## **PART ONE**

### **FOUNDATIONS OF QUALITY MANAGEMENT 1**

#### **Chapter 1**

#### **Fundamentals of Quality 2**

Chapter Objectives 2

Introduction 3

Process Basics 3

*Definition of a Process 3*

*Variation in a Process 5*

*More about the Feedback Loop 6*

*The Funnel Experiment 7*

*The Red Bead Experiment: Understanding*

*Process Variability 14*

Definition of Quality 17

*Goalpost View of Quality 17*

*Continuous Improvement Definition of Quality 18*

*More Quality Examples 20*

The Quality Environment 20

Types of Quality 21

*Quality of Design 21*

*Quality of Conformance 22*

*Quality of Performance 22*

Relationship between Quality and Cost 23

*Features 23*

*Dependability and Uniformity 24*

Relationship between Quality  
and Productivity 25

Benefits of Improving Quality 26

Summary 26

Key Terms 27

Exercises 28

References 28

#### **Chapter 2**

#### **W. Edwards Deming's Theory of Management 29**

Chapter Objectives 29

Introduction 29

A Brief History of Quality 30

W. Edwards Deming's Theory of Management 34

*Deming's System of Profound Knowledge 34*

*Purpose of Deming's Theory of Management 34*

*Paradigms of Deming's Theory of Management 35*

*Components of Deming's Theory of Management 36*

*Deming's 14 Points for Management 37*

Deming's 14 Points and the Reduction  
of Variation 50

Transformation, or Paradigm Shift 52

*Transformation of Management 52*

*The Prevailing Paradigm of Leadership 52*

*The New Paradigm of Leadership 52*

*Transformation 53*

Quality in Service, Government, and  
Education 53

Summary 54

Key Terms 54

Exercises 55

References 56

#### **Chapter 3**

#### **Fundamentals of Statistical Studies 57**

Chapter Objectives 57

Introduction 58

Purpose and Definition of Statistics 58

Types of Statistical Studies 58

Enumerative Studies 59

*Basic Concepts 59*

*Conducting an Enumerative Study 61*

Analytic Studies 63

*Basic Concepts 63*

*Conducting an Analytic Study 63*

*Errors in Analytic Studies 64*

*Design of Analytic Studies 65*

*Analysis of Data from Analytic Studies 66*

Distinction between Enumerative and Analytic  
Studies 67

Summary 67

Key Terms 68

Exercises 69

References 69

## **Chapter 4**

### **Defining and Documenting a Process 70**

Chapter Objectives	70
Introduction	70
Empowerment Revisited	71
<i>SDSA Cycle Revisited</i>	71
Analytic Studies Revisited	71
<i>Process Basics</i>	71
<i>The Feedback Loop</i>	72
<i>Examples of Processes</i>	72
Defining and Documenting a Process	74
<i>Who Owns the Process?</i>	75
<i>What Are the Boundaries of the Process?</i>	75
<i>What Is the Flow of the Process?</i>	75
<i>What Are the Process's Objectives?</i>	79
<i>Are Process Data Valid?</i>	79
<i>More on Operational Definitions</i>	80
Summary	83
Key Terms	83
Exercises	84
References	84

## **PART TWO**

### **TOOLS AND METHODS FOR ANALYTIC STUDIES 85**

#### **Chapter 5**

#### **Basic Probability and Statistics 87**

Chapter Objectives	87
Introduction	88
Probability Defined	88
<i>The Classical Definition of Probability</i>	88
<i>The Relative Frequency Definition of Probability</i>	88
<i>Calculating Classical and Relative Frequency Probabilities</i>	89
<i>Analytic Studies and Relative Frequency Probabilities</i>	92
Types of Data	92
<i>Attribute Data</i>	92
<i>Variables (Measurement) Data</i>	95
Characterizing Data	96
<i>Enumerative Studies</i>	96
<i>Analytic Studies</i>	97

