

INTERNATIONAL EDITION

# Ethics in Engineering

Fourth Edition

Mike W. Martin  
Roland Schinzinger

M c G R A W - H I L L

|   |           |
|---|-----------|
| Preface   | x         |
| <b>Chapter 1 Ethics and Professionalism</b>   | <b>1</b>  |
| 1.1 Scope of Engineering Ethics   | 2         |
| 1.1.1 Overview of Themes / 1.1.2 What Is Engineering Ethics? / 1.1.3 Why Study Engineering Ethics? / Discussion Questions   |           |
| 1.2 Accepting and Sharing Responsibility  | 11        |
| 1.2.1 Saving Citicorp Tower / 1.2.2 Meanings of "Responsibility" / 1.2.3 Dimensions of Engineering / Discussion Questions   |           |
| 1.3 Responsible Professionals and Ethical Corporations  | 21        |
| 1.3.1 What Are Professions? / 1.3.2 Morally Committed Corporations / 1.3.3 Social Responsibility Movement / 1.3.4 Senses of Corporate Responsibility / Discussion Questions |           |
| Key Concepts  | 28        |
| References  | 29        |
| <b>Chapter 2 Moral Reasoning and Codes of Ethics</b>  | <b>32</b> |
| 2.1 Resolving Ethical Dilemmas  | 32        |
| 2.1.1 Steps in Resolving Ethical Dilemmas / 2.1.2 Right-Wrong or Better-Worse? / Discussion Questions   |           |
| 2.2 Making Moral Choices  | 39        |
| 2.2.1 Designing Aluminum Cans / 2.2.2 Design Analogy: Whitbeck / Discussion Questions   |           |

|                  |   |           |
|------------------|---|-----------|
| <b>2.3</b>       | <b>Codes of Ethics</b>  | <b>44</b> |
|                  | <i>2.3.1 Importance of Codes / 2.3.2 Abuse of Codes /</i>         |           |
|                  | <i>2.3.3 Limitation of Codes / 2.3.4 Ethical Relativism /</i>     |           |
|                  | <i>2.3.5 Justification of Codes / Discussion Questions</i>        |           |
|                  | <b>Key Concepts</b>   | <b>52</b> |
|                  | <b>References</b>   | <b>52</b> |
| <b>Chapter 3</b> | <b>Moral Frameworks</b>   | <b>54</b> |
| <b>3.1</b>       | <b>Utilitarianism</b>   | <b>55</b> |
|                  | <i>3.1.1 Utilitarianism versus Cost-Benefit Analysis /</i>        |           |
|                  | <i>3.1.2 Act-Utilitarianism versus Rule-Utilitarianism /</i>      |           |
|                  | <i>3.1.3 Theories of Good / Discussion Questions</i>              |           |
| <b>3.2</b>       | <b>Rights Ethics and Duty Ethics</b>                              | <b>60</b> |
|                  | <i>3.2.1 Human Rights / 3.2.2 Two Versions of Rights Ethics /</i> |           |
|                  | <i>3.2.3 Duty Ethics / 3.2.4 Prima Facie Duties /</i>             |           |
|                  | <i>Discussion Questions</i>                                       |           |
| <b>3.3</b>       | <b>Virtue Ethics</b>  | <b>66</b> |
|                  | <i>3.3.1 Virtues in Engineering / 3.3.2 Florman: Competence</i>   |           |
|                  | <i>and Conscientiousness / 3.3.3 Aristotle: Community and</i>     |           |
|                  | <i>the Golden Mean / Discussion Questions</i>                     |           |
| <b>3.4</b>       | <b>Self-Realization and Self-Interest</b>                         | <b>72</b> |
|                  | <i>3.4.1 Ethical Egoism / 3.4.2 Motives of Engineers /</i>        |           |
|                  | <i>3.4.3 Self-Realization and Personal Commitments /</i>          |           |
|                  | <i>3.4.4 Religious Commitments / 3.4.5 Which Ethical</i>          |           |
|                  | <i>Theory Is Best? / Discussion Questions</i>                     |           |
|                  | <b>Key Concepts</b>   | <b>84</b> |
|                  | <b>References</b>   | <b>84</b> |
| <b>Chapter 4</b> | <b>Engineering as Social Experimentation</b>                      | <b>88</b> |
| <b>4.1</b>       | <b>Engineering as Experimentation</b>                             | <b>89</b> |
|                  | <i>4.1.1 Similarities to Standard Experiments /</i>               |           |
|                  | <i>4.1.2 Learning from the Past / 4.1.3 Contrasts with</i>        |           |
|                  | <i>Standard Experiments / Discussion Questions</i>                |           |
| <b>4.2</b>       | <b>Engineers as Responsible Experimenters</b>                     | <b>95</b> |
|                  | <i>4.2.1 Conscientiousness / 4.2.2 Comprehensive</i>              |           |
|                  | <i>Perspective / 4.2.3 Moral Autonomy /</i>                       |           |
|                  | <i>4.2.4 Accountability / 4.2.5 A Balanced Outlook on Law /</i>   |           |
|                  | <i>4.2.6 Industrial Standards / Discussion Questions</i>          |           |

