I. ESOPHAGUS

Neil R. Floch

<i>Chapter 1: Topographic Relations of the Esophagus</i>	2
<i>Chapter 2: Musculature of the Esophagus</i>	6
<i>Chapter 3: Arterial Blood Supply of the Esophagus</i>	10
<i>Chapter 4: Venous Drainage of the Esophagus</i>	12
<i>Chapter 5: Innervation of the Esophagus: Parasympathetic and Sympathetic</i>	15
<i>Chapter 6: Intrinsic Innervation of the Alimentary Tract</i>	18
<i>Chapter 7: Histology of the Esophagus</i>	21
<i>Chapter 8: Gastroesophageal Junction and Diaphragm</i>	23
<i>Chapter 9: Deglutition</i>	27
<i>Chapter 10: Neuroregulation of Deglutition</i>	33
<i>Chapter 11: Congenital Anomalies of the Esophagus</i>	37
<i>Chapter 12: Shatzki Ring</i>	40
<i>Chapter 13: Plummer–Vinson Syndrome</i>	42
<i>Chapter 14: Esophageal Spasm Syndromes</i>	44
<i>Chapter 15: Achalasia</i>	48
<i>Chapter 16: Esophageal Diverticula</i>	52

Chapter 17: Foreign Bodies in the Esophagus57

Chapter 18: Caustic Injury of the Esophagus60

Chapter 19: Esophageal Rupture and Perforation63

Chapter 20: Esophageal Varicosities66

Chapter 21: Gastroesophageal Reflux Disease70

Chapter 22: Esophagitis: Acute and Chronic76

Chapter 23: Esophageal Ulcers79

Chapter 24: Esophageal Stricture82

Chapter 25: Sliding and Paraesophageal Hiatal Hernias, Types 1, 2, and 384

Chapter 26: Barrett Esophagus91

Chapter 27: Benign Neoplasms of the Esophagus95

Chapter 28: Malignant Neoplasms: Upper and Middle Portions of the Esophagus98

Chapter 29: Malignant Neoplasms: Lower End of the Esophagus100

II. STOMACH AND DUODENUM

Martin H. Floch

Chapter 30: Anatomy of the Stomach: Normal Variations and Relations106

Chapter 31: Anatomy and Relations of the Duodenum109

Chapter 32: Mucosa of the Stomach112

<i>Chapter 33: Duodenal Mucosa and Duodenal Structures</i>	115
<i>Chapter 34: Blood Supply and Collateral Circulation of Upper Abdominal Organs</i>	118
<i>Chapter 35: Lymphatic Drainage of the Stomach</i>	121
<i>Chapter 36: Innervation of the Stomach and the Duodenum</i>	124
<i>Chapter 37: Gastric Secretion</i>	127
<i>Chapter 38: Factors Influencing Gastric Activity</i>	130
<i>Chapter 39: Role of the Stomach in Digestion</i>	133
<i>Chapter 40: Tests for Gastric Acid Secretion</i>	136
<i>Chapter 41: Effect of Drugs on Gastric Function</i>	139
<i>Chapter 42: Upper Gastrointestinal Endoscopy: Esophagogastroduodenoscopy</i>	142
<i>Chapter 43: Coated Tongue, Halitosis, and Thrush</i>	145
<i>Chapter 44: Aerophagia and Eructation</i>	148
<i>Chapter 45: Motility of the Stomach</i>	151
<i>Chapter 46: Gastroparesis and Gastric Motility Disorders</i>	154
<i>Chapter 47: Pyloric Obstruction and the Effects of Vomiting</i>	158
<i>Chapter 48: Nausea and Vomiting</i>	161
<i>Chapter 49: Hypertrophic Pyloric Stenosis</i>	166