Visually Describing Data	97
<i>Tabular Displays</i>	97
<i>Graphical Displays</i>	100
Numerically Describing Data	103
<i>Measures of Central Tendency</i>	103
<i>Measures of Variability</i>	110
<i>Measures of Shape</i>	111
<i>Interpretation of the Standard Deviation</i>	113
<i>More Details on the Normal Distribution</i>	114
<i>Normal Probability Plot</i>	117
<i>An Empirical Rule for Analytic Studies</i>	118
Summary	120
Key Terms	121
Exercises	122
References	131
<b>Appendix A5.1</b>	
<b>Using Windows 132</b>	
<b>Appendix A5.2</b>	
<b>Introduction to Minitab 136</b>	
<b>Appendix A5.3</b>	
<b>Using Minitab for Charts, Descriptive Statistics, and Normal Probabilities 139</b>	

#### **Chapter 6**

#### **Stabilizing and Improving a Process with Control Charts 147**

Chapter Objectives	147
Introduction	148
Process Variation	148
<i>Control Charts and Variation</i>	148
<i>The Need for the Continual Reduction of Variation</i>	148
The Structure of Control Charts	150
Stabilizing a Process with Control Charts	151
Advantages of a Stable Process	155
Improving a Process with Control Charts	156
Causes of Variation Out of the Control of the Process Owner	157
Two Possible Mistakes in Using Control Charts	157
<i>Over-Adjustment</i>	157
<i>Under-Adjustment</i>	159
Some Out-of-Control Evidence	161
<i>Rules for Identifying Out-of-Control Points</i>	163
<i>False Out-of-Control Signals</i>	167

**Quality Consciousness and Types of****Control Charts 168***No Quality Consciousness: Accept Everything without Question 168**Defect Detection: Mass Inspection to Sort**Conforming and Nonconforming Output 169**Defect Prevention: Attribute Control Charts 169**Never-Ending Improvement: Variables**Control Charts 170**Innovation (Quality Creation) 170***Three Uses of Control Charts 171***Evaluating the Past 171**Evaluating the Present 171**Predicting the Near Future 171**Tips on Using Control Charts 172***Summary 172****Key Terms 173****Exercises 174****References 180****Appendix A6.1****Using Minitab for Control Charts:****An Overview 181****Chapter 7****Attribute Control Charts 183****Chapter Objectives 183****Introduction 184****Types of Attribute Control Charts 184***Classification Charts 184**Count Charts 184**Manual Construction of Attribute**Control Charts 185**Computerized Construction of Attribute Control Charts Using Minitab 185***Classification Charts 187***Conditions for Use 187**When Not to Use  $p$  Charts or  $np$  Charts 187**Constructing Classification Charts 188***The  $p$  Chart for Constant Subgroup Sizes 191***The Centerline and Control Limits 192**Construction of a  $p$  Chart: An Example 192**Iterative Reevaluations 196**Subgroup Size 197**Subgroup Frequency 198**Number of Subgroups 198**Subgroups Not Based on Time 198**Construction of a  $p$  Chart: Another Example 198***The  $p$  Chart for Variable Subgroup Sizes 200***Using Varying Control Limits: An Example 200***The  $np$  Chart 204***Constructing the  $np$  Chart 204***Count Charts 206***Conditions for Use 207* **$c$  Charts 207***Counts, Control Limits, and Zones 208**Construction of a  $c$  Chart: An Example 210**Small Average Counts 210**Stabilizing a Process: An Example 212**Construction of a  $c$  Chart: Another Example 216**Construction of a  $c$  Chart: Another Example 217* **$u$  Charts 219***Construction of a  $u$  Chart: An Example 220***Limitations of Attribute Control Charts 221****Summary 223****Key Terms 223****Exercises 224****References 244****Appendix A7.1****Using Minitab for Attribute Charts 245****Chapter 8****Variables Control Charts 250****Chapter Objectives 250****Introduction 251****Variables Charts and the PDCA Cycle 251***Plan 251**Do 252**Study 253**Act 253***Subgroup Size and Frequency 253** **$\bar{x}$  and  $R$  Charts 254***An Example 254**Another Example 260**Another Example 263* **$\bar{x}$  and  $s$  Charts 268***The  $s$  Portion 269**The  $\bar{x}$  Portion 270* *$\bar{x}$  and  $s$  Charts: An Example 271***Individuals and Moving Range Charts 274***An Example 275*

