The beginning – the digital photograph	3
Making the digital image	5
Quality factors in a digital image	5
The steps in the digital process	8
Where does Photoshop Elements fit into the process?	9
Photoshop Elements 3.0	10
<b>Introducing Photoshop Elements 3.0</b>	<b>11</b>
Adobe Photoshop Elements 3.0 – new tools and features	12
The Photoshop Elements 3.0 workflow	15
The interface	16
A totally new way of looking at Elements	16
New tools and features	16
Menus	18
Tools	20
Tool types	20
The Quick Fix editor	24
The Organizer feature (Photo Browser)	26
The Photo Creations feature	28
The Macintosh difference	29
The Macintosh file browser	29
<b>First Steps</b>	<b>31</b>
The Welcome screen	33
<b>Step 1: Getting your pictures into Elements</b>	<b>34</b>
Organizer: File > Get Photos > From Camera or Card Reader	34
Organizer: File > Get Photos > From Scanner	35
Ensuring enough pixels for the job	37
Editor: Image > Divide Scanned Photos	39
Organizer: File > Get Photos > From Files and Folders	39
How to multi-select the files to import	40
Organizer: File > Get Photos > From Mobile Phone	40
Organizer: File > Get Photos > From Online Sharing Service	41
Organizer: File > Get Photos > By Searching	41
Organizer: File > Get Photos > PhotoDeluxe Album and ActiveShare Album	42
Other options for getting your photos into Elements	43
<b>Creating new documents</b>	<b>45</b>
Editor: File > New > Blank File	45
Editor: File > New > Image from Clipboard	45
Editor: File > New > Creation	46
Editor: File > New > Photomerge Panorama	47
Editor: File > New > Frame From Video	48
<b>Step 2: Viewing your pictures</b>	<b>48</b>
Organizer: View > Photo Review	49
First stop Photo Review	49
Organizer: View > Photo Compare	50
Comparing apples with apples	51

Editor: View > Zoom In and Zoom Out	51
Editor: Window > Navigator	51
Step 3: Image rotating	52
Step 4: Cropping and straightening	53
Cropping	53
Straightening	55
Step 5: Automatic corrections	56
First some background	56
Photo Browser: Edit > Auto Fix Window	57
Version sets	58
Undo, Revert and Undo History	59
Step 6: Printing	60
Step 7: Saving	62
Editor: File > Save	62
Editor: File > Save As	63
'The formats I use'	64
Organizer: File > Backup	64

## Simple Image Changes

	65
Three levels of editing	66
Setting up your screen for Elements	68
Popularity can be a problem	69
Before you start	69
Brightness and contrast changes	71
Editor: Enhance > Adjust Lighting > Brightness/Contrast	72
Editor: Enhance > Auto Contrast	73
Editor: Enhance > Auto Levels	74
Editor: Enhance > Auto Smart Fix	74
Editor: Enhance > Adjust Smart Fix	75
The Quick Fix editor – 'the new quick change central'	75
Altering a few tones only	76
Editor: Enhance > Adjust Lighting > Shadow/Highlights	77
Dodge and Burn tools	79
Color corrections	82
Editor: Enhance > Auto Color Correction	83
Editor: Enhance > Adjust Color > Remove Color Cast	83
Editor: Enhance > Adjust Color > Color Variations	84
The Red Eye Removal tool	86
Using filters and effects	87
Editor: Filters	87
Editor: Filter > Filter Gallery	88
Editor: Window > Styles and Effects	89
Editor: Filter > Blur > Motion Blur	92
Editor: Filter > Sketch > Chalk & Charcoal	93
Editor: Filter > Distort > Liquify	94
Editor: Filter > Sketch > Graphic Pen	95
Editor: Filter > Stylize > Emboss	96
Third party filters	97
The 10 commandments for filter usage	97
Getting help with Elements	98
Hints	98
The How to Feature	98
Help	99

# Advanced Techniques

101

Better digital capture	102
So what is in a RAW file?	103
Color depth	105
Professional tonal control	109
Editor: Window > Histogram	109
Editor: Enhance > Adjust Lighting > Levels	111
Advanced color control	115
Editor: Enhance > Auto Color Correction	115
Editor: Enhance > Adjust Color > Hue/Saturation	115
Editor: Enhance > Adjust Color > Color Variations	117
Sponge	118
Editor: Filter > Adjustments > Posterize	118
Editor: Filter > Adjustments > Invert	119
Editor: Filter > Adjustments > Photo Filter	120
High quality sharpening techniques	121
Editor: Filter > Sharpen > Sharpen and Sharpen More	121
Editor: Filter > Sharpen > Sharpen Edges	122
Editor: Filter > Sharpen > Unsharp Mask	122
Elements' sharpening tools	124
Retouching techniques	125
Editor: Filter > Noise > Dust & Scratches	125
Clone Stamp	126
Spot Healing Brush	128
Healing Brush tool	129
Editor: Filter > Noise > Reduce Noise	130
Adding texture to an image	131
Editor: Filter > Noise > Add Noise	132
Editor: Filter > Texture > Grain	133
Editor: Filter > Texture > Texturizer	135
Changing the size of your images	138
Editor: Image > Resize > Image Size	138
Editor: Image > Resize > Canvas Size	141
Increasing the canvas size with the Crop tool	142

