WATER TREATMENT PLANT DESIGN

FOURTH EDITION

AMERICAN WATER WORKS ASSOCIATION
AMERICAN SOCIETY OF CIVIL ENGINEERS

CONTENTS

Contributors ix

Preface xi

Chapter 1. The Challenge of Water Treatment Plant Design

Thomas J. Lane

1.1

Today's Challenges / 1.2

Development of Water Treatment Design Projects / 1.4

The Purpose of This Text / 1.5

Bibliography / 1.6

Chapter 2. Master Planning and Treatment Process Selection

George P. Fulton

2.1

The Master Plan / 2.1

Water Quality Goals / 2.4

Treatment Options / 2.9

Chapter 3. Design and Construction *R. Gary Fuller*

3.1

Preliminary Design / 3.1

Final Design / 3.5

Construction Assistance / 3.10

Bibliography / 3.12

Chapter 4. Intake Facilities *Steven N. Foellmi*

4.1

Intake Features / 4.1

Types of Intake Systems / 4.3

Intake Design / 4.15

Intake Design Considerations / 4.21

Racks and Screens / 4.31

Bibliography / 4.34

Chapter 5. Aeration and Air Stripping *John E. Dyksen*

5.1

Uses of Aeration/Air Stripping / 5.1

Types of Aeration/Air Stripping Equipment / 5.2

| |
|---|
| Principles of Air Stripping and Aeration / 5.8 |
| Design of Aeration/Air Stripping Processes / 5.10 |
| Pilot Testing / 5.22 |
| Bibliography / 5.24 |

Chapter 6. Mixing, Coagulation, and Flocculation *Paul J. Delphos and George M. Wesner*

6.1

| |
|---|
| Definitions / 6.1 |
| The Coagulation Process / 6.2 |
| Coagulation and Membrane Technology / 6.5 |
| Design of Chemical Mixing / 6.6 |
| Flocculation Process Design / 6.14 |
| Process Monitoring and Control / 6.23 |
| Bibliography / 6.25 |

Chapter 7. Clarification *John F. Willis*

7.1

| |
|--|
| Conventional Clarification Design / 7.1 |
| High-Rate Clarification / 7.22 |
| Solids Contact/Slurry Recirculation Units / 7.28 |
| Sludge Blanket Clarification / 7.32 |
| Dissolved Air Flotation / 7.36 |
| Contact Clarification / 7.40 |
| Bibliography / 7.43 |

Chapter 8. High-Rate Granular Media Filtration *Kevin Castro, Gary Logsdon, and Stephen R. Martin*

8.1

| |
|---|
| Mechanism of Filtration / 8.2 |
| Design Considerations / 8.2 |
| Filter Design Criteria / 8.36 |
| Filter Operation and Maintenance / 8.37 |
| Bibliography / 8.41 |

Chapter 9. Slow Sand and Diatomaceous Earth Filtration *Michael V. Broder and John C. Byron*

9.1

| |
|--------------------------------------|
| Slow Sand Filtration / 9.2 |
| Diatomaceous Earth Filtration / 9.16 |
| Bibliography / 9.29 |

Chapter 10. Oxidation and Disinfection *James C. Hesby*

10.1

| |
|--------------------------------------|
| Regulatory Framework / 10.2 |
| Chemical Oxidation Treatment / 10.10 |
| Chlorination / 10.13 |
| Chlorine Dioxide Systems / 10.34 |
| Ozone Disinfection Systems / 10.39 |
| Bibliography / 10.59 |

Chapter 11. Lime Softening *Michael B. Horsley, Doug B. Elder, P.E., and Leland L. Harms*

11.1

Water Hardness and Softening Treatment / 11.1
Pretreatment / 11.5
Lime Softening Processes / 11.6
Softening Process Basins / 11.13
Special Lime Softening Design Considerations / 11.16
Future Trends in Softening / 11.19
Bibliography / 11.19

Chapter 12. Ion Exchange Applications in Water Treatment
Michael C. Gottlieb

12.1

Introduction / 12.1
The Ion Exchange Process / 12.6
Cation Exchange Process / 12.9
Anion Exchange Processes / 12.12
Demineralization / 12.30
Basics of Equipment Design / 12.32
Regeneration Methods / 12.33
Boundaries between Suppliers, Consultants, and Users / 12.53
Future Trends in Ion Exchange / 12.54
Bibliography / 12.54

Chapter 13. Membrane Processes *Robert A. Bergman, P.E.*

13.1

Types of Membrane Processes / 13.1
Membrane System Components and Design Considerations / 13.8
Membrane Unit Design / 13.25
Other Membrane Process Design Considerations / 13.41
Bibliography / 13.48

Chapter 14. Activated Carbon Processes *Richard D. Brady*

14.1

Characteristics of Activated Carbon / 14.1
Design of Powdered Activated Carbon Facilities / 14.4
Design of Granular Activated Carbon Facilities / 14.9
Regeneration of Granular Activated Carbon / 14.33
Bibliography / 14.37

Chapter 15. Chemicals and Chemical Handling *Jerry L. Anderson, P.E.*

15.1

Receiving and Storing Process Chemicals / 15.1
Chemical Feed and Metering Systems / 15.17
Designing for Safety and Hazardous Conditions / 15.41
Recent Trends in Chemical Handling and Use / 15.50
Bibliography / 15.53

Chapter 27. Operator Training and Plant Start-Up *Thomas E. Arn and John Gasser*

27.1

Training and Start-Up Considerations / 27.1

Design-Phase Training / 27.2

Construction-Phase Training, Start-Up, and Post-Start-Up / 27.5

Chapter 28. Pilot Plant Design and Construction *Robert A. Stoops*

28.1

Pilot Plant Studies / 28.2

Pilot Plant Design / 28.3

Pilot Plant Construction / 28.21

Bibliography / 28.25

Chapter 29. Ultraviolet Disinfection *Paul D. Swalm, P.E., Christine A. Cotton, P.E., and Samuel S. Jeyanayagam, Ph.D., P.E., D.E.E.*

29.1

Principles of UV Disinfection / 29.2

Applications for UV Disinfection / 29.6

UV Disinfection Equipment / 29.8

Water Quality and Treatment Effects on UV Disinfection / 29.15

UV Disinfection Facility Planning, Design, and Project Implementation / 29.19

Construction, Testing, Start-Up, and O&M / 29.35

Potential Regulatory Requirements for UV Disinfection in North America / 29.38

Validation Testing / 29.43

Bibliography / 29.45

Chapter 30. Water Treatment Plant Security *John M. Winslow*

30.1

Water Quality / 30.2

Barriers / 30.2

Electronic Security Systems / 30.3

CCTV / 30.5

Procedures / 30.6

Bibliography / 30.7

Appendix A. Properties and Characteristics of Water Treatment Chemicals *Jerry L. Anderson, P.E.*

A.1

Appendix B. Abbreviations Commonly Used in the Water Industry

B.1