|                  |  |            |
|------------------|--|------------|
| <b>4.3</b>       | <b>Challenger</b>  | <b>106</b> |
|                  | <i>4.3.1 Safety Issues / Discussion Questions</i>                    |            |
|                  | <b>Key Concepts</b>  | <b>114</b> |
|                  | <b>References</b>  | <b>115</b> |
| <b>Chapter 5</b> | <b>Commitment to Safety</b>  | <b>117</b> |
| <b>5.1</b>       | <b>Safety and Risk</b>   | <b>118</b> |
|                  | <i>5.1.1 The Concept of Safety / 5.1.2 Risks /</i>                   |            |
|                  | <i>5.1.3 Acceptability of Risk / Discussion Questions</i>            |            |
| <b>5.2</b>       | <b>Assessing and Reducing Risk</b>                                   | <b>125</b> |
|                  | <i>5.2.1 Uncertainties in Design / 5.2.2 Risk-Benefit</i>            |            |
|                  | <i>Analyses / 5.2.3 Personal Risk / 5.2.4 Public Risk and</i>        |            |
|                  | <i>Public Acceptance / 5.2.5 Examples of Improved Safety /</i>       |            |
|                  | <i>Discussion Questions</i>  |            |
| <b>5.3</b>       | <b>Three Mile Island, Chernobyl, and Safe Exits</b>                  | <b>134</b> |
|                  | <i>5.3.1 Three Mile Island / 5.3.2 Chernobyl /</i>                   |            |
|                  | <i>5.3.3 Safe Exits / Discussion Questions</i>                       |            |
|                  | <b>Key Concepts</b>  | <b>143</b> |
|                  | <b>References</b>  | <b>143</b> |
| <b>Chapter 6</b> | <b>Workplace Responsibilities and Rights</b>                         | <b>146</b> |
| <b>6.1</b>       | <b>Teamwork</b>  | <b>147</b> |
|                  | <i>6.1.1 An Ethical Corporate Climate / 6.1.2 Loyalty and</i>        |            |
|                  | <i>Collegiality / 6.1.3 Managers and Engineers /</i>                 |            |
|                  | <i>6.1.4 Managing Conflict / Discussion Questions</i>                |            |
| <b>6.2</b>       | <b>Confidentiality and Conflicts of Interest</b>                     | <b>155</b> |
|                  | <i>6.2.1 Confidentiality: Definition / 6.2.2 Confidentiality and</i> |            |
|                  | <i>Changing Jobs / 6.2.3 Confidentiality and Management</i>          |            |
|                  | <i>Policies / 6.2.4 Confidentiality: Justification /</i>             |            |
|                  | <i>6.2.5 Conflicts of Interest: Definition and Examples /</i>        |            |
|                  | <i>6.2.6 Moral Status of Conflicts of Interest / Discussion</i>      |            |
|                  | <i>Questions</i>   |            |
| <b>6.3</b>       | <b>Rights of Engineers</b>   | <b>163</b> |
|                  | <i>6.3.1 Professional Rights / 6.3.2 Employee Rights /</i>           |            |
|                  | <i>Discussion Questions</i>  |            |
| <b>6.4</b>       | <b>Whistleblowing</b>  | <b>172</b> |
|                  | <i>6.4.1 Whistleblowing: Definition / 6.4.2 Two Cases /</i>          |            |
|                  | <i>6.4.3 Moral Guidelines / 6.4.4 Protecting</i>                     |            |
|                  | <i>Whistleblowers / 6.4.5 Commonsense Procedures /</i>               |            |
|                  | <i>6.4.6 Beyond Whistleblowing / Discussion Questions</i>            |            |