Selection basics	144
Drawing selection tools	145
Drawing selection tool summaries	149
Color selection tools	150
Modifying selections	151
Selections in action	153
Advanced dodging and burning	153
Artificial depth of field	155
Filtering a selection	156
Selective saturation changes	156
Layers and their origins	158
The Layers palette	159
Layer types	160
Layer transparency	162
Layer blend modes	163
Layer Styles	164
Layers in action	166

Adding drop shadows	166
Straightening the edges of buildings	166
Creating a beach triptych	167

## Combining Text with Your Images

	169
New type features	171
Leading	171
Font layer style	172
Creating simple type	172
Basic text changes	173
Creating and using type masks	173
Reducing the 'jaggies'	174
Warping type	175
Applying styles to type layers	175
Debunking some type terms	179
Font size	179
Font family and style	180
Alignment and justification	180
Leading	181
Text in action	181
Creating digital postcards	181

## Using Elements' Painting and Drawing Tools

	183
Cookie Cutter Tool	185
Painting tools	185
Paint Brush	185
The More Options palette	186
Airbrush	187
Pencil	188
Paint Bucket	188
Choosing my paint colors	190
Painting tools summary	190
The Impressionist Brush tool	190
Color Replacement tool	191
Erasing	192
Better with a tablet	194
Painting tools in action	195
Creating rough-edged picture borders	195
Hand coloring black and white photos	196
Drawing tools	197
Even more shapes	199
Cookie Cutter tool	199
Drawing tools in action	200
Making a shape-based logo	200

## Creating Great Panoramas

	201
Taking Photomerge images	204
Image overlap	204
Keep the camera level	204
Maintain focal length	205
Pivot around the lens	205
Maximum image size no longer 2 megapixels	206
Maintain exposure	206
Keep white balance consistent	207

Watch the edges	208
Editor: File > New > Photomerge Panorama	208
Editing your panorama	210
Photomerge from the Photo Browser	212
Photo Browser: File > New > Photomerge Panorama in Editor	212
Macintosh File Browser: Automate > Photomerge	213
Photomerge in action	214
Vertical stitches	214
Document stitches	214
Making panoramas that spin	215
Fixing panorama problems	216
Top tips from panoramic professionals	218

## Preparing Images for the Web or Email

	219
Images and the Net	221
GIF	221
JPEG	222
JPEG 2000	222
PNG	222
Getting the balance right	223
Web compression formats side by side	226
Making your own web gallery	228
Multi-select pictures to include	228
Built for speed	230
Going live	230
Trouble-free web pages	231
The Macintosh Web Photo Gallery	234
Sending images as email attachments	235
Attach Selected Items to E-mail dialog	236
Macintosh Attach to E-mail options	237
Making simple web animations with Elements	238
Traditional animation	238
Animation – the Elements method	238
Animation advice	240
Creating your own slide shows	241
Simple slide shows	241
Custom Slide Shows	243
Producing slide shows the Macintosh way	245

## Preparing Images for Printing

	247
Printing the Elements way	249
Printing from the Photo Browser	251
The link between paper type and quality prints	251
Making your first print	252
Printing a section of a full image	254
Making multiple prints	255
Contact sheets	255
Picture packages	257
The Picture Package for Macintosh users	259
Picture labels	260
Individual Prints	261
Aiming for the best prints	262
Balancing image size and picture quality	262
Getting to know your printer	263

Typical printing problems and their solutions	266
Web Based Printing	268
Making your first web prints	269
 <b>New Photo Creations</b>	<b>271</b>
The Photo Creation Projects	272
VCD with Menu	274
Creating Photo Album Pages	276
Make your own birthday cards	278
The Elements Postcard project	280
Producing a wall calendar	282
Slide shows on your computer or TV	284
The new improved Web Photo Gallery feature	284
 <b>Theory into Practice: Real Life Elements Projects</b>	<b>285</b>
Project 1: Slide shows from your home videos	286
Project 2: Stitching big paintings together	287
Project 3: Professional folio of images on CD-ROM	289
Project 4: The school newsletter	290
Project 5: Real estates go digital	292
Project 6: Photographic print display	294
Project 7: Business manager presentation	296
Project 8: Restoration of a family heirloom	298
Project 9: Menu for restaurant	299
Project 10: Advertisement optimized for black and white	301
Project 11: Company logo, letterhead, business card	303
Project 12: Holiday panoramic posters	305
 <b>Where to From Here?</b>	<b>309</b>
The differences between Elements and Photoshop	311
Offset printing	311
Web-based production	312
Color management	313
Automated functions	314
Paths	315
Curves	316
Color Balance	316
16-bit support	317
Who can guide me further?	318
 <b>Answers</b>	<b>320</b>
Jargon buster	320
Keyboard shortcuts	331
Elements/Photoshop feature equivalents	334
