

Conducting Research Surveys via E-Mail and the Web

Matthias Schonlau

Ronald D. Fricker, Jr.

Marc N. Elliott

RAND

Preface	iii
Figures	ix
Tables	xi
Summary	xiii
Acknowledgments	xxi
Acronyms	xxiii
Chapter One	
INTRODUCTION	1
Chapter Two	
BACKGROUND ON THE SURVEY PROCESS	5
The Survey Process as a Whole: The Basic Steps	5
Contact, Response, and Follow-up Modes	7
Probability and Convenience Samples	8
Important Considerations in Planning a Survey	9
Response Rates	9
Cost	10
Timeliness	12
Sources of Error	13
Data Quality	16
Chapter Three	
LITERATURE REVIEW OF WEB AND E-MAIL	
SURVEYS	19
A Brief History of Electronic Surveys	19
Response Rates of Internet Surveys	20

Cost of a Web Survey Versus Other Modes	24
Comparing Speed and Timeliness of Internet Surveys with Other Modes	27
Sources of Error with Internet Surveys	29
Data Quality in E-Mail Versus Mail Surveys	31

Chapter Four

CHOOSING AMONG THE VARIOUS TYPES OF INTERNET SURVEYS	33
Convenience Sampling Approaches	33
Uncontrolled Instrument Distribution	35
Systematic Sampling of Web Site Visitors	36
Volunteer Panel	36
Probability Sampling Approaches	37
Sampling from a Closed Population	37
Sampling from General Populations	38
Prerecruited Panel	39
A Hybrid Sampling Approach: Combining a Convenience Sample with a Probability Sample	40
Summary	40

Chapter Five

GUIDELINES FOR DESIGNING AND IMPLEMENTING INTERNET SURVEYS	41
Questionnaire Design	41
Automation	50
Fielding	51

Chapter Six

INTERNET SURVEY CASE STUDIES	55
A Survey Using a Probability Sample of a Closed Population	56
An Inexpensive Web Survey with a Convenience Sample	57
A Survey with a Probability Sample of a General Population and Multiple Response Modes	60
A Survey by a Commercial Web Survey Firm Using a Convenience Sample Adjusted for Self- Selection	64
Two Surveys Using Probability Samples from Closed Populations	68

Prodigy Survey	68
Pew Research Center Survey	70
Summary of the Two Surveys	71
Chapter Seven	
CONCLUSIONS	73
The Future of Internet-Based Survey Methods	73
Considerations in Employing the Internet for Research Surveys	74
Addressing Claims About the Current Performance of Internet Surveys	76
Are They Faster?	76
Are They Better?	77
Are They Cheaper?	78
Are They Easier to Conduct?	79
Some Unanswered Questions About Internet Surveys	79
What Is the Optimal Instrument Design?	79
How Effective Are Incentives?	80
How Effective Is Weighting?	80
Appendix	
A. LITERATURE REVIEW OF RESPONSE RATES	81
B. SUMMARY OF EVIDENCE IN THE LITERATURE	95
C. HOW EFFECTIVE IS USING A CONVENIENCE SAMPLE TO SUPPLEMENT A PROBABILITY SAMPLE?	107
References	113
