3 DANGEROUS SUBSTANCES

61

Properties of Dangerous Substances, 61

Material Forms, 62

Corrosive Hazards, 63

What About pH?, 64

Corrosive Hazards—Volatility and Reactivity, 65

Reducing Hazardous Properties of Corrosive Substances, 65

Electronic Charges and Energies of Attraction - The Glue That Holds Everything Together, 66

Acids, 66

About Acid pH, 66

Alkali, 67

About Alkali pH, 67

What about Neutralization?, 67

Neutralize Using a Weak Opposite, 68

Neutralizing Hydrochloric Acid ($H^+ Cl^-$) (pH ranges less than 2), 68

Neutralizing Caustic Soda (NaOH) (pH greater than 12.5), 69

Ignitable Hazards, 69

Percent to PPM, 70

Vapor Pressure, 70

Vapor Density and Inadequate Ventilation, 71

Toxic and Health Hazards, 71

Human Health Considerations, 72

Critical Competencies, 73

Health Conditions Related to Dangerous Substance Exposure, 73

Irritation, 74

Synergism, 74

Sensitization, 74

Asphyxiation, 74

Respiratory Paralysis, 75

Systemic Poisoning, 75

Mutagenesis,	75
Teratogenicity,	76
Carcinogenesis,	76
Systemic Toxicity,	77
Organ Systems,	77
Toxic Substances,	78
Typical Pesticides,	78
Insecticides,	78
Herbicides,	79
Fungicides,	80
Rodenticides,	80
Fumigants,	80
Metals,	81
Solvents,	81
Animal and Insect Toxins,	81
Plant Toxins,	82
Reactive Hazards,	82
Unstable Substances,	82
Monomers,	83
Organic Peroxides ,	83
Water Reactives,	84
Alkali Metals,	84
Alkaline Earth Metals,	84
Hydrides,	84
Carbides,	85
Nitrides,	85
Phosphides,	85
Inorganic Chlorides,	85
Peroxides,	85
Other Significant Water Reactives,	86
Air Reactives,	86
Biological Hazards,	86
Considerable Sources of Biohazards,	87

Blood and Body Fluids, 87	
Animals, 88	
Dusts and Spores, 88	
Radiation Hazards, 88	
Non-Ionizing Radiation Hazards, 89	
Ionizing Radiation Hazards, 89	
Exposure to Radiation, 89	
Acute Exposures to Radiation, 90	
Chronic Exposures to Radiation, 90	
4 HAZARDS CHARACTERIZATION AND SITE EVALUATION	91
The Professional, 92	
Site Categorization, 92	
Someone Must Take Charge, 92	
Routine Site Categorization Activities, 93

Death or Multiple Injuries,	158
Hazardous Substance Spills or Releases,	159
Threats of Terrorism,	159
Training and Participation,	160

6 CORROSIVE SUBSTANCES **161**

- What Are Corrosive Hazards?, 161
 - About Corrosive Liquids, 162
 - About Corrosive Solids, 162
 - About Corrosive Gases, 163
 - Use of Corrosive Materials, 163
- Protection from Corrosive Hazards, 164
 - Ventilation, 164
 - Personal Protection, 165
 - Corrosive Hazard Protective Measure Checklist, 166
 - Corrosive Air Contaminants, 168
 - Health Effects from Corrosive Substances, 168
 - Monitoring Potentials for Corrosive Exposure, 169
- Safe Handling of Corrosives, 169
 - Common Sense Procedures for Handling Corrosives, 170
 - Corrosive Substance Storage, 171
 - Bulk Storage of Corrosive Substances, 172
- Emergency Planning and Spill Response for Corrosive Substances, 173
 - Sample Guide for: Sodium Hydroxide, Caustic Soda (50%), 174
 - Personal Protection, 174
 - Additional Considerations, 174
 - Sample Guide for: Sulfuric Acid (93%), 175
 - Personal Protection, 175
 - Additional Considerations, 175
 - Acids, Anhydrides and Alkali, 176
 - Safety Considerations, 176
 - Health Considerations, 176
 - First Aid for Corrosive Exposures, 177
 - First Aid SOPs for Corrosive Exposure, 177