<i>Special Characteristics of Individuals and Moving Range Charts</i>	277
Revising Control Limits for Variables Control Charts	282
<i>Change in Process</i>	282
<i>Trial Control Limits</i>	282
<i>Removal of Out-of-Control Points</i>	282
Collecting Data: Rational Subgrouping	282
<i>Arrangement 1</i>	283
<i>Arrangement 2</i>	286
<i>Arrangement 3</i>	289
Summary	293
Key Terms	294
Exercises	294
References	312
<b>Appendix A8.1</b>	
<b>Using Minitab for Variables Charts</b>	312
<b>Chapter 9</b>	
<b>Out-of-Control Patterns</b>	317
Chapter Objectives	317
Introduction	317
Between- and Within-Group Variation	317
<i>Periodic Disturbances</i>	318
<i>Persistent Disturbances</i>	319
<i>Distinguishing Within-Group Variation from Common Variation</i>	322
Types of Control Chart Patterns	322
<i>Natural Patterns</i>	322
<i>Shift in Level Patterns</i>	323
<i>Cycles</i>	327
<i>Wild Patterns</i>	329
<i>Multiverse Patterns</i>	329
<i>Instability Patterns</i>	338
<i>Relationship Patterns</i>	338
Out-of-Control Patterns and the Rules of Thumb	342
Summary	344
Key Terms	344
Exercises	344
References	345

## Chapter 10

### Diagnosing a Process 346

Chapter Objectives	346
Introduction	347

### Diagnostic Tools and Techniques 347

<i>Brainstorming</i>	347
<i>Affinity Diagram</i>	353
<i>Cause-and-Effect Diagram</i>	356
<i>Interrelationship Diagram (Diagram/Graph)</i>	360
<i>Check Sheets</i>	363
<i>Pareto Analysis</i>	366
<i>Stratification</i>	375
<i>Systematic Diagram</i>	381
<i>Matrix Diagram</i>	384
<i>PDPC Analysis</i>	387
<i>Gantt Chart</i>	389

### Change Concepts 390

<i>Complete List of Change Concepts</i>	390
<i>How to Use the Change Concepts</i>	392
<i>Eliminate Waste</i>	393
<i>Improve Work Flow</i>	394
<i>Optimize Inventory</i>	395
<i>Change the Work Environment</i>	396
<i>Enhance the Producer/Customer Relationship</i>	398
<i>Manage Time</i>	399
<i>Manage Variation</i>	400
<i>Design Systems to Avoid Mistakes</i>	401
<i>Focus on the Product or Service</i>	402
<i>Case Study of Using a Change Concept to Improve a Process</i>	403

### Summary 404

### Key Terms 405

### Exercises 406

### References 406

## Appendix A10.1

### Using Minitab to Obtain a Pareto Diagram 406

## Chapter 11

### Process Capability and Improvement Studies 408

### Chapter Objectives 408

### Introduction 409

### Specifications (Voice of the Customer) 409

<i>Performance Specifications</i>	410
<i>Technical Specifications</i>	410

### Process Capability Studies 413

<i>Attribute Process Capability Studies</i>	413
<i>Variables Process Capability Studies</i>	413
<i>Data Requirements for Process Capability Studies</i>	415

<i>Process Capability Studies on Unstable Processes</i>	415
<i>Process Capability Studies on Stable Processes</i>	415
<i>An Example of an Attribute Process Capability Study</i>	416
<i>An Example of a Variables Process Capability Study</i>	419
<i>The Relationships between Control Limits, Natural Limits, and Specification Limits for Variables Control Charts</i>	424
<i>Process Capability Indices for Variables Data</i>	427
<b>Process Improvement Studies</b>	432
<i>Attribute Improvement Studies</i>	432
<i>Variables Improvement Studies</i>	438
<b>Quality Improvement Stories</b>	440
<i>Relationship between QI Stories and the PDSA Cycle</i>	440
<i>Potential Difficulties</i>	440
<i>Pursuit of Objectives</i>	441
<i>Quality Improvement Story Case Study</i>	441
<b>Summary</b>	458
<b>Key Terms</b>	458
<b>Exercises</b>	459
<b>References</b>	461
<b>Appendix A11.1</b>	
<b>Created Dimensions</b>	462

