

# EXPERIMENTAL FOODS LABORATORY MANUAL

SIXTH EDITION

Margaret  
McWilliams

# Contents

**Preface xi**

**1 Crystallization 1**

Crystalline Candies 1

Variables Influencing Ice Creams 9

**2 Starch 15**

Starch Pastes and Gels 15

Starch-Thickened Puddings 29

**3 Fruits and Vegetables 33**

Pigments 34

Flavor of Vegetables 41

Texture of Vegetables and Fruits 47

**4 Fats and Oils 59**

Melting Points and Composition 60

**viii** Contents

Frying, Absorption, and Smoke Point 69

Fats in Pastry 80

Flavor and Emulsification of Oils 85

**5 Dairy Products 91**

Coagulation of Milk 92

Clotting of Milk 103

Foams 115

Cheese and Sour Cream 121

**6 Meats, Fish, and Poultry 127**

Soy Protein Substitutes 128

Meat Cookery—Equipment Variations 133

Meat Tenderizers and Acid 138

Roasting Meat 143

Baked Fish or Chicken 151

Tofu 156

**7 Eggs 161**

Eggs in the Shell 161

Eggs out of the Shell 166

Custards 173

Hollandaise Sauce 186

Egg White Foams 190

Angel Cakes 199

**8 Leavening Agents 205**

Yeast 206

Chemical Reactions 213

Use of Non-Biological Leavening Agents 218

## **9 Breads 237**

Wheat Gluten 238

Yeast Breads 243

Factors Influencing Muffins 249

Characteristics of Biscuits 257

Factors Influencing Pancakes 263

## **10 Shortened Cakes 269**

Methods of Mixing Shortened Cakes 270

Varying Ingredients in Shortened Cakes 279

## **11 Pastry 287**

Factors Influencing Pastry Quality 293

Factors Influencing Soaking of Pastry 301

## **12 Food Preservation 301**

Preserving by Freezing 302

Drying of Foods 313

Jelly 323

## **Appendices**

### **A Basic Techniques 329**

### **B Essentials of the Metric System 343**

### **C Temperature Conversions 347**

x Contents

**D Template for Line Spread Test 351**

**E Average Weight of a Measured Cup of Selected Foods 355**

**F Examples of Bibliographic Styles 359**
