MANAGEMENT INFORMATION SYSTEMS

Erly Oz

MIS Companion CD included

PART ONE	THE INFORMATION AGE	1
	Case I: Eats2Go	1
Chapter 1	Business Information Systems: An Overview	6
	<i>Eats2Go: Business Systems and Information</i>	7
	Information Systems	8
	Data, Information, and Systems	9
	<i>Data vs. Information</i>	9
	<i>Data Manipulation</i>	9
	<i>Generating Information</i>	10
	<i>Information in Context</i>	10
	<i>What is a System?</i>	11
	<i>Information and Managers</i>	13
	Why You Should...Be Well Versed in Information Systems	14
	<i>The Benefits of Human-Computer Synergy</i>	15
	<i>Information Systems in Organizations</i>	15
	<i>The Four Stages of Processing</i>	17
	Ethical & Societal Issues: The Not-so-bright Side	18
	<i>Computer Equipment for Information Systems</i>	20
	ISS: From Recording Transactions to Providing Expertise	21
	<i>Transaction Processing Systems</i>	21
	<i>Management Information Systems</i>	21
	Information Systems in Business	23
	<i>Information Systems in Functional Business Areas</i>	23
	<i>Information Systems in Different Business Sectors</i>	24
	Shared Data Resources	26
	E-commerce	28
	Why Study Information Systems?	29
	<i>Degrees in IS</i>	30
	<i>Information Systems Careers</i>	30
	Summary	31
	Eats2Go Revisited	33
	Key Terms	34
	Review Questions	34
	Discussion Questions	34
	Applying Concepts	35
	Hands-on Activities	35
	Team Activities	35
	From Ideas to Application: Real Cases	36

Chapter 2	Strategic Uses of Information Systems	38
	Eats2Go: Using Information Strategically	39
	Strategy and Strategic Moves	40
	Achieving a Competitive Advantage	41
	Initiative #1: Reduce Costs	42
	Initiative #2: Raise Barriers to Market Entrants	43
	Initiative #3: Establish High Switching Costs	44
	Initiative #4: Create New Products or Services	44
	Initiative #5: Differentiate Products or Services	46
	Initiative #6: Enhance Products or Services	46
	Why You Should...Understand the Notion of Strategic Information Systems	47
	Initiative #7: Establish Alliances	47
	Initiative #8: Lock In Suppliers or Buyers	50
	Creating and Maintaining Strategic Information Systems	51
	Creating an SIS	51
	Reengineering and Organizational Change	53
	Competitive Advantage as a Moving Target	54
	Jetblue: A Success Story	54
	Massive Automation	55
	Away from Tradition	56
	Enhanced Service	56
	Impressive Performance	57
	Late Mover Advantage	57
	Ford on the Web: A Failure Story	57
	The Ideas	57
	Hitting the Wall	58
	The Retreat	58
	Success and Failure on the Web	59
	Ethical & Societal Issues: The Power of Information	60
	The Bleeding Edge	62
	Summary	63
	Eats2Go Revisited	65
	Key Terms	66
	Review Questions	66
	Discussion Questions	66
	Applying Concepts	67
	Hands-on Activities	68
	Team Activities	68
	From Ideas to Application: Real Cases	69
Chapter 3	Information Systems in Business Functions	72
	Eats2Go: Continued Growth and Specialization	73
	Effectiveness and Efficiency	74
	Accounting	77
	Why You Should...Know about ISs in Different Business Functions	78
	Finance	79
	Cash Management	79
	Investment Analysis and Service	80
	Engineering	81

