

FOURTH EDITION

BIOLOGICAL  
PERFORMANCE  
of  
MATERIALS

*Fundamentals of  
Biocompatibility*

Jonathan Black

Taylor & Francis  
Taylor & Francis Group

# Contents

## **Part I General Considerations**

<b>Chapter 1 Biocompatibility: Definitions and Issues .....</b>	<b>3</b>
1.1 Introduction .....	3
1.2 Biological Performance .....	5
1.3 Consensus Definitions .....	6
1.4 Discussion .....	7
1.5 The Discipline of Biomaterials .....	10
1.6 Afterword: Paradigmatic Shift .....	12
References .....	14
Bibliography .....	15

<b>Chapter 2 Introduction to the Biological Environment .....</b>	<b>17</b>
2.1 General Considerations .....	17
2.2 Comparison of External and Internal Conditions.....	17
2.3 Problems in Definition of the Biological Environment .....	18
2.4 Elements of the Biological Environment .....	20
2.5 Implant Life History .....	22
2.6 Preimplantation Handling Effects .....	28
References .....	29
Bibliography .....	30

## **Part II Material Response: Function and Degradation of Materials *In Vivo***

<b>Chapter 3 Swelling and Leaching .....</b>	<b>35</b>
3.1 Introduction .....	35
3.2 Fick's Laws of Diffusion.....	35
3.3 Absorption .....	36
3.4 Examples of Undesirable Absorption .....	38
3.5 Osmotic Equilibrium.....	42
3.6 Leaching .....	43
3.7 Example of Planned Leaching: Drug Release.....	44
3.8 Effects of Swelling and Leaching .....	46
References .....	46
Bibliography .....	47

<b>Chapter 4 Corrosion and Dissolution .....</b>	<b>49</b>
4.1 Chemistry of Corrosion .....	49
4.2 Classification of Reactions.....	50
4.3 The Pourbaix Diagram.....	51
4.4 The Electrochemical Series.....	54
4.5 Corrosion Rate.....	56
4.6 Potential-Current Relationships in Corrosion .....	57
4.7 Forms of Corrosion .....	58
4.8 Corrosion in Implant Applications .....	64
4.9 Engineering Variables Affecting Corrosion Rates .....	66
4.10 Corrosion Factors Peculiar to Biological Environments .....	67
4.11 Ceramic Dissolution.....	68
4.12 Polymer Dissolution.....	69
4.13 Final Remarks.....	70
References .....	70
Bibliography .....	71

<b>Chapter 5 Reactions of Biological Molecules with Biomaterial Surfaces.....</b>	<b>73</b>
5.1 Introduction .....	73
5.2 Denaturation.....	74
5.3 Organometallic Compounds.....	74
5.4 Mechanical Aspects of Interfaces.....	77
5.5 Results of Interfacial Adhesion of Molecules .....	80
5.6 Effects of Charged Interfaces and Ions .....	82
5.7 Final Comments.....	83
References .....	84
Bibliography .....	84

<b>Chapter 6 Mechanics of Materials: Deformation and Failure ....</b>	<b>87</b>
6.1 Introduction .....	87
6.2 Mechanics of Materials .....	87
6.3 Elastic Modulus .....	90
6.4 Yield Strength.....	96
6.5 Fracture Strength .....	97
6.6 Final Comment.....	104
References .....	104
Bibliography .....	105

<b>Chapter 7 Friction and Wear .....</b>	<b>107</b>
7.1 Introduction .....	107
7.2 Friction.....	107
7.3 Lubrication.....	109

7.4 Wear .....	114
7.5 Conclusions.....	122
References .....	122
Bibliography .....	123

<b>Interpart 1 Implant Materials: Properties .....</b>	<b>125</b>
I1.1 Introduction.....	125
I1.2 Metals.....	126
I1.3 Polymers.....	129
I1.4 Ceramics.....	131
I1.5 Composites .....	132
References .....	134
Bibliography .....	135

## **Part III Host Response: Biological Effects of Implants**

<b>Chapter 8 The Inflammatory Process .....</b>	<b>139</b>
8.1 Introduction.....	139
8.2 The Inflammatory Response.....	139
8.3 Infection.....	150
8.4 Effects of Implant Degradation Products.....	155
8.5 A Final Comment .....	160
References .....	160
Bibliography .....	162

<b>Chapter 9 Coagulation and Hemolysis .....</b>	<b>165</b>
9.1 Introduction.....	165
9.2 The Coagulation Cascade.....	165
9.3 Approaches to Thromboresistant Materials Development.....	170
9.4 Hemolysis .....	176
9.5 Final Comments .....	179
References .....	180
Bibliography .....	181

<b>Chapter 10 Adaptation.....</b>	<b>183</b>
10.1 Introduction .....	183
10.2 Tissue Growth Strategies.....	183
10.3 Examples of Adaptation in Implant Applications .....	186
10.4 A Final Comment on Adaptation .....	197
References .....	199
Bibliography .....	201

