# CONTENTS

About the Author xvii

Preface xix

**PROLOGUE** 1

**CHAPTER 1**

**APPLIED MEDIA AESTHETICS** 3

Applied Media Aesthetics: Definition 3

Applied Aesthetics and Contextualism 4

Art and Experience 4

Contextualistic Aesthetics 5

Contextual Perception 5

Stabilizing the Environment 6

Selective Seeing and Selective Perception 6

The Power of Context 8

The Medium as Structural Agent 11

Applied Media Aesthetics: Method 12

Fundamental Image Elements 13

Analysis and Synthesis 13

Content 13

Responsibility 14

Summary 15

Notes 16

## CHAPTER 2

## THE FIRST AESTHETIC FIELD: LIGHT

19

The Nature of Light	19
Lighting Purposes and Functions	20
The Nature of Shadows	21
Attached and Cast Shadows	22
Falloff	24
Outer Orientation Functions: How We See an Event	26
Spatial Orientation	26
Tactile Orientation	26
Time Orientation	28
Inner Orientation Functions: How We Feel About an Event	30
Establishing Mood and Atmosphere	30
Above- and Below-Eye-Level Key-Light Position	31
Predictive Lighting	32
Light and Lighting Instruments as Dramatic Agents	33
Summary	34
Notes	35

## CHAPTER 3

STRUCTURING THE FIRST AESTHETIC FIELD:  
LIGHTING

37

Standard Lighting Techniques	37
Chiaroscuro Lighting	38
Analysis of Chiaroscuro Lighting	38
Functions of Chiaroscuro Lighting	40
Specific Chiaroscuro Lighting Types	42
Rembrandt Lighting	42
Cameo Lighting	42
Flat Lighting	44
Functions of Flat Lighting	44
Silhouette Lighting	46
Media-Enhanced and Media-Generated Lighting	47
Single- and Multiple-Camera Lighting	48
Single-Camera Lighting	48
Multiple-Camera Lighting	49
The Aesthetic Edge: Unusual Lighting	49
Summary	50
Notes	51

## CHAPTER 4

## THE EXTENDED FIRST FIELD: COLOR 53

- What Is Color? 53
- How We Perceive Color 54
  - Basic Physiological Factors 54
  - Basic Aesthetic Perception Factors 55
  - Grayscale 56
  - Color Models 56
  - Compatible Color 57
- How We Mix Color 57
  - Additive Color Mixing 58
  - Subtractive Color Mixing 59
  - Mixed Mixing 59
- Relativity of Color 61
  - Light Environment 61
  - Surface Reflectance 61
  - Color Temperature 62
  - Surrounding Colors 63
  - Color Juxtaposition 63
  - Color Constancy 64
- Colors and Feelings 64
  - Warm and Cold Colors 65
- Color Energy 65
  - Summary 66
  - Notes 68

## CHAPTER 5

STRUCTURING COLOR:  
FUNCTION AND COMPOSITION 71

- Informational Function of Color 71
  - Color Symbolism 72
- Compositional Function of Color 73
  - Color Energy 73
- The Aesthetic Edge: Expressive Function of Color 74
  - Expressing the Essential Quality of an Event 75
  - Adding Excitement and Drama 75
  - Establishing Mood 77
  - Desaturation Theory 77
  - Colorizing Film 78
  - Television Commercials 79
  - Summary 79
  - Notes 81

## CHAPTER 6

## THE TWO-DIMENSIONAL FIELD: AREA 83

- Aspect Ratio 83
  - Horizontal Orientation 84
  - Standard Ratios 84
  - Framing 84
- Changing the Aspect Ratio 89
  - Matching Aspect Ratios 89
  - Secondary Frames 91
- Object Size 93
  - Knowledge of Object 94
  - Relation to Screen Area 94
  - Environment and Scale 95
  - Reference to a Person 96
- Image Size 96
  - Image Size and Relative Energy 97
  - People and Things 97
  - Summary 98
  - Notes 99

