

# Animal Science and Industry

SEVENTH EDITION

Merle Cunningham   Mickey A. Latour   Duane Acker

# Contents

Preface, xvii

## CHAPTER 1 ANIMAL AGRICULTURE 1

- 1.1 Global Trends in Animal Product Consumption, 2
  - 1.2 Changes in American Farm Population, Numbers, and Size, 8
  - 1.3 U.S. Land Resources, 10
  - 1.4 Why Are American Farmers So Productive? 11
    - Our Economic System, 11*
    - Land and Climatic Conditions, 11*
    - Our Educational Systems, 11*
    - Our Specialized Agribusiness, 12*
    - Our Specialized Research, 12*
  - 1.5 Animal Agriculture: The Role of Animals, 13
  - 1.6 The Gene Pool and Animal Classification, 14
  - 1.7 Animal Adaptation, 16
  - 1.8 Essential Factors of All Animal Enterprises, 18
    - Quantity and Quality of Labor, 18*
    - Capital Investment, 19*
    - Acreage Needs—Pasture or Confinement, 19*
    - Stability of Product, 19*
  - 1.9 Characteristics of Specific Enterprises, 20
    - Dairy Production, 20*
    - Sheep Production, 21*
    - Beef Cattle, 22*
    - Swine Production, 23*
    - Poultry Production, 24*
    - Horse Management, 26*
    - Aquaculture, 27*
  - 1.10 Animal Agriculture, Animal Welfare, and Companion Animals, 28
  - 1.11 The Environment and Animal Waste Management, 30
- Questions for Study and Discussion, 36

## **CHAPTER 2 THE ANIMAL INDUSTRY 39**

- 2.1 Livestock and Poultry Density, 41
  - 2.2 The Animal Genetics Industry, 42
  - 2.3 The Feed Industry, 44
  - 2.4 Veterinarians and Animal Health, 46
  - 2.5 Facilities and Equipment, 47
  - 2.6 Markets, 48
  - 2.7 Processors, 49
  - 2.8 Restaurants and Food Retailers, 51
  - 2.9 The Animal Sciences, 51
    - Environmental Physiology and Animal Management*, 52
    - Animal Health*, 53
    - Genetics and Animal Reproduction*, 53
    - Other Biotechnology Examples*, 54
    - Products*, 56
  - 2.10 Government Agencies and Private Organizations, 57
- Questions for Study and Discussion, 58

## **CHAPTER 3 NUTRIENTS AND THEIR SOURCES 59**

- 3.1 Classes of Nutrients, 61
  - 3.2 How Nutrients May Be Used, 61
  - 3.3 Carbohydrates, 63
  - 3.4 Lipids: Fats and Oils, 66
  - 3.5 Proteins (Amino Acids), 67
  - 3.6 Water, 70
  - 3.7 Minerals, 72
  - 3.8 Vitamins, 76
    - Vitamin Solubility*, 76
    - Sources of Vitamins*, 76
    - Specific Roles of Vitamins*, 78
  - 3.9 Nutrient Absorption and Formation by Plants, 79
  - 3.10 Feeds and Their Nutrient Content, 81
- Questions for Study and Discussion, 88

## **CHAPTER 4 THE DIGESTIVE AND METABOLIC SYSTEMS 91**

- 4.1 Nonruminant Digestive System, 92
  - 4.2 Prehension, Mastication, and Salivation, 95
  - 4.3 Enzymatic Digestion, 95
  - 4.4 Absorption, 97
  - 4.5 Digestive System of the Horse, 98
  - 4.6 Ruminant Digestive System, 100
  - 4.7 Nutrient Transport, 103
  - 4.8 Nutrient Storage, 103
  - 4.9 Nutrient Utilization in the Cell, 104
- Questions for Study and Discussion, 105

## **CHAPTER 5 NUTRITION OF NONRUMINANTS 107**

- 5.1 Nutrient Requirements, 109
  - 5.2 Recommended Nutrient Levels, 110
  - 5.3 Formulating Rations, 112
  - 5.4 Feeds and Their Effect on Consumption, 115
  - 5.5 Feed Additives, 119
  - 5.6 Nutritional Imbalances and Deficiencies, 120
  - 5.7 Other Species, 120
  - 5.8 Nutrition and the Newborn, 120
- Questions for Study and Discussion, 121