Manufacturing and Inventory Control	83
<i>Materials Requirement Planning</i> 84	
<i>Manufacturing Resource Planning</i> 85	
<i>Manufacturing Execution Systems</i> 86	
<i>Monitoring and Control</i> 86	
Marketing, Sales, and Customer Service	86
<i>Market Research</i> 87	
<i>Targeted Marketing</i> 88	
<i>The Internet as a Marketing and Selling Medium</i> 89	
Ethical & Societal Issues: Consumer Privacy	90
<i>Sales Force Automation</i> 91	
<i>Customer Relationship Management</i> 92	
Human Resources	92
<i>Employee Record Management</i> 92	
<i>Promotion and Recruitment</i> 93	
<i>Training</i> 94	
<i>Evaluation</i> 95	
<i>Compensation and Benefits Management</i> 96	
Enterprise Resource Planning	96
Groupware and Collaborative Work	98
<i>Document Control</i> 98	
<i>Collaborative Projects</i> 99	
<i>Brainstorming</i> 100	
Summary	101
Eats2Go Revisited	103
Key Terms	103
Review Questions	104
Discussion Questions	104
Applying Concepts	105
Hands-on Activity	105
Team Activities	105
From Ideas to Application: Real Cases	106

PART TWO	INFORMATION TECHNOLOGY	111
-----------------	---	------------

Case II: QuickBiz Messengers	111
---	------------

Chapter 4	Information Technology in Business: Hardware	116
------------------	---	------------

QuickBiz Messengers: Hardware Streamlines Processes	117
--	------------

The Central Tool of Modern Information Systems	118
---	------------

<i>Hardware Components</i> 119

How Computers Communicate: Bits and Bytes	120
--	------------

<i>Encoding Schemes</i> 121

<i>Understanding Computer Processing</i> 121
--

Classification of Computers	123
--	------------

<i>Supercomputers</i> 123

<i>Mainframe Computers</i> 124

<i>Midrange Computers</i> 124

<i>Microcomputers</i> 124

<i>Computers on the Go: Notebook, Handheld, and Tablet Computers</i> 125
--

<i>Internet Appliances</i> 126

Business Evolves with Computing	127
<i>From Mainframe to PC: Networking Businesses</i>	127
<i>Trends in Computing</i>	127
A Peek Inside the Computer	129
<i>The Central Processing Unit</i>	130
<i>Memory</i>	133
Why You Should...Understand Some Technical Details	134
<i>Computer Power</i>	135
Input Devices	136
<i>Keyboard</i>	136
<i>Mouse, Trackball, and Trackpad</i>	137
<i>Touch Screen</i>	137
<i>Source Data Input Devices</i>	137
<i>Imaging</i>	139
<i>Speech Recognition</i>	139
Output Devices	141
<i>Soft-Copy Output Devices</i>	141
Ethical & Societal Issues: Computers May Be Hazardous to Your Health	142
<i>Hard-Copy Output Devices</i>	145
External Storage Media	145
<i>Modes of Access</i>	146
<i>Magnetic Tapes</i>	147
<i>Magnetic Disks</i>	147
<i>Optical Discs</i>	149
<i>Optical Tape</i>	150
<i>Flash Memory and Thumb Drives</i>	150
<i>Business Considerations in Evaluating Storage Media</i>	151
Considerations in Purchasing Hardware	153
<i>Updating Hardware</i>	155
Summary	156
QuickBiz Messengers Revisited	158
Key Terms	158
Review Questions	159
Discussion Questions	159
Applying Concepts	160
Hands-on Activities	161
Team Activity	162
From Ideas to Application: Real Cases	163
Information Technology in Business: Software	166
QuickBiz Messengers: Software Steers Path to Stability	167
Software: Instructions to the Computer	168
Programming Languages	169
<i>First Generation: Machine Languages</i>	171
<i>Second Generation: Assembly Languages</i>	171
<i>Third Generation: Procedural Languages</i>	172
<i>Fourth-Generation Languages</i>	172
<i>Visual Programming</i>	173
<i>Object-Oriented Programming</i>	174
<i>Levels of Programming Languages: Pluses and Minuses</i>	176