## CHAPTER 7

THE TWO-DIMENSIONAL FIELD:  
FORCES WITHIN THE SCREEN 101

- Main Directions: Horizontal and Vertical 101
  - Horizontal/Vertical Combination 103
  - Tilting the Horizontal Plane 103
- Magnetism of the Frame 104
  - Headroom 106
  - Pull of Top Edge 106
  - Pull of Side Edges 106
  - Pull of Entire Frame 108
  - Attraction of Mass 108
- Asymmetry of the Frame 109
  - Up/Down Diagonals 109
  - Screen-Left and Screen-Right Asymmetry 110
- Figure and Ground 112
  - Figure/Ground Characteristics 112
- Psychological Closure 114
  - Gestalt 115
  - High- and Low-Definition Images 116
  - Facilitating Closure 117
- Vectors 119
  - Vector Field 119
  - Vector Types 119
  - Vector Magnitude 121
  - Vector Directions 122
  - Summary 123
  - Notes 124

## CHAPTER 8

STRUCTURING THE TWO-DIMENSIONAL FIELD:  
INTERPLAY OF SCREEN FORCES 127Stabilizing the Field Through Distribution of Graphic Mass  
and Magnetic Force 128

Screen-Center 129

Off-Center 129

Counterweighting 130

## Stabilizing the Field Through Distribution of Vectors 131

Structural Force of Index Vectors 131

Noseroom and Leadroom 131

Converging Vectors 133

Graphic Vectors 133

## Stages of Balance 134

Stabile Balance 134

Neutral Balance 134

Labile Balance 137

## Object Framing 138

Facilitating Closure 138

Graphic Cues 139

Premature Closure 139

Natural Dividing Lines 140

Illogical Closure 141

## The Aesthetic Edge: Unusual Compositions 142

## Multiple Screens 143

Increased Information 144

## Dividing the Screen: Screens Within the Screen 144

Summary 149

Notes 151

## CHAPTER 9

THE THREE-DIMENSIONAL FIELD:  
DEPTH AND VOLUME 153

## The Z-axis 153

## Graphic Depth Factors 155

Overlapping Planes 156

Relative Size 157

Height in Plane 158

Linear Perspective 159

Aerial Perspective 161

## Depth Characteristics of Lenses 162

Overlapping Planes: Wide-Angle Lens 162

Overlapping Planes: Narrow-Angle Lens 163

Relative Size: Wide-Angle Lens 163

Relative Size: Narrow-Angle Lens 163

Linear Perspective: Wide-Angle Lens 165

Linear Perspective: Narrow-Angle Lens 165

Working with Aerial Perspective 165

Summary 168

Notes 169

## CHAPTER 10

STRUCTURING THE THREE-DIMENSIONAL  
FIELD: SCREEN VOLUME AND EFFECTS 171

Volume Duality	172
Dominant Positive Volume	173
Dominant Negative Volume	175
Applications of Volume Duality	176
Z-axis Articulation	177
Narrow-Angle Lens Distortion	178
Wide-Angle Lens Distortion	180
Z-axis Blocking	182
Special Effects and Spatial Paradoxes	186
Graphication	186
First- and Second-Order Space	187
Personification	188
Topological and Structural Changes	189
Spatial Paradoxes	190
Summary	193
Notes	195

## CHAPTER 11

## BUILDING SCREEN SPACE: VISUALIZATION 197

Storyboard	198
Deductive and Inductive Visual Approaches	198
Deductive Approach	200
Inductive Approach	200
Ways of Looking	202
Looking At an Event	202
Looking Into an Event	202
Creating an Event	202
Field of View	204
Point of View	205
POV: Looking up and Looking down	206
POV: Objective Viewpoint to Subjective Point of View	208
POV: Subjective Camera	210
Angles	213
Angles for Continuity	213
Angles for Multiple Viewpoints	214
Angles for Event Intensification	215
Angles for Setting Style	217
Summary	218
Notes	219

## CHAPTER 12

**THE FOUR-DIMENSIONAL FIELD: TIME** 221

- The Importance of Time 221
- What Is Time? 225
- Types of Time 225
  - Objective Time 225
  - Subjective Time 226
  - Biological Time 228
- Time Direction 229
  - Past/Present/Future 229
  - The Present as Subjective Time 230
  - Transcending Time 231
  - Controlling Subjective Time 232
- Live Television 234
  - Live Television and Event Time 234
  - Live Television and Event Dependency 235
  - Live Television and Open Future 235
- Recorded Television 236
  - Live-on-Tape 236
  - Instant Replays 237
- Time in Edited Videotape and Film 238
  - Summary* 239
  - Notes* 240

