WINDOWS

WITH C#

Charles Petzold

Table of Contents

Introduction

xvii

1	Console Thymself	1
	The C# Version	2
	Anatomy of a Program	5
	C# Namespaces	6
	Console I/O	8
	C# Data Types	10
	Expressions and Operators	15
	Conditions and Iterations	17
	The Leap to Objects	21
	Programming in the Key of C#	26
	Static Methods	27
	Exception Handling	29
	Throwing Exceptions	31
	Getting and Setting Properties	33
	Constructors	36
	Instances and Inheritance	40
	A Bigger Picture	44
	Naming Conventions	46
	Beyond the Console	47
2	Hello, Windows Forms	49
	The Message Box	52
	The Form	58
	Showing the Form	60
	It's an Application and We Want to Run It	62
	Variations on a Theme	64
	Form Properties	65
	Event-Driven Input	67
	Handling the <i>Paint</i> Event	69
	Displaying Text	72
	The <i>Paint</i> Event Is Special!	77
	Multiple Forms, Multiple Handlers	78

	Inheriting Forms	81
	The <i>OnPaint</i> Method	83
	Does <i>Main</i> Belong Here?	84
	Events and “On” Methods	86
3	Essential Structures	91
	Classes and Structures	92
	Two-Dimensional Coordinate Points	93
	Arrays of Points	96
	The <i>Size</i> Structure	96
	The Float Versions	98
	A Rectangle Is a Point and a Size	100
	Rectangle Properties and Methods	101
	A Nice-Sized Form	104
	The Form and the Client	105
	Point Conversions	109
	The Color Structure	111
	The 141 Color Names	112
	Pens and Brushes	113
	System Colors	115
	The Known Colors	118
	What to Use?	119
	Getting a Feel for Repaints	120
	Centering Hello World	122
	Measuring the String	126
	Text in a Rectangle	128
4	An Exercise in Text Output	133
	System Information	133
	Spacing Lines of Text	134
	Property Values	135
	Formatting into Columns	137
	Everything Is an Object	140
	Listing the System Information	144
	Windows Forms and Scroll Bars	146
	Scrolling a Panel Control	147
	The Heritage of <i>ScrollableControl</i>	151
	Scrolling Without Controls	153
	Actual Numbers	155

Keeping It Green	157
Don't Be a Pig	160
Reflecting on the Future	161

5 Lines, Curves, and Area Fills 169

How to Get a Graphics Object	170
Pens, Briefly	171
Straight Lines	172
An Introduction to Printing	174
Properties and State	180
Anti-Aliasing	181
Multiple Connected Lines	184
Curves and Parametric Equations	188
The Ubiquitous Rectangle	192
Generalized Polygons	194
Easier Ellipses	195
Arcs and Pies	196
Filling Rectangles, Ellipses, and Pies	203
Off by 1	204
Polygons and the Filling Mode	206

6 Tapping into the Keyboard 211

Ignoring the Keyboard	211
Who's Got the Focus?	212
Keys and Characters	213
Keys Down and Keys Up	215
The <i>Keys</i> Enumeration	216
Testing the Modifier Keys	227
Reality Check	228
A Keyboard Interface for SysInfo	229
<i>KeyPress</i> for Characters	231
Control Characters	231
Looking at the Keys	232
Invoking the Win32 API	237
Handling Input from Foreign Keyboards	239
Input Focus	242
The Missing Caret	243
Echoing Key Characters	248
Right-to-Left Problems	252

7	Pages and Transforms	255
	Device Independence Through Text	255
	How Much Is That in Real Money?	256
	Dots Per Inch	259
	What's with the Printer?	260
	Manual Conversions	262
	Page Units and Page Scale	264
	Pen Widths	269
	Page Transforms	272
	Saving the Graphics State	273
	Metrical Dimensions	274
	Arbitrary Coordinates	278
	What You Can't Do	281
	Hello, World Transform	282
	The Big Picture	287
	Linear Transforms	288
	Introducing Matrixes	291
	The Matrix Class	293
	Shear and Shear Alike	295
	Combining Transforms	297
8	Taming the Mouse	301
	The Dark Side of the Mouse	302
	Ignoring the Mouse	303
	Some Quick Definitions	303
	Information About the Mouse	304
	The Mouse Wheel	305
	The Four Basic Mouse Events	306
	Doing the Wheel	309
	Mouse Movement	313
	Tracking and Capturing the Mouse	315
	Adventures in Tracking	318
	Generalizing Code with Interfaces	326
	Clicks and Double-Clicks	330
	Mouse-Related Properties	331
	Entering, Leaving, Hovering	332
	The Mouse Cursor	334
	An Exercise in Hit-Testing	342
	Adding a Keyboard Interface	344

