<i>Preface</i>	<i>ix</i>
Introduction	1
Part 1: The quality infrastructure	
1 The Framework for Higher Education Qualifications (FHEQ)	11
Use of the FHEQ 15; Implementing the precepts of the FHEQ 16; QA issues with the FHEQ 19	
2 Benchmarking academic standards: the subject benchmark statements (SBSs)	22
Aims and function 23; QA issues with SBSs 26; QE issues with SBSs 27	
3 Institutional audit	29
Aims and objectives of institutional audit 29; Meaning and consequences of audit outcomes 30; Discipline audit trails (DATs) 33; Criteria for confidence judgements 38	
4 Information on quality and standards in higher education	43
Management information 44; QA issues with information on quality and standards 49; QE issues with information on quality and standards 50	
5 Managing quality enhancement (QE)	53
What is QE? 53; Regulatory and transparency dividends of QA for enhancement 56; Managing complex enhancements to quality 58; Quality at the edge of chaos 63	
Part 2: Managing quality in the context of the QAA Code of Practice	
6 The Code of Practice	69
Structure of the Code's sections 70	

7	Collaborative provision	74
	Types of collaborative provision 74; Background to collaborative provision 76; How and why franchises go wrong 78; Implementing the precepts for collaborative provision 82; QA issues with collaborative provision 93; QE issues with collaborative provision 93	
8	Students with disabilities	105
	The Code and the Special Educational Needs and Disability Act 2001 (SENDA) 105; Comparing the Code's precepts and the Act 106; Implementing the precepts 108; QA issues with students with disabilities 120; QE issues with students with disabilities 121	
9	External examining systems	123
	External examiners, quality and politics 123; Implementing the precepts 124; QA issues with external examining systems 134; QE issues with external examining systems 135	
10	Academic appeals and student complaints	137
	The new culture of complaint management 137; Implementing the precepts 139; QA issues with student appeals and complaints 145; QE issues with student appeals and complaints 145	
11	The assessment of students	147
	The Achilles heel of quality 147; Implementing the precepts 149; QA issues with the assessment of students 158; QE issues with the assessment of students 158	
12	Programme approval, monitoring and review	160
	The metacode 160; Managing quality in approval, monitoring and review (AMR) 161; The approval process 166; Implementing the precepts 167; QA issues with AMR 182; QE issues with AMR 182	
13	Career education information and guidance (CEIG)	184
	From guidance to employability 184; Organizational issues in supporting CEIG 185; Progress files 186; Scope and focus of CEIG – enhancement issues 187; Implementing the precepts 188; QA issues with CEIG 192; QE issues with CEIG 193	

14	Placement learning	195
	From industrial sandwich to SME consultancy 195; Balancing QA and QE in placement management 198; Implementing the precepts 199; QA issues with placement learning 208; QE issues with placement learning 209	
15	Recruitment and admission of students	211
	From elitism to diversity 211; Implementing the precepts 212; QA issues with recruitment and admissions 218; QE issues with recruitment and admissions 219	
16	Distance learning	221
	Distance learning and academic standards 221; Types of distance learning and implications for QA and QE 222; Implementing the guidelines 227; QA issues with distance learning 233; QE issues with distance learning 233