Application Software	178
--------------------------------	-----

Why You Should...Be Software Savvy	180
---	------------

Ethical & Societal Issues: Software Piracy	190
---	------------

System Software	192
---------------------------	-----

Considerations in Purchasing Software	199
---	-----

Summary	200
-------------------	-----

QuickBiz Messengers Revisited	202
--	------------

Key Terms	202
---------------------	-----

Review Questions	203
----------------------------	-----

Discussion Questions	203
--------------------------------	-----

Applying Concepts	204
-----------------------------	-----

Hands-on Activities	204
-------------------------------	-----

Team Activities	204
---------------------------	-----

From Ideas to Application: Real Cases	205
---	-----

Chapter 6

Information Technology in Business:

Telecommunications and Networks	208
--	------------

QuickBiz Messengers: Communication Is Key	209
--	------------

Telecommunications in Business	210
--	-----

Telecommunications in Daily Use.	211
--	-----

Data Communications.	215
------------------------------	-----

Error Detection	217
---------------------------	-----

Bandwidth and Media	218
-------------------------------	-----

Why You Should...Understand Telecommunications	223
---	------------

Modulation	224
<i>Analog vs. Digital</i>	224
<i>Amplitude Modulation</i>	224
<i>Frequency Modulation</i>	225
<i>Phase Modulation</i>	225
<i>Modems</i>	225
Networks	226
<i>LANs</i>	227
<i>WANs</i>	227
<i>Network Topology</i>	228
<i>Networking Hardware</i>	230
<i>Virtual Private Networks</i>	230
Protocols	231
<i>LAN Protocols</i>	232
<i>WAN Protocols</i>	232
Switching Techniques	234
<i>Circuit Switching</i>	235
<i>Packet Switching</i>	235
Ethical & Societal Issues: Telecommuting: Pros and Cons	236
A Variety of Services	238
<i>Cable</i>	238
<i>Digital Subscriber Line (DSL)</i>	238
<i>T1 and T3 Lines</i>	240
<i>Satellite</i>	241
<i>Fixed Wireless</i>	241
<i>Gigabit Ethernet</i>	241
<i>Optical Carrier</i>	241
The Wireless Revolution	242
<i>Popular Wireless Technologies</i>	242
<i>Would You Like Wi-Fi with That?</i>	243
<i>Combining Technologies</i>	245
Summary	245
QuickBiz Messengers Revisited	247
Key Terms	247
Review Questions	248
Discussion Questions	248
Applying Concepts	249
Hands-on Activities	249
Team Activities	250
From Ideas to Application: Real Cases	251
Chapter 7 E-Commerce: The Internet, Intranets, and Extranets	254
QuickBiz Messengers: Moving to the Web	255
What is the Internet?	256
<i>The Development of the Internet</i>	257
<i>Growth of the Internet</i>	258
How the Internet Works	260
<i>Domain Names and IP Numbers</i>	262
<i>Static and Dynamic IP Numbers</i>	263

Common Internet Applications	264
<i>E-mail</i> 264	
<i>File Transfer</i> 265	
<i>Newsgroups and Blogs</i> 265	
<i>Instant Messaging</i> 266	
<i>Internet Telephoning</i> 268	
Why You Should...Know More about the Internet	269
<i>Web Browsers</i> 269	
The World Wide Web	270
<i>Web Software</i> 270	
Intranets and Extranets	277
Establishing an E-Commerce Web Site	279
<i>Dedicated Server</i> 280	
<i>ISP Site</i> 280	
<i>Web Portal</i> 280	
<i>Electronic Storefront</i> 280	
<i>Web Hosting Service</i> 281	
<i>Virtual Web Server</i> 281	
<i>Subdomain</i> 281	
<i>Considerations in Selecting a Web Service Provider</i> 282	
<i>More than Meets the Eye</i> 283	
E-Commerce Practices on the Internet	284
<i>Business-to-Business Trading</i> 284	
<i>Business-to-Consumer Trading</i> 287	
Ethical & Societal Issues: Online Annoyances	292
<i>Rules for Successful Online Business Transactions</i> 294	
<i>Successful Business Models</i> 296	
<i>Rules for Successful Business Web Page Design</i> 297	
<i>E-Government</i> 297	
<i>M-Commerce</i> 299	
Management Challenges and Solutions	300
<i>Reduced Control over Information Resources</i> 300	
<i>Reduced Budgetary Control</i> 300	
<i>Cost/Benefit Analysis</i> 300	
<i>Scalability</i> 301	
<i>Security</i> 301	
<i>Education</i> 301	
E-Commerce Is Every Commerce	301
Summary	302
QuickBiz Messengers Revisited	304
Key Terms	304
Review Questions	305
Discussion Questions	305
Applying Concepts	306
Hands-on Activities	307
Team Activities	307
From Ideas to Application: Real Cases	308