Putting the Children to Work	346
Hit-Testing Text	351
Scribbling with the Mouse	353

9 Text and Fonts 359

Fonts Under Windows	359
Talking Type	360
Font Heights and Line Spacing	363
Default Fonts	365
Variation on a Font	366
Creating Fonts by Name	368
A Point Size by Any Other Name...	373
Clash of the Units	378
Font Properties and Methods	380
New Fonts from <i>FontFamily</i>	386
Understanding the Design Metrics	389
Arrays of Font Families	393
Font Collections	399
Variations on <i>DrawString</i>	401
Anti-Aliased Text	403
Measuring the String	405
The <i>StringFormat</i> Options	406
Grid Fitting and Text Fitting	408
Horizontal and Vertical Alignment	411
The Hotkey Display	416
A Clip and a Trim	418
Start a Tab	425

10 The Timer and Time 433

The <i>Timer</i> Class	434
The <i>DateTime</i> Structure	438
Local Time and Universal Time	440
The Tick Count	443
Calendars Around the World	446
A Readable Rendition	448
A Simple Culture-Specific Clock	454
The Retro Look	459
An Analog Clock	463
A Little Puzzle Called <i>Jeu de Taquin</i>	470

11	Images and Bitmaps	477
	Bitmap Support Overview	479
	Bitmap File Formats	480
	Loading and Drawing	485
	Image Information	490
	Rendering the Image	495
	Fitting to a Rectangle	498
	Rotate and Shear	503
	Displaying Part of the Image	505
	Drawing on the Image	510
	More on the <i>Image</i> Class	515
	The <i>Bitmap</i> Class	518
	Hello World with a Bitmap	520
	The Shadow Bitmap	522
	Binary Resources	524
	Animation	530
	The Image List	536
	The Picture Box	540
12	Buttons and Labels and Scrolls (Oh My!)	545
	Buttons and Clicks	546
	Keyboard and Mouse	550
	Control Issues	551
	Deeper into Buttons	552
	Appearance and Alignment	555
	Buttons with Bitmaps	559
	Multiple Handlers or One?	562
	Drawing Your Own Buttons	562
	Dropping Anchor	566
	Dock Around the Clock	570
	Children of the Form	573
	Z-Order	576
	The Check Box	577
	The Three-State Alternative	581
	The Label Control	582
	Tab Stops and Tab Order	585
	Identifying the Controls	586

The Auto-Scale Option	589
A Hexadecimal Calculator	595
Radio Buttons and Group Boxes	599
Scroll Bars	603
The Track Bar Alternative	612

13 Béziers and Other Splines **619**

The Bézier Spline in Practice	620
A More Stylish Clock	625
Collinear Béziers	627
Circles and Arcs with Béziers	629
Bézier Art	632
The Mathematical Derivation	634
The Canonical Spline	638
Canonical Curve Derivation	645

14 Menus **649**

Menus and Menu Items	649
Menu Shortcut Keys	653
Your First Menu	655
Unconventional Menus	658
<i>MenuItem</i> Properties and Events	660
Checking the Items	663
Working with Context Menus	667
The Menu Item Collection	670
The Standard Menu (A Proposal)	676
The Owner-Draw Option	681

15 Paths, Regions, and Clipping **691**

A Problem and Its Solution	691
The Path, More Formally	696
Creating the Path	699
Rendering the Path	703
Path Transforms	707
Other Path Modifications	710
Clipping with Paths	718
Clipping Bitmaps	723
Regions and Clipping	727