## Chapter 12

### Design of Experiments 469

<b>Chapter Objectives</b>	469
<b>Introduction</b>	469
<b>Designs Based on Level of Process Knowledge</b>	470
<b>Some Flawed Experimental Designs</b>	470
<i>One-Factor-at-a-Time Experiments</i>	471
<i>Stick-with-a-Winner Experiments</i>	472
<i>Change-Many-Factors-at-Once Design</i>	472
<b>One-Factor Designs</b>	473
<b>Two-Factor Factorial Designs</b>	475
<i>Notation for Interaction Effects</i>	482
<b>Factorial Designs Involving Three or More Factors</b>	484
<i>A Three-Factor Factorial Design</i>	484
<i>A Five-Factor Factorial Design Example</i>	490

<b>Fractional Factorial Designs</b>	495
<i>Choosing the Treatment Combinations</i>	496
<b>Summary</b>	505
<b>Key Terms</b>	505
<b>Exercises</b>	505
<b>References</b>	517
<b>Appendix A12.1</b>	
<b>Using Minitab for the Design of Experiments</b>	517

## Chapter 13

### Inspection Policy 525

<b>Chapter Objectives</b>	525
<b>Introduction</b>	526
<b>Inspecting Goods and Services</b>	526
<b>Acceptance Sampling</b>	526
<i>Lot-by-Lot Acceptance Sampling</i>	527
<i>Continuous Flow Acceptance Sampling</i>	527
<i>Special Sampling Plans</i>	527
<b>A Theoretical Invalidation of Acceptance Sampling</b>	528
<i>Stable Process</i>	528
<i>Chaotic Process</i>	529
<b>The kp Rule for Stable Processes</b>	530
<i>An Example of the kp Rule</i>	532
<i>Exceptions to the kp Rule</i>	532
<i>Component Costs of <math>k_1</math> and <math>k_2</math></i>	533
<b>Inspection Policies for Chaotic Processes</b>	534
<i>Mild Chaos</i>	534
<i>Severe Chaos</i>	535
<i>Exceptions to Rules for Chaos</i>	535
<b>Summary</b>	535
<b>Key Terms</b>	536
<b>Exercises</b>	536
<b>References</b>	537
<b>Appendix A13.1</b>	
<b>Proof that the Number of Defectives in a Sample Is Independent of the Number of Defectives in the Remainder for Lots Drawn from a Stable Process</b>	537
<b>Appendix A13.2</b>	
<b>Derivation of the kp Rule for Stable Processes</b>	539

## PART THREE

### ADMINISTRATIVE SYSTEMS FOR QUALITY MANAGEMENT 541

#### Chapter 14

##### The Fork Model for Quality Management: The Handle, or Transformation 543

- Chapter Objectives 543
- Introduction 544
- Aids to Promoting Quality Management 544
- Barriers to Quality Management 545
  - Top Management's Reluctance to Commit* 545
- Responding to a Crisis 545
  - JUKI Corporation* 546
  - Florida Power and Light Company* 547
- Creating a Crisis 548
- Creating a Vision 548
- Initiating Action for the Transformation 549
  - Retaining Outside Counsel* 549
  - Window of Opportunity Opens* 550
  - Collecting Data to Develop a Transformation Plan* 550
  - Planning the Transformation* 550
  - Forming the Executive Committee* 550
  - Training the Executive Committee and Beyond* 550
  - Window of Opportunity Begins to Close* 554
  - Diffusion of Quality Management* 554
  - Decision Point* 555
- Summary 555
- Key Terms 556
- Exercises 556
- References 557

#### Chapter 15

##### The Fork Model for Quality Management: The Neck, or Management's Education 558

- Chapter Objectives 558
- Introduction 559
- Management's Fears Concerning Education and Self-Improvement 559
- Education and Self-Improvement Groups 559
- Studying the System of Profound Knowledge 560
  - Group Meeting Example* 560

*Case Studies* 562

*Workshops* 566

- Establishing Life-Long Programs for Education and Self-Improvement 568
- Identifying and Resolving Personal Barriers to Transformation 568
- The Quality Management Leader 571
- The Decision Point 572
- Summary 573
- Key Terms 573
- Exercises 573
- References 574