Data and Knowledge Management	310
<i>QuickBiz Messengers: The Value and Uses of Databases</i>	311
Managing Digital Data	312
<i>The Traditional File Approach</i> 313	
<i>Moving to Databases</i> 314	
Why You Should...Know about Data and Knowledge Management	316
Database Models	318
<i>The Hierarchical Model</i> 318	
<i>The Network Model</i> 319	
<i>The Relational Model</i> 320	
<i>The Object-Oriented Model</i> 321	
Relational Databases: Design and Keys	323
<i>Data Modeling</i> 323	
<i>Keys</i> 325	
Components of Database Management Systems	326
<i>The Schema</i> 327	
<i>The Data Dictionary</i> 328	
<i>The Data Definition Language</i> 329	
<i>The Data Manipulation Language</i> 329	
Relational Operations	331
<i>Data Manipulation</i> 331	
<i>Structured Query Language</i> 331	
Database Architecture	332
<i>Distributed Databases</i> 333	
<i>Client/Server Systems</i> 334	
Web Databases	335
<i>Databases on the Web</i> 335	
<i>Points to Consider</i> 336	
Data Warehousing	337
Ethical & Societal Issues: Every Move You Make	338
<i>From Database to Data Warehouse</i> 340	
<i>Phases in Building a Data Warehouse</i> 341	
<i>Who is Using Data Warehouses?</i> 342	
Data Mining and Online Analysis	342
<i>Data Mining</i> 342	
<i>Online Analytical Processing</i> 345	
Knowledge Management	345
Summary	347
<i>QuickBiz Messengers Revisited</i>	349
Key Terms	349
Review Questions	350

