

Transgenic Crop Protection

Concepts and Strategies

Editors

Opender Koul
G.S. Dhaliwal

CONTENTS

<i>Preface</i>	<i>v</i>
<i>The Contributors</i>	<i>xi</i>
1. Transgenic Crop Protection: An Introduction	1
<i>Opendar Koul and G. S. Dhaliwal</i>	
2. Transgenic Crops Expressing Bt Proteins: Current Status, Challenges and Outlook	15
<i>John H. Benedict and Dennis R. Ring</i>	
3. Insect-Resistant Transgenic Crops Expressing Plant Lectins	85
<i>Jesusa Crisostomo Legaspi, B. C. Legaspi, Jr. and M. Sétamou</i>	
4. Genetically-Modified Herbicide-Tolerant Crops-A European Perspective with a United Kingdom Emphasis	117
<i>K. Berry, P. J. W. Lutman, L. A. P. Lotz and C. Kempenaar</i>	
5. Transgenic Rice for Disease Resistance	157
<i>Swapan K. Datta</i>	
6. Development of Resistance in Pests to Transgenic Plants: Mechanisms and Management Strategies	177
<i>Charles F. Chilcutt and Marshall W. Johnson</i>	
7. Gene Pyramiding: A Transgenic Approach to Enhancing Resistance Durability in Plants	219
<i>K. R. Rajyashri and Madan Mohan</i>	
8. Current Resistance Management Strategies for Bt Corn in the United States	261
<i>Sharlene M. Matten, Richard L. Hellmich and Alan Reynolds</i>	

9. Role of Transgenic Microbes and Endophytes in Crop Protection	289
<i>Sarojeet Kaur, Rhitu Rai and Aqbal Singh</i>	
10. Impact of Transgenic Bt Crops on Non-Target Animal Species	307
<i>Graham Head and Galen Dively</i>	
11. Regulation of Genetically-Modified Crops: A Scientific Perspective	325
<i>Kees Hulsman</i>	
12. Transgenic Crops for Small Farmers: A Dream or a Nightmare	351
<i>Yolanda Masieu Trigo</i>	
13. Ecological, Economic and Social Perspectives on Transgenic Crop Protection: Path for the Developing World	373
<i>Sarojeet Kaur</i>	
<i>Index</i>	407
