|---------------------------|------|
| Foreword | xi |
| Preface | xiii |
| Acknowledgments | xix |

Part I: An Introduction to Flash Web Production 1

Chapter 1: Understanding the Flash MX 2004 Framework 3

| | |
|--|----|
| It's a (Flash) MX 2004 World | 4 |
| The topography of Flash MX 2004 | 8 |
| File types in Flash MX 2004 | 9 |
| The Many Faces of Flash MX 2004 | 12 |
| Bitmap handler | 13 |
| Vector-based drawing program | 13 |
| Vector-based animator | 13 |
| Video compressor | 13 |
| Audio player | 14 |
| Multimedia authoring program | 14 |
| Animation sequencer | 14 |
| Programming and database front end | 15 |
| Summary | 16 |

Chapter 2: Exploring Web Technologies 17

| | |
|--|----|
| Contextualizing Flash in the Internet Evolution | 17 |
| High expectations for Web experiences | 17 |
| To Flash or not to Flash? | 19 |
| Alternative methods of multimedia authoring | 23 |
| Exploring Companion Technologies | 25 |
| HTML is here to stay | 25 |
| Client-side scripting using JavaScript | 25 |
| The world of Web Services | 26 |
| Macromedia server technologies | 27 |
| Recognizing Project Potential | 27 |
| Linear presentations | 27 |
| Interactive presentations | 27 |
| Data-driven presentations | 27 |
| Data-driven applications (or Rich Internet Applications) | 28 |
| Summary | 28 |

| | |
|--|-----------|
| Chapter 3: Planning Flash Projects | 29 |
| Workflow Basics | 29 |
| Phase I: Establishing the concept and goals | 30 |
| Phase II: Producing, testing, and staging the presentation | 42 |
| Using the Project Panel in Flash MX Pro 2004 | 44 |
| 1. Establishing a project and a site | 45 |
| 2. Adding files to the project | 50 |
| 3. Committing and editing files in the project | 51 |
| 4. Adding new files to the project | 52 |
| 5. Publishing the entire project | 53 |
| Summary | 54 |

Part II: Mastering the Flash Environment **55**

| | |
|---|-----------|
| Chapter 4: Interface Fundamentals | 57 |
| Getting Started | 57 |
| Welcome to Flash MX 2004 and MX Professional 2004 | 58 |
| Start Page | 58 |
| Help menu options | 60 |
| The MX 2004 interface on Macintosh and Windows | 62 |
| What to expect from the Property inspector | 66 |
| Managing Windows and Panels | 67 |
| Contextual menus | 68 |
| Focus: Making panels or windows active | 68 |
| Creating custom Panel Sets | 69 |
| Keyboard shortcuts | 70 |
| The Tools panel | 72 |
| Controlling the Tools panel | 72 |
| Reading the Tools panel | 73 |
| Using Tool options | 73 |
| Customizing the Tools panel | 74 |
| The Document Window | 78 |
| Controlling the Document window | 78 |
| Reading the Document window | 80 |
| Using scenes | 82 |
| Using Document window menu options | 84 |
| Working with Flash templates | 86 |
| The Timeline Window | 92 |
| Controlling the Timeline window | 92 |
| Using the Timeline Controller toolbar | 93 |
| Reading the Timeline | 94 |
| Editing frames and layers | 98 |
| Using Frame View options | 106 |
| Printing | 108 |
| Summary | 109 |

Chapter 5: Drawing in Flash 111

| | |
|--|-----|
| Using Geometric Shape Tools | 112 |
| The Line tool | 112 |
| The Oval tool | 112 |
| The Rectangle tool | 113 |
| The PolyStar tool | 114 |
| Using Drawing Tools | 116 |
| The Pencil tool | 116 |
| The Brush tool | 117 |
| The Eraser tool | 124 |
| Creating Precise Lines with the Pen Tool | 126 |
| Using Fill and Stroke Controls | 129 |
| Choosing colors | 129 |
| Choosing line styles | 131 |
| Optimizing Drawings | 134 |
| Putting Selection Tools to Work | 135 |
| The Selection tool | 135 |
| The Lasso tool | 140 |
| The Subselect tool | 142 |
| Designing and Aligning Elements | 144 |
| Simplifying snapping settings | 144 |
| Design panels | 148 |
| The Edit menu | 153 |
| Summary | 154 |