## **CHAPTER 6 NUTRITION OF RUMINANTS 123**

- 6.1 Nutrient Requirements, 125
  - 6.2 Factors Affecting Feed Intake, 129
  - 6.3 Formulating Daily Rations for Cows and Ewes, 130
  - 6.4 Rations for Finishing Cattle and Lambs, 130
  - 6.5 Dairy Calves and Growing Heifers (Herd Replacements), 134
  - 6.6 Dairy Cows, 138
- Questions for Study and Discussion, 142

## **CHAPTER 7 NUTRITION OF HORSES AND PONIES 143**

- 7.1 Nutrient Requirements, 143
  - 7.2 Feeds, 146
    - Energy Feeds, 146*
    - Protein Supplements, 147*
    - Forages, 147*
  - 7.3 Consumption and Influences, 148
  - 7.4 Nutrition and Performance, 149
  - 7.5 Pregnancy and the Foal, 149
  - 7.6 Other Feeding Management Precautions, 150
  - 7.7 Nutritional Deficiencies and Imbalances, 153
- Questions for Study and Discussion, 153

## **CHAPTER 8 EVALUATION OF FEEDER ANIMALS 155**

- 8.1 Inheritance and Range in Performing Ability, 157
- 8.2 Feeder Cattle, 158
  - Breed Differences, 159*
  - Age and Weight, 160*
  - Sex and Sex Condition, 162*
  - Conformation and Performance, 163*
  - Other Indicators of Performance, 163*
  - Handling for Good Performance, 166*
- 8.3 Feeder Lambs, 166
  - Breeding and Color Markings, 167*

- Age and Weight*, 167
- Sex and Sex Condition*, 167
- Grades and Conformation*, 168
- Other Influences on Performance*, 169
- 8.4 Feeder Pigs, 169
  - Health and Preparation*, 170
  - Appraisal Systems and Weight*, 170
  - Sex and Sex Condition*, 171
- Questions for Study and Discussion, 171

## **CHAPTER 9 ANIMAL GROWTH AND CARCASS COMPOSITION 173**

- 9.1 Chronological versus Physiological Growth, 174
- 9.2 Measures of Growth, 174
- 9.3 The Growth Curve and Its Phases, 175
- 9.4 Hormonal Control of Growth, 177
- 9.5 Factors Affecting Growth, 178
- 9.6 Carcass Composition, 180
- Questions for Study and Discussion, 182

## **CHAPTER 10 THE FEEDING ENTERPRISE 183**

- 10.1 Geographic Concentration, 183
- 10.2 Feedlot Management, 184
- 10.3 Capital and Costs, 187
- 10.4 Influences on Animal Performance and Feedlot Profit, 189
- 10.5 Profit Margin, 190
- 10.6 Price Protection, 191
- 10.7 Tax Considerations, 194
- Questions for Study and Discussion, 194

## **CHAPTER 11 ANIMAL ENVIRONMENT AND ADAPTATION 195**

- 11.1 Heat Loss and Heat Production, 196
- 11.2 The Comfort Zone and Critical Temperature, 199
- 11.3 Physiological Acclimatization to Temperature Stress, 200
- 11.4 Controlling Heat Stress, 200
  - Shade*, 201
  - Evaporative Cooling*, 202
  - Refrigerated Cooling*, 203
  - Feed and Water Needs during Heat Stress*, 203
- 11.5 Controlling Cold Stress, 205
  - Effective Temperature and Wind Chill Index*, 205
  - Windbreaks*, 206
- 11.6 Ration Adjustments during Heat or Cold Stress, 206
- 11.7 Other Environmental Factors, 207
- 11.8 Ventilation, 207
- 11.9 Flooring or Lot Surface, 210
- 11.10 Space Requirements, 210

