# Multidimensional Real Analysis II Integration

J. J. DUISTERMAAT  
AND J. A. C. KOLK

# Contents

## Volume II

<i>Preface</i> . . . . .	xii
<i>Acknowledgments</i> . . . . .	xiii
<i>Introduction</i> . . . . .	xv
<b>6 Integration</b>	<b>423</b>
6.1 Rectangles . . . . .	423
6.2 Riemann integrability . . . . .	425
6.3 Jordan measurability . . . . .	429
6.4 Successive integration . . . . .	435
6.5 Examples of successive integration . . . . .	439
6.6 Change of Variables Theorem: formulation and examples . . . . .	444
6.7 Partitions of unity . . . . .	452
6.8 Approximation of Riemann integrable functions . . . . .	455
6.9 Proof of Change of Variables Theorem . . . . .	457
6.10 Absolute Riemann integrability . . . . .	461
6.11 Application of integration: Fourier transformation . . . . .	466
6.12 Dominated convergence . . . . .	471
6.13 Appendix: two other proofs of Change of Variables Theorem . . . . .	477
<b>7 Integration over Submanifolds</b>	<b>487</b>
7.1 Densities and integration with respect to density . . . . .	487
7.2 Absolute Riemann integrability with respect to density . . . . .	492
7.3 Euclidean $d$ -dimensional density . . . . .	495
7.4 Examples of Euclidean densities . . . . .	498
7.5 Open sets at one side of their boundary . . . . .	511
7.6 Integration of a total derivative . . . . .	518
7.7 Generalizations of the preceding theorem . . . . .	522
7.8 Gauss' Divergence Theorem . . . . .	527
7.9 Applications of Gauss' Divergence Theorem . . . . .	530
<b>8 Oriented Integration</b>	<b>537</b>
8.1 Line integrals and properties of vector fields . . . . .	537
8.2 Antidifferentiation . . . . .	546
8.3 Green's and Cauchy's Integral Theorems . . . . .	551

8.4 Stokes' Integral Theorem . . . . .	557
8.5 Applications of Stokes' Integral Theorem . . . . .	561
8.6 Apotheosis: differential forms and Stokes' Theorem . . . . .	567
8.7 Properties of differential forms . . . . .	576
8.8 Applications of differential forms . . . . .	581
8.9 Homotopy Lemma . . . . .	585
8.10 Poincaré's Lemma . . . . .	589
8.11 Degree of mapping . . . . .	591
<b>Exercises</b>	<b>599</b>
Exercises for Chapter 6 . . . . .	599
Exercises for Chapter 7 . . . . .	677
Exercises for Chapter 8 . . . . .	729
Notation . . . . .	779
Index . . . . .	783