## CHAPTER 13

**THE FOUR-DIMENSIONAL FIELD: MOTION** 243

- Perceived Motion 243
- Film Motion and Its Basic Structural Unit 243
- Video Motion and Its Basic Structural Unit 245
- Aesthetic Implications: The Film Look 246
  - The Film Look 246
- Large-Screen Electronic Cinema 249
- Motion Frames of Reference 249
  - Motion Paradox 250
  - Figure/Ground Reversal 251
- Perceived Speed 252
  - Object Speed 252
  - Lens Choice and Blocking 252
- Slow and Accelerated Motion 256
  - Slow Motion 256
  - Accelerated Motion 258
- Synthetic Motion 259
  - Summary* 259
  - Notes* 260

## CHAPTER 14

STRUCTURING THE FOUR-DIMENSIONAL  
FIELD: TIMING AND PRINCIPAL MOTIONS 263

Types of Objective Time: Timing	263
Clock Time	264
Running Time	264
Sequence Time	265
Scene Time	265
Shot Time	265
Story Time	266
Types of Subjective Time: Pace and Rhythm	267
Pace	267
Rhythm	267
Plot Time and Character Time	268
Principal Motions and Their Functions	269
Primary Motion and Functions	270
Secondary Motion and Functions	271
Tertiary Motion and Functions	274
Summary	282
Notes	283

## CHAPTER 15

STRUCTURING THE FOUR-DIMENSIONAL  
FIELD: CONTINUITY EDITING 285

Graphic Vector Continuity	286
Index Vector Continuity	287
Continuing, Converging, and Diverging Index Vectors	287
Index Vector–Target Object Continuity	290
Successive Z-axis Index Vectors	293
The Index Vector Line	294
Camera Placement for Cross Shooting	295
Camera Placement for Over-the-Shoulder Shooting	296
Z-axis Position Change	297
Establishing the Index Vector Line	298
Motion Vector Continuity	299
Continuing, Converging, and Diverging Motion Vectors	299
Z-axis Motion Vectors and Continuity	302
The Motion Vector Line	303
Establishing the Motion Vector Line	303
Motion and Index Vector Lines	304
Other Continuity Factors	306
Action Continuity	307
Subject Continuity	308
Color Continuity	308
Continuity of Environment	308
Summary	309
Notes	309

## CHAPTER 16

STRUCTURING THE FOUR-DIMENSIONAL  
FIELD: COMPLEXITY EDITING 311

- Analytical Montage 312
  - Sequential Analytical Montage 312
  - Sectional Analytical Montage 315
- Idea-Associative Montage 317
  - Comparison Montage 318
  - Collision Montage 319
- Metric Montage 323
  - Summary 324
  - Notes 325

## CHAPTER 17

## THE FIVE-DIMENSIONAL FIELD: SOUND 327

- Sound and Noise 327
- Television and Film Sound 328
  - Television Sound 328
  - Film Sound 331
- Literal and Nonliteral Sounds 331
  - Literal Sounds 331
  - Nonliteral Sounds 332
  - Literal and Nonliteral Sound Combinations 333
  - The Importance of Context 334
- Functions of Sound 334
- Information Function of Sound 334
  - Dialogue 335
  - Direct Address 336
  - Narration 337
- Outer Orientation Functions of Sound 337
  - Space 338
  - Time 339
  - Situation 340
  - External Condition 340
- Inner Orientation Functions of Sound 341
  - Mood 341
  - Internal Condition 341
  - Energy 342
  - Structure 342
- Aesthetic Factors 343
  - Figure/Ground 343
  - Sound Perspective 344
  - Sound Continuity 345
  - Summary 345
  - Notes 347

## CHAPTER 18

# STRUCTURING THE FIVE-DIMENSIONAL FIELD: SOUND STRUCTURES AND SOUND/PICTURE COMBINATIONS 349

Elements of Sound	350
Pitch	350
Timbre	350
Duration	352
Loudness (Dynamics)	352
Attack/Decay	353
Basic Sound Structures	355
Melody	356
Harmony	358
Homophony	358
Polyphony	359
Picture/Sound Combinations	366
Homophonic Structures	366
Polyphonic Structures	366
Audio/Video Montage	370
Picture/Sound Matching Criteria	372
Historical-Geographical	373
Thematic	373
Tonal	373
Structural	373
<i>Summary</i>	380
<i>Notes</i>	381

# EPILOGUE: MEDIA AESTHETICS AND THE HUMAN CONDITION 383

Time and Change	384
From Landscape to Inscape	384
Complexity of Experience	385
<i>Notes</i>	385
Glossary	387
Bibliography	405
Photo Credits	415
Index	417