Chapter 6: Symbols, Instances, and the Library 157

| | |
|--|-----|
| Understanding the Document Library | 158 |
| Reading the Library | 160 |
| Organizing the Library | 164 |
| Defining Content Types | 166 |
| Raw data | 166 |
| Groups | 166 |
| Native symbols | 167 |
| Imported media elements | 168 |
| Editing Symbols | 171 |
| Modifying a symbol in Edit mode | 171 |
| Editing a symbol in a new window | 171 |
| Editing a symbol in place | 171 |
| Editing symbols from the Library | 172 |
| Returning to the main Timeline or scene | 172 |
| Working with Timeline Effect symbols | 172 |
| Modifying Instance Properties | 175 |
| Applying basic color effects to symbol instances | 175 |
| Changing the symbol behavior of an instance | 176 |
| Swapping symbols | 177 |
| Building Nested Symbol Structures | 177 |
| Converting a raw shape into a Graphic symbol | 178 |
| Using Graphic symbols in a Button | 179 |
| Animating Graphic symbols in a Movie Clip | 180 |
| Adding a Movie Clip to a Button symbol | 182 |
| Modifying a Movie Clip instance | 183 |

| | |
|---|------------|
| Using the Movie Explorer | 185 |
| Filtering buttons | 185 |
| The Display list | 186 |
| The Movie Explorer Options menu | 186 |
| The contextual menu | 188 |
| Using Authortime Shared Libraries | 189 |
| Summary | 192 |
| Chapter 7: Applying Color | 195 |
| Introducing Color Basics | 195 |
| Discussing Web-safe color issues | 196 |
| Using hexadecimal values | 197 |
| Using custom Web-safe colors | 197 |
| Using color effectively | 198 |
| Working in the Color Swatches Panel | 202 |
| Color Swatches panel options | 203 |
| Importing custom palettes | 204 |
| Using the Color Mixer Panel | 208 |
| Adjusting fill and stroke transparency | 211 |
| Working with gradient fills | 212 |
| Controlling gradient fill colors | 214 |
| Using Alpha settings with gradients | 215 |
| Selecting bitmap fills | 218 |
| Working with Droppers, Paint Buckets, and Ink Bottles | 219 |
| Summary | 220 |
| Chapter 8: Working with Text | 221 |
| Considering Typography | 221 |
| Text Field Types in Flash | 222 |
| Static text boxes | 223 |
| Editable text fields: Dynamic and Input | 225 |
| The Text Tool and the Property Inspector | 226 |
| Working with the Text tool | 226 |
| Setting text attributes in the Property Inspector | 230 |
| Font Export and Display | 238 |
| Understanding device fonts | 238 |
| Rendering outlines with the Alias text button | 239 |
| Working with the Property Inspector Use Device Fonts option | 239 |
| Troubleshooting font display | 240 |
| Controlling font substitution | 241 |
| Font Symbols and Shared Font Libraries | 244 |
| Creating a Font symbol | 245 |
| Updating Font symbols at author-time | 248 |
| Using Font symbols in runtime Shared libraries | 248 |
| Modifying Text | 253 |
| Sampling and sharing text attributes | 254 |
| Converting text into vector shapes | 255 |
| Using Timeline Effects on Static text | 256 |
| Summary | 257 |

Chapter 9: Modifying Graphics 259

| | |
|---|-----|
| Sampling and Switching Fills and Strokes | 260 |
| The Eyedropper tool | 260 |
| The Ink Bottle tool | 261 |
| The Paint Bucket tool | 262 |
| Using the Paint Bucket Gap size option | 264 |
| Using the Paint Bucket Lock Fill option | 264 |
| Transforming Fills | 266 |
| Adjusting the center point with the Fill Transform tool | 267 |
| Rotating a fill with the Fill Transform tool | 268 |
| Adjusting scale with the Fill Transform tool | 268 |
| Skewing a bitmap fill with the Fill Transform tool | 269 |
| Fill Transform Used for Effects | 269 |
| Applying Modify Shape Menu Commands | 270 |
| Convert Lines to Fills | 271 |
| Expand Fill | 272 |
| Soften Fill Edges | 273 |
| Free Transform Commands and Options | 275 |
| The Transform panel | 275 |
| The Modify Transform menu | 276 |
| The Free Transform tool | 277 |
| Transforming shapes, symbols, text, and groups | 277 |
| Modifying Item Types | 280 |
| Stacking order | 280 |
| Grouping | 281 |
| Applying Break apart | 281 |
| About the Magic Wand option | 285 |
| Tracing bitmaps | 286 |
| Using Distribute to Layers | 288 |
| Working with Compound Shapes | 290 |
| Using Advanced Color Effects for Symbol Instances | 292 |
| Relative color control | 292 |
| Absolute color control | 293 |
| The Magic and Mayhem of Timeline Effects | 294 |
| Static Timeline effects | 294 |
| Adding a Drop Shadow Timeline effect | 296 |
| Managing Timeline effect symbols and folders | 297 |
| Modifying Timeline effect symbols | 298 |
| Editing with Find and Replace | 299 |
| Using the History Panel | 301 |
| Replay Steps | 302 |
| Copy Steps | 302 |
| Clear History | 302 |
| History View | 303 |
| Save As Command | 303 |
| Summary | 304 |

