Table of Contents

Chapter 1

Introduction: The Promise of DVD Technology	1
Expanding the Scope of Human Communication	2
Learning By Doing	4
Entering New Territory	6
Renaissance in Film Appreciation	6
Moving Television Shows to DVD	6
Theatrical Performances on DVD	7
A Growing Audience	8
Steps Involved in Making a DVD	9

Chapter 2

Getting Equipped: From Camcorders to DVD Duplicators	11
Selecting a Computer Platform	11
Minimal Windows Platform for Getting Started	12
Minimal Macintosh Platform for Getting Started	13
Hard Disk Drives	14
Advanced Computer Options	15
Selecting a Source of Content	16
Selecting a Digital Video Camcorder	18
Features to Consider in a Camcorder	19
Selecting a Duplicator	22
DVD-R or DVD+R?	23
Features to Consider in a Duplicator	24
Selecting a DVD Recorder	26
Authoring Use DVD Recorder	26
External DVD Recorder	27
Standalone DVD Recorder	27
Renting Equipment for Projects	28
Selecting a DLT Drive	29

Table of Contents

Establishing a Production Studio	30
Chapter 3	
Planning a Project: Making Things Happen	31
DVD Production Process	32
Developing the Concept	35
Brainstorming	35
Scriptwriting and Storyboards	36
Planning and Budgeting Tools	39
Advancing the Concept	40
Chapter 4	
Capturing Audio and Video: Shooting Successfully on Location	41
Controlling Camcorder Movement	42
Stabilization Equipment	43
Other Gear	43
Shooting Video Tests	44
Handling the Lighting	45
Using Three-Point Lighting	45
Color Temperature	46
Adjusting the White Balance	47
Onsite Considerations	47
Getting Permits	48
Playing It Safe with Insurance	49
Monitoring and Capturing Sound	49
Recording the Audio	50
Guidelines for Creating Exceptional Audio	51
Chapter 5	
Handling Assets: Managing Content for a DVD Project	53
Basic Premise: Keep It Digital	54
The Evils of Generational Loss	54
The Evils of Compression	54
Storage Strategies	55
Using Project Storage Effectively	56
Asset Management Applications	58
Extensis Portfolio	58
Capitalizing on Asset Management	60

Chapter 6

Creating a Story: Using Non-Linear Editing Tools	61
The Desktop Production Studio	62
Managing the Capture Process	63
Timecodes	66
Reels and Timecodes	67
Offline Editing Based on Timecodes	67
Composing the Story	68
Editing Example in Vegas 4.0	69
Capturing From Tape	69
Trimming a Clip	71
Creating a Title	72
Making Transitions	72
Adding Markers	73
Rendering the Movie	74
Synergy Between Video Editors and Authoring Tools	76

Chapter 7

Encoding Video: Performing Quality Compression	77
Compression and Codecs	78
MPEG-2 File Structure	79
Frame Types	79
GOP Settings	80
Managing Bit Rates	81
Multiplexing Audio with MPEG-2 Video	83
Guidelines for Achieving Optimal MPEG-2 Encoding	84
Summary	86

Chapter 8

Authoring a DVD Disc: Creating a Title	87
DVD Creation with DVD Architect	88
Front End Design	89
Project Types	89
Vision Series Themes	90
Creating Scene Selections	91
Previewing a Title	92
Make DVD	93
DVD Creation with DVD Studio Pro	94
Source Materials for Bundled DVD	95
Applying a Template	96

Table of Contents

Designing a Menu	97
Using Outline View	99
Previewing a Title	101
Burning the Disc	102
Extending the Possibilities	104
Chapter 9	
Case Study: Pushing the Medium	105
Origins	106
Authoring the DVD	106
The Compelling Nature of DV	107
CD or DVD?	107
Breaking Down Barriers	108
Counting on DVD	109
Nurturing Innovation	109
Future DVD Distribution	109
Aiming Outside the Mainstream	111
Chapter 10	
Case Study: Making Music on DVD	113
Audio Lessons and the Early Years	113
Capturing Material and Growing a Business	114
Technology and Music	115
Teaching through Video	115
Hands-On Production	116
Rising Production Costs	116
Early DVD Experiments	117
Back to Video	117
Changing Financial Stakes	118
The Bootstrapping Approach	119
The Future of Guitar Instruction	120
The Right Format	120
Both VHS and DVD	120
Duplication or Replication?	121
Streamlining DVD Production	122
Advantages of a Live Switch	122
Reviewer's Expectations	124
Putting Concerts on Disc	124
From VHS to DVD	125
More on the Production Process	126