- 11.11 Animal Waste Management, 211  
Questions for Study and Discussion, 213

## **CHAPTER 12 ANIMAL HEALTH 215**

- 12.1 Economic and Human Safety Concerns, 216  
12.2 Disease Defined and Classified, 217  
12.3 Predators and Injuries, 217  
12.4 Nutritional Deficiencies, 218  
12.5 Metabolic Disorders, 220  
12.6 Toxins and Poisons, 220  
12.7 Parasites and Protozoa, 222  
12.8 Types of Infectious Agents, 224  
    *Viruses*, 224  
    *Bacteria*, 225  
    *Protozoa*, 225  
    *Fungi*, 227  
    *Rickettsiae and Mycoplasmas*, 227  
12.9 Immunity and Vaccination, 227  
12.10 Reproductive and Respiratory Problems, 228  
12.11 Eradication and Repopulation Programs, 229  
12.12 Typical Herd Health Programs, 231  
12.13 Role of the Veterinarian, 234  
12.14 Diagnostic Services, 237  
12.15 Biosecurity, 237  
Questions for Study and Discussion, 238

## **CHAPTER 13 ANIMAL BEHAVIOR 239**

- 13.1 Animal Behavior as a Science, 240  
13.2 Domestication and Genetic Influences on Behavior, 241  
13.3 Environmental Influences on Behavior, 243  
13.4 Physiology, 243  
13.5 Perception and the Sensory Systems, 245  
    *Vision*, 245  
    *Smell*, 247  
    *Hearing*, 247  
    *Touch*, 248  
    *Taste*, 248  
    *Other Factors Affecting Perception*, 249  
13.6 Learning and Training, 249  
13.7 Animal Communication, 250  
13.8 Understanding Animal Behavior, 251  
13.9 Group Behavior and Social Order, 253  
13.10 Grazing and Feeding Behavior, 256  
13.11 Sleeping and Resting Behavior, 257  
13.12 Sexual and Reproductive Behavior, 258  
13.13 Behavioral Problems and Abnormalities, 259  
Questions for Study and Discussion, 260

## **CHAPTER 14 PHYSIOLOGY OF REPRODUCTION 261**

- 14.1 Reproductive Performance and Profitability, 262
  - 14.2 The Male Reproductive System, 262
    - Testicles*, 263
    - Accessory Glands*, 267
    - Urethra*, 268
    - Factors Affecting Sperm Production*, 268
    - Castration*, 269
    - Cryptorchids*, 269
  - 14.3 The Female Reproductive System, 269
    - Ovaries and Ovarian Function*, 270
    - Oviducts (or Fallopian Tubes)*, 271
    - Uterus*, 271
    - Cervix*, 271
    - Vagina, Vestibule, and Vulva*, 271
    - Estrous Cycle*, 271
  - 14.4 Pregnancy, 275
    - Implantation*, 276
    - Placentation*, 277
    - Parturition*, 278
  - 14.5 The Reproductive System in Domesticated Fowl, 278
    - The Male Reproductive System*, 278
    - The Female Reproductive System*, 279
    - Egg Formation in the Fowl*, 281
    - Incubation and Hatching*, 282
  - 14.6 Artificial Insemination, 284
  - 14.7 Estrus Synchronization, 285
  - 14.8 Multiple Ovulation, 287
  - 14.9 Embryo Transplanting, 289
- Questions for Study and Discussion, 292

## **CHAPTER 15 MANAGEMENT REGIME AND REPRODUCTIVE EFFICIENCY 295**

- 15.1 Critical Nutrients for Reproduction, 296
  - 15.2 Growth and Development of Breeding Stock, 298
  - 15.3 Flushing and Other Nutritional Considerations, 301
  - 15.4 Other Influences on Conception, 301
  - 15.5 Nutritional Management during Pregnancy, 303
  - 15.6 Reproductive Efficiency in Poultry, 304
- Questions for Study and Discussion, 305

## **CHAPTER 16 LACTATION 307**

- 16.1 Importance of Milk Production in Various Species, 309
- 16.2 Hormonal Influences in Mammary Development and Lactation, 312
- 16.3 Location, Number, and Appearance of Mammary Glands, 313
- 16.4 Anatomy of the Udder, 315
- 16.5 Milk Synthesis—Components of Milk, 316

- 16.6 Rate of Milk Synthesis, 317
- 16.7 Milk Let-Down, 318
- 16.8 Nutrition and Milk Composition, 319
- 16.9 Colostrum, 320
- 16.10 Flavors and Odors, 321
- 16.11 Appearance and Other Milk Quality Factors, 322
- 16.12 Udder Health, Mastitis, and Mammary Gland Injuries, 322
- Questions for Study and Discussion, 324