| | |
|---|------------|
| Chapter 10: Animation Strategies | 307 |
| Establishing Ground Rules | 308 |
| Defining Variables | 308 |
| The environment | 309 |
| The materials | 309 |
| The motion | 310 |
| Adding Personality | 311 |
| Manipulating Perception and Illusion | 313 |
| Viewpoint, framing, and depth | 314 |
| Anticipation | 316 |
| Secondary motion | 318 |
| Understanding the Laws of Nature | 319 |
| Law #1: Inertia | 319 |
| Law #2: Acceleration | 319 |
| Law #3: Action/reaction force pairs | 320 |
| Summary | 322 |
| | |
| Chapter 11: Timeline Animation and Effects | 323 |
| Basic Methods of Flash Animation | 323 |
| Frame-by-Frame Animation | 324 |
| Adding keyframes | 325 |
| Creating frame-by-frame animation | 326 |
| Modifying Multiframe Sequences | 326 |
| Onion skinning | 328 |
| Editing multiple frames | 330 |
| Using Tweens for Animation | 331 |
| Shape tweening | 332 |
| Adding Shape Hints | 335 |
| Motion tweening | 338 |
| Using Timeline Effects for Animation | 343 |
| Timeline Effect limitations | 344 |
| Timeline Effect options | 345 |
| Applying an animated Timeline Effect | 345 |
| Integrating Multiple Animation Sequences | 352 |
| Moving tweens onto symbol timelines | 354 |
| Organizing Symbol Instances on the Main Timeline | 357 |
| Reusing and Modifying Symbol Instances | 358 |
| Summary | 364 |
| | |
| Chapter 12: Applying Layer Types | 367 |
| Guide Layers | 368 |
| Motion Guides | 371 |
| Applying a Motion guide | 371 |
| Adding control to animation along a path | 373 |
| Using Orient to Path | 374 |
| Registration and center point alignment | 374 |

| | |
|--|-----|
| Mask Layers | 375 |
| Masking with a filled shape | 376 |
| Masking with a group | 378 |
| Masking with a symbol instance | 379 |
| Masking text | 379 |
| Motion Guides and Movie Clip Masks | 382 |
| Summary | 386 |

Chapter 13: Character Animation Techniques 387

| | |
|---|-----|
| Working with Large File Sizes | 387 |
| Storyboarding scenes and shots | 388 |
| Flash Scenes and project files | 389 |
| Voices, sound effects, and ambient sound | 389 |
| Some Cartoon Animation Basics | 390 |
| Expressing motion and emotion | 391 |
| Anticipation | 391 |
| Weight | 391 |
| Overlapping actions | 391 |
| Blurring to simulate motion | 392 |
| Animator's Keys and Inbetweening | 392 |
| Walk cycles (or walk loops) | 393 |
| Repeaters | 395 |
| Types of walks | 396 |
| Coloring the Art | 396 |
| The model sheet | 396 |
| Gap problems | 397 |
| Speed coloring | 397 |
| Temporary backgrounds | 397 |
| Flash Tweening | 400 |
| Panning | 401 |
| Instance swapping | 401 |
| Lip-syncing | 402 |
| Shape morphing is not for lip-syncing | 403 |
| Expression and lip-syncing | 403 |
| Lip-sync tricks | 403 |
| Syncing with music and sound effects | 404 |
| Backgrounds and Scenery | 408 |
| Bitmaps | 409 |
| QuickTime limitations | 409 |
| Building layered backgrounds in Photoshop | 409 |
| Flash Mask layers | 410 |
| Long pans | 410 |
| Multiplane pans | 411 |
| Blurring to simulate depth | 411 |
| Finishing Up | 412 |
| Final output | 413 |
| Summary | 416 |

Chapter 14: Exporting Animation 419

| | |
|--|-----|
| High-Quality Video Output from Flash | 419 |
| A Quick Video Primer | 420 |
| A brief history of digital video | 420 |

| | |
|--|-----|
| Adjusting Flash Movies for Video Output | 423 |
| Creating Sequences from Flash Movies | 428 |
| Export process in Flash | 428 |
| Uses of each sequence format | 430 |
| Creating AVI Files on Windows | 432 |
| Dimensions | 433 |
| Video format | 433 |
| Sound format | 433 |
| Video compression | 434 |
| Exporting Audio from a Flash Document | 434 |
| Importing Image Sequences into After Effects | 435 |
| Summary | 443 |

