Knowledge Media in Healthcare: Opportunities and Challenges

Table of Contents

<i>Preface</i>	<i>i</i>
----------------------	----------

Section I: Foundations of Knowledge Media

Chapter I

The Concept of Knowledge Media: The Past and Future	1
--	----------

Katarina Stanoevska-Slabeva

University of St. Gallen, Switzerland

Chapter II

Experience With a Functional-Logic Multi-Agent Architecture for Medical Problem Solving	17
--	-----------

Giordano Lanzola, University of Pavia, Italy

Harold Boley, German Research Center for Artificial Intelligence, Germany

Chapter III

Cross-Fertilizing Logic Programming and XML for Knowledge Representation	38
---	-----------

Harold Boley

German Research Center for Artificial Intelligence, Germany

Section II: Knowledge Representation and Human-Computer Interaction

Chapter IV

Four Different Types of Classification Models	57
--	-----------

Hans Rudolf Straub

Project Group for Semantic Analyses in Healthcare, Switzerland

Chapter V

Towards Improved Representation and Communication of Pharmaceutical Expert Information	83
---	-----------

Markus Wagner

University of Mainz, Germany

Chapter VI	
A Semantically Advanced Querying Methodology for Medical Knowledge and Decision Support	96
<i>Epaminondas Kapetanios</i>	
<i>Swiss Federal Institute of Technology, Switzerland</i>	

Section III: Secure Healthcare Application and Data

Chapter VII	
Towards a Secure Web-Based Healthcare Application	131
<i>Konstantin Knorr, University of Zurich, Switzerland</i>	
<i>Susanne Röhrig, SWISSIT Informationstechnik AG, Switzerland</i>	

Chapter VIII	
Secure Internet Access to Medical Data	151
<i>Ulrich Ultes-Nitsche, University of Southampton, United Kingdom</i>	
<i>Stephanie Teufel, Université de Fribourg, Switzerland</i>	

Section IV: Knowledge Transfer and Management

Chapter IX	
Poems in the Information Jungle—How Do Physicians Survive?	166
<i>Allen F. Shaughnessy, Harrisburg Family Practice Residency Program, USA</i>	
<i>David C. Slawson, University of Virginia Health Services Center, USA</i>	
<i>Joachim E. Fischer, University Hospital of Zurich, Switzerland</i>	

Chapter X	
The Medical Journal Club—A Tool for Knowledge Refinement and Transfer in Healthcare	176
<i>Khalid S. Khan, Birmingham Women's Hospital, United Kingdom</i>	
<i>Lucas M. Bachmann, Birmingham Women's Hospital and</i>	
<i>University Hospital of Zurich, Switzerland</i>	
<i>Johann Steurer, University Hospital of Zurich, Switzerland</i>	

Chapter XI	
Using On-Line Medical Knowledge To Support Evidence-Based Practice: A Case Study of a Successful Knowledge Management Project	187
<i>Daniel L. Moody and Graeme G. Shanks</i>	
<i>University of Melbourne, Australia</i>	

Section V: Towards a Global Knowledge Medium

Chapter XII

Structured Content and Connectivity of Medical Information–

The Medical Data Web 205

Walter Fierz

Institute for Clinical Microbiology and Immunology, Switzerland

Chapter XIII

An Extensible Approach for Modeling Ontologies in RDF(S) 234

Steffen Staab, Michael Erdmann, Alexander Maedche and Stefan Decker

University of Karlsruhe, Germany

Chapter XIV

Towards a Semantic Web of Evidence-Based Medical Information 254

Rolf Grütter, University of St. Gallen, Switzerland

Claus Eikemeier, University of St. Gallen, Switzerland

Johann Steurer, University Hospital of Zurich, Switzerland