Chapter 50: Diverticula of the Stomach168

Chapter 51: Diverticula of the Duodenum170

Chapter 52: Dyspepsia (Functional Dyspepsia and Nonulcer Dyspepsia)174

Chapter 53: Helicobacter pylori Infection177

Chapter 54: Gastritis181

Chapter 55: Peptic Ulcer Disease: Definition and Pathophysiology184

Chapter 56: Peptic Ulcer Disease: Acute Gastric Ulcers (Erosive Gastritis)188

Chapter 57: Peptic Ulcer Disease: Duodenitis and Ulcer of the Duodenal Bulb190

Chapter 58: Peptic Ulcer Disease: Complications193

Chapter 59: Gastrointestinal Bleeding197

Chapter 60: Therapeutic Gastrointestinal Endoscopy200

Chapter 61: Benign Tumors of the Stomach203

Chapter 62: Gastric Lymphoma and MALT206

Chapter 63: Cancers of the Stomach209

Chapter 64: Tumors of the Duodenum213

Chapter 65: Principles of Gastric Surgery215

Chapter 66: Postgastrectomy Complications: Partial Gastrectomy218

Chapter 67: Effects of Total Gastrectomy222

III. ABDOMINAL WALL

Raul Rosenthal, David Podkameni, Flavia Soto, Guillermo Higa, Dario Berkowski,
Colleen Kennedy, T. Cristina Sardinha, Emanuele Lo Menzo, Elias Chousleb, Samir Yebara

Chapter 68: Anterolateral Abdominal Wall226

Chapter 69: Peritoneum229

Chapter 70: Pelvic Fascia and Perineopelvic Spaces233

Chapter 71: Inguinal Canal237

Chapter 72: Abdominal Regions and Planes241

Chapter 73: Abdominal Wall and Cavity: Congenital Abnormalities243

Chapter 74: Acute Abdomen245

Chapter 75: Alimentary Tract Obstruction248

Chapter 76: Mesenteric Vascular Occlusion252

Chapter 77: Other Vascular Lesions255

Chapter 78: Acute Peritonitis259

Chapter 79: Chronic Peritonitis261

Chapter 80: Cancer of the Peritoneum263

Chapter 81: Benign Paroxysmal Peritonitis (Familial Mediterranean Fever)266

Chapter 82: Abdominal Wounds of the Small Intestine269

<i>Chapter 83: Abdominal Wounds of the Colon</i>	272
<i>Chapter 84: Indirect and Direct Inguinal Hernias</i>	276
<i>Chapter 85: Femoral Hernias</i>	282
<i>Chapter 86: Abdominal Wall: Ventral Hernias</i>	285
<i>Chapter 87: Lumbar, Obturator, Sciatic, and Perineal Hernias</i>	288
<i>Chapter 88: Internal Hernias: Congenital Intraperitoneal Hernias</i>	291

IV. SMALL INTESTINE

Martin H. Floch

<i>Chapter 89: Topography of the Small Intestine</i>	294
<i>Chapter 90: Gross Structure of the Small Intestine</i>	296
<i>Chapter 91: Microscopic Structure of the Small Intestine</i>	299
<i>Chapter 92: Terminal Ileum</i>	301
<i>Chapter 93: Imaging of the Small Intestine</i>	303
<i>Chapter 94: Vascular Supply and Drainage in the Small Intestine</i>	306
<i>Chapter 95: Innervation of the Small and Large Intestines</i>	310
<i>Chapter 96: Visceral Reflexes</i>	315
<i>Chapter 97: Congenital Abnormalities of the Small Intestine</i>	318
<i>Chapter 98: Meckel Diverticulum</i>	320

<i>Chapter 99: Motility and Dysmotility of the Small Intestine</i>	322
<i>Chapter 100: Obstruction and Ileus of the Small Intestine</i>	325
<i>Chapter 101: Chronic Intestinal Pseudo-obstruction</i>	328
<i>Chapter 102: Ileostomy, Colostomy, and Gastroenteric Stromas</i>	332
<i>Chapter 103: Intussusception of the Small Intestine</i>	335
<i>Chapter 104: Irritable Bowel Syndrome and Functional Gastrointestinal Disorders</i>	337
<i>Chapter 105: Secretory, Digestive and Absorptive Functions of the Small Intestine</i>	341
<i>Chapter 106: Gastrointestinal Hormones</i>	345
<i>Chapter 107: Evaluation of the Small Bowel</i>	348
<i>Chapter 108: Disaccharide Intolerance</i>	351
<i>Chapter 109: Celiac Disease and Malabsorption</i>	355
<i>Chapter 110: Whipple Disease</i>	360
<i>Chapter 111: Diverticula</i>	363
<i>Chapter 112: Diarrhea</i>	366
<i>Chapter 113: Bacterial Overgrowth Syndrome</i>	370
<i>Chapter 114: Short Bowel Syndrome</i>	373
<i>Chapter 115: Food Allergy</i>	377