|                   |   |     |
|-------------------|---|-----|
| 6.5               | The BART Case   | 180 |
|                   | 6.5.1 Background / 6.5.2 Responsibility and Experimentation / 6.5.3 Controversy / 6.5.4 Aftermath / 6.5.5 Comments / Discussion Questions   |     |
|                   | <b>Key Concepts</b>   | 184 |
|                   | <b>References</b>   | 185 |
| <b>Chapter 7.</b> | <b>Honesty</b>  | 189 |
| 7.1               | Truthfulness and Trustworthiness  | 190 |
|                   | 7.1.1 Truthfulness / 7.1.2 Trustworthiness / 7.1.3 Academic Integrity / Discussion Questions  |     |
| 7.2               | Research Integrity  | 195 |
|                   | 7.2.1 Excellence versus Misconduct / 7.2.2 Bias and Self-Deception / 7.2.3 Protecting Research Subjects / 7.2.4 Giving and Claiming Credit / 7.2.5 Reporting Misconduct / Discussion Questions  |     |
| 7.3               | Consulting Engineers  | 203 |
|                   | 7.3.1 Advertising / 7.3.2 Competitive Bidding / 7.3.3 Contingency Fees / 7.3.4 Safety and Client Needs / Discussion Questions   |     |
| 7.4               | Expert Witnesses and Advisers   | 208 |
|                   | 7.4.1 Expert Witnesses in the Courts / 7.4.2 Abuses / 7.4.3 Advisers in Planning and Policy-Making / Discussion Questions   |     |
|                   | <b>Key Concepts</b>   | 216 |
|                   | <b>References</b>   | 216 |
| <b>Chapter 8</b>  | <b>Environmental Ethics</b>   | 219 |
| 8.1               | Engineering, Ecology, and Economics   | 220 |
|                   | 8.1.1 The Invisible Hand and the Commons / 8.1.2 Engineers: Sustainable Development / 8.1.3 Corporations: Environmental Leadership / 8.1.4 Government: Technology Assessment / 8.1.5 Communities: Preventing Natural Disasters / 8.1.6 Market Mechanisms: Internalizing Costs / 8.1.7 Social Activists / Discussion Questions |     |
| 8.2               | Ethical Frameworks  | 232 |
|                   | 8.2.1 Human-Centered Ethics / 8.2.2 Sentient-Centered Ethics / 8.2.3 Biocentric Ethics / 8.2.4 Ecocentric Ethics / 8.2.5 Religious Perspectives / Discussion Questions  |     |
|                   | <b>Key Concepts</b>   | 239 |
|                   | <b>References</b>   | 239 |

|                   |  |            |
|-------------------|--|------------|
| <b>Chapter 9</b>  | <b>Global Issues</b>   | <b>242</b> |
| 9.1               | Multinational Corporations                                       | 243        |
|                   | 9.1.1 <i>Technology Transfer and Appropriate Technology /</i>    |            |
|                   | 9.1.2 <i>Bhopal / 9.1.3 "When in Rome" /</i>                     |            |
|                   | 9.1.4 <i>International Rights / 9.1.5 Promoting Morally</i>      |            |
|                   | <i>Just Measures / Discussion Questions</i>                      |            |
| 9.2               | Computer Ethics and the Internet                                 | 254        |
|                   | 9.2.1 <i>The Internet and Free Speech / 9.2.2 Power</i>          |            |
|                   | <i>Relationships / 9.2.3 Property / 9.2.4 Privacy /</i>          |            |
|                   | 9.2.5 <i>Additional Issues / Discussion Questions</i>            |            |
| 9.3               | Weapons Development  | 266        |
|                   | 9.3.1 <i>Involvement in Weapons Work / 9.3.2 Defense</i>         |            |
|                   | <i>Industry Problems / 9.3.3 Decommissioning Weapons /</i>       |            |
|                   | <i>Discussion Questions</i>                                      |            |
|                   | <b>Key Concepts</b>  | 271        |
