

F.O. FRANCISS

WEAK ROCK TUNNELLING

Table of contents

PREFACE	IX
NOMENCLATURE AND SYMBOLS	XI
Capital Roman letters	XI
Lower-case Roman letters	XII
Capital Greek letters	XII
Lower-case Greek letters	XII
INTRODUCTION	1
PART 1. THE SIMPLIFIED ANALYTICAL SIMULATION	
1 TWO DIMENSIONAL ANALYSIS	7
1.1 Stresses and displacements before failure	7
1.1.1 Preliminaries	7
1.1.2 Stresses	7
1.1.3 Displacements	12
1.2 Stresses and displacements after failure	15
1.2.1 Preliminaries	15
1.2.2 Tensile failure	15
1.2.3 Shear failure	17
1.2.4 Displacements	25
1.2.5 Strain softening	29
2 THREE DIMENSIONAL ANALYSIS	33
2.1 Roof and sidewall stability	33
2.1.1 Equilibrium before failure	33
2.1.2 Equilibrium after failure	35
2.2 Working-face stability	36
2.2.1 Equilibrium before failure	36
2.2.2 Equilibrium after failure	36

VI Contents

3	SHORT-TERM AND LONG-TERM BEHAVIOUR	38
3.1	Preliminaries	38
3.2	Short-term and long-term design parameters	39
3.3	Ductile behaviour	40
4	TUNNELLING BELOW THE WATER TABLE	42
4.1	Equilibrium shortly after excavation	42
4.1.1	Preliminaries	42
4.1.2	Not very deep tunnels	44
4.1.3	Deep tunnelling	46
4.2	Localized instabilities	47
5	EFFECT OF DISCONTINUITIES	48
6	ULTIMATE PRIMARY LINING LOADS	52
6.1	Preliminaries	52
6.2	Loading due to heading progress	52
6.2.1	Ideally stiff lining	52
6.2.2	Ideally flexible lining	54
6.2.3	Non-ideal lining	58
PART 2. THE PC-BASED MODEL		
7	THE MICRO-COMPUTER CODE	61
8	COMMENTS ON INPUT DATA	75
8.1	Preliminaries	75
8.2	Cross-section shape	75
8.3	Geostatic stresses	75
8.4	Rock mass properties	77
8.5	Output data groups	79
9	COMMENTS ON OUTPUT DATA	81
9.1	Preliminaries	81
9.2	Distance from working-face	81
9.3	Mid-roof and mid-sidewall displacements	82
9.4	Sheared zone thickness	83
9.5	Roof tensile crack height	84
9.6	Loads on ideally stiff and flexible linings	84
9.7	Modes of failure and states of equilibrium	85
10	FACTORS OF SAFETY	86

11 RELIABILITY OF THE PROPOSED SIMULATION	88
12 ILLUSTRATIVE EXAMPLES	91
PART 3. THE DESIGN CHARTS	
13 PRELIMINARIES	109
14 INSTRUCTIONS	110
15 THE DESIGN CHARTS	117