<i>Chapter 116: Eosinophilic Gastroenteritis</i>	381
<i>Chapter 117: Benign Tumors of the Small Intestine</i>	384
<i>Chapter 118: Malignant Tumors of the Small Intestine</i>	388
<i>Chapter 119: Carcinoid Syndrome and Neuroendocrine Tumors</i>	391
V. COLON, RECTUM, AND ANUS	
Martin H. Floch	
<i>Chapter 120: Structure and Histology of the Colon</i>	396
<i>Chapter 121: Sigmoid Colon</i>	399
<i>Chapter 122: Rectum and Anal Canal</i>	401
<i>Chapter 123: Vascular, Lymphatic, and Nerve Supply of the Large Intestine</i>	407
<i>Chapter 124: Secretory, Digestive, and Absorptive Functions of the Colon and Colonic Flora</i>	411
<i>Chapter 125: Probiotics</i>	414
<i>Chapter 126: Anoscopy, Sigmoidoscopy, and Colonoscopy</i>	417
<i>Chapter 127: Laparoscopy</i>	420
<i>Chapter 128: Stool Examination</i>	423
<i>Chapter 129: Intestinal Bleeding</i>	426
<i>Chapter 130: Motility and Dysmotility of the Large Intestine</i>	429

<i>Chapter 131: Defecation</i>	433
<i>Chapter 132: Pathophysiology of Defecation and Incontinence</i>	436
<i>Chapter 133: Constipation</i>	439
<i>Chapter 134: Effects of Drugs on the Colon</i>	442
<i>Chapter 135: Megacolon</i>	445
<i>Chapter 136: Sigmoid Volvulus</i>	448
<i>Chapter 137: Volvulus of the Cecum</i>	450
<i>Chapter 138: Diseases of the Appendix: Inflammation, Mucocele, and Tumors</i>	452
<i>Chapter 139: Diverticulosis: Diverticular Disease of the Colon</i>	455
<i>Chapter 140: Diverticulosis: Diverticulitis and Its Complications and Diverticular Bleeding</i>	458
<i>Chapter 141: Ulcerative Colitis: Definition and General Description</i>	462
<i>Chapter 142: Ulcerative Colitis: Extraintestinal Manifestations and Complications</i>	465
<i>Chapter 143: Ulcerative Colitis: Histologic Diagnosis and Dysplasia</i>	468
<i>Chapter 144: Ulcerative Colitis: Surgical Treatment</i>	471
<i>Chapter 145: Ileostomy and Colostomy</i>	474
<i>Chapter 146: Ileal Pouch Anal Anastomosis and Pouchitis</i>	477
<i>Chapter 147: Differentiating Features of Ulcerative Colitis and Crohn Disease</i>	480

Chapter 148: Crohn Disease484

Chapter 149: Crohn Disease: Complications and Surgical Therapy487

Chapter 150: Perianal Disease in Crohn Disease490

Chapter 151: Drug Therapy for Inflammatory Bowel Disease492

Chapter 152: Microscopic Colitis (Lymphocytic or Collagenous Colitis)496

Chapter 153: Neoplasms of the Large Bowel: Colon Polyps499

Chapter 154: Neoplasms of the Large Bowel: Screening and Treatment of Colon Polyps502