Part IV: Integrating Media Files with Flash

445

Chapter 15: Adding Sound 447

| | |
|--|-----|
| Identifying Sound File Import and Export Formats | 447 |
| Import formats | 448 |
| Export formats | 450 |
| Importing Sounds into Flash | 452 |
| Assigning a Sound to a Button | 453 |
| Adding Sound to the Timeline | 456 |
| Organizing Sounds on the Timeline | 457 |
| Enhanced viewing of sound layers | 457 |
| Organizing sound layers with a layer folder | 458 |
| Synchronizing Audio to Animations | 458 |
| Event | 458 |
| Start | 459 |
| Stop | 459 |
| Stream | 459 |
| Stopping Sounds | 460 |
| Stopping an Event sound | 460 |
| Stopping a single instance of a Stream sound | 462 |
| Stopping all sounds | 462 |
| Applying Behaviors That Control Sound | 463 |
| Load Sound from Library | 464 |
| Load streaming MP3 file | 466 |
| Play Sound | 467 |
| Stop All Sounds | 469 |
| Stop Sound | 471 |
| Editing Audio in Flash | 472 |
| Sound-editing controls | 472 |
| Applying effects from the Effect menu of the Property inspector | 473 |
| Sound Optimization Overview | 475 |
| Publish Settings for Audio | 476 |
| The Set options | 477 |
| Supporting Audio and MP3 Playback | 480 |

| | |
|---|-----|
| Fine-Tuning Sound Settings in the Library | 481 |
| Settings for audio in the Library | 481 |
| Combining methods for controlling sounds | 483 |
| Final Sound Advice and Pointers | 483 |
| VBR (Variable Bit Rate) MP3 | 484 |
| Optimizing sounds for bandwidth usage | 485 |
| Extracting a sound from a Flash document | 487 |
| Summary | 489 |

Chapter 16: Importing Artwork 491

| | |
|---|-----|
| Defining Vectors and Bitmaps | 491 |
| Knowing the File Formats for Import to Flash | 493 |
| Preparing Bitmaps | 497 |
| Preserving Bitmap Quality | 499 |
| Importing and Copying Bitmaps | 500 |
| Importing a bitmap file into Flash | 501 |
| Importing sequences | 502 |
| Copying and pasting a bitmap into Flash | 503 |
| Setting Bitmap Properties | 503 |
| Being Prepared for Common Problems | 506 |
| Cross-browser consistency | 507 |
| JPEG rotation | 507 |
| Applying Alpha and Color Effect settings to bitmaps | 508 |
| Using the Bitmap Buttons | |
| In the Property Inspector | 508 |
| Swap | 508 |
| Edit | 509 |
| Making Sense of Bitmap Compression | 509 |
| 24-bit or 32-bit lossless source files | 510 |
| 8-bit lossless source files | 510 |
| Source files with lossy compression | 511 |
| Converting Rasters to Vectors | 512 |
| Using External Vector Graphics | 514 |
| Importing Vector Artwork | 515 |
| Importing Macromedia Fireworks files | 518 |
| Importing Macromedia FreeHand files | 519 |
| Optimizing Vectors | 523 |
| Tracing complex vector artwork | 524 |
| Converting text to outlines | 525 |
| Optimizing curves | 526 |
| Summary | 527 |

Chapter 17: Embedding Video 529

| | |
|---|-----|
| Importing the Video | 529 |
| Integrating video: The solutions | 530 |
| Spark compression options | 532 |
| Adjusting audio compression | 538 |
| Compressing video with Flash MX 2004 | 538 |
| Using Video in a Timeline | 540 |
| Controlling playback of embedded video | 540 |
| Placing and controlling video within a Movie Clip | 543 |

| | |
|--|-----|
| Publishing Flash Movies with Video | 545 |
| Storing video in a separate Flash movie | 546 |
| Using named anchors with video timelines | 548 |
| Optimizing Video with the Flash Video Exporter | 550 |
| Installing the Flash Video Exporter | 551 |
| Using the Flash Video Exporter | 551 |
| Using Sorenson Squeeze for Flash Video | 553 |
| Choosing a Flash output file type | 554 |
| Compressing video with Sorenson Spark Pro | 556 |
| Summary | 558 |

Part V: Adding Basic Interactivity to Flash Movies

559

Chapter 18: Understanding Actions and Event Handlers 561

| | |
|--|-----|
| Actions and Event Handlers | 561 |
| What are behaviors? | 562 |
| What is ActionScript? | 565 |
| Navigating the Actions panel | 565 |
| A brief primer on code syntax | 568 |
| Your First Five Actions | 570 |
| gotoAndPlay and gotoAndStop | 571 |
| nextFrame and prevFrame | 572 |
| nextScene and prevScene | 573 |
| play and stop | 573 |
| stopAllSounds | 574 |
| getURL | 574 |
| Making Actions Happen with Event Handlers | 576 |
| Combining an action with an event handler to make a functioning button | 577 |
| The Flash event handlers | 579 |
| Working with mouse events and buttons | 579 |
| Capturing keyboard input | 581 |
| Capturing time events with keyframes | 583 |
| Creating Invisible Buttons and Using getURL | 583 |
| Summary | 588 |