<b>Chapter 11 <i>In Vitro</i> Tissue Growth and Replantation .....</b>	<b>203</b>
11.1 General Considerations .....	203
11.2 What Is Tissue Engineering? .....	204
11.3 The Cell-Receptor Paradigm .....	206
11.4 Matrices and Cell Sources .....	210
11.5 Thinking Twice about Tissue Engineering .....	214
11.6 Some Final Comments .....	220
References .....	222
Bibliography .....	223
<b>Chapter 12 Allergic Foreign Body Response .....</b>	<b>225</b>
12.1 Specific vs. Nonspecific Response .....	225
12.2 Mechanisms of Immune Response .....	226
12.3 Classes of Hypersensitivity Reactions .....	230
12.4 Hypersensitivity Reactions Associated with Implants.....	230
12.5 Final Comment.....	240
References .....	241
Bibliography .....	243
<b>Chapter 13 Chemical and Foreign-Body Carcinogenesis .....</b>	<b>245</b>
13.1 Definitions.....	245
13.2 Chemical Carcinogenesis.....	246
13.3 Foreign Body Carcinogenesis .....	257
13.4 Nonspecific Carcinogenesis .....	262
13.5 Evidence for Implant Carcinogenesis in Humans .....	263
References .....	268
Bibliography .....	270
<b>Chapter 14 Mineral Metabolism.....</b>	<b>273</b>
14.1 Introduction .....	273
14.2 Iron Metabolism .....	274
14.3 Chromium Metabolism .....	283
14.4 Human Dietary Metal Intake .....	285
References .....	288
Bibliography .....	289
<b>Chapter 15 Systemic Distribution and Excretion .....</b>	<b>291</b>
15.1 Introduction .....	291
15.2 Movement of Solid Bodies .....	291
15.3 Transport of Dissolved Species .....	296
15.4 Distribution and Excretion of Dissolved Species .....	301

15.5 Final Comment.....	311
References .....	312
Bibliography .....	315

## **Chapter 16 Effects of Degradation Products on Remote Organ Function .....**

16.1 Introduction .....	317
16.2 Examples of Systemic Effects .....	318
16.3 A Review of Systemic Aspects of Host Response.....	321
16.4 A Final Comment .....	323
References .....	325
Bibliography .....	326

## **Interpart 2 Implant Materials: Clinical Performance .....**

I2.1 Introduction .....	327
I2.2 An Example: Total Hip Replacement.....	330
I2.3 A Final Word .....	332
References .....	332
Bibliography .....	333

## **Part IV Methods of Testing for Biological Performance**

<b>Chapter 17 <i>In Vitro</i> Test Methods .....</b>	<b>337</b>
17.1 Test Strategies .....	337
17.2 <i>In Vitro</i> Test Types .....	338
17.3 Tissue Culture Tests.....	338
17.4 Blood Contact Tests.....	347
17.5 Final Comments .....	350
References .....	351
Bibliography .....	353

<b>Chapter 18 <i>In Vivo</i> Implant Models.....</b>	<b>355</b>
18.1 Introduction .....	355
18.2 Test Types.....	358
18.3 A Final Comment .....	370
References .....	370
Bibliography .....	373
Appendices .....	374

<b>Chapter 19 Clinical Testing of Implant Materials .....</b>	<b>383</b>
19.1 Goal of Clinical Trials .....	383
19.2 Design of Clinical Trials .....	384
19.3 Conclusions from Clinical Trials .....	392
19.4 Aspects of the Decision for General Clinical Use .....	394
19.5 Final Comments .....	398
References .....	400
Bibliography .....	401
<b>Chapter 20 Standardization and Regulation of Implant Materials .....</b>	<b>403</b>
20.1 Historical Perspective .....	403
20.2 Drug Standardization Activities.....	404
20.3 Biomaterials Standardization Activities.....	406
20.4 U.S. Federal Regulation of Medical Devices and Biomaterials .....	415
20.5 Regulation of Materials for Implants .....	419
20.6 The Biomaterials Supply "Crisis" .....	422
References .....	423
Bibliography .....	424
<b>Chapter 21 Design and Selection of Implant Materials.....</b>	<b>427</b>
21.1 Introduction .....	427
21.2 The Design Process.....	429
21.3 The Value of Prospective Design .....	438
References .....	439
Bibliography .....	440
<b>Chapter 22 Clinical Performance of Biomaterials.....</b>	<b>441</b>
22.1 Historical Aspects .....	441
22.2 Procedures for Device Retrieval and Analysis .....	443
22.3 Common Concerns about Device Retrieval and Analysis .....	447
22.4 Proposed National Implant Data Retrieval and Analysis Program (NIDRA) .....	450
22.5 Elements of a NIDRA System .....	451
22.6 Autopsy Retrieval Studies.....	455
22.7 Concluding Remarks.....	456
References .....	457
Bibliography .....	457
<b>Glossary .....</b>	<b>459</b>
G.1 Introduction .....	459
G.2 Glossary .....	460

G.3 Deprecated Terms.....	469
References .....	470
<b>Index .....</b>	<b>471</b>