## **CHAPTER 17 GENETICS 327**

- 17.1 Genes and Chromosomes, 328
- 17.2 Transmission of Genes, 329
- 17.3 Single Gene Effects, 331
- 17.4 Inheritance of Sex, 335
- 17.5 Multiple Gene Effects, 335
- 17.6 Cytoplasmic Inheritance, 337
- 17.7 Genotype and Phenotype, 337
- 17.8 Rules for Improvement by Selection, 339
- 17.9 Genetic Variation, 339
- 17.10 Examples of Genetic Improvement, 341
- 17.11 Influence of Prolificacy and Generation Interval on Improvement Rate, 342
- Questions for Study and Discussion, 344

## **CHAPTER 18 HERITABILITY AND GENETIC IMPROVEMENT 345**

- 18.1 Heredity versus Environmental Influences, 345
- 18.2 The Meaning of Heritability, 347
- 18.3 Heritability of Individual Traits, 347
  - Why Some Traits Are Low in Heritability, 348*
  - Why Some Traits Are Moderate in Heritability, 348*
  - Why Some Traits Are High in Heritability, 350*
- 18.4 Level of Heritability and Selection Effort, 351
- 18.5 Methods to Improve Selection Accuracy, 352
- 18.6 Predicting Rate of Improvement, 355
- 18.7 Multiple-Trait Selection and Rate of Improvement, 357
- Questions for Study and Discussion, 358

## **CHAPTER 19 EVALUATION OF BREEDING ANIMALS 359**

- 19.1 Desirable Traits, 360
- 19.2 Identification Systems, 362
- 19.3 Recording Birth Dates, 364
- 19.4 Importance of Records, 364
- 19.5 Growth and Feed Efficiency Performance Records, 364
- 19.6 Measuring Meatiness or Muscling, 366
- 19.7 Reproduction Efficiency, 368
- 19.8 Conformation Traits, 370
- 19.9 Other Production Traits, 371

- 19.10 Using Selection Indexes, 371
  - 19.11 Using Relatives to Appraise Merit—Progeny Testing, 373
  - 19.12 Culling from the Breeding Herd or Flock, 374
- Questions for Study and Discussion, 375

## **CHAPTER 20 MATING SYSTEMS 377**

- 20.1 Random Mating, 378
  - 20.2 Inbreeding, 378
  - 20.3 Outbreeding, 380
  - 20.4 Crossbreeding, 381
  - 20.5 Crossing Lines or Strains, 385
  - 20.6 Rotational Crossbreeding Programs, 386
  - 20.7 The Future—Heterosis versus Selection, 388
  - 20.8 The Animal Improvement Industry—Livestock and Poultry Breeders, 391
- Questions for Study and Discussion, 392

## **CHAPTER 21 BREEDS 395**

- 21.1 Why Breeds Have Developed, 396
  - 21.2 Chronology of Breed Development, 397
  - 21.3 Variation within Breeds, 400
  - 21.4 Cattle Breeds, 401
  - 21.5 Swine Breeds, 406
  - 21.6 Sheep Breeds, 409
  - 21.7 Goat Breeds, 414
  - 21.8 Poultry Breeds and Varieties, 416
  - 21.9 Key Points in Breed Selection, 419
- Questions for Study and Discussion, 419

## **CHAPTER 22 MARKETING MEAT ANIMALS 421**

- 22.1 Supply, Demand, and Price, 422
  - 22.2 Long-Term Cycles in Livestock Numbers, 422
  - 22.3 Seasonal Patterns, 426
  - 22.4 Direct Marketing, 432
  - 22.5 Auctions, 437
  - 22.6 Terminal Markets, 438
  - 22.7 Dealers and Order Buyers, 439
  - 22.8 Market Pools and Group Marketing, 440
  - 22.9 Marketing Costs, 441
  - 22.10 Regulatory Agencies, 443
  - 22.11 Market News, 443
- Questions for Study and Discussion, 444

## **CHAPTER 23 EVALUATING SLAUGHTER ANIMALS 445**

- 23.1 Age and Weight, 446
- 23.2 Influence of Sex and Sex Condition, 447

- 23.3 Meatiness, 449
- 23.4 Finish, 453
- 23.5 Dressing Percent and Cutability, 454
- 23.6 Grade, 455
- 23.7 Byproducts, 456
- 23.8 Injuries and Health, 457
- Questions for Study and Discussion, 458