Chapter 19: Building Timelines and Interactions 591

| | |
|---|-----|
| Movie Clips: The Key to | |
| Self-Contained Playback | 591 |
| How Movie Clips interact within a Flash movie | 592 |
| One movie, several timelines | 593 |
| Targets and Paths Explained | 594 |
| Paths: Absolute and relative modes | 596 |
| Targeting Movie Clips in Flash MX 2004 | 598 |
| Targeting Movie Clips with Behaviors | 602 |
| Integrating Behaviors with Movie Clips | 604 |
| Overview of the pianoKeys Movie Clip | 604 |
| Create sound instances with a behavior | 605 |
| Targeting the sounds with more behaviors | 607 |
| Summary | 610 |

Chapter 20: Making Your First Flash MX 2004 Project 611

| | |
|---|-----|
| The Main Timeline as the Site Layout | 611 |
| Creating a plan | 612 |
| Determining Flash movie properties | 613 |
| Mapping presentation areas to keyframes | 614 |
| Creating content for each area | 615 |
| Adding Navigation Elements to the Main Timeline | 620 |
| Creating text buttons for a menu | 620 |
| Browsing the video items | 623 |
| Text Scrolling with the TextArea Component | 624 |
| Using the Custom Fade Component | 627 |
| Adding Named Anchors | 628 |
| Making the Movie Accessible | 629 |
| Summary | 633 |

Part VI: Distributing Flash Movies

635

Chapter 21: Publishing Flash Movies 637

| | |
|---|-----|
| Testing Flash Movies | 637 |
| Using the Test Scene or Movie command | 638 |
| Using the Bandwidth Profiler | 640 |
| Using the size report | 644 |
| Publishing Your Flash Movies | 644 |
| Publish Settings | 645 |
| Selecting formats | 645 |
| Using the Flash settings | 646 |
| Using the HTML settings | 650 |
| Using the GIF settings | 658 |
| Using the JPEG settings | 661 |
| Using the PNG settings | 662 |
| Creating Windows and Macintosh projectors | 664 |
| Using the QuickTime settings | 664 |
| Publish Preview and Publish Commands | 664 |
| Using Publish Preview | 664 |
| Using Publish | 665 |
| Using Publish Profiles | 665 |
| Summary | 666 |

Chapter 22: Integrating Flash Content with Web Pages 669

| | |
|---|-----|
| Writing Markup for Flash Movies | 669 |
| Using the <object> tag | 670 |
| Using the <embed> tag | 675 |
| Detecting the Flash Player | 677 |
| Plug-in versus ActiveX: Forcing content without a check | 678 |
| Detecting the Flash Player with Flash MX 2004 | 679 |
| Building your own Flash sniffer movie | 683 |
| Detecting the Flash Player with JavaScript and VBScript | 687 |

| | |
|---|-----|
| Using Flash Movies with JavaScript and DHTML | 691 |
| A word of caution to Web developers | 691 |
| Understanding how Flash movies work with JavaScript | 691 |
| Changing HTML attributes | 692 |
| Using the percentLoaded() method | 696 |
| Summary | 698 |

Chapter 23: Using the Flash Player and Projector 699

| | |
|---|-----|
| The Stand-Alone Flash Player and Projector | 699 |
| Creating a projector | 700 |
| Distribution and licensing | 702 |
| Distribution on CD-ROM or DVD-ROM | 702 |
| fscommand actions | 702 |
| Using a behavior to toggle the screen mode | 704 |
| Stand-Alone Limitations and Solutions | 706 |
| File sizes | 706 |
| File locations | 706 |
| Using the Flash Player Plug-in for Web Browsers | 707 |
| Supported operating systems | 707 |
| Supported browsers | 707 |
| Plug-in and Flash movie distribution on the Web | 708 |
| Plug-in installation | 709 |
| Using the Settings in Flash Player 6 and 7 | 709 |
| Privacy | 709 |
| Local Storage | 710 |
| Microphone | 710 |
| Camera | 711 |
| Alternative Flash-Content Players | 712 |
| RealOne Player with Flash playback | 712 |
| QuickTime Player | 712 |
| Shockwave Player | 713 |
| Player Utilities | 713 |
| Summary | 714 |

Part VII: Approaching ActionScript

715

Chapter 24: Knowing the Nuts and Bolts of Code 717

| | |
|--|-----|
| Breaking Down the Interactive Process | 718 |
| Define your problems | 718 |
| Clarify the solution | 718 |
| Translate the solution into the interactive language | 719 |
| The Basic Context for Programming in Flash | 720 |
| Accessing ActionScript commands | 721 |
| Actions list organization in the Actions panel | 721 |
| The Help panel | 722 |
| ActionScript 1.0 and 2.0 | 724 |
| One Part of the Sum: ActionScript Variables | 725 |
| String literals | 726 |
| Expressions | 727 |

| | |
|---|------------|
| Variables as declarations | 728 |
| Variables as text fields | 729 |
| Declaring Variables in ActionScript | 731 |
| Using actions to define variables | 731 |
| Loading variables from a predefined source | 731 |
| Sending variables to URLs | 732 |
| Establishing variables with HTML | 733 |
| Creating Expressions in ActionScript | 733 |
| Operators | 733 |
| Checking conditions: if... else actions | 735 |
| Branching conditions with switch() and case | 737 |
| Loops | 739 |
| Properties | 743 |
| Built-in functions | 743 |
| Creating and calling subroutines | 744 |
| Creating a Login Sequence with Variables | 744 |
| Summary | 748 |

