

Rheology
for Ceramists

Dennis R. Dinger

Table of Contents

	Page
Preface	v
1 Introduction	1
2 Fundamentals	11
3 Simple Fluids versus Suspensions	23
4 Time-Independent Rheologies	45
5 Time-Dependent Rheologies	57
6 Attractive Forces and Gelation	67
7 Shear-Thinning Rheologies	77
8 Particle/Fluid and Particle/Particle Interactions	81
9 Repulsive Forces and Deflocculation	101
10 Dilatancy	111
11 Syneresis	123
12 Dilatant Blockages	131
13 Practical Rheology	143
14 Viscometers and Rheometers	163
15 Control of Suspension Rheology	175
References	191
Glossary	193
Index	203
