

The Molluscs of the Southern Gulf of Thailand

**C. Swennen, R. G. Moolenbeek, N. Ruttanadakul,
H. Hobbelink, H. Dekker and S. Hajisamae**

CONTENTS

FOREWORD	v
PREFACE	vii
ACKNOWLEDGMENTS	ix
INTRODUCING MOLLUSCS AND THEIR ENVIRONMENTS	1
Area and fauna covered by this book	1
Geographic range	1
Physical characteristics of the area	1
Overview of the local molluscan fauna and habitats	2
Recently introduced species	3
Systematics	3
Introducing taxonomy and nomenclature	3
Phylum Mollusca	4
Molluscan classification	5
Life history and ecology	6
Locomotion	6
Feeding and food	7
Growth	7
Colour	8
Reproduction	8
Life span and population dynamics	9
Molluscs and humans	10
Molluscs used as human food	10
Molluscs processed as animal feed	10
Molluscs used as bait	10
Molluscs used for decoration	10
Molluscs as indicators of environmental pollution	11
Molluscs as pests	11
Molluscs as foulers	11
Shellfish as a source of infectious diseases	12
Shellfish as a cause of chemical poisoning	12
FIGURES	13
COLLECTING MOLLUSCS	25
Where and how to find molluscs	25
Beaches	25
Rocky shores	25
Mangrove forests	25

Fishery landings	25
Shell middens	26
Snorkeling and scuba-diving	26
Other places	26
Warnings	26
How to clean and store molluscs	26
Cleaning of shells	26
Labelling	27
Collections	27
Storing a collection	28
Useful addresses	28

IDENTIFYING MOLLUSCS	29
General explanations and guidelines	29
What species are included in the book?	29
About the species and their names	29
Species new to science	30
About the illustrations	30
About the species accounts	30
Explanation of notes used in the accounts	30
Getting started	31
Pictorial guide to the classes and lower taxa	32
Class Polyplacophora	32
Class Scaphopoda	32
Class Cephalopoda	32
Class Bivalvia	33
Key to families of Bivalvia	34
Class Gastropoda	38
Key to the higher taxa of shelled Gastropoda	38

CHECKLIST OF SPECIES OCCURRING IN THE AREA	43
---	----

SPECIES ACCOUNTS	61