Chapter 25: Controlling Movie Clips **751**

| | |
|---|------------|
| Movie Clips: The Object Overview | 751 |
| Movie Clip properties | 752 |
| Movie Clip methods | 757 |
| onClipEvent: The Original Movie Clip handler | 764 |
| Event methods: The MX Movie Clip handler | 764 |
| Other objects and functions that use the MovieClip object | 771 |
| Working with Movie Clip Properties | 772 |
| Positioning Movie Clips | 772 |
| Scaling Movie Clips | 773 |
| Rotating Movie Clips | 774 |
| Creating Draggable Movie Clips | 775 |
| Drag-and-drop basics | 775 |
| Detecting the drop position: Using _droptarget | 777 |
| Making alpha and scale sliders | 781 |
| Summary | 790 |

Chapter 26: Using Functions and Arrays **791**

| | |
|--|------------|
| What Are Data Types? | 791 |
| string | 792 |
| number | 793 |
| boolean | 793 |
| movieclip | 794 |
| object | 794 |
| function | 795 |
| undefined | 795 |
| Checking data types with typeof | 795 |
| Checking class type with instanceof | 797 |
| Overview of Functions as Procedures | 798 |
| What functions do | 798 |
| When to create a function | 798 |
| How to define a function | 799 |
| How to execute a function | 800 |

| | |
|--|-----|
| Managing Related Data: The Array Class | 800 |
| Creating a Dynamic Reusable Flash Menu | 802 |
| Functions as Methods of Objects | 807 |
| Functions as Constructors for Objects | 810 |
| Function definition | 810 |
| Object creation and assignment | 811 |
| Sound object method execution | 811 |
| Summary | 812 |

Chapter 27: Interacting with Movie Clips 813

| | |
|--|-----|
| Movie Clip Collision Detection | 813 |
| Using _droptarget | 814 |
| Collision detection with hitTest() | 814 |
| Using the Mouse Object | 816 |
| Manipulating Color Attributes | 819 |
| Creating a Color object | 820 |
| Creating a Transform Object | 823 |
| Enabling Sound with ActionScript | 827 |
| Creating sound libraries with ActionScript | 830 |
| Creating a soundTransformObject | 834 |
| Creating volume and balance sliders for sounds | 835 |
| Printing with ActionScript | 837 |
| Summary | 843 |

Chapter 28: Sharing and Loading Assets 845

| | |
|---|-----|
| Managing Smooth Movie Download and Display | 845 |
| Preloading a Flash Movie | 846 |
| Loading Flash Movies | 852 |
| Basic overview of Flash site architecture | 853 |
| Storing multiple movies | 854 |
| Loading an external SWF file into a movie | 854 |
| How Flash handles loaded movies of differing dimensions | 857 |
| Placing, scaling, and rotating externally loaded Flash movies | 857 |
| Communicating between multiple movies on different levels | 861 |
| Unloading movies | 861 |
| loadMovie() as a method for Movie Clip targets | 862 |
| Loading JPEG Images into Flash Movies | 863 |
| Loading an Asset with the MovieClipLoader API | 866 |
| Loading MP3 Audio into Flash Movies | 869 |
| Loading a Flash Video into a Flash Movie | 871 |
| Using a Preloader for External Assets | 874 |
| Using the Loader and ProgressBar Components | 878 |
| Adding a Loader component to your Flash movie | 879 |
| Dynamically changing the source of a Loader component | 879 |
| Applying the ProgressBar component | 881 |
| Accessing Items in Shared Libraries | 884 |
| Setting up a shared library file | 884 |
| Assigning names to assets | 886 |

| | |
|--|-----|
| Specifying the shared library's location | 886 |
| Publishing the shared library movie file | 887 |
| Linking to assets from other movies | 887 |
| Updating shared assets | 888 |
| Summary | 889 |

Chapter 29: Using Components 891

| | |
|--|-----|
| What Are Components? | 891 |
| Why Use Components? | 892 |
| A new symbol type for components | 893 |
| How to add a component | 894 |
| Where to find components, assets, and parameters | 894 |
| Modifying component color properties and parameters | 897 |
| Removing components from your movie | 898 |
| Components in Flash MX 2004 | 899 |
| Button component | 899 |
| CheckBox component | 900 |
| ComboBox component | 901 |
| List component | 902 |
| RadioButton component | 903 |
| ScrollPane component | 904 |
| TextArea component | 905 |
| Understanding the Listener Event Model for V2 Components | 907 |
| What a typical listener looks like | 907 |
| Letting the component know who its listeners are | 907 |
| Using Components in Your Movie | 908 |
| Modifying Components | 912 |
| Changing styles for individual instances | 914 |
| Using embedded fonts with components | 914 |
| Custom Components | 916 |
| Live Preview | 916 |
| Exchanging and acquiring components | 916 |
| Summary | 917 |

