

Soil Fertility AND Fertilizers

An Introduction to Nutrient Management

Seventh Edition

John L. Havlin
Samuel L. Tisdale

James D. Beaton
Werner L. Nelson

Contents

Preface ix

CHAPTER 1	Introduction	1
	Yield Limiting Factors	7
	Elements in Plant Nutrition	10
	Study Questions	12
	Selected References	13
CHAPTER 2	Basic Soil–Plant Relationships	14
	Ion Exchange in Soils	15
	Mineral Solubility in Soils	30
	Supply of Nutrients from OM	31
	Movement of Ions from Soils to Roots	32
	Ion Absorption by Plants	37
	Study Questions	41
	Selected References	44
CHAPTER 3	Soil Acidity and Alkalinity	45
	General Concepts	45
	Soil Acidity	48
	The Soil as a Buffer	55
	Determination of Active and Potential Acidity in Soils	56
	Neutralizing Soil Acidity	58
	Use of Lime in Agriculture	65
	Application of Liming Materials	73
	Calcareous Soils	75
	Saline, Sodic, and Saline-Sodic Soils	81

Study Questions	93
Selected References	96

CHAPTER 4 Nitrogen 97

The N Cycle	97
Functions and Forms of N in Plants	99
Symbiotic N ₂ Fixation	102
Nonsymbiotic N ₂ Fixation	112
Forms of Soil N	115
N Transformations in Soils	117
Gaseous Losses of N	131
N Sources for Crop Production	141
Study Questions	158
Selected References	159

CHAPTER 5 Phosphorus 160

The P Cycle	160
Forms and Functions of P in Plants	161
Forms of Soil P	165
P Sources	183
Study Questions	196
Selected References	197

CHAPTER 6 Potassium 199

The K Cycle	199
Functions and Forms of K in Plants	200
Forms of Soil K	205
Factors Affecting K Availability	211
Sources of K	215
Study Questions	217
Selected References	218

CHAPTER 7 Sulfur, Calcium, and Magnesium 219

Sulfur (S)	219
Calcium (Ca)	234
Magnesium (Mg)	239
Study Questions	242
Selected References	243

CHAPTER 8 Micronutrients 244

Iron (Fe)	244
Zinc (Zn)	254

Copper (Cu)	263
Manganese (Mn)	270
Boron (B)	275
Chloride (Cl)	280
Molybdenum (Mo)	285
Nickel (Ni)	289
Beneficial Elements	290
Study Questions	296
Selected References	297

CHAPTER 9 ***Soil Fertility Evaluation*** 298

Nutrient-Deficiency Symptoms of Plants	298
Plant Analyses	302
Greenhouse and Field Tests	322
Soil Testing	324
Study Questions	360
Selected References	361

CHAPTER 10 ***Basics of Nutrient Management*** 362

Crop Characteristics	362
Soil Characteristics	369
Nutrient Placement	372
Specific Nutrient Considerations	384
Application Timing	390
Nutrient Application to Foliage and Through Irrigation	391
Variable Nutrient Management	393
Nutrient Management in Turf	396
Other Considerations in Nutrient Management	399
Management of Organic Waste Nutrients	404
Nutrient Management Planning	412
Study Questions	414
Selected References	416

CHAPTER 11 ***Nutrients, Water Use, and Other Interactions*** 417

Nutrient-Water Interactions	418
Other Interactions	426
Study Questions	434
Selected References	434

CHAPTER 12 ***Economics of Plant-Nutrient Use*** 435

Maximum Economic Yield	436
Study Questions	445
Selected References	446

CHAPTER 13	<i>Agricultural Productivity and Environmental Quality</i>	447
	Soil and Crop Productivity	448
	Soil Quality	452
	Conservation Tillage	456
	Rotations versus Continuous Cropping	469
	Winter Cover-Green Manure Crops	472
	Environmental Quality	475
	Epilogue—Agricultural Challenges and Opportunities	500
	Study Questions	501
	Selected References	502
	<i>Index</i>	503