Instructional and Historical Booklets	127
Musical Notation	128
Test DVD	128
DVD Plans for the Future	128
Documentaries	130
Introducing New DVD Titles	130
Working with Rainbow Video	131
Chapter 11	
Case Study: Optimal Video Compression	133
Compressing a Difficult Stan Brakhage Sequence	134
DV As a Source for DVD	134
Choosing a Rate for Video Compression	135
Recognizing Artifacts	137
Getting the Best Video Compression Results	137
Software Encoders Versus Hardware Encoders	138
Embracing Interactivity	139
Inside a Criterion Collection Project	139
Hardware Versus Software Encoding	140
Progressive Encoding for Frame-by-Frame Fidelity	140
Interviews on Disc	141
Sourcing Original Materials	141
Digital Restoration	142
Origins of the Stan Brakhage Project	144
Working with Western Cine	145
Saving the Negatives	146
Progressing from Laserdisc to DVD	147
Chapter 12	
Case Study: Supporting Independent Filmmaking	149
From High School Student to Moviemaker	150
The Commercial Route to Film Making	151
Turning to Film	151
Business Philosophy and Direction	152
Nurturing the Next Generation of Filmmakers	153
Approaching DV Cautiously	154
Fighting the Stacked Deck	155
Shooting Film and Transferring to DVD	156
Weathering Format Changes	157
Producing DVD Extras	157

Table of Contents

Doing the Commentary	158
Becoming a Filmmaker By Making Films	159
Contending with the Realities of Distribution	160
Rubbing Elbows with the Stars	160
Boosting Regional Filmmaking	161
Chapter 13

Designing a Progressive Exercise Video	164
Planning: A Key Requisite	164
Working from a Production Book	166
Opening Up Creativity	166
Prototyping for Proof of Concept	166
More Preplanning	167
Charting the Timeline	168
Starting from a Technical Background	168
From Technology to Aerobics	169
Fitness or Weight Loss	170
Stretching a Budget in Many Directions	170
Under the Lights	171
Recording the Audio	171
Authoring the DVD	172
The Value of Market Research	173
Working as a Product Manager	173
Promoting Your Product	175
Managing MPEG-2 Assets	175
Industrial Edits	177
Video Storage Strategy	177
Improving on Good Results	178
Chapter 14	
Case Study: Producing a DVD Magazine	179
Overcoming the Jinx of the CD-ROM	180
Handling the Video Production	182
Selling the Concept	182
Customer Response to Advertising	183
Using Acrobat to Present Plans	184
Spinning Off Segments for Broadcast Use	185
Following One's Passion	186
Adding Subtitles	187

Building a 17th Century Hall Table	187
A Project Idea is Born	188
Joinery Methods	188
Creating CAD Project Plans	189
Working without a Script	189
Handling the Camerawork	191
One-Man Operation	192
Wireless Audio	194
Editing and Archiving the Content	196
DVDs as the Future of Publishing	197
 Chapter 15	
Case Study: Creating a High-Caliber DV Short Film	199
Filmmaking Roots	200
Moonlighting in Paris	201
Honoring the Memory of a Friend	201
Gaining Experience in DV Techniques	202
Using DV for Broadcast Work	202
Overcoming the Bias Against DV	203
Finding a Balance and Gaining Acceptance	204
Making the Movie	205
Freedom from Film	205
Struggling to Complete a Film	207
A Compact Crew	208
Audio Work in Vancouver	209
Creative Financing for Independents	210
Catering on a Shoestring	210
Shooting with a Mini 35 Adapter	211
Technical Aspects	211
Project and Distribution Costs	213
Gearing Up Promotion	213
Bringing in an Editor	213
Getting Into the Festival Circuit	214
Putting The Chinese Shoes on DVD	216
 Chapter 16	
Case Study: Distributing Content on DVD	217
Desktop Duplicators in Mainstream Use	218
Wrestling With Emerging Technologies	219
Unattended Operations	220

Table of Contents

Database Searches	220
Going Digital	221
DVD Archiving Possibilities	221
Mastering Everything to DVD	222
Producing The January Series	223
More Duplicator Uses	223
Producing Inner Compass	225
Starting a Career in Video	225
Choosing Topics and Finding Speakers	225
Handling the Production Details	226
Hosting Episodes	227
On the Set	228
Hunting for Topics and Speakers	228
Directing Inner Compass	229
Creating the Segments	230
From Analog to Digital	230
Hand-Off for DVD Authoring	231
Distributing Inner Compass to PBS on DVD	232
Solving Archiving and Distribution Problems	232
Chapter 17	
DVD Fundamentals	233
DVD Technology	234
Increasing Data Capacity	235
Storing Content on DVD	238
Reading All Types of Discs	239
Recordable Forms of DVD	240
DVD-R for Write-Once Applications	241
DVD Formats: The Five Books	244
An Evolving Set of Standards	244
DVD-ROM	245
Data Storage Techniques	245
UDF	247
DVD-Video	248
File Formats under DVD-Video	249
Navigating DVD-V Content	251
Authoring for DVD-V	253