CASE III: Urban Scene **357**

Chapter 9 **Managers and Their Information Needs** **362**

Urban Scene: Slicing and Dicing the Information **363**

Managers and Information 364

The Traditional Organizational Pyramid 365

Clerical and Shop Floor Workers 365

Operational Management 366

Tactical Management 366

Strategic Management 366

Characteristics of Information at Different Managerial Levels 367

Data Scope 368

Time Span 368

Level of Detail 369

Source: Internal vs. External 369

Structured and Unstructured Data 369

The Nature of Managerial Work 370

Planning 370

Why You Should...Be Information Conscious **371**

Controlling 373

Decision Making 373

Managing by Exception 374

Leading 374

Trends in Organizational Structure 375

IT Flattens the Organization 375

The Matrix Structure 376

Characteristics of Effective Information 377

Tabular and Graphical Representation 377

Online Analytical Processing 379

Business Intelligence 381

Dynamic Representation 381

Managers and Their Information Systems 382

Transaction Processing Systems 382

Decision Support Systems and Expert Systems 383

Executive Information Systems 383

Customer Relationship Management Systems 384

Information, Politics, and Power 385

Politics 385

Ethical & Societal Issues: Electronic Monitoring of Employees **386**

Power 388

The Not-Invented-Here Phenomenon 389

Summary 389

Urban Scene Revisited **391**

Key Terms 391

Review Questions 392

Discussion Questions 392

Applying Concepts 393

Hands-on Activities 393

Team Activities 394

From Ideas to Application: Real Cases 395

Chapter 10	Organizing Information Technology Resources	400
	<i>Urban Scene: Reorganizing Systems and Staff</i>	401
	Management of Information Technology Resources	402
	Centralized vs. Decentralized Management	403
	Organizing the IS Staff	407
	<i>Central IS Organization</i>	407
	<i>Dispersed IS Organization</i>	409
	<i>A Hybrid Approach</i>	410
	Challenges for IS Managers and Business Managers	410
	Why You Should...Be Interested in the Deployment of ISs	411
	<i>Business Managers' Expectations of an IS Unit</i>	411
	<i>IS Managers' Expectations of Business Managers</i>	413
	Charge-Back Methods	413
	<i>Service Charges</i>	414
	<i>Overhead Expenditures</i>	415
	Careers in Information Systems	416
	<i>The Systems Analyst</i>	416
	<i>The Database Administrator</i>	417
	Ethical & Societal Issues: Gasping for IT Skills	418
	<i>The Network Administrator</i>	420
	<i>The Webmaster</i>	421
	<i>The Chief Information Officer and the Chief Technology Officer</i>	422
	<i>The Chief Security Officer</i>	424
	<i>The Chief Knowledge Officer</i>	425
	<i>The Independent Consultant</i>	425
	Summary	426
	<i>Urban Scene Revisited</i>	427
	Key Terms	427
	Review Questions	427
	Discussion Questions	428
	Applying Concepts	428
	Hands-on Activities	429
	Team Activities	429
	From Ideas to Application: Real Cases	430
Chapter 11	Supply Chain Management and Global Information Systems	434
	<i>Urban Scene: Creating Virtual Links for Real Business</i>	435
	Sharing Information Systems: The Rise of E-Commerce	436
	Vertical Information Systems	437
	Horizontal Information Systems	438
	Why You Should...Learn about Supply Chain Management and Global ISs	440
	Electronic Data Interchange	441
	<i>Value-Added Network EDI</i>	444
	<i>Web EDI</i>	444
	Supply Chain Management	446
	<i>The Importance of Trust</i>	448
	<i>The Musical Chairs of Inventory</i>	449
	<i>The Future of SCM: RFID</i>	450
	<i>Collaborative Logistics</i>	450

Multinational Organizations	451
Using the Web for International Commerce	452
Challenges to Global Information Systems	453
<i>Technological Challenges</i> 453	
<i>Regulations and Tariffs</i> 454	
<i>Differences in Payment Mechanisms</i> 455	
<i>Language Differences</i> 455	
<i>Cultural Differences</i> 456	
<i>Conflicting Economic, Scientific, and Security Interests</i> 456	
<i>Political Challenges</i> 457	
<i>Different Standards</i> 457	
<i>Legal Barriers</i> 458	
Ethical & Societal Issues: Legal Jurisdictions in Cyberspace	460
Summary	462
Urban Scene Revisited	464
Key Terms	464
Review Questions	464
Discussion Questions	465
Applying Concepts	466
Hands-on Activities	466
Team Activities	467
From Ideas to Application: Real Cases	468

PART FOUR	INFORMATION SYSTEMS IN DECISION MAKING	473
------------------	---	------------

Case IV: DeBoer Farms	473
Chapter 12 Decision Support Systems	478
<i>DeBoer Farms: Decisions, Decisions</i>	479
Decision Support Aids	480
The Decision-Making Process	480
Structured and Unstructured Problems	481
<i>Structured Problems</i> 482	
<i>Unstructured Problems</i> 483	
<i>Semistructured Problems</i> 483	
<i>Managers and Semistructured Problems</i> 484	
Decision Support System Components	485
<i>The Data Management Module</i> 485	
Why You Should...Be Familiar with Decision Support Systems	487
<i>The Model Management Module</i> 488	
<i>The Dialog Module</i> 490	
Types of Decision Support Systems	491
<i>Personal Decision Support Systems</i> 492	
<i>Group Decision Support Systems</i> 493	
Sensitivity Analysis	495
Executive Information Systems	496
Developing Decision Support Systems	497
<i>When Should a DSS Be Built?</i> 497	
Ethical & Societal Issues: Decisions by Machines	498
The Electronic Spreadsheet: A DSS Tool	500

