-Cola Vending Machines 124 Case Study 5-2: Nestlé 124 ▶ CHAPTER 6 Architecture and Infrastructure 127 From Vision to Implementation 129 The Manager's Role 130 The Leap from Strategy to Architecture to Infrastructure 130 From Strategy to Architecture 131 A Framework for the Translation 132 Other Managerial Considerations 138 Understanding Existing Architecture 138 Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
Discussion Questions 123 Case Study 5-1: Coca-Cola Vending Machines 124 Case Study 5-2: Nestlé 124 Case Study 5-2: Nestlé 124 Chapter 6 Architecture and Infrastructure 127 From Vision to Implementation 129 The Manager's Role 130 The Leap from Strategy to Architecture to Infrastructure 130 From Strategy to Architecture 131 From Architecture to Infrastructure 131 A Framework for the Translation 132 Other Managerial Considerations 138 Understanding Existing Architecture 138 Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure Framework 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
Discussion Questions 123 Case Study 5-1: Coca-Cola Vending Machines 124 Case Study 5-2: Nestlé 124 Case Study 5-2: Nestlé 124 Case Study 5-2: Nestlé 124 Case Study 5-2: Nestlé 124 Case Study 5-2: Nestlé 124 Case Study 5-2: Nestlé 124 Case Study 5-2: Nestlé 124 Case Study 5-2: Nestlé 124 From Vision to Implementation 129 The Manager's Role 130 The Leap from Strategy to Architecture to Infrastructure 130 From Strategy to Architecture 131 A Framework for the Translation 132 Other Managerial Considerations 138 Understanding Existing Architecture 138 Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 5: Evaluate Architecture to Infrastructure 145 Step 7: Translate Strategic Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
Case Study 5-1: Coca-Cola Vending Machines 124 Case Study 5-2: Nestlé 124 From Vision to Implementation 129 The Manager's Role 130 The Leap from Strategy to Architecture to Infrastructure 130 From Strategy to Architecture 131 A Framework for the Translation 132 Other Managerial Considerations 138 Understanding Existing Architecture 138 Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
Case Study 5-2: Nestlé 124 CHAPTER 6 Architecture and Infrastructure 127 From Vision to Implementation 129 The Manager's Role 130 The Leap from Strategy to Architecture to Infrastructure 130 From Strategy to Architecture 131 From Architecture to Infrastructure 131 A Framework for the Translation 132 Other Managerial Considerations 138 Understanding Existing Architecture 138 Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure Framework 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
From Vision to Implementation 129 The Manager's Role 130 The Leap from Strategy to Architecture to Infrastructure 130 From Strategy to Architecture 131 From Architecture to Infrastructure 131 A Framework for the Translation 132 Other Managerial Considerations 138 Understanding Existing Architecture 138 Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals to Business Requirements 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
The Manager's Role 130 The Leap from Strategy to Architecture to Infrastructure 130 From Strategy to Architecture 131 From Architecture to Infrastructure 131 A Framework for the Translation 132 Other Managerial Considerations 138 Understanding Existing Architecture 138 Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	Case Study 5-2: Nestle 124
From Vision to Implementation 129 The Manager's Role 130 The Leap from Strategy to Architecture to Infrastructure 130 From Strategy to Architecture 131 From Architecture to Infrastructure 131 A Framework for the Translation 132 Other Managerial Considerations 138 Understanding Existing Architecture 138 Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
The Manager's Role 130 The Leap from Strategy to Architecture to Infrastructure 130 From Strategy to Architecture 131 From Architecture to Infrastructure 131 A Framework for the Translation 132 Other Managerial Considerations 138 Understanding Existing Architecture 138 Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	CHARTER & Architecture and Infrastructure 197
The Manager's Role 130 The Leap from Strategy to Architecture to Infrastructure 130 From Strategy to Architecture 131 From Architecture to Infrastructure 131 A Framework for the Translation 132 Other Managerial Considerations 138 Understanding Existing Architecture 138 Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	<u> </u>
The Leap from Strategy to Architecture to Infrastructure 130 From Strategy to Architecture 131 From Architecture to Infrastructure 131 A Framework for the Translation 132 Other Managerial Considerations 138 Understanding Existing Architecture 138 Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
From Strategy to Architecture 131 From Architecture to Infrastructure 131 A Framework for the Translation 132 Other Managerial Considerations 138 Understanding Existing Architecture 138 Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
From Architecture to Infrastructure 131 A Framework for the Translation 132 Other Managerial Considerations 138 Understanding Existing Architecture 138 Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
Other Managerial Considerations 138 Understanding Existing Architecture 138 Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
Other Managerial Considerations 138 Understanding Existing Architecture 138 Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
Understanding Existing Architecture 138 Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
Distinguishing Current vs. Future Requirements 139 Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
Assessing Financial Issues 141 Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
Assessing Technical Issues 142 Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
Differentiating Between Architecture and Infrastructure 143 From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
From Strategy to Architecture to Infrastructure: An Example 144 Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
Step 1: Define the Strategic Goals 144 Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
Step 2: Translate Strategic Goals to Business Requirements 144 Step 3: Apply Strategy-Architecture-Infrastructure Framework 145 Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
Step 3: Apply Strategy-Architecture-Infrastructure Framework Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
Step 4: Translate Architecture to Infrastructure 145 Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
Step 5: Evaluate Additional Issues 145 Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
Food for Thought: Business Continuity Planning 145 Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150	
Summary 149 Key Terms 149 Discussion Questions 150 Case Study 6-1: Bush Intercontinental Airport in Houston 150

