Introduction	xix

Part I: Hardware Hacks

1

Chapter 1: GPS Secrets	3
Hidden Secrets	3
Garmin Secret Screens	4
Hard Resets	4
Soft Resets	5
Warm Resets	5
Full GPS Resets	5
Diagnostic Screens	6
Autolocating	7
Magellan Secret Screens	7
Magellan Meridian Series	8
After a Hard or Soft Reset	11
Summary	12
Chapter 2: Building GPS Data Cables and Power Cords	13
Cables Demystified	13
The Data Cable	14
Power Cords	16
Combo Cables	17
Combining Cable Types	18
Multi-GPS Cables	18
Multi-Data Cables	18
Multi-Data/Power Cables	18
Multi-Data/Power/GPS Cables	19
Making Your Own Data Cables	19
Materials You Will Need	19
Don't Want to Buy a Connector?	28
Making Power Cords	30
Power Cord Assembly	31
Testing	31
Precautions	32

GPS/iPAQ Connections	33
Cradle Modification	34
Testing the Connection	37
Making Combo Cables	39
Making Multi Cables	39
Summary	39

Chapter 3: Power Hacks 41

GPS Power Needs	41
Alkaline Batteries	41
Lithium Batteries	42
Rechargeable (NiMH) Batteries	43
Battery Do's and Don'ts	46
Power Hacks	46
Carrying Your Own 12-Volt Power Supply	47
Battery Packs	49
A Different Kind of Battery Pack	52
Alternative Power Supplies	57
Summary	60

Chapter 4: Antenna Hacks 61

The GPS Antenna	61
Quad-Helix Orientation	63
Patch Antenna Orientation	64
Best Performance Summary	65
External Antennas	66
Antenna Placement	70
Other Things to Avoid	72
Reradiating Antennas	72
Personal Reradiating Antenna	73
Communal Reradiating Antenna	74
Reradiating Antenna Considerations	74
Setting Up a Reradiating Antenna in a Car	75
Testing the System	76
Making the System Permanent	76
Carrying a GPS Signal via Cable	77
How Much Signal Do You Need?	77
Cable Losses	77
Connector Losses	78
Using a Signal Repeater	79
Building Your Own Mega GPS Antenna	79
Materials	79
Building the Antenna	80
Summary	85

Chapter 5: Protecting Your GPS	87
Screen Damage	87
Screen Protectors	88
More Screen Armoring	93
Commercial Protection for GPS and PDAs	99
Mounting GPS	108
Car Mounting	108
Mounting a GPS for Biking, Hiking, and Skiing	111
Making a Personalized Case	113
Summary	122

Part II: Software Hacks

123

Chapter 6: Hacking the Firmware	125
Firmware	125
Updating Warnings	126
Updating the Firmware	128
Hacking GPS Firmware	129
Bypassing the Garmin eTrex Vista Startup Screen	130
Bypassing the Garmin eTrex Legend Startup Screen	133
Bypassing the Garmin eTrex Venture Startup Screen	133
MeMap Personalization	134
Manual Firmware Editing	139
Magellan GPS Firmware Modifications	143
Recovering from a Failed Firmware Load	144
Garmin	144
Magellan	145
Summary	145
Chapter 7: Making Connections	147
The PC — GPS Relationship	147
Connection Types	150
Which Connection Is Best?	155
Troubleshooting Problems	155
PC Connection Trouble	155
General PDA Connection Trouble	157
General Bluetooth Connection Trouble	158
Software-Specific Issues	159
Erratic Mouse Pointer after Connecting a GPS	159
Windows XP Problem: Microsoft Ball Point	159
Microsoft MapPoint Troubleshooting	160
USB-to-Serial Converters	162
Summary	162

Chapter 8: GPS Data	165
GPS Data Collection	165
Position, Velocity, Time	166
Waypoints	171
Working with the Data	173
EasyGPS	174
G7toWin	188
Creative Uses of GPS Data	190
Sharing Waypoints	190
Adding GPS Information to Digital Photos	191
Lightning Detector and Plotter	192
Wardriving	192
GPS in Programming	193
Summary	194
Chapter 9: Examining the Data	195
NMEA	195
NMEA Sentences	196
NMEA Sentence Structure	196
A Closer Look at NMEA Sentences	197
Examining NMEA Sentences	199
NMEA Checksum	205
SiRF	206
Using NMEA Sentences	206
GPS NMEA LOG	207
GPS Diagnostic	209
RECSIM III	211
Using NMEA	213
GpsGate	213
Recording Actual NMEA Sentences with GpsGate	216
Recording Simulated NMEA Using GpsGate	219
Data Playback	220
Why Bother with NMEA?	220
Ensuring That Your GPS Works	221
Avoiding Data Corruption	221
Summary	222
Chapter 10: More Data Tricks	223
Screenshots	223
G7toWin	223
G7toCE	229

Turning Your PC into a High-Precision Atomic Clock	236
Setting Up the Software	237
Setting Up the Hardware	242
Hooking Up Hardware to Software	243
Bringing a GPS Signal Indoors	244
Other Uses for GPS Data	246
Azimuth and Elevation Graphs	248
Surveying	249
Navigation	250
Signal Quality/SNR Window	250
NMEA Command Monitor.	251
Experiment for Yourself	251
Summary	252

Part IV: Playtime

253

Chapter 11: Hacking Geocaching. **255**

GPS Accuracy	255
The Birth of Geocaching.	257
Geocaching Made Simple	258
What Is Geocaching?	258
Geocaching from Beginning to End.	258
The Final 20 Yards.	261
Geocaching Hacks	266
Go Paper-free	266
Plan Before You Leave.	269
Sort Out Cabling	272
Power for the Trip	274
Better Antennas	278
Protecting the GPS	280
Summary	287

Chapter 12: GPS Games. **289**

The Dawn of GPS Games	291
Points of Confluence	292
Benchmarking/Trigpointing	294
GPS Drawing	295
Hide-and-Seek	297
Foxhunt.	300
Other Games	301
Follow the Leader	301
Go Fetch!	302
Summary	302

Appendix A: GPS Primer	303
Appendix B: Websites/Internet Resources	313
Glossary	317
Index	321