7 IGNITABLE SUBSTANCES **183**

- Characteristics of Ignitable Hazardous Substances, 183
- Flammable and Combustible Liquids, 183

Other Considerations for Ignitable Liquids, 184

Ignitable Liquid Hazards Considerations, 185

Ignitable Liquid Specifics , 185

Combustible Liquids, 185

Flammable Liquids, 190

Ignitable Liquid Storage, 190

Storage Specifics, 190

Should plastic containers be used to store ignitable liquids?, 191

Criteria for Ignitable Liquid Storage Cabinets, 191

Ignitable Substance “Authorized” Storage Rooms, 191

Storage Room Rating and Capacity, 192

Electrical Wiring, 193

Ventilation and Air Quality, 193

Solvent Room Storage, 193

Damaged Containers or Leakage, 194

General Purpose Public Warehouses, 194

Ignitable Substance Safety, 195

Storage Reminder, 195

Containers and Cabinets, 195

Safe Handling Reminder, 196

Ignitable Solids , 196

Catalytic Ignition, 197

Pyrophoric Substances, 197

Another Thought About Ignitable Solids, 197

About Dusts, 198

About Fumes, 198

About Vapors, 198

Solid, Liquid, or Gas, 199

About Mist, 199

About Ignitability and Explosives, 199

High Explosives, 200
 Low Explosives, 200
 Energies of Ignitability, 200
 Decomposition, 200
 Hazardous Polymerization, 201

8 HUMAN HEALTH HAZARDS

203

Paradigms of Human Health Hazards, 203
 Characterization and Assignment of Health Hazard Status, 204
 Category 1—Urgent Public Health Hazards, 205
 Category 2—Public Health Hazard, 205
 Category 3—Indeterminate Public Health Hazard, 206
 Safety and Health Considerations, 206
 Lingering Community and Industrial Health Concerns, 210
 What About Mercury (Hg)?, 210
 What about Chromium (Cr) Exposure?, 211
 Environmental Health Concerns—Protect the Children, 212
 Asbestos-Induced Cancer, 212
 Asthma Concerns, 214
 Toxic Chemicals, Biocides, and Pesticides, 214
 Radon Gas Hazards, 215
 Tobacco Smoke, 215
 Protect Children from Lead, 215
 Hazards from Ultraviolet (UV) Radiation, 216
 Water Contamination, 216

9 BIOLOGICAL HAZARDS

239

Characterization of Biohazards, 239
 Further Characterization, 240
 Affected Populations, 240
 Occupational Exposure to Biohazards, 240
 Virus Exposures, 243
 Bacterial Exposures, 243

Fungal Exposures,	244
Pathogenic Parasites,	244
Selected Biohazard Specifics,	245
Anthrax,	245
Influenza vs. Avian Flu,	246
Avian “Bird Virus” Genetic Variation,	247
Blood Borne Pathogens,	247
AIDS,	248
Botulism & Genus Clostridium,	249
Food Borne Diseases (Food Poisoning),	250
Hantavirus,	251
Legionnaires Disease,	251
Plague,	252
Smallpox,	252
Tularemia,	253
Viral Hemorrhagic Fevers (VHF),	253

10 DISASTER SITE WORK

255

Disaster,	256
Putting Disaster Sites Back to Normal,	256
Disaster Site Workers—Individual Preparation,	256
What Happens When Your Work Comes to an End?,	257
Disaster Site Cleanup - Abatement of Waterborne Biological Hazards,	258
Water Damage Classifications,	259
Type A.1 Clean Water,	259
Type A.2 Contaminated Water,	259
Type B Hazardous Water,	260
Microbial Contamination Characterization,	260
Initial Evaluations,	261
Follow Safe & Prudent Work Practices,	262
Site Inspection Checklists for Moisture Sources, Biohazards, and Other Hazards,	263
Personal Protective Equipment for Site Workers,	265