Chapter 30: Sending Data In and Out of Flash 919

| | |
|--|-----|
| Using Text Fields to | |
| Store and Display Data | 919 |
| Input text fields | 919 |
| Dynamic text fields | 921 |
| Defining a Data Process with States | 923 |
| Input state | 923 |
| Send state | 923 |
| Wait state | 924 |
| Output state | 925 |
| Creating a Flash Form | 925 |
| Using XML Data in Flash Movies | 930 |
| Understanding XML | 930 |
| Loading an XML document into a Flash movie | 931 |
| Summary | 940 |

Chapter 31: Applying HTML and Text Field Formatting 943

| | |
|--|-----|
| Exploring HTML Usage in Text Fields | 943 |
| Supported HTML tags | 944 |
| Formatting text with the Property Inspector | 945 |
| Inserting HTML tags into text fields with ActionScript | 947 |
| Formatting fields with the TextFormat object | 949 |
| Applying style sheets to text fields | 951 |
| Inserting images into text fields | 954 |
| Using asfunction in anchor tags | 955 |
| Controlling Text Field Properties | 956 |
| Manipulating Text with the Selection Object | 957 |
| Summary | 959 |

Chapter 32: Creating a Portfolio Site in Flash 961

| | |
|---|-----|
| Creating an Extensible Site Structure | 961 |
| Planning the basic site structure | 962 |
| Establishing key elements | 964 |
| Organizing the document | 966 |
| Preparing Graphics | 967 |
| Acquiring original portfolio images | 967 |
| Preparing image assets for loading | 970 |
| Formatting logo graphics and other vector art | 975 |
| Putting It All Together | 979 |
| Placing static elements and text | 979 |
| Basic Timeline navigation | 981 |
| Load functions and intro animation | 983 |
| Navigation for loaded assets | 986 |
| Duplicating the functionality | 988 |
| Setting up placeholders for loaded JPEGs | 989 |
| ActionScript for final functionality | 990 |
| Fixing details for final Flash movie | 992 |
| Uploading the final files to the Web server | 993 |
| Summary | 994 |

Chapter 33: Creating a Game in Flash 995

| | |
|---|------|
| The Game Plan: Four Phases of Game Design | 995 |
| Game design | 995 |
| Interaction design | 996 |
| Visual and sound design | 996 |
| Programming | 997 |
| Building the Project | 997 |
| Scripting the Game | 998 |
| Initializing Variables and Creating Sound Objects | 999 |
| Building the Interface | 1000 |
| Creating text fields | 1000 |
| Creating the alphabet | 1001 |
| Starting the Game | 1003 |
| Display the letters of the alphabet | 1004 |
| Choose a random word | 1004 |
| Create the slots for the letters of the word | 1004 |
| The User Input | 1006 |

| | |
|--|------|
| Interpreting the User Input | 1006 |
| Was the letter selected before? | 1007 |
| Is the letter part of the word? | 1007 |
| The letter is not part of the word | 1008 |
| Checking the Status of the Game | 1008 |
| Is the word complete? | 1008 |
| The word is complete | 1008 |
| Is the alien complete? | 1009 |
| Removing the hangman | 1009 |
| Is the word selection empty? | 1010 |
| There are more words to guess | 1010 |
| Adding a delay before the next round | 1010 |
| Added Feature: Storing User and Game Information | 1010 |
| Summary | 1013 |

Chapter 34: Managing and Troubleshooting Flash Movies 1015

| | |
|---|------|
| Customizing the Actions Panel | 1015 |
| Code hints | 1015 |
| Syntax coloring | 1018 |
| Managing Your Code | 1020 |
| Using Replace in the Actions panel | 1020 |
| How and where to place your code | 1022 |
| Centralized code | 1023 |
| Naming conventions | 1023 |
| Commenting | 1024 |
| Strong (or strict) typing | 1025 |
| Using the Output Panel | 1025 |
| trace() action | 1026 |
| List Objects & List Variables | 1029 |
| Knowing the Flash Debugger Panel | 1029 |
| Displaying and modifying variables | 1030 |
| The Watch list | 1032 |
| Editing and displaying movie properties | 1033 |
| Assigning Breakpoints | 1034 |
| Adding or removing breakpoints in the Actions panel | 1034 |
| Adding and removing breakpoints in the Debugger panel | 1035 |
| Stepping through your code | 1037 |
| Debugging a Flash Movie Remotely | 1038 |
| Testing across mediums | 1041 |
| Storing Code in External Files | 1041 |
| The #include command | 1042 |
| Import Script command | 1042 |
| Export Script command | 1043 |
| Team environments | 1043 |
| ActionScript libraries and classes | 1044 |
| Troubleshooting Guidelines | 1044 |
| Good practices | 1044 |
| General troubleshooting checklist | 1045 |
| Designer troubleshooting checklist | 1046 |
| Developer troubleshooting guidelines | 1046 |
| Community Help | 1048 |
| Summary | 1049 |

