LIPPINCOTT WILLIAMS & WILKINS

# Contents

	Preface .....	vii
	Abbreviations .....	ix
<b>1</b>	Introduction to the Immune System:	
	Antigens and the Concept of Self versus Nonself .....	1
<b>2</b>	Cells, Cell-surface Molecules, and Organs .....	16
<b>3</b>	The Innate Immune Response .....	28
<b>4</b>	Molecules of the Adaptive Immune System .....	46
<b>5</b>	The Adaptive Immune Response .....	67
<b>6</b>	Protective Immune Responses .....	98
<b>7</b>	Immune Deficiency .....	119
<b>8</b>	Hypersensitivity Reactions .....	137
<b>9</b>	Autoimmunity and Tolerance .....	153
<b>10</b>	Transplantation .....	167
<b>11</b>	Immunotherapy and Immunosuppression .....	185
Appendix <b>A</b>	Tools and Assays of Immune Function .....	197
Appendix <b>B</b>	CD Designation and Function .....	213
Appendix <b>C</b>	Chemokines, Cytokines, and Their Receptors .....	222
Appendix <b>D</b>	Answers to Review Questions .....	225
	Glossary .....	234
	Index .....	253