Chapter 155: Familial Adenomatous Polyposis and Polyposis Syndromes505

Chapter 156: Colon Cancer: Clinical Picture and Diagnosis508

Chapter 157: Colon Cancer: Staging, Treatment, and Outcome511

Chapter 158: Rectal Cancer514

Chapter 159: Hemorrhoids516

Chapter 160: Rectal Prolapse and Procidentia519

Chapter 161: Anal Fissure, Pruritis Ani, Papillitis, and Cryptitis522

Chapter 162: Anorectal Abscess and Fistula525

Chapter 163: Lymphogranuloma Venereum and Sexually Transmitted Proctitis528

Chapter 164: Fecal Incontinence531

VI. INFECTIOUS AND PARASITIC DISEASES OF THE ALIMENTARY TRACT

Martin H. Floch

<i>Chapter 165: Esophageal Infections</i>	536
<i>Chapter 166: Typhoid Fever (Paratyphoid Fever, Enteric Fever)</i>	539
<i>Chapter 167: Food Poisoning and Enteric Pathogens</i>	543
<i>Chapter 168: Clostridium difficile and Pseudomembranous Enterocolitis</i>	548
<i>Chapter 169: Gastrointestinal Tuberculosis</i>	550
<i>Chapter 170: Abdominal Actinomycosis</i>	553
<i>Chapter 171: Amebiasis</i>	556
<i>Chapter 172: Giardia lamblia and Other Protozoan Infections</i>	559
<i>Chapter 173: Trichuriasis</i>	563
<i>Chapter 174: Enterobiasis</i>	565
<i>Chapter 175: Ascariasis</i>	567
<i>Chapter 176: Strongyloidiasis</i>	569
<i>Chapter 177: Hookworm Disease (Necatoriasis and Ancylostomiasis)</i>	572
<i>Chapter 178: Tapeworm (Cestode) Infection: Taenia saginata</i>	575
<i>Chapter 179: Tapeworm Infection: Taenia solium</i>	578
<i>Chapter 180: Tapeworm Infection: Hymenolepis nana</i>	580

Chapter 181: Tapeworm Infection: Diphylobothrium latum582

Chapter 182: Other Helminth Infections: Trichinella spiralis and Flukes584

Chapter 183: Human Immunodeficiency Virus and the Gastrointestinal Tract587

VII. PANCREAS

C. S. Pitchumoni

Chapter 184: Development and Anatomy of the Pancreas592

Chapter 185: Pancreatic Ducts595

Chapter 186: Pancreatic Physiology597

Chapter 187: Cystic Fibrosis600

Chapter 188: Acute Pancreatitis: Etiology and Clinical Picture603

Chapter 189: Acute Pancreatitis: Diagnosis, Treatment, and Prognosis606

Chapter 190: Acute Pancreatitis: Complications610

Chapter 191: Chronic Pancreatitis: Disease Forms and Clinical Picture613

Chapter 192: Chronic Pancreatitis: Diagnosis, Complications, and Treatment616

Chapter 193: Pancreatic Cancer: Clinical Picture620

Chapter 194: Pancreatic Cancer: Diagnosis and Treatment623

Chapter 195: Cystic Tumors of the Pancreas625

Chapter 196: Islet Cell Tumors628

VIII. GALLBLADDER AND BILE DUCTS

C. S. Pitchumoni

<i>Chapter 197: Anatomy and Function of the Gallbladder</i>	634
<i>Chapter 198: Cholelithiasis (Gallstones): Stone Formation</i>	636
<i>Chapter 199: Cholelithiasis and Cholecystitis</i>	640
<i>Chapter 200: Cholecystitis: Acute</i>	643
<i>Chapter 201: Cholecystitis: Complications</i>	646
<i>Chapter 202: Choledocholithiasis and Cholangitis</i>	648
<i>Chapter 203: Sphincter of Oddi Dysfunction</i>	653
<i>Chapter 204: Ampullary and Gallbladder Carcinoma</i>	656
<i>Chapter 205: Cholangiocarcinoma</i>	659

IX. THE LIVER

Kris Kowdley

<i>Chapter 206: Topography of the Liver</i>	662
<i>Chapter 207: Surfaces and Bed of the Liver</i>	664
<i>Chapter 208: Lesser Omentum and Variations in Form of the Liver</i>	666
<i>Chapter 209: Cell Types Within the Liver</i>	668
<i>Chapter 210: Vessel and Duct Distributions and Liver Segments</i>	673