#### Chapter 16

##### The Fork Model for Quality Management: Prong 1, or Daily Management 575

- Chapter Objectives 575
- Introduction 576
- Selecting Initial Project Teams 576
- Performing Daily Management 576
  - Housekeeping* 577
  - Measurements on Key Indicators* 579
  - Daily Management* 579
  - A Personal Example of Daily Management* 580
  - A Business Example of Daily Management* 581
  - Management Review* 592
  - Variance Analysis* 593
  - Empowerment* 594
  - Continuing the PDSA Cycle* 596
  - Coordinating Project Teams* 596
- Summary 596
- Key Terms 597
- Exercises 598
- References 599

#### Chapter 17

##### The Fork Model for Quality Management: Prong 2, or Cross-Functional Management 600

- Chapter Objectives 600
- Introduction 601
- Selecting Initial Cross-Functional Teams 601
- Implementing Cross-Functional Management 602
- Structures for Cross-Functional Management 603
- Coordinating Cross-Functional Teams 603

## Some Common Problems in Implementing Cross-Functional Management 610

*Longevity* 610

*Membership* 610

*Focus* 610

*Communication* 611

## A Generic Example of Cross-Functional Management: Standardization of a Corporate-Wide Method for Cutting Cost 611

*Traditional Cost-Cutting Process* 611

*Cross-Functional Management*

*Cost-Cutting Process* 611

*Application of the CFM Cost-Cutting Process in Human Resources* 612

## A Manufacturing Application: Toyota Forklift 613

*Quality Assurance Activity in the Development of the X300 Forklift* 613

## A Service Application: Field of Flowers 620

*The Revised System* 621

*Issue 1: Provide Employees Feedback in Their Work* 622

*Issue 2: Provide a Basis for Salary Increases and Bonuses* 623

*Issue 3: Identify Candidates for Promotion* 623

*Issue 4: Provide Periodic Direction to Employees' Work* 623

*Issue 5: Provide an Opportunity to Give Recognition, Direction, and Feedback to an Employee Regarding Her Work on Special Projects* 624

*Issue 6: Identify an Employee's Needs for Training, Education, and Skill or Career Development* 624

*Issue 7: Provide an Equitable, Objective, Defensible System That Satisfies the Requirements of the 1964 Civil Rights Act and the Equal Opportunity*

*Commission Guidelines of 1966 and 1970* 624

*Issue 8: Provide a Channel for Communication* 625

Summary 625

Key Terms 626

References 626

## Chapter 18

### The Fork Model for Quality Management: Prong 3, or Policy Management 627

Chapter Objectives 627

Introduction 628

## Initial Presidential Review 629

*Reasons for Conducting the Presidential Review* 629

*Benefits of Presidential Reviews* 630

*Barriers to the Presidential Review* 630

*Selecting the Departments and Topics to Review* 630

*Informing the Departments to Be Reviewed* 630

*Ground Rules for the Presidential Review* 631

*Preparing for the Review* 631

*Conducting the Review* 631

*Keys to Successful Reviews* 632

*Presidential Reviews and Daily Management* 633

## Policy Setting 633

*Executive Committee (EC)* 633

*The Strategic Plan* 633

*Policy Deployment Committee (PDC)* 639

*Local Steering Teams* 643

## Policy Deployment 643

*A Simple Dashboard* 643

*Benefits of a Dashboard* 645

*Technical Terms* 646

*Developing a Dashboard* 651

*Managing with a Dashboard* 651

*Deployment of Key Objectives throughout an Organization* 652

## Policy Implementation 653

## Policy Feedback and Review 653

## Presidential Review 655

## Flowchart of Policy Management 655

## Relationship between Policy Management and Daily Management 655

## A Personal Example of Policy Management 657

*Policy Setting* 657

*Policy Deployment* 668

*Policy Implementation* 669

*Policy Study and Feedback* 671

*Presidential Review* 673

## A Business Example of Policy Management 673

*Reasons for the Quality Improvement Program (QIP)* 673

*Objectives of the Quality*

*Improvement Program* 673

*Reacting to the Crises* 674

*Review of FPL Case Study* 697

## The Evolution of Quality at Florida Power and Light 697

*Preliminary Phase (1981–1985)* 697

*Intensification Phase (1986–1989)* 697

<i>After the Deming Prize (the 1990s)</i>	698
<i>Mature Phase (1990–1997)</i>	698
<i>High-Performance Phase (1997–Present)</i>	700