## **CHAPTER 24 LIVE ANIMAL MARKET CLASSES AND GRADES 459**

- 24.1 Development of Classes and Grades, 461
- 24.2 Cattle Classes, 461
- 24.3 Sheep Classes, 462
- 24.4 Swine Classes, 464
- 24.5 Poultry Classes, 466
- 24.6 USDA Grades for Slaughter Animals and Carcasses, 467
- 24.7 Grades for Slaughter Cattle and Beef Carcasses, 469
- 24.8 Grades for Slaughter Lambs and Sheep and Their Carcasses, 472
- 24.9 Grades for Slaughter Hogs and Pork Carcasses, 473
- 24.10 Grades for Poultry, 475
- 24.11 Private Meat Pricing and Grading, 475
- Questions for Study and Discussion, 479

## **CHAPTER 25 PROCESSING MEAT ANIMALS 481**

- 25.1 Slaughter Procedures, 483
  - Cattle*, 483
  - Hogs*, 485
  - Sheep*, 485
  - All Species*, 485
  - Poultry*, 486
- 25.2 Inspection, 486
- 25.3 Additional Food Safety Measures, 488
- 25.4 Cooling, 490
- 25.5 Meat Grading, 491
- 25.6 Other Regulations of Meat Processing, 493
- 25.7 Fabrication – Wholesale and Retail Cuts, 493
- 25.8 Aging and Tenderizing, 496
- 25.9 Curing and Smoking, 499
- 25.10 Specialty Meat Items, 499
- 25.11 Meat Distribution Systems, 501
- 25.12 Byproducts, 501
- Questions for Study and Discussion, 505

## **CHAPTER 26 MEAT AS A FOOD 507**

- 26.1 Trends in Meat Consumption, 507
- 26.2 Elasticity of Demand, 508
- 26.3 Geographic and Other Influences on Meat Consumption, 511

- 26.4 Holidays and Religious Beliefs, 513
  - 26.5 Promotion of Meat and Meat Products, 513
  - 26.6 Nutritive Value, 514
  - 26.7 Tenderness, 516
  - 26.8 Flavor and Aroma, 518
  - 26.9 Marbling, 519
  - 26.10 Color, 519
  - 26.11 Preservation, 520
- Questions for Study and Discussion, 521

## **CHAPTER 27 WOOL AND MOHAIR 523**

- 27.1 Characteristics of Wool, 525
  - 27.2 Wool Quality and Grades, 525
  - 27.3 Wool Processing, 529
  - 27.4 Global and U.S. Production of Wool, 531
  - 27.5 Wool Marketing, 531
  - 27.6 Merchandising and Promotion, 534
  - 27.7 Mohair, 534
  - 27.8 Other Fibers and Furs, 534
- Questions for Study and Discussion, 536

## **CHAPTER 28 THE BUSINESS OF PRODUCING PORK 537**

- 28.1 Geographic and Seasonal Distribution, 539
  - 28.2 Swine Business Structures and Ownership, 540
  - 28.3 Farrow-to-Finish Operations, 542
    - Multiple-Site, Segregated Early Weaning, Split-Sex and Phase Feeding, 545*
  - 28.4 Feeder Pig Production Enterprises, 546
  - 28.5 Pig Finishing Operations, 547
  - 28.6 Investment, 548
  - 28.7 Labor and Management, 549
  - 28.8 Feed, 550
  - 28.9 Genetic Sources and Breeding Systems, 552
  - 28.10 Manure and Odor Management, 552
  - 28.11 Marketing, 554
  - 28.12 Pork Industry Organization, 555
- Questions for Study and Discussion, 555

## **CHAPTER 29 THE COW HERD AND EWE FLOCK 557**

- 29.1 Feeder Calf Production, 559
- 29.2 Geographic Distribution of Cow Herds, 559
- 29.3 Types and Sizes of Cow-Calf Herds, 562
- 29.4 Feed and Other Cow-Calf Herd Costs, 564
- 29.5 Weaning and Management of Feeder Calves for Sale, 567
- 29.6 Feeder Cattle Marketing, 567
- 29.7 Cow-Calf Herd Mating Systems, 568
- 29.8 Distribution and Types of Ewe Flocks, 569