- Augustion - The Management Information Systems Organization - 100
CHAPTER 8 The Management Information Systems Organization 183
Understanding the MIS Organization 184
Chief Information Officer 184
Chief Technology Officer, Chief Knowledge Officer, and Other Similar
Roles 187
Other Information Systems Organizational Roles 188
Information Systems Organization Processes 188
Systems Development 188
Systems Maintenance 190
Data Center Operations 191
Information Management and Database Administration 191
Internet Services 191
Networking Services 192
New Technology Introduction 192
Resource Management 193
General Support 193
What a Manager Can Expect from the IS Department 193
Anticipating New Technologies 194
Strategic Direction 194
Process Innovation 195
Supplier Management 195
Architecture and Standards 196
Business Continuity Planning 196
What the IS Organization Does Not Do 197

Organizing and Controlling IS Processes 198 Outsourcing 198 Centralized vs. Decentralized Organizational Structures 204 Managing the Global Considerations 208 Food for Thought: Going Offshore for IS Development 208 Summary 211 Key Terms 212 Discussion Questions 212 Case Study 8-1: Hostile IS Outsourcing 213
► CHAPTER 9 Funding IT 215
Funding the IT Department 215 Chargeback 216 Allocation 217 Corporate Budget 218 How Much Does IT Cost? 218 Activity-Based Costing 218 Total Cost of Ownership 220 Valuing IT Investments 223 Monitoring IT Investments 226 The Balanced Scorecard 229 IT Dashboards 232 Food For Thought: Options Pricing 233 Summary 236 Key Terms 236 Discussion Questions 237 Case Study 9-1: DaimlerChrysler 237
What Defines a Project? 240 What Is Project Management? 241 Project Measurement 242 Project Elements 243 Common Project Vocabulary 244 Teamwork 244 Project Cycle Plan 245 Elements of Project Management 249 IT Project Development Methodologies 253 Systems Development Life Cycle 254 Prototyping 256

Rapid Applications Development and Joint Applications Development 258
Managerial Influences 259
Technical Influences 259
Managing Organizational and Socioeconomic Influences 261
Managing Project Risk 261
High Risk Level 263
Pulling the Plug 266
Measuring Success 267
Food for Thought: Open Sourcing 268