<i>Chapter 211: Arterial Blood Supply of the Liver, Biliary System, and Pancreas</i>	675
<i>Chapter 212: Hepatic Artery Variations</i>	679
<i>Chapter 213: Portal Vein Tributaries and Portacaval Anastomoses</i>	681
<i>Chapter 214: Portal Vein Variations and Anomalies</i>	683
<i>Chapter 215: Liver Function Tests</i>	685
<i>Chapter 216: Prothrombin Formation</i>	687
<i>Chapter 217: Bilirubin and Bile Acid Metabolism</i>	689
<i>Chapter 218: Clinical Manifestations of Cirrhosis</i>	693
<i>Chapter 219: Physical Diagnosis of Liver Disease</i>	695
<i>Chapter 220: Causes of Portal Hypertension</i>	697
<i>Chapter 221: Ascites</i>	699
<i>Chapter 222: Hepatic Encephalopathy</i>	702
<i>Chapter 223: Hepatorenal Syndrome</i>	705
<i>Chapter 224: Variceal Bleeding</i>	707
<i>Chapter 225: Transjugular Intrahepatic Portosystemic Shunt</i>	712
<i>Chapter 226: Liver Biopsy</i>	714
<i>Chapter 227: Hepatic Necrosis</i>	717

<i>Chapter 228: Cirrhosis</i>	719
<i>Chapter 229: Imaging Studies of the Liver</i>	723
<i>Chapter 230: Alcoholic Liver Disease</i>	727
<i>Chapter 231: Nonalcoholic Fatty Liver Disease and Nutritional Liver Diseases</i>	732
<i>Chapter 232: Extrahepatic Biliary Obstruction</i>	735
<i>Chapter 233: Primary Biliary Cirrhosis</i>	739
<i>Chapter 234: Primary Sclerosing Cholangitis</i>	747
<i>Chapter 235: Autoimmune Hepatitis</i>	751
<i>Chapter 236: Acute Viral Hepatitis (Hepatitis A, E, D)</i>	753
<i>Chapter 237: Hepatitis B</i>	758
<i>Chapter 238: Hepatitis C</i>	761
<i>Chapter 239: Hepatitis Caused by Other Viruses</i>	764
<i>Chapter 240: Hepatotoxicity</i>	767
<i>Chapter 241: Disorders of Bilirubin Transport</i>	771
<i>Chapter 242: α_1-Antitrypsin Deficiency</i>	774
<i>Chapter 243: Hereditary Hemochromatosis</i>	775
<i>Chapter 244: Liver Disease in Pregnancy</i>	779

<i>Chapter 245: Benign Liver Tumors</i>	783
<i>Chapter 246: Granulomatous Liver Diseases</i>	786
<i>Chapter 247: Amebiasis</i>	790
<i>Chapter 248: Wilson Disease</i>	792
<i>Chapter 249: Hepatocellular Carcinoma</i>	795
<i>Chapter 250: Liver Transplantation</i>	799
<i>Chapter 251: Spirochetal Infections</i>	802
<i>Chapter 252: Actinomycosis</i>	804
<i>Chapter 253: Echinococcosis (Hydatid Disease)</i>	806
<i>Chapter 254: Schistosomiasis</i>	808
<i>Chapter 255: The Liver in Heart Failure</i>	810
<i>Chapter 256: Portal Vein Obstruction</i>	812
<i>Chapter 257: Budd-Chiari Syndrome</i>	814
<i>Chapter 258: Bile Duct Cancer</i>	816
<i>Chapter 259: Metastatic Cancer</i>	819
<i>Chapter 260: Trauma</i>	821

X. NUTRITION OF GASTROINTESTINAL DISEASE

James S. Scolapio

Chapter 261: Dietary and Nutritional Assessment824
Chapter 262: Macronutrients and Energy829
Chapter 263: Micronutrient and Vitamin Deficiency830
Chapter 264: Enteral Nutrition837
Chapter 265: Dietary Fiber839
Chapter 266: Parenteral Nutrition844
Chapter 267: Malnutrition846
Chapter 268: Obesity848
Chapter 269: Gastrointestinal Diseases Related to Nutrition850
Index853
