

LIBRARY AND INFORMATION SCIENCE TEXT SERIES

BASIC RESEARCH METHODS FOR LIBRARIANS

FOURTH EDITION

Ronald R. Powell
Lynn Silipigni Connaway

Contents

Preface	ix
1. Research and Librarianship	1
The Research Record	1
The Rationale for Basic Research in Library Science	6
The Future of Library Research	9
2. Developing the Research Study	17
Planning for Research	17
The Scientific Method of Inquiry	18
Identification of the Problem	22
The Role of Theory in the Design of Research	30
Formulating Hypotheses	34
Validity and Reliability	43
Summary	50
3. Selecting the Research Method	53
Applied Research	53
Qualitative Research	59
Specific Research Methods	59
The Ethics of Research	68
Summary	74
4. Survey Research and Sampling	83
Survey Research	83
Major Differences between Survey Research and Other Methods	84

vi CONTENTS

Types of Survey Studies	84
Basic Purposes of Descriptive Surveys	87
Basic Steps of Survey Research: An Overview	88
Sampling	92
Types of Sampling Methods	94
Determining the Sample Size	105
Sampling Error	109
Nonsampling Error	112
Summary	119
5. Data Collection Techniques	123
The Questionnaire	124
Constructing the Questionnaire	126
Distribution of the Questionnaire	143
The Interview	147
Focus Group Interviews	150
Telephone Interviews	155
Observation	157
Summary	161
6. Experimental Research	165
Causality	165
Controlling the Variables	168
Internal Validity	170
External Validity	172
Experimental Designs	173
Summary	182
7. Qualitative Research Methods	185
Underlying Principles of Naturalistic Work	186
Ethical Concerns	187
Data Gathering Techniques	188
Data Analysis Tools and Methods	196
Developing Grounded Theory	201
Ensuring Integrity	202
Presentation of Findings	204
Summary	205
8. Historical Research	211
Nature and Value of Historical Research	211
Sources of Historical Information	214
Evaluation of Historical Sources	215
Basic Steps of Historical Research	217
Library History	220

Bibliographical Research	221
Problems in Historical Research	223
Summary	224
9. Analysis of Data	227
The Role of Statistics	228
Cautions in Using Statistics	228
Steps Involved in Statistical Analysis	229
Analyzing the Data—Descriptive Statistics	231
Analyzing the Data—Inferential Statistics	237
Cautions in Testing the Hypothesis	245
Computer-Aided Statistical Analysis	246
Analysis of Nonquantified Data	248
Summary	248
10. Writing the Research Proposal	251
Value of Research Proposals	251
Organization and Content of a Typical Proposal	252
Characteristics of a Good Proposal	262
Features That Detract from a Proposal	262
Obtaining Funding for LIS Research	264
Summary	267
11. Writing the Research Report	269
General Objectives of the Research Report	269
General Outline of the Research Report	270
Guidelines for Organizing and Presenting the Research Report	272
Evaluating the Research Report	273
Suggested Criteria for Judging a Research Report	274
Publishing Research Results	276
Summary	278
Appendix A <i>Domain Assumptions of Research</i>	
By Jack D. Glazier	281
Appendix B <i>How to Get Published in LIS Journals: A Practical Guide</i>	
By Daria DeCooman, Managing Editor, Library Connect Pamphlets	299
References	309
Author Index	327
Subject Index	335