Geographic Information Systems	501
Summary	503
DeBoer Farms Revisited	505
Key Terms	505
Review Questions	506
Discussion Questions	506
Applying Concepts	507
Hands-on Activities	507
Team Activities	508
From Ideas to Application: Real Cases	509

Chapter 13

Artificial Intelligence and Expert Systems	512
DeBoer Farms: Harvesting Technology's Benefits	513
Artificial Intelligence in Business	514
Robotics 515	
Artificial Vision 516	
Natural Language Processing 516	
Expert Systems 517	
Neural Networks 518	
Fuzzy Logic 520	
Genetic Algorithms 522	
Why You Should...Recognize the Potential of Artificial Intelligence	522
Intelligent Agents 524	
Contribution of Expert Systems	525
Development of Expert Systems	526
What is Expertise? 526	
Components of Expert Systems 527	
Construction of Expert Systems	528
IF-THEN Rules 528	
Knowledge Engineering 529	
Expert System Shells 529	
Forward Chaining and Backward Chaining 530	
Factors Justifying the Acquisition of Expert Systems 531	
Expert Systems in Action	532
Medical Management 532	
Telephone Network Maintenance 532	
Credit Evaluation 532	
Detection of Insider Securities Trading 533	
Detection of Common Metals 533	
Mineral Exploration 533	
Irrigation and Pest Management 534	
Medical Diagnosis 534	
Diagnosis and Prediction of Mechanical Failure 535	
Ethical & Societal Issues: Too Sophisticated Technology	536
Class Selection for Students 537	
Limitations of Expert Systems	537
Summary	537
DeBoer Farms Revisited	539
Key Terms	539
Review Questions	539
Discussion Questions	540

Team Activities	541
From Ideas to Application: Real Cases.	542

PART FIVE PLANNING, ACQUISITION, AND CONTROLS 545

Case V: Worldwide Host 545

Chapter 14 Planning Information Systems 550

Worldwide Host: A Vision for the Future. 551

Why Plan? 552

What Is Planning? 552

Business Planning 553

Approaches to Planning. 554

Top-Down Planning 554

Bottom-Up Planning 555

Planning by Critical Success Factors 555

Information Systems Planning 556

Prerequisites for Information Systems Planning 559

The Corporate and IS Mission Statements 560

The IT Vision 560

Strategic and Tactical Information Systems Planning 561

Why You Should...Be Involved in IS Planning. 561

Important Factors in IS Tactical Planning 563

IS Planning Initiatives 565

Dealing with Legacy Systems 566

The Champion 567

Ethical & Societal Issues: Codes of Ethics for IT Professionals 568

The Systems Analyst as an Agent of Change 569

Summary 571

Worldwide Host Revisited 572

Key Terms 572

Review Questions 572

Discussion Questions. 573

Applying Concepts 574

Hands-on Activities 574

Team Activities 575

From Ideas to Application: Real Cases. 576

Chapter 15 Systems Development 578

Worldwide Host: A Bumpy Road to the World Wide Web. 579

Why Develop an IS? 580

The Systems Development Life Cycle 581

Analysis 582

Why You Should...Understand the Principles of Systems Development 587

Design 587

Ethical & Societal Issues: Should IS Professionals Be Certified? 594

Implementation 595

Support 598

Prototyping	599
<i>When to Prototype</i> 600	
<i>When Not to Prototype</i> 601	
Agile Methods	601
Project Management	602
<i>Project Management Goals</i> 604