16	Dialog Boxes	729
	Your First Modal Dialog Box	730
	Modal Dialog Box Termination	735
	Accept and Cancel	737
	Screen Location	738
	The About Box	742
	Defining Properties in Dialog Boxes	745
	Implementing an Apply Button	750
	The Modeless Dialog Box	754
	The Common Dialog Boxes	758
	Choosing Fonts and Colors	759
	Using the Windows Registry	766
	The Open File Dialog Box	771
	The Save File Dialog Box	778
17	Brushes and Pens	783
	Filling in Solid Colors	784
	Hatch Brushes	784
	The Rendering Origin	794
	Texture Brushes	797
	Linear Gradient Brushes	802
	Path Gradient Brushes	812
	Tiling the Brush	816
	Pens Can Be Brushes Too	824
	A Dash of Style	828
	Caps and Joins	831
18	Edit, List, and Spin	839
	Single-Line Text Boxes	839
	Multiline Text Boxes	844
	Cloning Notepad	847
	The Notepad Clone with File I/O	853
	Notepad Clone Continued	862
	Special-Purpose Text Boxes	878
	The Rich Text Box	879
	ToolTips	880
	The List Box	888
	List Box + Text Box = Combo Box	895
	Up-Down Controls	901

19	Font Fun	913
	Getting Started	913
	Brushed Text	915
	Font Transforms	922
	Text and Paths	934
	Nonlinear Transforms	948
20	Toolbars and Status Bars	955
	The Basic Status Bar	956
	The Status Bar and Auto-Scroll	958
	Status Bar Panels	961
	<i>StatusBarPanel</i> Properties	964
	Menu Help	967
	The Basic Toolbar	975
	Toolbar Variations	979
	Toolbar Events	982
	Toolbar Styles	988
21	Printing	997
	Printers and Their Settings	998
	Page Settings	1006
	Defining a Document	1010
	Handling <i>PrintDocument</i> Events	1012
	The Page Dimensions	1018
	The Print Controller	1022
	Using the Standard Print Dialog Box	1027
	Setting Up the Page	1032
	Print Preview	1036
22	Tree View and List View	1045
	Splitsville	1045
	Tree Views and Tree Nodes	1060
	Images in Tree Views	1064
	Tree View Events	1066
	Node Navigation	1068
	The Directory Tree	1070
	Displaying Images	1076
	List View Basics	1084
	List View Events	1091

23	Metafiles	1101
	Loading and Rendering Existing Metafiles	1102
	Metafile Sizes and Rendering	1104
	Converting Metafiles to Bitmaps	1112
	Creating New Metafiles	1114
	The Metafile Boundary Rectangle	1122
	Metafiles and the Page Transform	1125
	The Metafile Type	1128
	Enumerating the Metafile	1130
24	Clip, Drag, and Drop	1139
	Items and Formats	1140
	The Tiny (But Powerful) <i>Clipboard</i> Class	1140
	Getting Objects from the Clipboard	1142
	Clipboard Data Formats	1151
	Clipboard Viewers	1161
	Setting Multiple Clipboard Formats	1171
	Drag and Drop	1175
Appendix A	Files and Streams	1185
	The Most Essential File I/O Class	1185
	<i>FileStream</i> Properties and Methods	1187
	The Problem with <i>FileStream</i>	1191
	Other Stream Classes	1192
	Reading and Writing Text	1193
	Binary File I/O	1200
	The <i>Environment</i> Class	1204
	File and Path Name Parsing	1206
	Parallel Classes	1208
	Working with Directories	1209
	File Manipulation and Information	1215
Appendix B	Math Class	1219
	Numeric Types	1219
	Checking Integer Overflow	1220
	The Decimal Type	1222
	Floating-Point Infinity and NaNs	1224
	The <i>Math</i> Class	1226
	Floating-Point Remainders	1228

Powers and Logarithms	1229
Trigonometric Functions	1230

Appendix C String Theory **1233**

The <i>char</i> Type	1235
String Constructors and Properties	1237
Copying Strings	1239
Converting Strings	1240
Concatenating Strings	1240
Comparing Strings	1242
Searching the String	1245
Trimming and Padding	1247
String Manipulation	1249
Formatting Strings	1249
Array Sorting and Searching	1250
The <i>StringBuilder</i> Class	1252

Index	1255
