## UNIT 1 COMPUTER BASICS

---

### **3 Lesson 1: Understanding Computers and Computer Literacy**

---

- 4 What Is a Computer?
- 4 A Computer System
- 6 What Makes a Computer So Powerful?
- 7 Computer Literacy
- 7 A Brief History of the Computer
- 9 How Computers Are Used
- 9 Categories of Computers
- 11 Communications and the Beginning of the Internet
- 13 The Internet
- 13 How Vista Multimedia Uses Computers
- 14 Computers in Our Future
- 15 Summary

### **21 Lesson 2: The Internet and the World Wide Web**

---

- 22 Evolution of the Internet
- 23 How Does the Internet Work?
- 24 Major Features of the Internet
- 27 Accessing the Internet—Dial-in or Direct Connection
- 29 What Is a Browser?
- 46 Summary

### **51 Lesson 3: How a Computer Processes Data**

---

- 51 Computer System Components
- 53 System Components
- 59 Data Representation
- 60 Summary

### **65 Lesson 4: Keyboarding**

---

- 66 The Keyboard Layout
- 68 The Display Computer Screen
- 69 Correct Keyboarding Techniques
- 72 Developing Beginning Keyboarding Skills
- 74 Saving Your Practice Work
- 74 Printing a File
- 74 Exiting the Program
- 75 Retrieving a File
- 75 Additional Concepts
- 79 Summary

## Table of Contents

### **83 Lesson 5: Input, Output, Storage, and Networks**

---

84	Input Devices
89	Output Devices
93	Connecting Input/Output Devices to the Computer
93	Storage Devices
97	Caring for Removable Storage Media
97	Introducing Networks
99	Communications Media
105	Types of Networks
107	Network Topologies
108	Communications Protocols
109	Network Operating Systems Software
109	Summary

### **117 Lesson 6: Operating Systems and Software**

---

117	Hardware vs. Software
118	Types of Software
120	Microcomputer Operating Systems Interfaces
122	Microcomputer Operating Systems
128	Summary
133	Unit Review

## **UNIT 2 SOFTWARE**

---

### **141 Lesson 7: Word Processing**

---

142	What Is Word-Processing Software?
151	Formatting Text
172	Creating a Simple Table
175	Summary

### **179 Lesson 8: Spreadsheets**

---

180	What Is the Purpose of Spreadsheets?
180	The Anatomy of a Spreadsheet
181	Moving Around in a Spreadsheet
182	Entering Data into a Spreadsheet
183	Entering Formulas and Functions
185	Copying Data
187	Printing the Spreadsheet
189	Formatting a Spreadsheet
195	Workbooks
195	Hiding Data
196	Headers and Footers
197	Adding Objects in a Spreadsheet
198	Creating Charts
199	Using a Spreadsheet
199	Summary

**205 Lesson 9: Databases**

---

205	What Is Database Software?
206	Creating a Database
211	Modifying the Table Structure
212	Entering Data into a Table
213	Printing a Table
213	Sorting a Table
214	Querying a Database
220	Creating and Using Forms
223	Creating and Using a Report
228	Summary

**233 Lesson 10: Presentation Graphics and Multimedia**

---

234	Using Visuals in a Presentation
234	Overview
235	Creating a Presentation
240	Working in Different Views
241	Add Clip Art to Your Presentation
242	Adding a Chart to Your Presentation
244	Adding WordArt to a Presentation
247	Playing Your Presentation
247	Printing Your Presentation
248	Preparing an Effective Presentation
249	Delivering a Presentation
250	Using Multimedia
253	Creating a Multimedia Presentation
255	Summary

**259 Lesson 11: Integration**

---

259	Software Integration
260	Creating a Form Letter
265	Creating Mailing Labels
269	Importing Files
275	Summary
279	Unit Review

**UNIT 3 ADVANCED COMPUTER CONCEPTS****289 Lesson 12: The Internet and Research**

---

290	The Key to a Successful Search
290	Why Search the Internet?
291	Search Engines
296	Specialty Search Engines
299	Subject Directory Searching
303	Tools and Techniques for Searching the Web
307	Summary

## Table of Contents

---

### **313 Lesson 13: Evaluating Electronic Information**

313	Evaluating Information Found on the Internet
314	Viewing a Page
317	Types of Internet Resources
317	Understanding Rules of Copyright
319	Internet Detective
319	Evaluation Survey
320	Other Legal and Ethical Issues
321	Summary

---

### **325 Lesson 14: Desktop Publishing**

326	What Is Desktop Publishing?
327	Stages in the Desktop Publishing Process
329	Layout and Design
330	Using Graphics
332	Using Color
332	Using Lines
333	Using Other Elements
334	Using Microsoft Publisher
337	Desktop Publishing Tips
338	Summary

---

### **343 Lesson 15: Creating a Web Page**

343	How a Web Page Works
344	Plan a Document
345	A Basic Page
349	Page Formatting
359	Links
364	Images
368	Backgrounds
370	Publishing Your Web Page
372	Summary

---

### **377 Lesson 16: How Technology Is Changing the Workplace and Society**

378	Education
384	Scientific Discovery and Technological Innovations
387	Work and Play
392	Technological Issues
395	Risks of Using Computer Hardware and Software
399	Summary
403	Unit Review

---

### **409 Glossary**

### **417 Index**