- 29.9 Ewe Flock Investment and Labor, 572
- 29.10 Feed and Other Ewe Flock Costs, 573
- 29.11 Sheep Breeding Systems, 575
- 29.12 Sheep Management Problems, 576
- 29.13 Lamb Marketing, 576
- Questions for Study and Discussion, 577

## **CHAPTER 30 THE BUSINESS OF DAIRYING 579**

- 30.1 Characteristics and Trends, 579
- 30.2 Geographic Distribution, Size, and Types of Units, 582
- 30.3 Labor, 585
- 30.4 Feed and Other Costs, 585
- 30.5 Handling Male Calves, 587
- 30.6 Sound Dairy Herd Management Practices, 587
- 30.7 Marketing Animals Culled from the Herd, 593
- 30.8 Dairy Goat Management, 593
- Questions for Study and Discussion, 594

## **CHAPTER 31 MILK HANDLING AND MARKETING 597**

- 31.1 Facilities for the Dairy Herd, 597
- 31.2 Milking Machines and Procedures, 600
- 31.3 Cooling and Holding Milk at the Production Unit, 603
- 31.4 Milk Marketing, 604
- 31.5 Milk Pricing Systems, 606
- 31.6 Processing and Manufacturing, 608
- 31.7 Consumption Trends, 609
- 31.8 Promotion of Dairy Products, 611
- Questions for Study and Discussion, 612

## **CHAPTER 32 HORSES AND PONIES 613**

- 32.1 Size and Scope of the Industry, 614
- 32.2 Types, Colors, and Breeds, 615
- 32.3 Conformation and Body Parts, 623
- 32.4 Teeth and Age Determination, 623
- 32.5 Unsoundnesses, 625
- 32.6 Gaits, 626
- 32.7 Housing and Fencing for the Horse, 628
- 32.8 Feeding Guidelines, 629
- 32.9 Health Management, 630
- 32.10 Feet and Dental Care, 630
- 32.11 Breeding Management of the Mare and Stallion, 633
- 32.12 Brood Mare and Foal Management, 634
- 32.13 Training, 636
- 32.14 Equitation, 637
- Questions for Study and Discussion, 639

## **CHAPTER 33 THE BUSINESS OF PRODUCING EGGS 641**

- 33.1 Geographic Distribution of Egg Production, 643
- 33.2 Types and Sizes of Production Units, 645
- 33.3 Growing Replacement Pullets, 649
- 33.4 Managing the Layer Flock, 651
- 33.5 Induced Molting, 653
- 33.6 Handling Manure and Unit Emissions, 655
- 33.7 Egg Marketing, 656

Questions for Study and Discussion, 658

## **CHAPTER 34 THE EGG AS A PRODUCT 659**

- 34.1 Characteristics and Attributes, 659
- 34.2 Classes and Grades, 662
- 34.3 Inheritance and Egg Quality, 664
- 34.4 Effect of Season and Age of Hen on Egg Quality, 665
- 34.5 Effect of Health and Nutrition of the Hen on Egg Quality, 666
- 34.6 Shell Egg Handling and Packaging, 666
- 34.7 Shell Egg Distribution and Merchandising, 667
- 34.8 Egg Processing and Products, 667
- 34.9 Consumption Trends, 668

Questions for Study and Discussion, 669

## **CHAPTER 35 THE BUSINESS OF COMMERCIAL POULTRY MEAT PRODUCTION 671**

- 35.1 Geographic Distribution and Specialization, 674
- 35.2 Broiler Units: Types and Sizes, 674
- 35.3 Broiler Management, 679
- 35.4 Contract Growing, 680
- 35.5 From Growing House to Processor, 680
- 35.6 Turkey Production, 681
- 35.7 Other Meat-Producing Fowl, 683

Questions for Study and Discussion, 684

## **CHAPTER 36 AQUACULTURE 685**

- 36.1 Global Aquaculture, 686
- 36.2 U.S. Aquaculture Food Production, 687
- 36.3 Water Sources and Factors Affecting Water Quality, 692
  - Water Sources, 693*
  - Water Temperature, 693*
