Introduction	1
Krishna R. Dronamraju	
PART ONE. J. B. S. HALDANE	
1 Haldane's Ideas in Biology with Special Reference to Disease and Evolution	11
James F. Crow	
2 J. B. S. Haldane and the Malaria Hypothesis	18
D. J. Weatherall	
PART TWO. MALARIAL PARASITES	
3 Evolutionary Genetics of <i>Plasmodium falciparum</i>, the Agent of Malignant Malaria	39
Stephen M. Rich and Francisco J. Ayala	
4 Evolutionary Biology of Malarial Parasites	75
Ananias A. Escalante and Altaf A. Lal	
5 G6PD Deficiency and Malarial Resistance in Humans: Insights from Evolutionary Genetic Analyses	113
Sarah A. Tishkoff and Brian C. Verrelli	
6 The Enigma of <i>Plasmodium vivax</i> Malaria and Erythrocyte Duffy Negativity	141
Peter A. Zimmerman	

PART THREE. OTHER PARASITES

7	Influenza Evolution	175
	Robin M. Bush and Nancy J. Cox	
8	Free-Living to Freewheeling: The Evolution of <i>Vibrio cholerae</i> from Innocence to Infamy	198
	Rita R. Colwell, Shah M. Faruque, and G. Balakrish Nair	
9	Evolutionary Dynamics of <i>Daphnia</i> and Their Microparasites	222
	Tom Little and Dieter Ebert	
10	Human Susceptibility to Visceral Leishmaniasis (<i>Leishmania donovani</i>) and to Schistosomiasis (<i>Schistosoma mansoni</i>) Is Controlled by Major Genetic Loci	241
	A. Dessein, B. Bucheton, L. Argiro, N. M. A. Elwali, V. Rodrigues, C. Chevillard, S. Marquet, H. Dessein, S. H. El-Safi, and L. Abel	
PART FOUR. GENETIC AND EVOLUTIONARY CONSIDERATIONS		
11	The Evolution of Pathogen Virulence in Response to Animal and Public Health Interventions	265
	Andrew F. Read, Sylvain Gandon, Sean Nee, and Margaret J. Mackinnon	
12	Infection and the Diversity of Regulatory DNA	293
	Lindsay G. Cowell, N. Avrion Mitchison, and Brigitte Muller	
13	Genetic Epidemiology of Infectious Diseases: The First Half-Century	307
	Newton E. Morton	
14	The Impact of Human Genetic Diversity on the Transmission and Severity of Infectious Diseases	315
	Michel Tibayrenc	
15	Evolution and the Etiology of Diabetes Mellitus	325
	Kyle D. Cochran and Gregory M. Cochran	
16	The Future of Human Evolution	343
	Luca Cavalli-Sforza	
	Index	353