Chapter 35: Working with Raster Graphics 1053

| | |
|---|------|
| Preparing Bitmaps for Use in Flash MX 2004 | 1053 |
| Enhancing Web Production with Fireworks | 1054 |
| Transferring Fireworks images with transparency to the Flash authoring environment | 1057 |
| Preparing other bitmap formats in Fireworks | 1060 |
| Batch processing bitmap sequences with Fireworks | 1061 |
| Creating Flash/GIF ad banners in Fireworks | 1065 |
| Preparing Images for Flash with Photoshop,CS | 1067 |
| Exporting Raster Images from Flash | 1073 |
| General export options in raster formats | 1074 |
| Other raster file format options | 1075 |
| Using Raster Animation Tools | 1078 |
| Summary | 1078 |

Chapter 36: Working with Vector Graphics 1079

| | |
|---|------|
| Optimizing Vector Graphics for Use in Flash | 1079 |
| Maintaining color consistency | 1080 |
| Saving in the proper file format | 1081 |
| Converting text to outlines | 1081 |
| Tracing to convert rasters to vectors | 1082 |
| Reducing vector complexity | 1083 |
| Creative Type Layouts | 1086 |
| Curved paths | 1086 |
| Columns and runarounds | 1090 |
| Enhancing Flash Production with Macromedia FreeHand | 1093 |
| Creating complex gradients in FreeHand | 1093 |
| Moving artwork from FreeHand to Flash | 1100 |
| Enhancing Flash Production with Adobe Illustrator | 1108 |
| Using SWF Export from Illustrator 9 or higher | 1110 |
| Using the Save for Web command to preview export settings | 1112 |
| Exporting Vector Graphics from Flash | 1112 |
| A word of caution: Using vector formats from Flash | 1114 |
| Color consistency | 1114 |
| Flash gradients | 1114 |
| Summary | 1115 |

Chapter 37: Working with Dreamweaver MX 2004 1117

| | |
|--|------|
| Why Use Dreamweaver with Flash? | 1117 |
| What's New in Dreamweaver MX 2004? | 1119 |
| Importing Flash into Dreamweaver | 1119 |
| Inserting your Flash movie | 1120 |
| Positioning your movie | 1122 |
| Specifying Window Mode | 1123 |
| Launch and Edit Flash from Dreamweaver | 1124 |

| | |
|--|------|
| Using Built-In Flash Objects | 1125 |
| Adding a Flash Button object | 1126 |
| Editing a Flash button | 1127 |
| Inserting a Flash Text object | 1128 |
| Editing a Flash Text object | 1129 |
| Using Flash Elements | 1129 |
| Inserting the Picture Viewer Flash element | 1129 |
| Using the Tag inspector to define Flash element parameters | 1130 |
| Working with image arrays | 1131 |
| Previewing animated Flash elements | 1133 |
| Editing Flash element parameters | 1134 |
| Adding Dreamweaver Behaviors | 1134 |
| Check Plugin behavior ↗ | 1135 |
| Control Shockwave or Flash behavior | 1136 |
| Site Map & Link Checker | 1137 |
| Writing ActionScript with Dreamweaver | 1139 |
| Summary | 1140 |

Chapter 38: Working with Director MX 1141

| | |
|--|------|
| Advantages of Director over Flash | 1141 |
| Advantages of Flash over Director | 1142 |
| Benefits of Flash Assets in Director | 1143 |
| Creating Director-Specific Actions in Flash | 1144 |
| The standard getURL command | 1144 |
| The event: command | 1145 |
| The lingo: command | 1146 |
| Controlling Flash Movies in Director | 1146 |
| The Flash Asset Xtra: Importing Flash movies | 1146 |
| Using Director's Property inspector | 1152 |
| Flash movies as sprites | 1153 |
| Controlling Flash Movies with Lingo | 1154 |
| Lingo and ActionScript | 1154 |
| Changing the rotation of Flash sprites | 1156 |
| Summary | 1157 |

Part IX: Appendixes 1159

| | |
|--|-------------|
| Appendix A: Keyboard Shortcuts | 1161 |
| Appendix B: Digital Audio Basics | 1167 |
| Appendix C: Digital Video Basics | 1175 |
| Appendix D: Using the CD-ROM | 1185 |
| Appendix E: Guest Experts Information | 1191 |
| Index | 1195 |
| End-User License Agreement | 1251 |