Classification,	265
OSHA Level D Standard Worker Protection Equipment,	265
OSHA Respiratory Protection Standard Guidelines,	265
OSHA Level C Total Coverage PPE, Air Purified Respirator,	266
OSHA Level B Total Coverage PPE, Supplied Air Respirator,	266
OSHA Level A Total Encapsulation Personal Protection,	266
Materials & Supplies,	267
Cleaners and Disinfectants,	267
Equipment and Tools,	268
Air Moving Equipment,	269
Dehumidifiers,	269
Other Drying Equipment,	269
Detection and Monitoring Equipment,	269
Microbiological Testing,	270
Mold Sampling,	271
Typical Sampling Methods Conducted for Direct Examination,	271
About Sampling,	271
Locations for Air Samples,	272
Lab Reports,	272
Interpretation of Microbial Testing,	273
Other Situations,	273
Take a Common Sense Approach,	274
Biohazard Abatement Plans Include,	274
Considerations for Water Damage Evaluators, Inspectors, and Project Managers,	275
Type A.1 Clean Water Intrusion,	276
Type A.2 or Type B Contaminated Water Intrusion,	276
Levels of Contamination,	277
Water Damage Mitigation Checklists,	277
Water Damage Clean up Examples,	279
Clean Up Type A.2 & Type B Water Damage,	280
Mold & Spore-Forming Biohazard Contamination Abatement Plans,	281
Containment Considerations,	282

Cleaning Considerations,	284
Level 1 Contamination Abatement Plans,	284
Level 2 Contamination Abatement Plans,	285
Level 3 Contamination Abatement Plans,	286
Level 4 Contamination Abatement Plans,	287
Level 5 & Level 6 HVAC Contamination Abatement Guidelines,	287
Example Sequence for Cleaning and Decontaminating HVAC Systems,	288
References,	289

11 CHARACTERIZATION OF CBRNE TERRORIST THREATS AND WEAPONS OF MASS DESTRUCTION (WMD) 293

Disaster and Terrorism,	293
Considerations for Emergency Responders and Disaster Site Workers,	294
What are CBRNE Agents?,	294
Chemical Characterization for CBRNE,	296
Sources of Chemical CBRNE May Include,	296
TICS - Common Toxic Industrial Chemicals,	296
The Release of Nerve Agents,	298
Blister Agents,	298
Blood Agents,	299
Warning Signs for the Presence of Blood Agents,	299
Choking - Pulmonary Agents,	299
Warning Signs for the Presence of Choking Agents,	299
Irritants—Substances Used in Riot Control,	300
Warning Signs for the Presence of Irritating Agents,	300
Biological Characterization for CBRNE,	300
Significant Biological Disaster—Is It Imminent?,	301
How Are Biological Agents Detected, Confirmed, and Quantified?,	301
U.S. Centers for Disease Control and Prevention - Characterize Potential Biological Hazard Agents,	302
Category A Biohazards,	302
Category B Biohazards,	302
Category C Biohazards,	302
Characterization of Chemical & Biological (CBRNE) Agents,	303

Toxic Industrial Chemicals (TICS), 303	
Biological Hazards, 308	
Characterization of Radiological, Nuclear, and Explosive CBRNE Agents, 308	
Radiological Dispersion Devices “Dirty Bombs”, 315	
What are Radiological Sources?, 315	
How Can Dangerous Radiological Products be Obtained Illegally?, 316	
What is the Value of Using Radiological Dispersal Devices for Terrorism?, 316	
Considerations about Radiological Agents, 316	
Nuclear Bombs and Explosives, 319	
Common Nuclear Weapons That Have Been Developed, 320	
Characteristics of Nuclear Bombs, 320	
Dirty Bomb—Considered to be a Nuclear Weapon? No., 320	
Modern Thermonuclear Weapons, 321	
The Neutron Bomb, an Enhanced Radiation Weapon, 321	
What Happens During a Nuclear Explosion?, 321	
Four Characterizations of Energy Released During a Nuclear Event, 322	
Conventional Explosives vs. Nuclear Explosives, 322	
Blast Effects or Air Bursts, 322	
Electromagnetic Thermal Radiation (ETR), 323	
Electromagnetic Pulse (EMP), 323	
Radiation, 323	
Nuclear Fallout, 324	
Conclusion, 324
