

An aerial photograph of a coastal landscape, showing a winding river or stream flowing through green fields and wooded areas. The terrain is hilly, and the water is a dark blue color. The overall scene is a natural, rural coastal environment.

GIS

for

Coastal Zone Management

**Edited by
Darius Bartlett
and Jennifer Smith**

Contents

Foreword <i>Ron Furness and Andy Sherin</i>	ix
Preface <i>Darius Bartlett and Jennifer Smith</i>	xiii
Contributors	xv
Chapter One Coastal Spatial Data Infrastructure <i>Roger A. Longhorn</i>	1
Chapter Two Bridging the Land-Sea Divide Through Digital Technologies <i>Simon Gomm</i>	17
Chapter Three A Comparative Study of Shoreline Mapping Techniques <i>Ron Li, Kaichang Di and Ruijin Ma</i>	27
Chapter Four Monitoring Coastal Environments Using Remote Sensing and GIS <i>Paul S.Y. Pan</i>	35
Chapter Five Spatial Uncertainty in Marine and Coastal GIS <i>Eleanor Bruce</i>	51
Chapter Six New Directions for Coastal and Marine Monitoring: Web Mapping and Mobile Application Technologies <i>Sam Ng'ang'a Macharia</i>	63
Chapter Seven Exploring the Optimum Spatial Resolution for Satellite Imagery: A Coastal Area Case Study <i>Chul-sue Hwang and Cha Yong Ku</i>	77

Chapter Eight	95
Visualisation for Coastal Zone Management	
<i>Simon R. Jude, Andrew P. Jones and Julian E. Andrews</i>	
Chapter Nine	109
Application of a Decision Support System in the Development of a Hydrodynamic Model for a Coastal Area	
<i>Roberto Mayerle and Fernando Toro</i>	
Chapter Ten	125
Decision-Making in the Coastal Zone Using Hydrodynamic Modelling with a GIS Interface	
<i>Jacques Populus, Lionel Loubersac, Jean-François Le Roux, Frank Dumas, Valerie Cummins, and Gerry Sutton</i>	
Chapter Eleven	141
Towards an Institutional GIS for the Iroise Sea (France)	
<i>Françoise Gourmelon and Iwan Le Berre</i>	
Chapter Twelve	153
Culture Intermixing, the Diffusion of GIS and its Application to Coastal Management in Developing Countries	
<i>Darius Bartlett and R. Sudarshana</i>	
Chapter Thirteen	165
The Use of GIS to Enhance Communications of Cultural and Natural Resources and Contamination	
<i>John A. Lindsay, Thomas J. Simon, Aquilina D. Lestenkof and Phillip A. Zavadil</i>	
Chapter Fourteen	181
GIS Applications in Coastal Management: A View from the Developing World	
<i>Peter C. Nwilo</i>	
Chapter Fifteen	195
High-Resolution Elevation and Image Data Within the Bay of Fundy Coastal Zone, Nova Scotia, Canada	
<i>Tim Webster, Montfield Christian, Charles Sangster and Dennis Kingston</i>	
Chapter Sixteen	219
Mapping and Analysing Historical Shoreline Changes Using GIS	
<i>Courtney A. Schupp, E. Robert Thieler and James F. O'Connell</i>	

Chapter Seventeen	229
GIS for Assessing Land-Based Activities that Pollute Coastal Environments	
<i>J.I. Euán-Avila, M.A. Liceaga-Correa and H. Rodríguez-Sánchez</i>	
Chapter Eighteen	239
Applying the Geospatial Technologies to Estuary Environments	
<i>David R. Green and Stephen D. King</i>	
Chapter Nineteen	257
A Territorial Information System (TIS) for the Management of the Seine Estuary – Environmental and Management Applications	
<i>Jean-Côme Bourcier</i>	
Chapter Twenty	269
Developing an Environmental Oil Spill Sensitivity Atlas for the West Greenland Coastal Zone	
<i>Anders Mosbech, David Boertmann, Louise Grøndahl, Frants von Platen, Søren S. Nielsen, Niels Nielsen, Morten Rasch and Hans Kapel</i>	
Chapter Twenty-one	281
Environment Canada’s Atlantic Sensitivity Mapping Program	
<i>André Laflamme, Stéphane R. Leblanc and Roger J. Percy</i>	
Epilogue: Meeting the Needs of Integrated Coastal Zone Management	295
<i>Jennifer L. Smith and Darius J. Bartlett</i>	
Index	301
